Looking for a bull to put pounds on your older cows, you can't go wrong with this guy. PAP 39. WW 700.

NORTHWEST WYOMING ANGUS ASSOCIATION 2021 BULL SALE

OBSIDIAN ANGUS

Fred, Kay, and Darryl Thomas
PO Box 346
Meeteetse, Wyoming 82433
307.868.2595 • 307.272.4911
www.greatbearreflection.com

We've been developing our herd the last 20 years to match our last commercial cows we had in 1996. The last two years of their existence the weaned total calf crops at 700#. Doing this with them only weighing 1200# on the average. That makes an average of the herds momma cows wean off an impressive 58% of their bodies, while doing it on native grasses! Pure weights, no adjustment for cow age or birth dates.

Cows and calves are weighed end of October, PAP test is taken at over 6100 feet in elevation which is the lowest they are in their lives. All bulls on the ranch have tested less than 40 except for 681 he scored a 42. Raised on Mountain Pasture along side our Commercial Neighbors!

Interesting from birth! The ideal LBW prototype, light bone, nice small head with a body packing no extra. He could be the best we ever raised, but definitely the Best LBW. Plenty of body and bone, plus tremendous length! Herd bull written all over him. We will be retaining a Semen Interest in this Bull. PAP Score 38. NR 109. Efficiency 76%.
