# WELCOME

**Wendy, Rollie, Isaiah and Benjamin**

and eye appealing cattle with balanced traits are a must as well. We believe that a cow should work for you not the other way around.

Structural soundness, performance and balance are our top priorities. We want these bulls to sire vigorous calves at birth and wean big, heavy calves. We want them to leave you with cows that are functional, broody and milky while maintaining correct body condition without being pampered. This year's offering will be as deep in quality as ever. Bulls were cut due to high birth weights, inadequate performance or poor foot quality. We feel every animal in the sale has more than adequate structural soundness. If they're borderline in this quality they are cut. With that said 37% of the offering are out of 2 and 3-year old's and 21% are ET calves. We are proud and humbled with our genetic improvement.

Thank you for considering our cattle and we invite you to come tour our cow herd and bulls any time of year. Please contact us with any questions. Our main focus is for you to feel comfortable and confident with your purchase. Remember the fastest and cheapest way to add pounds is crossbreeding and the baldy cow is the profitable cow!

The Baumgarten Family

It is with great pleasure that we welcome you to our 2023 bull sale. This year marks 108 years of Baumgartens breeding Herefords and our 20th annual production sale. It's been a bumper year for pastures and crop and we think we're finally back in a good moisture pattern. Cattle prices are on the rise and look to reach all-time highs in the near future. Now more than ever is the time to invest in high quality cattle and predictable genetics to build back cow herds.

We have always had a philosophy of looking into the future and building a cowherd that benefits us not only for the next year but for decades to come. This is top priority. This futuristic philosophy comes into play every time we choose our next herd sire, which cows to flush, which AI sires we use and cow herd management. This also comes into play in our culling process for high fertility, good uddered cows that wean big calves and stay in good body condition. Quality feet, structure

**Jake, Teddy and Savanna**

# BAUMGARTEN PRODUCTION SALE

**Friday, February 3, 2023 • 1:00 p.m. MST**  
**at the ranch south of Belfield, ND**

*Selling:* 67 Yearling Hereford Bulls • 6 Two-Year-Old Hereford Bulls  
5 18-Month-Old Hereford Bulls • 11 Registered Hereford Bred Heifers  
20 Commercial Hereford Heifer Calves

Our first preference is to have everyone at the sale who is interested in our cattle. We realize this is not always possible due to our busy lives and commitments. We encourage our customers to come and visit any time prior to the sale. We are happy to show you our offering this year as well as our cow herd and answer any questions. We will gladly make time for you. We are never too busy. You also have the option of looking at the cattle alone if that is your preference. All the cattle can be viewed on our website and there are videos of the bulls as well. You have the opportunity to bid on DV Auction if you can't attend the sale. Our sale representatives are also available to take phone bids on sale day.

If you have questions about specific lots please reach out to Rollie, Jake or Todd and they will be happy to answer your questions about this great offering of bulls we have this year.

### **Mandibulofacial Dysostosis (MD)**

The American Hereford Association identified a new genetic defect marker called Mandibulofacial Dysostosis (MD). This genetic defect can cause deformation of the lower jaw. This is a simple recessive gene, so the only way it can be a problem is if two carriers are mated to one another. All potential carriers in our herd have been tested. There are four bulls and one bred heifer in the sale that tested positive as carriers of this gene. Lots 2179, 2191, 1105, 1309 and 182 will be noted with MDC. This genetic marker does not have any negative effect for customers using these bulls on non-carrier Hereford cows or cows of other breeds.

## Special Announcement

Check out our website for further updates, sale bull pictures and videos and sale catalog at [www.baumgartencattle.com](http://www.baumgartencattle.com).

**TERMS AND CONDITIONS:** Terms of the sale are cash. Every animal will be sold to the highest bidder with the auctioneer settling disputes as to bids. Announced changes in catalog information sale day take precedence over printed material in this catalog. All cattle are the buyer's property as soon as sold. Bull calves returned to seller will be fed free until April 1st. Feeding arrangements will be made on bull calves only. We would appreciate that all bull calves we feed be insured. Neither the owners nor any person connected with this sale or catalog assumes any liability, legal or otherwise. Animals that are being cared for by seller are done so at the purchaser's risk.

**GUARANTEE:** Every animal in the sale is to the best of our knowledge, free from any disease or defect unless noted otherwise. All bulls are guaranteed breeders. All claims must be submitted in writing to seller within eight months of sale date, along with semen evaluation and health report, at buyer's expenses, from veterinarian. Seller must be contacted as soon as buyer is aware of the problem and before the bull is disposed of. Seller shall have the privilege of trying bull after his return before making any adjustments. In case an adjustment is required, it will be made with a replacement animal of equal value to the animal. We assume no liability, legal or otherwise, to make any further compensation to the buyer. All Hereford bulls selling for \$3,000 or more will be guaranteed for one full breeding season by Baumgartens. Breeding season is defined as the 90-day period following the first turnout of the bulls. 100% of the value of the injured bull, minus full salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, belongs solely to the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 15, 2023. Injury resulting in death or death of bull will not be the responsibility of Seller. This is an insurable risk that the purchaser can obtain coverage for through Joana Friesz, (701) 400-8744 or (701) 843-8744.

