Welcome To Our Spring Bull Sale!

While 2020 was a bit unusual, 2021 is looking up and we are excited about our yearling bull offering. All bulls have been fertility and bvd tested and are ready to go to work.

Within this group we have several bulls that excel in the angus breed by ranking in the top 1% in several categories of economically important traits. For example, Lot 7, SO Solution 872 031 ranks in the top 1% in CED and BW epd. Lot 6, SO Ashland 502 016 ranks very high in WW (1%), YW (2%), \$W (3%) while at the same time maintaining a desirable calving ease and actual BW of 68 pounds. Many of the bulls are “curve benders” that combine low birthweight with exceptional growth along with moderate milk. The bulls are thick topped, deep sided, structurally correct and are built to run on high Wyoming ranges.

SO Cattle, Inc. will retain 1/3 semen interest on all bulls sold, unless otherwise specified.

We thank all of you for your friendship and support of our program over the years. We look forward to seeing you all on sale day!

Thank you,

SO Cattle Inc Crew
