Spring Greetings from all of us here at PGC!

Although Mother Nature dealt us a tough hand last summer, with drought conditions making spring and summer grazing and winter forage production challenging, we are thankful for the mild start to our calving season and for the PGC mother cow herd. These girls truly surpassed our expectations and we have a beautiful set of calves on the ground!

Our goal at PGC has forever been a functional mother cow, bred to perform in the extremes of North Central Montana. She is the basis of the genetics that produce our next generation of cows and the foundation of the animals we sell to our customers. Every cow is scored at calving for temperament, udder and feet – her phenotype, calf and genetic profile are evaluated and an optimal mating is chosen for the next breeding season. This data is available to our customers any time. The entire PGC herd is BVD free, netwrap free and Johnes screened.

This year – despite the challenging conditions – our cow herd continued to do their job, with 60% conception on our first cycle A.I. and 3.5% open rate. You will note our weaning weights are slightly lower than usual, and its no wonder, but we are forever thankful to these girls for their continued fertility and mothering ability. As we write this letter, we have 105 heifers, 2 & 3 year olds calved out and we have yet to put a sleeve on to assist a birth. They accomplished all of this on summer and winter feed that is well below the average quality we normally provide.

This year's set of bulls hit the development lot and never turned back. Much like our young cows, each set of bulls surpass the previous year in style, structure and performance. We feed the bulls for soundness and longevity. We are so thankful for Josh Stroh & Will Rambo from Hubbard Feeds for their work in ration development and feed delivery. We raise our own forages and source our pea screenings and corn locally.

We would like to highlight some new things that continue to strengthen our program here at PGC. This year's sale offering has 11 calves from 3 proven donor cows. These calves were impressive when they hit the ground and haven't faltered throughout the development period. They offer consistency as a group if that is desired by a volume buyer, and individual standouts for those people looking for that Herd Sire prospect. And while we are discussing volume buyers we would like to introduce our new Volume Buyer Program. We are so appreciative of YOU, our customers, and our goal at PGC is to help your operation be successful. We recognize that our customers come from operations of all shapes and sizes. This year we are offering our volume discount program at 4% to customers purchasing 3 or more bulls. In addition, in appreciation of any repeat buyer who purchased a bull at our 2021 sale, a 4% discount will be applied to your purchase of 1 or more bulls at our 2022 sale. Also, we have enrolled our entire herd into a new, voluntary reporting Angus Association program called Maternal Plus. This program is designed to help PGC and our customers make more effective selection decisions by capturing whole herd reproductive data and better predict cow productivity and survivability. We are excited for what this program will add to the information we can provide our customers with in the future.

We invite you to our pre-sale viewing, all day Tuesday, March 22nd at the sale facility. There will be food and beverages available all day. You can also view them online at Northern Livestock Video Auction. If you can't make it to the sale but need a bull, please don't hesitate to call. We look forward to seeing you!

Stop by PGC development lot to preview our animals & receive \$200 bull bucks through March 15th. Visit the website for details.

March 23, 2022 1:00

Bid through Northern Livestock Video Auction's NEW Online Bidding Platform!

Desktop

1. It is best to use the Google Chrome web browser.
2. **Pre-Register at least one day prior to the sale.**
3. Go to **bid.NorthernLivestockVideo.com** and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit **www.NorthernLivestockVideo.com** to view and bid!

Mobile

Use your mobile device to download the Northern Livestock Auction App and follow the above steps to get approved. There is an instructional video on how to register to bid on our website **www.NorthernLivestockVideo.com**

Phone Bidding

Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone. **To register with NLVA call 866-616-5035 Before Sale Day.**

Northern's Sale Day Bid Line: **1-406-245-0889**

View the Online CATALOG and VIDEO CLIP of each BULL selling at **www.NorthernLivestockVideo.com**

Scan the QR code in this catalog with your smart phone to go directly to the video of each Lot.

Successful bidders making purchases will be contacted following the sale for payment and delivery arrangements.

**For technical assistance with
Internet Viewing and Bidding Questions,
call Sam Fraser 406-860-0590.**

Sale Location 32116 Rd 230 N • Havre, MT 59501. See map page 36.

Inspection of Cattle All cattle will be available for inspection the day of March 22nd at the sale facility, 32116 Road 230 N, Havre MT. Prior to that the bulls will be at the Peterson Grain & Cattle development center, 18211 Road 325 N, Havre MT.