## SCROTAL EVALUATION

Age in Months	12-14	15-20	21-30	30 plus
Acceptable Range (cm)	30-35	31-37	32-39	33-40

## SC — SCROTAL CIRCUMFERENCE:

A measure of fertility. Testicle size indicated by scrotal circumference measured in centimeters is a highly heritable trait very much correlated to reproductive efficiency. A valuable indicator of bull fertility and puberty, and highly related to early puberty in heifers and cow fertility, increased bull scrotal circumference should improve fertility and inherent cow herd productivity.

## Sale Accommodations

Trapper's Inn ..... 701-575-4261  
Cowboy Inn ..... 701-575-4245  
Please reserve rooms ahead of time. Due to oil activity rooms are limited.

**EMBRYO TRANSFER PROGRAM:** Just a short note here to advise you about some information on our ET program. Please remember that the calves that are ET calves are not raised on their natural mother, but instead a recip cow. Some of these recip cows do not have that natural ability to milk and feed a calf the way the original ET mama cow does. Therefore, sometimes the performance of an ET calf is not as good as her natural calf is, but the genetics are still there to produce that type of performance.

## INJURY OR DEATH PRIOR TO DELIVERY:

Injury resulting in injury or death of the bull prior to delivery will not be the responsibility of Baumgarten. This is an insurable risk with coverage offered at the time of sale at the following cost of coverage.  
6 month term.....5.0% of purchase price  
1 year term.....7.0% of purchase price

## NEW: We offer a sight unseen guarantee.

Call Rollie or Jake for details.

**DELIVERY:** \$50.00 will be taken off the top of the purchaser's price if the bull is taken home with the buyer on sale day. Free delivery up to 300 miles on bulls. No delivery on heifers.

**ABSENTEE BIDS:** Anyone wishing to bid who cannot attend the sale may place phone or mail bids by contacting Rollie or any sales representative.

**HEALTH:** Health of the Baumgarten herd is excellent. State is Bovine Brucellosis free and Accredited Bovine Tuberculosis free. Females are officially calthood Bangs vaccinated. Individual health papers will be furnished for shipment anywhere.

## REGISTRATION AND TRANSFER:

Registration certificates will be transferred to buyers upon request at seller's expense. When making settlement, buyers must give complete written name and address information for making transfers.

619's popularity has exploded in the breed and is leaving a positive impact. He's one of these sires that breeds on true to his type consistently. You can always pick out 619 offspring. His offspring are deep, easy doing and dense made that come easy at birth and gain extremely well. Sons have big testicles, carry extra thickness and are wide backed with the breeding bull look. Females are feminine with a ton of capacity and small, tight udders. We feel there will be a ton of longevity in his daughters as well as granddaughters. A true breeder that keeps so many great qualities in balance. Ratios 98.6 for BW on 454 head, 100.2 for WW on 394 head and 100.9 for YW on 278 head across the breed. 5 sons, 1 grandson and 2 daughters sell as well as many sons of daughters. Owned with Stuber Ranch.

Very similar to 619 in his type and kind with a straight L1 pedigree. Heavily used on heifers and on cows with success. If you're looking to raise replacements his sons are highly recommended. They should breed on great udder quality with strong milk and broody, easy doing females. If you were to go through our replacement pen you would see the ability of 917 to make top notch females. When you study his pedigree you can see the maternal strength for generations. Many sons will be heifer bulls with the power to be cow bulls. 10 sons and one daughter sell. Owned with Holden Herefords.

+0.2	3.6	58	99	38	67	.77	.17	148

A standout sire for growth, performance and pigment. The length along with thickness in his offspring is quite impressive. His sons should definitely breed this on as well as cattle that perform on the rail. If you sell your cattle at weaning or retain them to get those extra pounds this sire group will be a solid choice. His dam, 2022Z, is a beast of a cow with a high quality udder as an added bonus. All fall bulls will be 8392 sons. 10 sons and one daughter sell. Owned with Berry Herefords.

A versatile sire for raising heavy milking cows and muscular, thick sons! His first daughters ratioed 112 for WW and have level udders with ideal teat size. There is high genetic natural performance in this sire that his sons will pass on. 808 has a ton of length, is thick-ended and athletic with big strong feet. Sons will be valuable if you like big weaning/yearling weights pigmentation, milking daughters and quality carcass. Cow fertility will be a plus to all these traits. 3 sons and 3 daughters sell. Owned with Pied Piper Ranch and Stuber Ranch.

We used Harvest for his impressive EPD profile, muscle and to really implement his dam into our herd. Calves came light at birth with a ton of vigor. Sons are moderate framed, short marked with awesome muscle shape. These cattle should really perform on the rail and judging by his mother they will be 5 star brood cows with picture perfect udders! Its hard to beat the EPD profiles of his sons and many will be polled heifer bulls! A sire that covers all the bases. 8 sons sell.

An outcross polled sire for us. He got hurt early in the breeding season so we didn't get as many calves as we wanted. We appreciate him for his explosive growth figures and maternal backing. His bulls are big ribbed, athletic and present correct foot and leg structure. His females are standouts in the replacement pen. Look for his calves to leave you a set of heavy milking, high quality females. 3 sons and 1 daughter sell.

