For more information and updates visit  
**FLATWATERREDANGUSGANG.COM**

We believe in the power of long-lasting, maternally-focused, easy-fleshing bulls  
that will put the COW back in your cowherd.

# Welcome to the Sale!

Welcome to the Flat Water Red Angus Gang's 12th Annual Sale. It is with great pride that we bring this set of bulls to you, our loyal and steadfast partners in American beef production. Once again we will be hosting our sale in Broken Bow, at the heart of the Beef State. Central Nebraska is blessed to be one of the most diverse and vast livestock habitats in the world and we are pleased to call Broken Bow the home of the Flat Water Red Angus sale and are excited to be your hosts for this humble offering.

A calf crop in any given year is truly an assembly of hope, conscientious philosophies, and resolute effort that is morphed together and thrust into an environment that is out of a person's control. For all that we think we mastermind, the world is always full of harsh reminders of what we actually do. This past year in production agriculture has been rampant with evidence of man's lack of control across a broad region. Yet, as those involved in agriculture always do, we stand determined and looking forward to another year guided by optimism, determination and resilience.

One choice a rancher is always in governance of is the genetic base that one builds their program around. The genetic offering before you today is a compilation of years of exertion and coordination steeped in rigorously layered philosophies with an end goal in mind. **The goal is simply to provide profit opportunities for our customers across numerous segments of beef production.** The Red Angus cow allows for inherent advantages as compared to contemporary breeds and we simply focus on that capability and try to enhance it little by little without deviating from the foundational strengths.

The bulls have been developed for sustainability and soundness. We entrust the development of our bulls to the care and expertise of Mr. Mitch Ziebell, at the Darr Bull Development Center, near Cozad, NE. The team at Darr has been the stewards to some of the most renowned bulls in the breed for over 30 years. If you are near Darr, prior to the sale, the bulls will be housed there until March 15th. Visitors are more than welcome to stop in and walk through the bulls on display.

As always, we are truly thankful and appreciative of the people that we serve and the relationships that we are blessed with. Feel free to contact any of us with questions that you may have. We want to make sure you find the perfect bull for your outfit. Thank you for your interest and we genuinely hope to see you on sale day in the heart of the Beef State, Broken Bow, NE.

*Fellow Red Angus Enthusiasts,*

Welcome to the 2021 Edition of The Flatwater Gang Bull Sale. It's a great time to be in the animal agriculture industry as the business is buzzing with enthusiasm and optimism throughout the land. The turn of each year brings about the prospects of change and program improvement as calving gets more intense across much of the nation with new and proven sire groups emerging and cross comparing to plot the course of the next breeding season that's just around the corner. With this particular group, the commitment to improve each and every year with mounting focus placed on the bio-economical traits that make your bottom line bolder and better after marketing your calf crop, is aggressively in place. The evidence of that previously stated is before you as you browse and turn the pages of this sale book.

These bulls are backed by substantial females that have been selected for multiple generations on the fundamental basic principles of hoof quality, skeletal integrity, fertility, pounds of calf weaned, and overall balance and phenotype. The sires of these bulls are selected after much evaluation and pressure application to traits of industry importance that affect the outcome of the end product phase for each and every operation. A problem free calving experience, growth achievement to weaning time, and ultimate carcass improvement are all factored in this offering. The people backing the bulls are very disciplined and customer service focused as they have a devout understanding of the seriousness of your bull selection and the impact this purchase will have on your program over the next 10 years, literally.

We invite you to Broken Bow the 15th of March for the annual Flatwater Gang offering. We are sure that your expectations will be met by the cattle in this offering. However, if you need any assistance or information prior to the sale please feel free to reach out to any of the sale staff to assist with your prospective purchases.

A series of five handwritten signatures in black ink, arranged horizontally. The signatures are stylized and appear to be of the same person or a group of people.

