

# **BROOKS**

## **Chalky Butte Angus Ranch**

**2024 Production Sale**  
**Saturday, April 6 • 1:00 P.M. MST**  
**Bowman Livestock Marketing • Bowman, ND**

## General Information

### Directions

Bowman Livestock Marketing is located one mile south of Bowman, ND on Highway 85.

### Herd Health

All Bulls have been vaccinated for IBR, P13, BVD, Pasturella and Haemophilus Somnus. All cattle have been poured with a clean up product. All Bulls have been semen tested and screened for abnormalities by Don Kruger, DVM, of the Bowman Veterinary Clinic. The adjusted scrotal measurements were taken the end of February. All the Commercial Heifers were vaccinated with PREG GUARD 10 this spring or VISTA 5 VL5.

### Developmental Duplication

A genetic condition has been identified and documented in Angus cattle. This condition inherited as a simple recessive, has been designated as Development Duplication (DD). All bulls in this sale that had the potential to carry this gene have been tested. Any carriers of the gene will be noted in the footnotes as DDC.

### Terms & Conditions

All Registered Cattle sell under the terms and conditions of the American Angus Association.

### Free Delivery

All Bulls will be delivered FREE in North Dakota, Montana, South Dakota and Wyoming and to Canadian Ports of Entry. We will assist in finding delivery arrangements at cost for Registered Cattle going farther and commercial heifers as low as possible.

### Trucking Discount

\$50 per head rebate on any Bulls picked up by the new owners at Bowman Livestock Marketing.

### Ultrasound

All Bulls will be ultrasounded for carcass traits by Jason McLennon, Belle Fourche, SD. Updated Carcass EPDs will be included in this catalog.

### Lunch

You are invited for a complimentary lunch starting at 11:00 a.m. We will have a Cowboy Party and Steaks after the sale at Sweetwater Creek Golf Course, one mile South, one mile East of Sales Ring.

### Motel Accommodations

North Winds Lodge - 701-523-5641 • Super 8 Motel - 701-523-5613 • Four U Budget Host Motel - 701-523-3243  
El-Vu Motel - 701-523-5224 • Bowman Inn & Suites - 701-458-2000 • Bowman Lodge & Convention Center - 701-523-7750

### Sale Order

Commercial heifers sell first at 1:00 p.m. Sharp. Buyers will have the option to take five head or more gate cut. The heifers will be on a ring scale, and we will show the weight on each draft. The bulls sell in catalog order, after the heifers. The horses sell last.

# Welcome

## Welcome to our 2024 Bull & Heifer Sale,

We are proud to offer you this set of balanced trait Bulls this year. The nation's cattle herd is getting smaller and the market is getting higher. These prices should stay high for a few more years, so if Mother Nature cooperates it is very important to get your inventory numbers and genetics in order.

This set of bulls weaned off lighter than usual, but we did raise a record crop of grasshoppers and flies this year. The bulls are hard and look good. They have been 50K tested, gain tested and carcass ultrasounded. They have all passed a semen test and are ready to go to work. They had no creep feed, were fed to gain 3.25 lbs/day and should have a lot of longevity. We have culled their mothers for feet, udder and disposition. These Bulls have also been culled for performance; disposition and all have sound feet. We are excited for you to evaluate them.

Again, we will offer a top quality set of commercial heifers from some of our bull customers. We will video them the day before the sale and they will be up on DV Auction that night. We will show their weight on the ring scale as we sell them. All of them are Bangs Vaccinated, have spring breeding vaccinations and will be ready to be bred.

All the cattle will be on DV Auction. The bull videos will be up two weeks before the sale and the heifers will be up the night before the sale.

Lunch at 11:00 a.m.

Join us for a steak at Sweetwater Golf Course after the sale for some cow talk!

## Guarantee

All bulls selling for \$3000 or more will be covered 50% by Brooks Chalky Butte Ranch if they have an untreatable injury during their first breeding season. Breeding season is defined as the 90 day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Brooks Chalky Butte Ranch and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2024.

Example 1: A \$5,000 bull is injured; a credit of \$2,500 minus one-half any salvage value will be given to the buyer.

