**MONDAY, MARCH 11, 2024**  
1 P.M. MDT • AT THE RANCH • LUNCH SERVED AT NOON

## 144 Red Angus Bulls

### Sale Day Phones:

**Chuck Feddes** ..... 406-581-8826  
**Craig DeBoer** ..... 406-570-3304  
**Jake Feddes** ..... 406-581-8157  
**Ryan Clark** ..... 406-581-0868  
**Keith Hickle** ..... 253-405-7181  
**Travis Kindred** ..... 406-580-3124

### Auctioneer:

Kyle Shobe ..... 406-366-0472

### Sale Location:

2.7 miles south of Manhattan on Churchill Road at Feddes Red Angus.

### Association Representatives:

Kyley DeVoe, President ..... Red Angus Association of America  
Kay Klompien, Director ..... Red Angus Association of America  
Keith Hickle, Director ..... Red Angus Association of America  
Tina Ketchum, President ..... Montana Red Angus Association  
Luke Larson, Vice President ..... Montana Red Angus Association

### Sale Representatives:

**Rachel Oliver**, Red Angus Assn. of America ..... 406-480-1569  
**Clint Berry**, Superior Livestock ..... 417-844-1009  
**Jared Murnin** ..... 406-321-1542  
**Nick Bennet** ..... 406-451-3899  
**Jace Thompson** ..... 406-690-4151

### Online Bidding:

Sale broadcast live on DV Auction. Details on page 4.

### Top Dollar Angus

Feddes and C-T Red Angus are Top Dollar Angus Seed-stock Partners. Bulls that qualify for Top Dollar will be on a supplement sheet on sale day.

### Sale Order:

Cattle will sell in catalog order.

### Cattle Inspection:

We welcome your visits and would be happy to show the bulls as well as the cowherd. The bulls will be at Feddes Red Angus just 2.7 miles south of Manhattan.

### Herd Health:

Our program includes Vision 8, Express 5 PHM at branding and weaning, 2 shots of Fusoguard, Cleanup and Valbazen in the fall.

### Calving-Ease Recommendations:

- \*\*\* Recommended for heifers and cows
- \*\* Recommended for large heifers and cows
- \* Recommended for cows only

### Bull Ration:

We developed our bulls together on the ranch on a high-roughage, 45-48 megal cal ration to allow them to show their genetic potential and develop them for longevity.

### Insurance:

**Tyler Holland**, Novich Insurance ..... 406-684-5264

### Transportation:

Bozeman is served by major airlines. Jet service daily north, south, east and west.

### Accommodations:

Broken Spur, Three Forks ..... 1-888-354-3048  
Fort Three Forks Motel, Three Forks ..... 1-800-477-5690  
Super 8, Belgrade ..... 1-800-800-8000  
Holiday Inn Express, Belgrade ..... 1-800-542-6791

### Catalog:

Cow Camp Promotions ..... cowcamppromotions.com

**Chuck and Carol Feddes Family**

**Craig and Taryn DeBoer, Traig, Cayl and Trac**

***WELCOME TO OUR 2024 PRODUCTION SALE!!***

2023 brought record lows on cattle numbers nationwide and along with that record prices. The market became more volatile in the last 3 months of the year, but we have seen prices gain steam again in the early parts of 2024. When we look at heifer retention and cattle inventory numbers, we are noticing a trend, supply will stay well below demand for the next several years. We as cow/calf producers will be in the driver's seat in this market. We believe there is no better time than now to set your operation up for success in the years to come by increasing profitability with some of the best genetics in the breed. **WHERE PERFORMANCE MEETS MATERNAL!**

We want to express our appreciation to all of our friends and customers for your support of our program throughout the years. We really stress maternal traits in our herds without sacrificing performance with calving ease. We are family owned and operated ranches breeding Red Angus cattle since 1991. We utilize extensive AI and embryo transfer programs to provide you with the most advanced and very best genetics possible. We manage the cattle ourselves with limited hired help, so we can represent our cattle from a day-to-day and hands on perspective. We don't chase fads! We breed for "BALANCED TRAIT SELECTION". It looks like the cattle market could be really good for the next few years, so it's vital to watch the maternal traits. We work very hard on our cow herds and would be happy to show them to anyone. We want medium frame cows with great udders and feet, and lots of body with quiet dispositions.

Our cattle run from 4,000 feet to high mountain grass at 8,000 feet in the summer. We use the most advanced technology available – DNA testing, carcass evaluation, along with a strict culling program to give you, the customer the most accurate information possible and the highest quality cattle that will help you stay profitable in the future. EPDs will change a little on some of the cattle between the printing of the catalog and sale time due to weekly runs of BOLT system. Due to these changes and that the ultrasound data has not made it into the EPDs as of the printing of this catalog we will have a supplement sheet available sale day, on our websites as well as DV Auction prior to the sale.

The sires that are represented in the catalog are bulls that we feel fit our breeding philosophies. Bulls we use either AI or natural service are evaluated first for foot quality and structure. If they pass, then we will begin to look at the genetics behind those bulls to make sure they fit within our breeding parameters and will achieve our desired outcomes. We also look at their individual performance data, ratios, EPDs and individual ultrasound data. By going through this strict process, we minimize our number of "mistakes", or finding out 5 years later that bulls we used just didn't work and the daughters are all getting culled from the herd.