*Innovation Ag Marketing, LLC*

# 85+ Red Angus Bulls

## Sale Day Contacts:

## Sale Management:

Graham Blagg: (530) 913-6418  
Jered Shipman: (806) 983-7226  
Tim Anderson: (605) 682-9343  
Innovationagmarketing.com

## Ring Staff:

Randy Rasby - Livestock Plus: (308) 539-6195  
Chris Beutler - Midwest Marketer: (402) 380-8244  
Andrew Feller - Tri State Livestock News: (402) 841-4215

## Consultants:

Greg Arendt: (402) 376-4701  
Katie Martin - RAAA Commercial Marketing Coordinator  
(307) 575-6802

## Accommodations in Broken Bow:

Cobblestone Hotel & Suites: (308) 767-2060  
The Arrow Hotel: (308) 872-6662

## Cattle Viewing:

The cattle will be on display at the Custer Co. Fairgrounds. We will then host the sale at the One Box Convention Center.

## Delivery and Load-out:

We are offering free delivery to all points in Nebraska. Delivery to other states will be at the lowest cost possible from the seller's base operation. Bulls not delivered by April 15 will incur a \$5 per day feeding cost thereafter. A \$100 credit will be offered for bulls taken home on sale day by the new owner.

## In Herd Semen Use:

Seller(s) reserves the right to in herd semen use on all bulls in the offering. Collection will be negotiated with the new owner. All costs associated with the collection of in herd use semen to be covered by the seller.

## GGP 50K

Over 10 years of genomics research is distilled in the new GGP 50K. Detects gene markers that have the greatest influence on economically important traits and the most impact on key traits that cattle inherit from their parents. All bulls with the GGP logo on their pedigree box have had DNA submitted and are on file at the Red Angus Association of America.

## Bull Guarantee:

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the Red Angus Association of America, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

## Terms and Conditions:

The Auctioneer will settle any bidding disputes and his decision on such matters will be final. All sales are cash in U.S. funds unless prior arrangements have been made with the sellers. Any announcements made on sale day take precedence over printed material. Health certificates will be furnished for shipment anywhere in the United States. Any death or injury after the animal is sold is at the buyers' risk. Anyone attending this sale attends at his/her own risk. A retained interest by the seller will be designated as such in the sale. The buyer receives full possession and full salvage value on all bulls with a retained ownership interest. All registered cattle sell under the suggested Sale Terms and Conditions set forth by the Red Angus Association of America.

## Online Bidding

We are pleased to bring you real-time internet bidding and a live broadcast of this sale through DVAuction.com. If you are unable to attend for any reason, you may bid online at [dvauction.com](http://dvauction.com). Please register for bidder number at [www.dvauction.com](http://www.dvauction.com) anytime prior to 12 Noon on Friday, March 12 to accommodate the approval process. After this date/time, bidder approval may be delayed. Approved bidders will be issued bidder number and access prior to the sale. For questions or sale bookings call the Office M-F 8am-6pm CT: (402) 316-5460.

## The Cornerstone Cow

The Cornerstone cow program is a tool for producers to utilize when selecting seed stock for their operation. The word Cornerstone is an architectural term meaning the first stone set in construction. The stone in which all the building depends. For our purpose, the Cornerstone Cow is a measure of the following:

$$\text{Fertility} + \text{Production} + \text{Longevity} = \text{Profitability}$$

This scoring model ranks the components of fertility, production to weaning, and longevity, within a herd and age group of females. The categories being scored are based upon the actual data submitted to the American Red Angus Association as a part of total herd reporting.

By scoring our cow herd we are attempting to provide you with an easy-to-understand value for each female in our herd. The Table below summarizes the scores for each age group of cows in production:

Age of Female	Best Possible Score	Top 25%	Top 50%
9 + years old	35	26.25	17.5
8 years old	33	24.75	16.5
7 years old	31	23.25	15.5
6 years old	29	21.75	14.5
5 years old	27	20.25	13.5
4 years old	25	18.75	12.5
3 years old	23	17.25	11.5
2 years old	21	15.75	10.5

The definitions on the next page explain the criteria that is used in the scoring model.

