45TH ANNUAL BULL PRODUCTION SALE

WEDNESDAY, APRIL 10, 2019

45 YEARLING BULLS
35 FALL BULLS

LUNCH 12:00 NOON

SALE 1:00 PM

Located 1 mile South of Wyola
on Hwy 451 or 35 miles North of Sheridan, WY

Dear Friends, Fellow Cattlemen and Cattlewomen,

Welcome to our 45th Annual Bull Production Sale! We would like to thank you once again for your commitment to our operation and trust in our genetics. We wouldn't be here without you! Some of you have been loyal patrons for many, many years and some of you are just starting with us.

You, as a buyer, have many breeders to choose from so if you are reading this, we have at least caught your eye. We are grateful for the opportunity to have you consider Pass Creek Angus Ranch as your seed stock producer.

We continue to strive for good carcass ability in our herd. Improving carcass quality means higher selling prices and more money in your pocket. The greatest and most practical opportunities to improve carcass traits are through genetics and that is where we come in with sires to help you make that profit. Along with this, you need an easy keeping female. Our cows have been out on grass until February 1st so you know that they have not been pampered in any way and still maintain a healthy body condition.

The bulls are ready for your viewing so if you would like to stop by to preview them, please do. We are always available to answer any questions and proudly give you a tour of this year's offering.

Thank you for your interest and hope to see at the sale!

The Rathkamp Family

Lodging

Lodging is available in Hardin, Montana, Ranchester and Sheridan, Wyoming. Call us if you need additional information.

Terms and Conditions

Cattle will sell under the Standard Terms and Conditions as recommended by the American Angus Association. Terms of sale are cash.

Supplemental Information

Announcements from the auction block takes precedence over catalog information.

Liability

All persons who attend the sale do so at their own risk. Pass Creek Angus Ranch assumes no liability, legal or otherwise, for any accidents which may occur.

Breeding Soundness

All bulls passed a breeding soundness examination and semen evaluation. Dr. Matt Cherni, DVM is in charge of our herd health. Dr. Cherni will be here sale day to answer any questions, or you are welcome to contact him at **307-655-9395**.

Guarantee

All bulls selling for $3,000 or more will be covered against breeding injury for 50% of value by Pass Creek Angus if they are injured during the first breeding season. Breeding season is defined as a 90 day period following the first turn out of the bull. In case of a loss:

1. Notify Pass Creek Angus as soon as possible.
2. Verify the injury with a veterinarian; we may seek a second opinion.
3. Credit minus salvage value will be issued or a replacement bull can be supplied, if available.
4. A copy of the salvage value will be required.
5. Credit is good at any Pass Creek Angus sale and does not expire.
6. This guarantee does not cover death.
7. All claims must be made before September 1, 2019.

Discount

A $40 rebate per bull will be given if buyer picks up bull on sale day only. Arrangements available to feed bulls until pickup can be made.

Delivery

Free delivery of bulls up to 350 miles, balance at cost.

Absentee Bidding

If for any reason you are unable to attend the sale, you may contact us with your requirements in a bull and we will send you a list of bulls that fit your needs and then contact one of our Sale Representatives with your bid(s) and they will do their best to get them bought for you. You may also pre-register for a buyer number by calling us and then bid from the comfort of your home by phone with one of our Sale Representatives. We have a "Sight Unseen" Guarantee on all bulls purchased in this manner. If you don't like 'em, you don't own 'em.

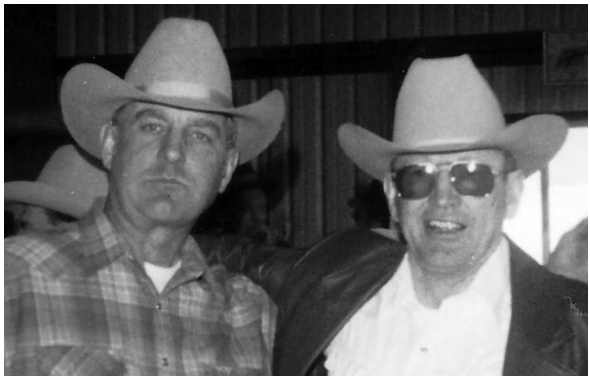
All bulls are semen tested and ultra sounded.

