*****SATISFACTION GUARANTEED ON ALL PHONE ORDERS***

Dear Cattlemen,

The weather has been very enjoyable for getting our fall and early winter work done and doesn't seem like it's time to start getting things in order for our annual bull sale held in Bowman N. D. on January 19, 2018.

We continue to have Jack Seiben as our feed nutritionist and have changed the way the bulls have been fed in preparation for the sale. The Bulls have responded well to the feed program that Jack has recommend, the bulls are carrying more condition than in the past. The feed ration has allowed our genetics to show through with the bulls showing their easy fleshing abilities depth and natural thickness of our breeding program.

The yearling bulls are fed the same as in the past, the ration is still based on a 2.5 lb. daily gain. We feel this allows the bulls to developed at a pace that allows for longevity and soundness as they are used in their future breeding. They have responded very well to this ration and we can see positive differences in their appearance as well. These bulls will be summered on grass just as in the past.

Both yearling and Two year old bulls are fed to be productive and sound for many years of reliable heavy service. The bulls are not over fed and will continue to grow on their ration until delivery in April or May.

Our breeding program focuses on maternal and growth traits, while keeping positive carcass performance. We select bulls in the top of the Angus breed and use an extensive AI program, to strengthen these traits in our cow herd. These bulls will be able to move freely and cover large country without losing body condition.

We are in the process of moving our calving dates forward for the spring of 2018. We moved some cows up 30 days, but not all the cows responded that well so we are going to experience a little longer calving period well we move our cows forward to eventually start calving on the first of March. We had our calving barn destroyed in a summer storm and we rebuilt it to accommodate more cattle and cold weather calving. We are just getting to busy trying to do springs work and felt we could calve earlier and help spread the work load out.

The bulls are completely guaranteed for a 90 day breeding period. The bulls will be fed till delivery free of charge. They will be fertility tested and receive breeding shots prior to being delivered.

The bulls are always on display and everyone is welcome to come and view them prior to the sale. We will be moving the bulls to Bowman on January 17th, at which time they can be viewed at the sale barn.

We look forward to seeing you on Friday, January 19th. We will have lunch prior to the sale and refreshments after the sale. If you have any questions feel free to contact us. As in the past you have our complete satisfaction on all phone orders.

Sincerely,

Gregg Urlacher