## MPPA

7	108 or higher
6	105-107.9
5	103-104.9
4	100-102.9
3	97-99.9
2	94-96.9
1	93.9 or Less

**MOST PROBABLE PRODUCING ABILITY (MPPA)** – An estimate of a cow's future productivity for a trait (such as progeny weaning ratio) based on her past productivity. For example, a cow's MPPA for weaning ratio is calculated from the cow's average progeny weaning ratio, the number of her progeny with weaning record, and the repeatability of weaning weight.

## CALVING INTERVAL

6	368 or less*
5	369-375
4	376-397**
3	398-417
2	418-439
1	440 or more

**CALVING INTERVAL** – The amount of time (days or months) between the birth of a calf and the birth of a subsequent calf, both from the same cow. \*Calving interval of 368 or less is assigned to Donor females that are 6 years old and older. \*\*Calving Interval of 376 to 397 is assigned to Donor Females that are 5 years old and younger.

## RATIO CHANGE

6	+15 or more
5	+7 thru +14
4	0 thru +6
3	-1 thru -7
2	-8 thru -14
1	-15 or less

**RATIO CHANGE** – The difference between the birth weight ratio within a known population to the weaning weight ratio within the same population of individuals. Ratio change for this measure is the difference between the cows actual average birth ratio of all her calves and the weaning ratio of all her calves.

## AGE

8	9 plus
7	8
6	7
5	6
4	5
3	4
2	3
1	2

**AGE OF COWS** – Cows can live for over 20 years, but on commercial farms the age at slaughter varies considerably. Farms with poor management, high-yielding cattle or high disease rates will slaughter their animals at a much younger age, normally after four lactations (around 5-6 years old), but sometimes after 2 or 3. Cows should be able to consistently breed and rebreed through about 8 years of age and performance should be maintained until around 12 years of age, that is when you might see a steeper decline in reproductive performance.

## # OF NATURAL CALVES

8	8 plus
7	7
6	6
5	5
4	4
3	3
2	2
1	1

**NATURAL CALVES** – These are the calves that are conceived either by artificial insemination or natural service. These calves are carried by the dam and raised by the dam within the population of the operation. The number of natural calves is an indicator of the cow's ability to raise a calf and rebreed within their environment over a longer period.

An outlier in every facet of superior beef production. Seldom do individuals come along like Ridge Zeppelin 0531 that have the ability to supply each of the fundamentals required to be elite. His high performance is not just evident in his genomic predictions, but in his real-world data and measurements. With ratios of a 108 DMPPA, 107 for IMF and 119 for REA you can see why he is labelled as an outlier. He comes by his high quality, honestly with 5L Fuschia 643-3668 in the first generation of his maternal pedigree, she has generated several herd sires for operations around the United States. Her mating to Red Windy Hill Zeppelin 1240 just proves again that she consistently stamps her sons with herd sire appeal, in a powerfully constructed, stout featured and big barreled phenotype. He ranks top 15% ProS, 5% HB, 14% WW, top 18% YW, top 6% ME, top 15% STAY. **CC Score: 31/35: TOP 11%**

The only paternal brother to lot 1 in our 2021 Flatwater Gang offering. We utilized Red Windy Hill Zeppelin 1240 in our embryo transfer programs because of his ability to sire the right kind, huge bodied, big ended herd bull types with performance. Backed by a mainstay in our program you can trust that longevity will be standard issue in this big rib eyed bull. He charts top 18% ProS, top 1% HB, top 13% ME, top 15% CEM and top 2% STAY.

## LOT 3 - RIDGE AUTHENTIC 0020

Our lead off son of the exciting RED U-2 Authentic 139A, a quick inspection will help you determine that 0020 is heavy muscled, powerful and rugged. His dark red pigment and big, correctly shaped feet are just some of the added features that push him towards the top of our list of sale features. With big ratios of 106 at Weaning, 112 at Yearling, 103 DMPPA and 102 Ribeye area, he has been a standout. Authentic was a sale topper for the renowned U-2 program of Alberta, Canada and only recently has become available to the open market, making 139A one of you first opportunities to invest in his potency. Ridge Authentic 0020 ranks top 2% WW, top 8% YW, top 4% ME, top 12% HPG and top 13% CW.