Videos Scan the QR code in this catalog with your smart phone to go directly to the video of each Lot.

Sight Unseen Purchase Guarantee Buyers unable to attend the sale may call anyone from PGC or any of our representatives. Let us know your bull needs and your budget range. We'll bid on and purchase the best cattle possible for your specifications. We'll let you know of cattle purchased following the sale and make payment arrangements with you. If you aren't satisfied upon delivery, you don't own the bull(s).

Health & Performance All bulls sell with complete performance test information including scrotal measurements. All bulls have been semen tested by Casey Solomon, DVM, Milk River Reproduction. All bulls have received Fusoguard, BoviShield Gold FP5 VL5, pour on and have tested negative for BVD. The individual results will be included with their other paperwork upon your purchase. Independent evaluation of **Claw Set** and **Foot Angle** was performed by MSU-Bozeman, and results are published in the catalog in the information block for each Lot.

Genomic Enhanced EPDs All of the bulls in the sale offering have AngusGS DNA testing to increase EPD accuracies and predictability. This test is a tool to enhance selection and predict genetic potential. EPDs are current as of 2/21/22. Updated EPDs are available at Angus.org

Retained Interest Peterson Grain & Cattle is retaining a 1/3 revenue share interest on all bulls selling in the sale, unless otherwise announced from the block. Natural use and salvage belongs to the buyer. If we choose to collect semen from a bull that you have purchased, we will have it done at your convenience and at our expense.

Terms & Conditions All cattle sell according to the standard terms and conditions of the American Angus Association.

Delivery/Hauling Rebate Free delivery in Montana. Beyond Montana delivery will be at actual cost. Delivery out of state available, call for arrangements. If you bring your trailer to the sale, a \$40 rebate will be returned to you after sale settlement for bulls you haul home on sale day.

Volume Discounts Returning buyers, 2021-2022 – 1-2 bulls = 4%. Buyers purchasing 3 or more bulls = 4%.

Insurance will be available sale day through Bill Pelton.

First Year Breeding Guarantee Insurance is available sale day for loss of use and mortality. Insurance provides the best guarantee for a full year after sale day. PGC guarantee applies to all bulls sold over \$3500, and covers the bull for 60 days past the first day of turn out. In the event a customer has a problem with a bull (health or injury), notify PGC immediately. A 50% credit minus the salvage value will be given for the following year's sale OR towards a replacement bull from PGC, if available. A proof of sale/salvage and veterinary statement will be required to fulfill guarantee. As mentioned above, the best guarantee available is the Insurance available sale day. And the only guarantee available for loss by death is the insurance available sale day.

Liability All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The owners, auction service and sale staff assume no liability for property loss or any accidents that may occur.

Announcements from the block will take precedence over the catalog.

Accommodations

Best Western Great Northern Inn 406-265-4200
Best Western Plus Havre Inn & Suites 406-265-2888
Super 8, Havre. 406-265-1411

Created by Angus Genetics Inc. (AGI) and powered by Neogen GeneSeek, our sale cattle have been tested with the first DNA profile designed specifically for Angus cattle, Angus GSSM.

Each marker is intentionally chosen from the Angus genome to drive the Angus breed into the future. It offers maximum accuracy for genomically enhanced EPDs at great value. Testing heifer and bull calves ultimately allows you to reap the benefits of faster genetic gain in your commercial herd. With Angus GS, it's all about you, our customer.

Our lead off bull is one of 4 full brothers in the sale, out of our donor Holman Blackbird 733. Lot 1 has been a stylish calf since he hit the ground and has been a standout throughout the development period. The 733 by Stellar combination is going to make fertile, powerful calves, with good dispositions and feet. Full brothers sell as Lot 25, 44, & 46. Sitz Stellar 726D has proven himself to put style and performance into his calves with excellent foot structure and consistency. Lot 1 ranks in the top 25% of the breed for WW, YW (15%), RADG, YH (10%), SC (1%), Milk (20%), MH (4%), Claw (2%), Angle (15%), PAP (1%), CW (25%), \$F (20%), & \$W (25%).