Whole herd tested PI BVD free!!

The bulls are at the ranch so please feel free to stop by anytime and preview. If you have any questions or just want to "shoot the bull", call us here at the ranch.

For Sale - Private Treaty
25 Yearling Heifers

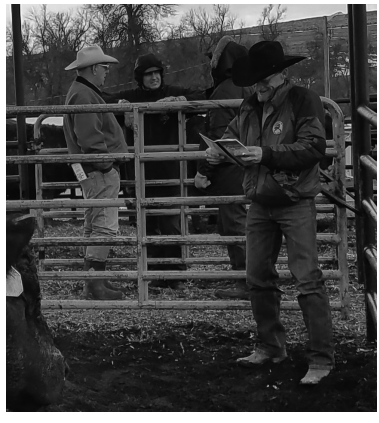
The Allemands



This year, we are highlighting a family that has been a part of Pass Creek Angus Ranch heritage for many years.

It all started when Buck Allemand, a rancher from the Midwest, Wyoming area, contacted Arvin Arthun, a representative for Farmer's Stockman newspaper, where he could buy the best Black Angus bulls. Arvin, with no hesitation, said, "The Rathkamp family of Pass Creek Angus Ranch". Buck and his cousin, Raymond, made the trip to see the bulls at the ranch, bought 20 head, paid for them and wanted them delivered in April and off they went! The Allemand boys continued to purchase PCAR bulls every year. Raymond's daughter, Perri Wheeler, said "I believe some of our family has been to every sale Pass Creek has had." Perri and her husband, Shannon, have continued with the Pass Creek Angus genetics. Perri said, "We use PCAR bulls for their durability in our rough country and the bulls are easy to handle." She explained that the PCAR genetics "have added higher weaning weights to their calves and made for a more uniform cow herd, as we retain heifers for replacements. The Rathkamp family raise great bulls, are great people and have been lifelong friends of ours."

To the entire Allemand Family, thank you for your friendship and trust in our genetic program. We are honored.



Bull Report EPD Data

Expected Progeny Difference (EPD) is the prediction of how progeny of each animal are expected to perform relative to the progeny of other animals in the Angus breed. As data continues to accumulate, accuracy levels rise and EPDs can shift accordingly.

Calving Ease Direct (CED) is expressed as a difference in percentage of unassisted births, with a *higher value indicating greater calving ease* in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW) expressed in pounds, is a predictor of transmitting ability for birth weight. The Angus breed is noted for calving-ease. A bull with a Birth Weight EPD under +2.6 is generally regarded as suitable for mating with virgin heifers.

Weaning Weight EPD (WW) expressed in pounds, is a predictor of the transmitting ability for weaning weight. An emphasized trait when marketing calves at weaning. For example, you can expect progeny from a sire with a +60 weaning EPD to weigh 30 lbs. more at weaning on the average than progeny from a sire with a weaning EPD of +30.

Yearling Weight EPD (YW) expressed in pounds, is a predictor of transmitting ability for yearling weight. An emphasized trait for yearling feedlot performance and profitability.

Maternal Milk EPD (Milk) is a predictor of transmitting ability of the portion of calf weaning weight attributed to daughters' milk. An indicator of replacement female production level.

Weaned Calf Value ($W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. $W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value ($F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post weaning merit compared to progeny of other sires. $F includes weaning weight (WW) and yearling weight (YW) EPD along with feed intake data, genomic information and trait interrelationships. Typical feedlot gain value and cost differences are accounted for in the final calculations, along with a standard set of industry values for days on feed, ration costs and cash cattle price.

Weight per Day of Age (WDA), this value uses the actual weight divided by the days of age.