A dense and heavy Authentic son to round out an impressive group of brothers. He is the beef bull type, huge bodied, big barreled and long spined. If you're looking for a quick injection of pounds in a quality package then 0011 needs to be inspected on sale day. His roar performance data is impressive, with over 700 pounds at weaning, 105 ratio at yearling, 108 IMF ratio and a 102 REA ratio. Tabulations include top 16% of the breed for Weaning, for 35% for Yearling, top 7% ME and top 8% HPG.

**CC Score: 27/33: TOP 18%**

LOT 9 - RIDGE AUTHENTIC 0011

## LOT 10 - RIDGE FOREIGNER 0123

Our program is built around the females who work day in and day out, year after year to provide. When it comes to making a list of the most impressive females on the ranch, the mother to 0123, Ridge Casey 978-8034 comes to mind quickly. She has given us a natural son by Ridge Foreigner 6058 who is good looking and sound structured, he is built solid from the ground up. A 104 ratio for DMPPA and a huge 15.05 REA gives him a 111 ratio. Combine these with his top 10% HerdBuilder Index, top 14% MILK, top 12% ME, top 12% HPG, top 23% STAY and top 7% Yield Grade you have a herd sire prospect who has opportunities to excel your cowherd in countless ways. **CC Score: 31/35: TOP 11%**

## LOT 13 - COOKSLEY BROXBURN 016

Cooksley Broxburn 016 is the ultra-powerful lead off son of our initial offering of RED LWNBRG Broxburn 78F sons, a herd bull we selected out of the Leeuwenburgh operation in Lethbridge, Alberta. This initial calf crop has us extremely excited about his future in our program, as he has quickly injected growth, performance and quality. 016 standouts out as a unique individual regardless of where you inspect him, at the scale, in the pen or on paper. Phenotypically he is impressive, wide, deep and dense, all upon a bone structure that screams integrity. The data set that comes with 016 is phenomenal, do not overlook his 136 IMF ratio, combined with a 112 REA ratio. He ranks top 1% ProS, GM, WW, YW, ADG and CW. Top 6% HB, top 14% DMI, top 19% MILK, top 23% CEM, top 25% MARB, and top 16% REA. That's 12 traits in the top quarter of the registry.

A big outlined, own son of our promising new herd sire RED LWNBRG Broxburn 78F, he was raised by an impressive 4 year old daughter of a past Bieber Red Angus high seller, Bieber Spartacus A193. Just like his ancestors, 030 has predilections for adding superior carcass qualities, with the highest marbling figure in the entire offering. His data suggests he has the ability to be used for servicing younger females, with a 70 pound birthweight, 14 CED and -3.1 BW.

LOT 15 - COOKSLEY BROXBURN 030

LOT 17 - COOKSLEY HARVESTOR 020

We love the eye catching good looks of Cooksley Harvester 020 the big scrotal, huge bodied and balanced grandson of the Angus powerhouse S A V Harvester 0338, his phenotype is designed to match our production goals. His 8-year-old dam is sired by Mushrush Impressive CA U236 a name that needs no introduction to any Red Angus enthusiast who places emphasis on maternal power and longevity. Performance is built into the pedigree of 020 with a top 22% WW, top 18% YW, top 16% ADG, top 14% ME and top 5% CW.

Big boned, big bodied and big testicled, this is a dense herd sire prospect who is going to quickly inject growth and performance into a calf crop. If pounds equal dollars in your marketing program then this son of RED LWNBRG Harvester 175E presents himself as a premier option in this offering. His 122 weaning weight ratio and 119 yearling weight ratio are matched with a 116 ribeye area ratio. Genomically, Cooksley Harvester 026 ranks top 17% ProS, top 11% GM, top 21% CED, top 24% WW, top 13% YW, top 6% ADG, top 22% MILK, top 4% ME, top 6% CW and top 19% REA. With 10 traits in the top quarter of the Red Angus breed, 026 comes to you as not only a stand out on paper, but also at the scale, he has real world performance in an outcross package.