Our polled "go to" sire. His sons and daughters tipped the scale every fall and they all gain great on feed. You will appreciate the doing ability and natural performance of his calves. He also brings good carcass data to the table. The Upgrade daughters raise quality cattle. This bull has added a lot of punch and power to our polled herd. 4 sons and 5 grandsons sell. Owned with Lodoen Cattle and Topp Herefords.

**33D**

# REFERENCE DAMS

**BCC LACEY 048X - 43124559**

The performance cow. She has done it all from raising herd bulls to excellent females. Breeders from all aspects of the industry have admired her and her offspring alike. She is one of those cows that seems to always outbreed herself, a no miss kind of cow. She is the grandmother of 619 and will have 13 daughters in production in 2023. Dam of BCC Bullseye 923.

CED	BW	WW	YW	MILK	M&G	REA	MARB.	CHB\$
+0.1	2.4	52	93	27	53	.33	.01	112

**BCC MISS MAYBARRY 064X - 43124566**

Power, look and balance. Not many females can be this stout and so attractive. Maybarry consistently breeds power, sound structure, and striking phenotype. Her daughters are getting it done with level, attractive udders. We lost Maybarry this summer yet at 12 years old she had a nice udder and perfect feet. This may be the best offering we've had out of her! Direct sons sell as 2144, 2154, 2159, 2168 and 1170; grandsons sell as 2108, 2110, 2157 and 1309; granddaughter sells as 1198.

**CL 1 DOMINETTE 617S - 42673551**

The "Female Producer." Her daughters are big-bodied, correct in their skeleton, flat shouldered, and very feminine about their head. They are very milky. We would love to show you the udders on these cows. She raised her last calf at 12 years old and still did a superior job. Her genetics are cow herd builders and will have a forever impact on our herd. Her genetics include 218, 233, 234, 236, 244, 254, 276, 297, 2130, 2196 and 172.

# REFERENCE DAMS

## SHF TIME 001A D81 - P43676395

We purchased D81 for for her curve bending numbers, extraordinary udder and ability to consistently raise quality cattle that ratio so well. She has been admired by many among the Hereford breed. Its pretty rare for a cow to be so phenotypically good, and have such a nice EPD profile. When she calves her mothering ability is as good as you will see. We look forward to her having a big influence in our program and the Hereford breed! 1 son sells, 243, as well as 8 grandsons 239, 263, 287, 293, 2100, 2141, 2167 and 2174 (Harvest sons).

## BCC L1 DOMINETTE 308A - 43418680

We flushed 308 in the spring of 2021 after we realized how many good daughters and granddaughters we have. She is hard working and the kind that out produces herself when bred to any type of bull. A solid producer with genetic consistency. Sons sell as 253, 270, 271 and 295; grandsons 210 and 251; great grandson 235; great granddaughter 107.

+8.6	1.9	49	71	28	53	.27	.03	99

## BCC L1 TAMA 542CET - 43623983

A straight L1, moderate framed, good milking donor cow with exceptional udder quality. Dark cherry red, broody and functional. Ratios 99 for BW and 108.5 for WW on 7 calves. Her type and kind is something we are trying to make a whole cow herd like, feminine and high capacity. Sons sell as 245, 264 and 297; grandson 234.

## The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

Each animal tested is recognized with the AHA GE-EPD logo.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

\* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

## Footnote Guide:

We feel we know our cattle to a high degree. With that said our footnotes are merely a guide to how each individual can be expected to perform for you. With enhanced GE EPDs there is more confidence as to how a bull will breed, yet still never 100%.

When we explain Top % for traits this means they are outliers within the entire breed and in the top %. For example Top 5% for CE & BW is means they're in the top 5% of the breed for CE & BW. CE-calving ease, BW-birth weight, WW-weaning weight, YW-yearling weight, SC-scrotal circumference, MM-milk, M&G-milk and growth, UDDR-udder quality, TEAT-teat size, REA-ribeye area, MARB-marbling, BMI-Baldy Maker Index, CHB- Certified Hereford Beef.

Ratios for BW and WW mean that individual's ratios for actual birth weight and 205-weight within our herd and their age group (contemporary groups). EP stands for eye pigment, LE is left eye and RE is right eye. For example 100% EP LE & RE means that bull has 100% eye pigment in both eyes. We hope you take the time to read our footnotes and we are only one call away to find the best bull for your program.

Homozygous Polled! Sunrise will definitely add some sunshine in the Hereford breed. Power and performance, with calving ease and maternal improvement. His dam weans off a big one with a picture perfect udder at 6 years old. Sunrise is the type of bull that has all the qualities to move a program in the right direction with curve bending EPDs. 16 traits in the top 20% of the breed! Top 2% for CE, SC, UDDER, BIL; Top 3% BW, TEAT, BMI; top 5% CHB; top 10% MARB; top 20% WW, YW, MM, M&G. 100% Eye Pigment both eyes. One of the most exciting bulls to sell ever at the BCC. Retaining 1/4 semen interest.