VIDEO

Something new this year - PGC voluntarily enrolled in a program with Montana State University in coordination with the American Angus Association and Montana Angus Association to provide unbiased and independent foot scores of our sale bulls. Data available for each Lot in their information block. Program information is available at our website: www.PETERSONGRAINANDCATTLE.com

Holman Blackbird 733

Dam of Lots 1, 25, 44, 46, 60

733 was purchased as a first calf heifer from the Holman Angus dispersion in 2009. She entered the PGC herd and never looked back - producing 11 calves with a WR of 109. She was retired to a flush cow in 2019 after producing her last natural heifer at a WR of 115, as a 12 year old cow. She produced some excellent embryos for us and then bred back for a January calf born the spring of 2021, raising Lot 44 as a 14 year old cow to a WR of 113. This cow flat produces, with 4 natural heifers currently in production in the PGC herd. She is a phenomenal mother, as are her daughters - good footed, good uddered and sweet tempered. Her lifetime production record lists 7 natural calves BW @ 85, WR 6 @ 107, and YR @ 104. A true blue functional cow, with excellent longevity. Sons selling as Lots 1, 25, 44, 46, & 60.

This Forge heifer bull is a true curve bender - with calving ease and performance all in the top 15% of the Angus breed. He also has a pedigree stacked with excellent cows - going back to 2 PGC flush cows! He was a standout at weaning time and hasn't faltered during the development period. Dam records 2 calves with a BW of 68# and 2 WR @ 105. Granddam posts 4 BW @ 70# and 4 WR @ 103. Great Granddam posts BW 7 @ 76# and 7 @ WR 106. We love our PGC Forge progeny for their quiet temperament, thickness, correct structure and performance. He ranks in the top 10% of the breed for CED, WW, HP (5%), CEM, Claw (4%), Angle, \$M (3%), \$W (4%) and in the top 15% for BW, YW, PAP.

A standout calving ease cow bull & lead off bull for our Payweight 1682 sire group. Lot 3 is the first to sell of 4 full brothers from our PGC Eleanor 562 by Payweight 1682 embryo mating (see page 12 for donor information). This was a power mating with all 4 brothers March calves, performing from weaning through the development period. This bull and his brothers (Lots 9, 12, & 32) will put performance, style and good temperament into their calves. Lot 3 ranks in the top 35% for WW (15%), YW (20%), RADG (25%), SC (30%), Milk (10%), Doc, CW (25%), RE (30%), Fat (15%), \$F (25%), & \$W (4%).

Lot 4 is a HERD SIRE prospect! The lead off bull for our PGC Shoeshone 4106 x True North embryo calves. He is the whole package - a heifer bull with growth, style, fertility, carcass and \$Indexes, backed by several strong cow families. He posts the highest yearling weight in our offering this year. True North is a new sire to the PGC line up this year, chosen for his exceptional maternal power, thickness and correct size, and quiet temperament. Lot 4 ranks in the top 35% of the Angus breed for CED (10%), BW (25%), WW (20%), YW (15%), RADG (15%), SC (15%), CEM, Doc, Angle (20%), PAP (25%), CW (25%), \$M (20%), \$F (25%), \$B, \$W (15%), & \$C (20%).

PGC Shoeshone-Girl 4106

Dam of Lots 4, 8, 19, 67

This donor dam continues to leave an impression on our program here at PGC. She checks all the boxes. Dam of PGC Forge, the heaviest weaning calf PGC has ever produced. 4106 is a solid built cow, easy to be around, with a perfect udder. She is an excellent mother, and easy fleshing. She transmits a style and structure to her calves that is noticeable from the time they hit the ground! And all of these traits are passed on to her direct offspring, as well as into the Forge calves we now have in production here at PGC. Her fertility has not faltered with a WR of 18 @ 102 and YR of 18 @ 102 and an average calving interval of 368 days. She has not missed - flushing immediately following calving @ an average of 17 embryos per flush, and then breeding back after her flush, all while running with our mother cow herd, under normal herd conditions. The only heifer calf she has produced old enough to be in production, raised feature bull Lot # 5 this year. 4106 has truly done everything we have asked of her and excelled. Her imprint on the PGC herd will leave a legacy!

