Jason Hanson ..... (402) 649-0500
Dustin Carter ..... (712) 898-9972

SALE BOOKS AND SALE DAY ORDER: All bulls are listed according to sire groups. Sale order will be available sale day.

CHANGE OF FORMAT: As in the past, Koupal Angus will be using a large screen TV for the sale instead of running the bulls through the ring. The bulls will still be on display outside as usual, but instead of bringing them in, you will be able to view the bulls on a large screen TV set up for you in the ring. We feel this will better serve our customers and save stress on the bulls.

BUYERS UNABLE TO ATTEND THE SALE: Koupal Angus will be using DV Auction via the internet. If you have DSL (fast speed internet), you will be able to log on and watch the sale and bid. You will need to register a couple of days before the sale. Just go to www.dvauction.com. We recommend watching a different sale ahead of time. We think this will be especially nice if you have been here to look at the bulls ahead of time and are unable to make the sale. Koupals will still have a telephone for bidding for your convenience.

TRANSPORTATION: Upon request, we will provide transportation from the Sioux Falls airport for anyone flying in. Private planes may land at the Wagner Municipal airport. We will pick up, just call.

ACCOMMODATIONS: The following motels are located in the Wagner area for your convenience. The Northview Motel, Avon, SD (605) 491-3739, the Ft Randall Inn, Pickstown, SD (605) 487-7801 or the Lakeside Motel, Wagner, SD (605) 384-5464. When making reservations, tell them you are with the Koupal Angus bull sale and receive a 10% discount. There is also the Fort Randall Casino & Hotel, Pickstown, SD at (800) 362-6333. You may call Alice at (605) 384-5315 or Bernie at (605) 384-3481, and they will be happy to help you with your reservations.

TERMS AND CONDITIONS: Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

HERD HEALTH AND REGISTRATIONS: All bulls will have been inspected by our licensed vets at Northwest Vet located at Parkston and Wagner. All vaccinations that are required are given to the bulls along with a hoof rot shot. All bulls have been bled for Brucellosis and are BVD free. They will be semen tested, guaranteed breeders and all health papers will be ordered for all bulls to be shipped anywhere in the United States. All registrations and transfers of the bulls will be taken care of by the Koupals.

DELIVERY: Free delivery on all bulls selling for $3,000 or more within a 300 mile radius, after 300 miles at cost. When delivering bulls, we may deliver to a central location spot such as vet clinics, sale barns or ranch that has agreed to be a drop off point. We ask in advance for your cooperation.

BOARDING: Save $50 per head by taking the bull home sale day. We will start delivering shortly after March 1st. If you choose not to have them delivered, you will need to pick them up by April 1st. Please tell the girls clerking if you are leaving them or want them delivered. All bulls left at the ranch do so at the buyer's risk. We suggest you buy mortality insurance if leaving the bull at Koupal Angus.

RETAINING INTEREST: KOUPAL ANGUS IS RETAINING A ONE-THIRD REVENUE SHARING SEMEN INTEREST IN EVERY BULL SELLING IN THIS SALE UNLESS STATED OTHERWISE FROM THE BLOCK. FULL POSSESSION AND FULL SALVAGE SELLS ON ALL BULLS UNLESS INDICATED FROM BLOCK SALE DAY.

VOLUME DISCOUNT: The purchase of 5 or more bulls by a single buyer will earn a 5% discount.

INSURANCE: An Insurance Representative will be on hand to answer any questions you have on mortality and breeding injury insurance. Mortality and breeding insurance will be available sale day and two representatives will be on hand to explain and handle your needs.

GUARANTEE: We guarantee all bulls to be sound and fertile, but reserve the right to test any animal that is returned to the farm as a non-breeder for 90 days before making an adjustment. All bulls selling for $3,000 or more will be covered at 50% minus $1,500 (salvage price at sale) if they have a breeding injury during their first breeding season. In the event of an adjustment, a replacement of equal value or credit on the purchase of another animal will be made. Breeding season is defined as the 90-day period following the first turnout of the bull. Please notify us as soon as possible if an injury does occur and prior to the injured bull being sold. All bulls need to be diagnosed by a veterinarian and claims made before September 1st. This is not an insurance policy nor does it cover neglect or mismanagement. Credit will not be issued on bulls that are purchased on credit.

LIABILITY: All buyers attending the sale do so at their own risk. Koupal Angus assumes no liability for accidents or property loss that may occur.