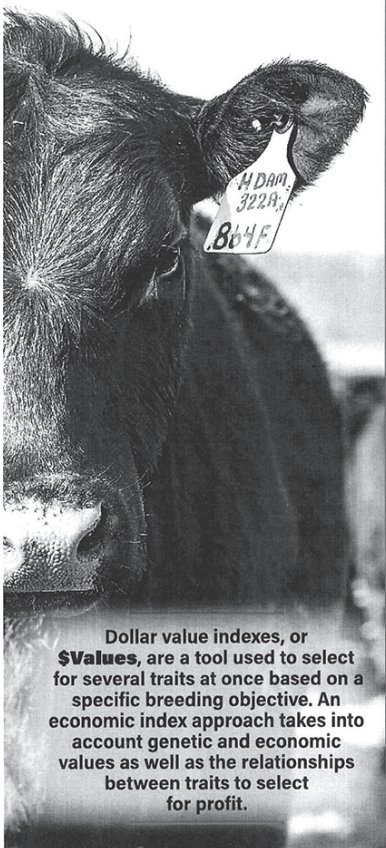

Example 2: A \$3,000 bull is injured; a credit of \$1,500 minus one-half of any salvage value will be given to the buyer.

If a \$2,000 bull is injured; no credit is given. Buyer retains all salvage value.

## \$Value Indexes - What are they? How do I use them?

Dollar value indexes, or \$Values, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

### American Angus Association \$Value Indexes

**Maternal Weaned Calf Value (\$M)**, an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

**Weaned Calf Value (\$W)**, an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Over time, increased selection pressure on \$W will increase weaning and maternal milk traits while also continuing to increase mature cow size.

**Feedlot Value (\$F)**, an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

**Grid Value (\$G)**, an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

**Beef Value (\$B)**, an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny post-weaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

**Combined Value (\$C)**, an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

# AGI GE-EPD

## Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they have recorded an average of 15 progeny, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

TRAIT	PROGENY EQUIVALENT	TRAIT	PROGENY EQUIVALENT
Calving Ease Direct	25	Pulmonary Arterial Pressure	17
Calving Ease Maternal	19	Hair Shed Score	8
Birth Weight	23	Heifer Pregnancy	17
Weaning Weight	27	Maternal Milk	35
Yearling Weight	22	Mature Weight	14
Yearling Height	15	Mature Height	9
Dry Matter Intake	11	Carcass Weight	14
Scrotal Circumference	13	Marbling Score	10
Docility	11	Ribeye Area	16
Foot Claw Set	13	Backfat Thickness	13
Foot Angle	13		

### How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen or the HD50k by partner Zoetis. These images indicate animals for which genomic testing has been conducted and incorporated by AGI into GE-EPDs

# Top Dollar Angus

## PREMIUM CALF VALUE

*Easy as 1-2-3*

### Want MORE for your steers?

THAT'S EASY ...

1. Purchase Top Dollar Angus-qualified bulls.
2. Raise Top Dollar Angus-qualified feeder calves.
3. Pocket MORE per head!

#### THE RESULTS:

Better performance and a documented \$84.26-per-head advantage as fed cattle!  
The PROOF is in your bank account.

Steers & Heifers	Top Dollar Angus Qualified	Non-Qualified	Difference
Head Count	1,801	4,448	
Percentage of Head Count	29%	71%	
Average Daily Gain	4.28	3.99	0.29

Hollywood is a gentle gelding that stands 14.3. Has bone and a good foot. We have done all aspects of ranch work on him. Gentle enough anyone can ride him. He is easy to catch and stands for farrier work. Turn him out for several months and rides off as if it was the other day. For more information contact Bronc Pippert- 406-480-2298.

Rumble is a registered 8-year-old sorrel gelding that is the true been-there, done-that type of horse. He's been used for many jobs; everything from moving cattle on a mountain lease in the Ruby Valley of Montana to sorting cattle on a 60,000 head feedyard. Rumble has been used to brand thousands of calves and worked the ring during the big sales at Bowman Livestock Marketing. He's started in the heading and has been my go-to ranch horse for the last couple of years.

Rumble is one that will be part of your family, he is gentle for kids to be around and give rides on. You won't be disappointed with this true all-around ranch horse. For more info call Austin Visser 701-659-0172.

**Cassi & Levi Magilke - 701-422-2074 or Steve Brooks - 701-523-6732**

**164 HOWARD**

Howard is a 15-year-old gelding that has been at the ranch since he was 2 years old. He loves people and you can catch him in the pasture without any treats. He is nice to be around, easy to trim and usually has his nose in your pocket. We have drug a lot of calves to the fire with him and he works well when in shape, but does not have a lot for withers so isn't as good when he is fat. He can be real cowy when legged up and kind of slow when he has been turned out a long time. The kids can hang off his legs and he does not get excited about much. For more information contact Cassi and Levi Magilke- 701-422-2074 or Steve Brooks 701-523-6732.