LOT 22 - RIDGE ARO 0036

A true beef bull, with loads of width and substance, a powerful stifle and big hip. We are proud to bring this stout grandson of RED Flying K Max 159Y for your appraisal. Built upon a large foot, and rugged bone structure we see a lot of quality in this outcross herd sire prospect. He ratioed exceptionally well for WW, YW, DMPPA, and REA, plus a huge 125 IMF ratio. With his top 2% HerdBuilder index we feel like Ridge Aro 0036 can help push a cowherd in a direction of longevity, productivity and functionality without sacrificing any performance. Additionally he ranks top 10% MILK, top 6% ME, top 4% HPG and top 19% STAY. **CC Score: 19/25: TOP 24%**

ARO - A TRUE BEEF BULL

**RED FLYING K MAX 159Y**  
Paternal Grand sire of  
Lots 23 - 25

**LOT 23 - RIDGE MAX 0104**

**LOT 24 - RIDGE MAX 0075**

**LOT 25 - RIDGE MAX 0105**

We purchased HRR Max 8311 from the Steffan Family of Heart River Ranch in Belfield, North Dakota. He was our choice of the impressive set of Red Flying K Max 159Y sons they sold in their 2019 Production Sale, where he was a standout performance leader, and backed by a maternal giant in RED BAR-E-L Bull Meg 985W. These three sons of HRR Max 8311 are only a small sampling of the influence we think he will make, and we look forward to the impact his daughters are going to make in our cowherd. These bulls are consistently dark hided, big bodied and beef bull featured. They all feature the opportunity to increase stayability and HerdBuilder indexes across many mating opportunities.

The lone son the Select Sires AI sire, Bieber CL Atomic C218 and stems from the Ridge Casey cow family who has helped build the foundations for the Flat Water Gang. If you're interested in generating a functional set of replacements who still have performance then Cooksley Atomic 034 tabulates in your favor. He is deemed elite when referencing the Herd Builder index with a 124, this puts him well above the top 1% of the registry. Additionally he ranks top 1% for STAY, top 7% ProS, top 20% CED, top 26% WW, top 5% MILK and top 9% CEM.

These sons of Bieber Iron Warrior C124 have been well received in past editions of the Flat Water Gang Production sale, and we think that this could be the most complete and impressive set to date. We lead off with a perfectly structured, flat shouldered and attractively built performance leader in Cooksley Warrior 021. If a quick injection of performance and pay weight is what you're searching for in your herd sire additions for 2021 then pay attention to each of these Iron Warrior sons. Cooksley Warrior 021 ratioed a 109 at YEAR, and 104 REA. A top 12% ranking for WW, top 9% YW and top 8% for Average Daily Gain.

If your marketing program is driven by carcass quality and payweight then it will be important to take notice of the impressive EPD profile that Cooksley Warrior 038 brings to the equation. His pedigree is scattered with some of the most prominent names from the Bieber Red Angus program of Leola, South Dakota. In terms of profitability indexes 038 excels with a top 6% rank for ProS and a top 2% GridMaster ranking. He ranks top 2% WW, top 1% YW, top 1% ADG, top 13% MARB, top 4% CW, and top 19% REA.

We calved another set of flush brothers by the 5L Advantage 3267-221Y sire who has left the breed with picture perfect females, that are neat uddered, awesome structured and capacious about their center third. These brothers are backed by the great Ridge Sheila 009-8024 donor dam that continues her production career as a massive bodied, sound built, smooth made 13-year old dam. There is no denying the impact that the 5L Norseman King 2291 daughter has left on the industry. With double digit CED and CEM, along with negative BW EPD's across the board this trio offers an opportunity for calving ease in a uniform and consistent package. **CC Score: 33/35: 94%**

We think a lot of these Advantage derived cattle, they are the right type of beef cattle for our low input environment. In terms of survivability, longevity and minimum maintenance cattle they are have been our choice for several seasons. Ridge Advantage 0442 is a dark hided, soft sided, moderate scaled herd bull prospect who is equally as impressive on paper. His 122 HerdBuilder Index is well above the top 1% of the entire registry, combine this with a top 19% ProS, top 22% CED, top 13% BW, top 28% DMI, top 10% ME, top 12% HPG, top 7% CEM and top 6% STAY. **CC Score: FIRST CALF HEIFER**