Lot 5 does it all - a strong HERD SIRE prospect! A heifer bull with curve-bending growth, and an outstanding number profile. He comes from a proven pedigree - his dam is a beautiful young cow out of our flush cow PGC Shoeshone 4106. He has been a standout all summer and during the development period, stylish and free-moving with a WR of 118! Woodhill Blueprint is another new sire to the PGC lineup this year, and is proving himself to be a sire to consistently throw stylish, correct calves with good bone and excellent carcass traits, with a proven pedigree in his background. He ranks in the top 25% of the Angus Breed for CED (2%), BW (20%), WW (4%), YW (4%), CEM (1%), Milk, MH, Claw (4%), Angle (15%), CW (10%), Marb (20%), AND all \$Indexes - \$M (5%), \$F (5%), \$B (10%), \$W (2%), \$G (20%), & \$C (3%).

DEDICATED. COMMITTED.

WHOLE HERD REPORTING WITH MATERNALPLUS

Raising quality Angus cattle takes **COMMITMENT**. We take that seriously, which is why we are **DEDICATED** to not only improve our genetics, but also prepare for the future of the Angus breed. We believe that commitment starts with MaternalPlus. Contact AGI at 816-383-5100 or agi@angus.org for more information.

Another Herd Sire prospect, Lot 6 is a thick made, stylish, quiet, calving ease cow bull with one of the highest Doc scores in our sale offering this year. His Really Windy x In Focus dam is an all-time PGC favorite - perfect size, good structure, outstanding temperament and mothering ability - she will be entering our flush program when her time as a mother cow comes to an end. She posts 7 calves BW @ 75#, 7 WR @ 101, YR @ 102, only raising bulls to date. Her 2018 bull calf was purchased by Zack Lewis. Her bull calf from 2019, was purchased by the Solomon's and is one of Casey's favorite bulls, a breeding machine with great temperament and structure. And her 2020 calf was purchased by Mardy Cox of Chinook. He ranks in the top 35% of the Angus breed for BW (20%), SC, HP (10%), Doc (3%), Claw (5%), Angle (10%), PAP (1%), & \$M (15%).

PGC New Design 562

Dam of Lots 3, 9, 32, 75

PGC Eleanor 562 made an impression as a mother cow in production, and then was retired to a flush cow at the age of 12. She passes on fertility, quiet temperament, functionality and performance, coupled with good structure. She was an above average flush cow - both in quantity and quality of embryos. This is her last set of calves as she passed of natural causes as a 16 year old cow. Our only regret is that she didn't produce more heifers in this last group of embryos! 562 posts 11 calves BW @ 77#, 11 WR @ 106, YR @ 105. Full brothers selling as Lots 3, 9, 32 & 75.

A cow bull with growth and carcass - Lot 13 would make a nice set of feeder calves! Dam is a Wyatt Earp cow Casey really loved at calving time, calving first cycle again this year with solid calving book scores - we really would take an entire herd of cows like her! Lot 13 ranks in the top 35% of the Angus breed for WW (5%), YW (10%), YH (25%), Milk (30%), MW, Claw (20%), CW (25%), RE (25%), Fat (10%), \$W (10%), & \$G (30%).

This bull has been a standout since birth! His dam is a sturdy & quiet Definitive cow, with solid calving book scores and production stats - 7 calves WR @ 104, YR @ 104, and has another nice first cycle calf on the ground in 2022. This is an extremely functional bull that will put style and structure into his calves coupled with solid production data for fertility, weaning weight and maternal power! He ranks in the top 20% of the Angus breed for WW, SC, Milk (15%), Doc (15%), Angle (10%), RE (5%), \$M (5%), \$W (10%), & \$C - with one of the highest RE EPDs in the sale offering this year.

This calving ease bull posts good growth and fertility, and has 2 donor cows in his pedigree. His sire was purchased from the Gartner Denowh Angus Sale in 2018, his dam being a donor cow that Casey really enjoyed. Lot 45's granddam is being flushed in the PGC program, with her first embryos on the ground this spring! He posts EPDs in the top 15% of the breed for WW, YW (10%), SC (10%), HP (10%), Milk (1%), \$M, and \$W (2%).

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand.