PERFORMANCE DATA: Current EPDs are available on each lot in addition to birth weight, 205-day weight and 365-day adjusted weight. Fertility test, scrotal measurements and ultrasound carcass data are all included in the sale book.

HOSPITALITY: Donuts and coffee in the morning. A complimentary lunch will be served at 11 a.m.

For inclement weather or postponement, listen to WNAX 570 AM radio.

AM AngusMedia.org

EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusSource®, CAB®, Pathfinder®.

KOUPAL ANGUS

LaVern and Alice Koupal

Bud & Bernie Koupal & family

Welcome to the 44th Annual Koupals Angus bull sale. To say that 2020 was a year you will never forget is an understatement. We were blessed with adequate moisture and a lot less mud than the previous 2 years. The cattle have done exceptionally well this fall.

Our program has not changed. We still believe you have to breed balanced, sensible cattle to stay profitable. We are not chasing extremes because we have found that extremes in one area usually downgrade in another. Our program is to breed balanced, predictable genetics that keep the cattlemen in business.

The cattle we are selling have generations of predictable genetics that can help make your herd more profitable. Not everyone needs the same bull, so we have many high end, maternal bulls along with top performance bulls to choose from. We appreciate your support and would love for you to stop out for a visit or give us a call.

We had our first annual Koupal influenced female sale in December. We were very pleased with the results and know there is a few things we can improve on for next year.

With that I once again want to thank you all for your support and may God bless you all.

Bud Koupal and family

Welcome to the Koupal Angus 44th Annual Production Sale.

There is nothing more admirable than commitment to family and work ethic. Koupal Angus has those two qualities in great abundance. The family is huge and hard working. The program and cow herd reflect that rare dedication and commitment. It is and has been to the benefit of the hundreds of Koupal customers as shown in their recent Koupal influence Commercial female sale. What a great day it was! Look for that service to grow and get bigger.

I have had the honor over the years of getting to know the Koupals and their program. I don't believe any program in the country has more passion for the business then the one in Dante, SD. When you go through the bulls or cows at Koupals you better be ready to work, talk and listen. They are tough and discerning on their own cattle, I love that.

The cattle in this offering are impressive. As the business evolves and pushes the limits of performance over and under the hide, the challenge will be are the traits still there that we need to get premiums but also have the function, fertility and longevity to produce 8 plus commercial calves in a life time. Those programs that can do both are fewer but more valuable. You are at one here.

My goal is to service great people and great cattle. Give advice on the marketplace and shine a light on genetics that need propagated and stand behind them. There are bulls and females here that need to get used across the country and they will. Please feel free to contact me about the offering. I look forward to seeing you at the sale.

God Bless, Chris Earl

Blackout Bulls

Jindra Blackout

Jindra Judy J 1314 3150 - Dam of Jindra Blackout.

- Good cow maker.

Combined $Value ($C)

This relatively new index provided by the American Angus Association attempts to characterize cattle by combining maternal ($M) and terminal traits ($B) into one index. $C is heavily weighted towards the "terminal" traits found in $B, and $C has a .95 correlation to $B.

As a review of $B, it is a terminal index, comprising of the traits YW, DMI (Dry Matter Intake), Marbling, CW (Carcass Weight), RE (Ribeye), and Fat. $B is designed for herds that send all of their calves (male and female) to the feedyard, retain ownership, and hang them on a quality-based carcass-merit grid.

If you ever have questions about the information provided, please call Bud at 605-491-2102. Our success depends upon your success, and we are committed to helping you select the best genetics to fit your needs.

- Another soggy calf that has lower BW and good performance. Dam's production 5/93, 5/103, 3/101, granddam 7/98, 7/103, 7/97. No fall creep.

THE FIVE L'S OF A PROFITABLE COW HERD

Live Calves. Having a live calf on the ground is the number one starting point for any profit for the cattleman. We have all seen cows that are too big or too small, but we have never seen a cow that is too fertile. Fertility is not negotiable. It is one trait you can't get too much of. Cows that don't breed back can't produce a calf.

Low Maintenance should also be high on the list. An animal that is easy fleshing, moderate framed, and thrifty will keep more money in your bank account. Most cattlemen will agree that the cost of feed dips into the profit more than anything else.