Two sons of our tried and true Advantage son, Ridge Fundamental 6001, he is powered by a lead daughter of the infamous Ridge Casey dynasty, a cow family who has driven our program to the next level. The reason we keep utilizing these Advantage sired cattle is they just flat work in our environment, they are great footed, with a deep heel and correct shape. Moderate framed and high efficiency, they do well with minimal inputs. Both started out with an 84 pound birthweight, and came to the weaning pen weighing well above the average for their contemporary group. 0058 is a standout when measured on the HerdBuilder index, and if cow productivity is as important to your program as it is to ours then a 106 DMPPA for the 11 year old dam of 0110 show be noted.

Square built and powerful featured. A Ridge Pragmatic 6098 son who derives from a female of our good friends at Rich Red Angus in Vinton, Iowa. The Melody cow family needs no introduction to the Red Angus industry, there is generations of maternal greatness built into RRA Pragmatic H112. A performance driven set of EPD's begin with an impressive 152 ProS, top 2% HerdBuilder, top 4% WW, top 13% YW, top 30% MILK, top 15% ME, top 1% HPG, top 3% YG and top 5% REA. **CC Score: 20/23: TOP 13%**

LOT 42 - RIDGE TOP GUN 0413

A calving ease option that is still masculine, a son of our recent purchase from the Milk Creek operation of Plevna, Montana. He may not have seen large use in the 2019 season, however the small sampling we have seen are impressive. MLK CRK Top Gun 8270 is a son of the \$53,000 5L Topgun 560-65B a bull who embodies all that we aim to produce, premier cow herd traits, foot shape, longevity, and places importance on carcass and calving ease. With a 71 pound birthweight he sports a 16 CED, placing him in the top 10% of the breed. Additionally he has a top 22% DMI, top 9% ME, top 22% HPG and top 4% CEM.

LOT 46  
RIDGE  
BLOCKADE  
0044

5L BLOCKADE 2218-30B - Sire of Lots 44 - 46

A stout and powerful set of full brothers who are double bred for performance! Big additions of payweight will be the result of their service. The dam of the pair, RRA Rachel 246 746 is one of the most prominent matriarchs in a hierarchy of Red Angus royalty, the Rachel cow family. 0044 is an eye catching beast who is massive bodied and rugged constructed. There has not been a day that 0097 has fallen behind in terms of growth and performance across the entire offering. Check out their predictions for Yearling and Weaning, Carcass Weight and Rib Eye Area.

Ridge Normandy Canyon 0030 is an early February born son of 5L Normandy Canyon 6024 that is backed by a tremendous 5L Advantage daughter. He leads the pack for elite ranking performance, his real world growth pattern is truly impressive, with a 120 WW Ratio and huge 1495 pounds at a year. There will not be many bulls in the nation that can compete with the performance that this powerhouse beef bull brings to the table. If you want to increase the ability of your calf crop to gain, and quickly then 0030 makes a strong case. A true standout. **CC Score: 21/27: TOP 22%**

The sire of Ridge Normandy Canyon 0519, is 5L Normandy Canyon 6024, he was born in 2004, therefore he may not have all the fancy genomically enhanced EPD's that you'll notice of many of today's AI sires. With that being said you will notice that behind some of the most productive cows in our herd his tattoo number appears. He generates the phenotype that keeps females in our cowherd, with perfect udders, correct feet and legs. Trust that power lays in the blood of 0519.

Ridge Normandy Canyon 0013 is a striking, thick ended bull that is bold bodied, dense from end to end, and offers tremendous athleticism on the move. His extra pigment is complimented with a 104 IMF scan ratio and top 8% ranking for the HerdBuilder index. If you place value in a cowherd that is built upon longevity and stayability then here lays a good option on sale day. **CC Score: 18/27: TOP 33%**

LOT 48 - RIDGE NORMANDY CANYON 0013

LOT 50 - RIDGE OAK CANYON 0084

Cut from the same big outlined, heavy muscled mold of his broody dam, Ridge Oak Canyon 0084 is a tank! However don't be fooled, the fact is 0084 is an elite calving ease prospect. A natural born son of the 13 year old Ridge Sheila 009-8024, a cow who is always a highlight of pasture tours in the summer time, the only thing small about her is her ears. Backed by a 104 DMPPA dam you can trust that you are investing in a profit generator, coming into the world with a small 63 pound birthweight he went on to wean off with a 106 ratio. Top 1% BW, top 2% CED, top 9% CEM and top 22% HerdBuilder, a unique curve bending individual.