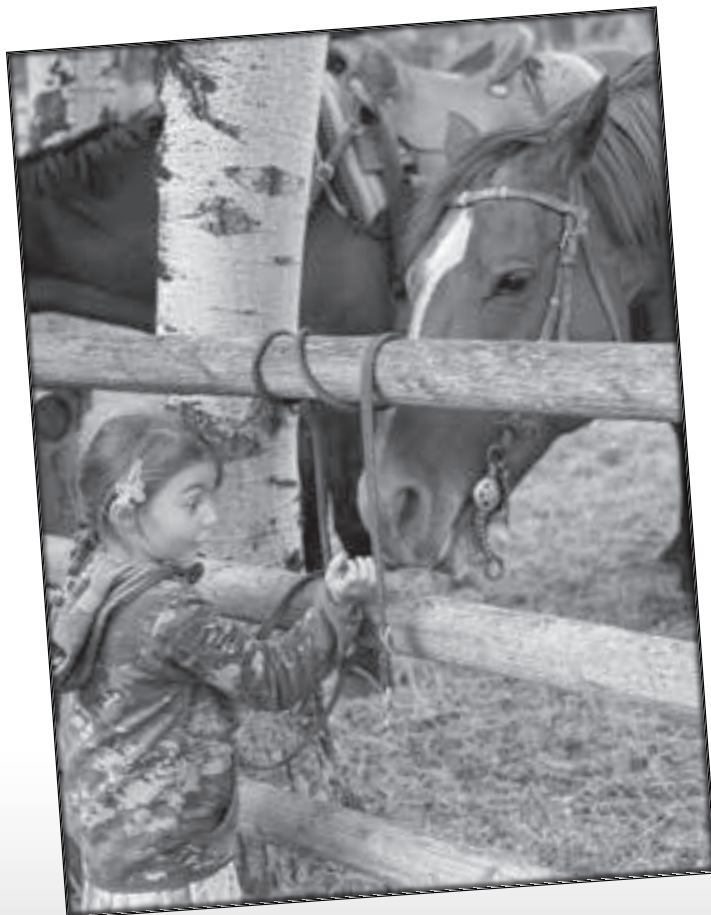

Only 1 in 4 non-parent Angus bulls qualify.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

For more information on Targeting the Brand™ visit CABcattle.com.

Heifer Calves

Our goal at PGC is to produce easy fleshing, good structured reliable mother cows. We have put heavy selection on our cow herd for maternal traits, fertility, functionality and mothering ability and it shows in our heifer offering this year. Seven of the 12 heifers offered rank in the top 1% for \$M, and 9 rank in the top 35% for this index - a measure of Maternal Weaned Calf Value - used to predict profitability differences in calves due to genetics from calving to weaning. A metric developed with the cow calf producer in mind! Other strengths you will note in our offering are our \$EN values, as we focus on a cow that can produce in the extremes of our environment in North Central Montana; SC and HP as predictors of fertility; Doc, Claw & Angle as temperament feet and udders are scored and direct measures of selection criteria used to develop our existing cow herd. Enjoy looking through our offering - we hope you find a good one to enjoy for years to come!

Boone is an exciting do-it-all cow bull purchased by Dana & Lisa Darlington and Peterson Grain & Cattle from Circle L Angus 2021 bull sale. He was used heavily both as an A.I. sire and as a natural service sire and excelled in both places. His first calves will hit the ground spring 2022!

Boone is a smooth sided, good footed, easy going bull with correct structure and movement. He carries a balanced EPD profile with exceptional growth and dollar indexes. He will transmit growth, maternal power, good feet and structure, docility, carcass quality and a solid number profile with an excellent PAP EPD.

Boone's pedigree is stacked with performance and maternal strength. The son of Connealy Confidence Plus, a sire known for making phenotypically correct and attractive cattle, with a proven maternal pedigree. On the bottom side, Boone's dam, RB Lady Denver 167-428 is a \$50,000 power cow and his granddam, RB Lady Party 167-305 was the \$300,000 full sister to Tour of Duty. Both are exceptional in structure, udder quality, fertility and maternal power.

Circle L Boone is a cow bull with the whole package - phenotype, temperament, maternal, cow maker pedigree and an exceptional number profile.

Top 1% of the Angus Breed for Foot Angle and top 15% for Claw Set. He is also the top 10% for the Breed in WW, YW, RE, \$M, & \$C. Top 15% in Doc, PAP, CW, \$F, \$B, and \$W. Every one of Boone's \$Index EPDs fall in the top 25% of the Angus Breed or higher.