Lovely Udders with small and well-spaced teats, adequate milk and strong support are necessary for a trouble-free experience for a newborn calf. A newborn's first drink of colostrum is the most important drink that calf will have. An udder that is full of mud from hanging too low or has balloon teats will discourage them from nursing. Choosing the right herd sire for replacements females is very important.

Longevity is a must. Mother cows must continue doing everything right year after year. A cattleman cannot afford to turn his mother cows over every 3 or 4 years. That old cow that has raised a calf for 10 years even though it isn't the heaviest weaning is more profitable than the cow that raises a heavier calf but doesn't breed back on time or comes up empty and has to be replaced every two years. His factory is not efficient.

Limit Inconsistency. By stacking generations of the same kind of balanced and predictable genetics, you have a pretty good idea what that cow will produce. The present EPD system which is a valuable tool when used with other information doesn't have the ability to create cattle that are uniform and consistent phenotypically. Cattle with the same EPDs can look very diverse in conformation, type and structure.

Angus bulls have long been known for their paramount calving ease. If you are breeding heifers, Angus is the go-to breed of choice. But what about the so-called “big” birth weight Angus bulls - where do they fit in? The vast majority of mature cows calve unassisted - it is pretty rare for a mature cow to need assistance, except for abnormal deliveries (backwards, breech, twins, etc.). Data reported to the AAA shows that 99% of Angus cows, second calf or beyond, calve unassisted and only 1% need some type of assistance (abnormal deliveries excluded from this data). Back to the question at hand: where do the “big” birth weight Angus bulls fit in? Example: If you have a bull with a Birth EPD of +5, he would be 3.2 pounds heavier than the average (breed average BW EPD 1.8) (5 - 1.8 = 3.2 pounds difference.) However, his superior growth EPDs mean he will wean bigger calves and put way more money in your pocket than the average Angus bull! The moral of the story: If you are breeding mature cows to an Angus bull, don’t make birth weight be your focus.

- Maternal brother to Koupal Advance 28 and Koupal Junction 037, both known for their shorter gestations. His sire Cedar Wind 8111 is a cow maker and along with our foundation cow Ebonette 734. The 6000 females are beautiful uddered and come home with the good ones. Matured to a moderate to larger framed bull. Very docile. Dam's production 5/87, 5/105, 5/103, along with 24 ET calves. Leased to Genex.

Koupal Ebonette 734 - Dam of Koupal Cedar Wind 6000.

Koupal Ebonette 7040 - Full sister of Koupal Cedar Wind 6000.

Bob Soukup of Wagner was one of the very first people to buy a bull at the sale in 1978 at Avon, SD. After a few years he turned the buying over to his sons, Dick and Ronnie, and now his grandson Jared and wife buy bulls. After his time on the bleacher he continued to help out the Koupal family by parking cars and horse trailers. Of course, not to be left out is his wife Marie who helped feed hungry buyers in the sale barn for many years. The Koupal family want to take this opportunity to thank Bob, Marie and family for your continued support of our program. God bless you all.