Super dark red, big nutted and thick topped. His dam Ridge Dora, 2040-4413 is a perfect example of how we like our cows designed, with a maternal emphasis, perfect udder and moderate frame score. We anticipate that the females generated by 0072 would be expectational, and set the foundations for maternal perfection. A top 3% HerdBuilder ranking, along with top 2% STAY, top 11% MILK and top 6% HPG are all indicative of our claims. **CC Score: 23/29: TOP 21%**

Another derivative of the Oak Canyon 3506 mating on the Sheila cow family. In fact Ridge Oak Canyon 0117 is a 3/4 brother to Lot 50. He matches him in terms of muscle shape and length of body, he excels however with some added advantage for the STAY and Heifer Pregnancy (HPG) traits. **CC Score: 30/33: TOP 9%**

LOT 53 - RIDGE RIPTIDE 0522

These sons of 5L Riptide 453-85X are long bodied, low maintenance and easy keeping type herd bulls that are the result of our embryo transfer program. They are backed by some of the most impressive members of our cowherd. There are generations of maternal power on either sides of their pedigree, including 5L Signature 5615 and two shots of 5L Norseman King 2291. This group of bulls excels for Yield Grade, HerdBuilder, DMI, ME and HPG.

Level topped, long spined and functional build are some of the things that come to mind when inspecting Ridge The Real Deal 0526. His pedigree is highlighted by both American and Canadian bloodlines, and his 14 year old dam has stood the test of time, she was rewarded with a 104 DMPPA. Calving ease comes standard with his service.

Ridge Express 0014 is an attractive loose made son of MLK CRK Express 9127. He is a real world performance leader and has developed to rank highly among his contemporaries in the beef carcass traits with an impressive 124 IMF ratio, complimented by a 107 REA ratio. He no slouch over the scales either with a 109 WW ratio and 105 YW ratio.

CC Score: 26/35: TOP 26%

MLK CRK EXPRESS 9127 - Sire of Lots 57 - 59

Two embryo transfer brothers of MLK CRK Express 9127, a sire renowned for his ability to correct udder quality, with perfect teat placement and length. The dam of this pair is an awesome Glacier Chateau 744 daughter, and we all know how timeless those females are proving to become. You will have realized by now that we are not fussed by the newest and fanciest pedigrees, our program is built around cow families that will stand the test of time, the test of our low input management strategies and the test of our harsh environment.

The sire of lots 63-65 is a past sale highlight in Ridge Compass 7087, he sold to our friends of Rich Red Angus in the 2018 edition of the Flat Water Gang. We couldn't not be more pleased to work with them on a sire that we are anticipating will remain a focal point in our breeding program for years to come. Compass has 5 generations of the Lila cow family in his maternal pedigree, helping us to believe that consistency his will remain evident if his calf crops. We are excited to show you these sons who are consistently square, dark, thick and powerfully constructed.

LOT 67 - RIDGE COMPASS 0089

LOT 68 - RIDGE COMPASS 0025

A set of 3/4 brothers who are both ultra-impressive, perhaps this stems from the fact that their mothers originate from the Ridge Aquila cow family, where some of the prettiest, most picture perfect females we have working on the Ranch are bred from. Combine these good looks with the power and stoutness that Compass is consistently siring and you have a set of brothers who have the genuine shape and outline of power beef bulls. Both 0032 and 0089 were standouts when they ran over the scale this Fall, recording triple digit ratios at weaning, yearling and on their REA scans.