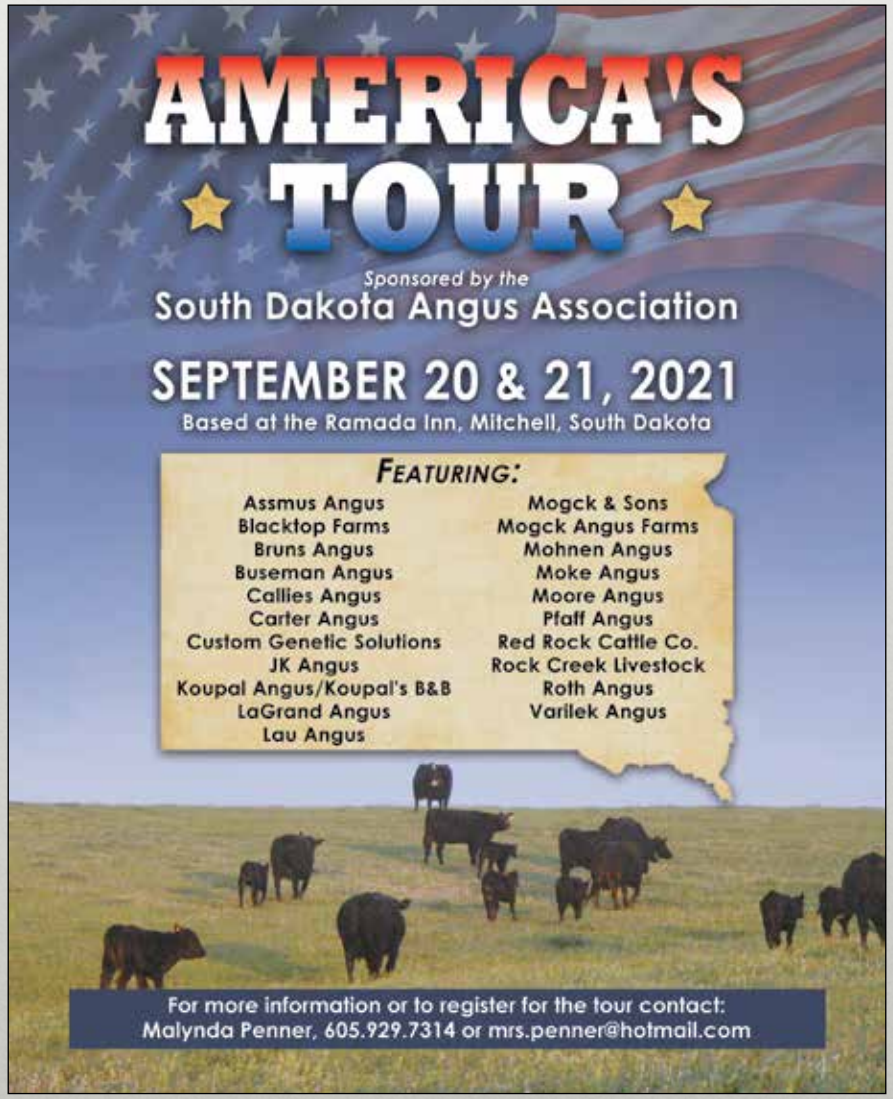
2020 was an unreal year in so many ways, but the hardest was losing the matriarch of our family, Louise Sejnoha, aunt to Alice Louise, who died at the age of 109 years and 10 months. She was born December 9, 1910. She lived through 5 wars, 28 presidents, the Spanish Flu, the Great Depression and the Moon landing, Her mother died when Louise was 17, leaving her to raise 5 younger siblings, the youngest being 7 years old. She had a sense of humor unsurpassed and always had something funny to say. Seated with her is her daughter Maxine and husband Ken taken at her 109th birthday. She was a hoot and will be missed by many.

Koupal Angus Heifer Sale

Koupal Angus held the first annual heifer sale on Dec 18, 2020. We had several customers consign their heifers for the sale. It was a huge success and we plan on hosting it again next year. To be eligible the females need to be bred to/or sired by Koupal Angus bulls. This sale was held at the Stockmen's Livestock Auction barn in Yankton, SD and they treated us well. By having this sale, we feel we can add extra value to our customers' females. An Angus female is always in high demand and by combining our Koupal Angus gene pool, we will be offering great genetics to share and build some efficient cow herds for other breeders.

Koupal Angus has some excellent bulls that will work on heifers. Get in touch with any one of us Koupals and we'd be glad to point you in the right direction when it comes to choosing your genetics.

We ask that tough culling protocol be done prior to this sale as we will be doing this sale annually and only want to offer high quality cattle to our customers. Prior steps at the ranch MUST be done to add value to your breeding stock. The heifers must all be sorted for quality and disposition and not picked through prior to the sale. We ask that all heifers be on a complete mineral program. We also ask that the heifers be ultra-sounded into short calving dates. Other steps that make your heifers more valuable would also include Cake breaking as well as knowing the history of genetics behind the heifers as well. We looking forward to helping you in anyway we can to market your females. If you have questions don't hesitate to ask one of us here at Koupals.



Koupal Angus was Selected as 2020 SD Breeder of the Year

LaVern and Alice have been in the registered Angus business since 1974 when they became members of the American Angus Association. 1978 was the year they hit the sale block selling their first 6 bulls. Over the years we have purchased and sold many bulls, can't always remember if they were that good or not, but you never forget the people you purchased them from or sold them to and the friends you made along the way. We have always said that this business is not about selling cattle, everyone has good cattle, it is about the people you meet along the way and how they influence your life. We have been fortunate to have made some lifetime friends through cattle and selling cattle is a sideline. It's been great and we thank the Angus cattle for the ride.

Thank You!