We invested in a Mushrush Impact Z352 son at the 2019 Daigger-Orr Bull Sale. The Impact sire line is renowned for generating females and sires of influence and value. Cooksley Impact 035 is a big bodied and easy keeping type of herd sire prospect who proved his dominance when we scanned for carcass quality traits. He recorded a 146 ratio for IMF and ranks top 22% for MARB so if your needing a quick inject of carcass quality then have 035 marked.

Another carcass orientated son of 1DRA Impact 8028, however Cooksley Impact 036 comes with the most Ribeye of the sire group, and still scans humungous a 144 IMF ratio. A natural son out of a promising Bieber Spartacus A193 daughter, he ranks within the top third of the registry for 10 different traits. A very balanced and versatile option that can offer lots of opportunities for improvement.

When we introduced 1DRA Impact 8028 into our sire battery we didn't realize how consistent of a product he would generate for us, we used him heavily for service over our replacement heifers. The sons we got are docile, sound, smooth shouldered and sound structured. These bulls still offer some growth and performance, with a good look and running gear designed for the long haul.

## A-BAG-A-BULL

### RED ANGUS

RANCH TESTED. RANCHER TRUSTED.

If you purchase a bull from us, we will provide you with credit equal to the value of one bag of Feeder Calf Certification Program or Allied Access tags for each bull you purchase. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. Cattle enrolled in the FCCP are accepted into the exclusive Choice+ and G.O. Red grids. The FCCP 'yellow tags' are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.

### LOT 82 - RIDGE BANK NOTE 0511

A trio of full brothers who all make a valuable case as to who can contribute the most to a cowherd. Something they all can generate is an attractive look, appropriately designed hind leg, big circumference of foot and bone and balanced outline. Their sire, Brooking Bank Note 4040 continues to etch his name into the Angus book of legends with each calf crop, his dominance is driven by his consistent ability to sire beef bulls with substance and shape and females who resonate productivity and functionality. The female who supplies the maternal power to this mating is crowned with the Lakina family name, if your unaware of the influence that this cow line has had within the Red Angus breed its more than substantial. Three black hided beef bulls, who are backed by generations of high quality seedstock.

Huge growth son of one of the Angus breeds most utilized sires in LD Capitalist 316. He was raised by a first calf heifer who gets her family name from the Tess family who has helped keep the wheels turning at the Sandbur Rudge Ranch for several years. A monster 115 YW ratio is only outshone by his IMF scan of 5.84 to ratio 120 among his contemporaries. If you like to utilize the Red Angus profitability indexes as a part of your selection criteria then you'll have no issues with marking 0422 on sale day. An impressive genomic tabulation includes a top 1% ProS, top 5% HB, top 3% GM, top 4% WW, top 5% YW, top 8% ADG, top 2% HPG, top 16% MARB, top 1% CW and top 7% REA. **CC Score: FIRST CALF HEIFER**

With over 3,400 registrations in 2020 its no secret that the progeny of LD Capitalist 316 are right for the times, it's because they work across a wide array of marketing programs, environments and production strategies. 0431 comes to the equation as a sleep all night calving ease option, he entered the world with a very modest 62-pound birthweight, and ranks top 4% CED, top 3% BW and top 6% CEM. Don't overlook the opportunity he brings for added carcass quality and value with top 2% REA, top 1% CW, and a 116 IMF ratio.

**CC Score: FIRST CALF HEIFER**

LOT 87 - RIDGE EXECUTIVE 0521

Ridge Executive 0521 is backed by a 15 year old Ridge Casey cow that has produced multiple herd bulls who are employed by cowboys of distinction, she sports a 106 DMPPA. 0521 has a pedigree that features some of the most respected maternal legends including S A V Bismarck 5682, BAR-E-L Natural Law 52Y and HF Thunderbird 146Y. His data set is featured by a top 14% CED, top 40% WW, top 365 DMI, top 12% MILK, top 8% ME and top 20% CEM, a female maker in the making.

The Emblazon family name is synonymous with low maintenance, high efficiency and ultimately longevity. Its legacy is carried on through generations of purebred and commercial females that lead some of the most productive cowherds in America. Some of the best cows in the Sandbur Ridge program also feature in the maternal lineage of Ridge Emblazon 0438. You can trust that 0438's legacy will be through his daughters.