Videos will be available through links on our websites: [feddesredangus.com](http://feddesredangus.com) and [ctredangus.com](http://ctredangus.com). We will have DV Auction broadcasting the sale online if you are unable to attend in person.

We are blessed to be able to support our kids and grandkids in various sports as well as 4-H, and other school, church and community activities. Above all we want to thank our Lord and Savior, Jesus Christ for His amazing grace.

*Blessings from the Feddes and DeBoer families*

## SALE INFORMATION

**Cooperators Keith and Brook Hickle, and sons Clay, Cole and Carson  
Rocking Bar H Ranch, Auburn, WA**  
Rocking Bar H Ranch will use RBH prefix on their cattle

**Cooperators Ryan & Lindsey Clark, Laineey, Ryle & Harper  
Clark Red Angus, Fishtail, MT**  
Clark Red Angus will use CCC prefix on their cattle

**Travis & Janet  
Kindred and family –  
Our go-to guy on the  
ranch**

## TERMS AND CONDITIONS

1. The terms of the sale are cash unless prior arrangements have been made.
2. Each animal will be sold to the highest bidder. The auctioneer will settle any disputes and his decision on such matters shall be final.
3. Any announcement from the block on sale day will take precedence over printed material.
4. Health certificates will be furnished for shipment anywhere in the United States.
5. Each animal becomes the buyer's risk as soon as sold. Cattle will be cared for free of charge until April 10. After that feed cost will be \$3.50 per day until delivery.
6. Retained Interest: All bulls will sell half interest and full possession. The buyer receives full possession and full salvage value. The seller has the right to collect semen at the buyer's convenience, and the seller's cost. If the buyer wishes to share in the collection costs and revenues, that is his/her choice.
7. Guarantee: All bulls are guaranteed for soundness and fertility for the first breeding season. If for some reason you are not satisfied, we will arrange for a replacement bull if available. If a replacement is not available, you will receive credit at the next Feddes/C-T sale for the purchase price of the bull minus the salvage value. Injured bulls must be diagnosed by a veterinarian. Please notify us by Oct. 1 of the year of purchase, should an injury occur and prior to the bull being sold. Insurance will be available sale day. We recommend insurance on your purchases.
8. Everyone attending the sale does so at their own risk. Owners, clerks or other helpers do not assume responsibility, legal or otherwise, for damages of any kind.
9. Free delivery in Montana and to central points in adjoining states. Deliveries to points beyond will be at cost basis. We will help arrange deliveries to keep the cost most affordable. \$100 discount for bulls picked up sale day.
10. A certificate of registry and transfer will be furnished for each animal sold as a registered animal after settlement has been made.
11. The above terms and conditions shall constitute a contract between buyer and seller of each animal.

***These cattle do sell in accordance with the Sale Terms and Conditions set forth by the Red Angus Association of America.***

## RED ANGUS GUIDE TO EPDS

[RedAngus.org](http://RedAngus.org)

**ProS**..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB** ..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM**..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED**..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW**..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW**..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW**..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG**..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI**..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK**..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME**..... Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

**HPG**..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM**..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY**..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB**.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**YG**..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

**CW**..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA**..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**FAT**..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

A calving ease bull with lots of power. He left us with a powerful set of bulls and gorgeous females on our first 2 calf crops. They are dark cherry red and loaded with middle and performance. He comes from a powerful and productive cow family. I think he is one of the most exciting and complete young sires in the breed. Owned with Overmiller Red Angus.

A Resource 137E son going back to the famed Linsey 0964 cow. This cow family is the type that never misses. 1052 has left us with phenotypically stunning bulls and very maternal looking daughters. These calves have more growth than the 137E calves with added carcass value.

Drifter is a bull that we tried to purchase from TA Cattle in Nebraska. We were not the winning bidders but were lucky enough to get semen on him. Drifter has excellent calving ease without sacrificing growth or carcass. His sire is an extremely proven female maker in Hobo 0545. The heifers out of Drifter this fall were our heaviest sire group at weaning. Numerous people that have visited this summer and follow have commented on how consistent these calves were and how much they liked them. He is now deceased, and semen is extremely limited.

Quarterback is one of the high use sires around the country. With limited semen available, straws have been selling for up to \$1,000. He is known for calving ease with added growth and carcass. His daughters have been raising top selling bulls and heifers all over the country including the second high selling bull at Berwald Red Angus and the record setting Pieper Hollywood last spring at \$400,000.

137E is a sire from black genetics and his EPDs suffer because of it. He sires bulls with extra stoutness and heifers that are in high demand. His daughters have topped many sales including Feddes Blockana C31-156 that sold for a record setting \$30,000 in the 2021 Bet on Red Sale in Reno. We plan to continue to use 137E and a son or 2. We think the breed and industry can use the soundness, good feet, structure and productive daughters with excellent udders the 137E brings to the table.

Wooden in a bull we sold in 2021. He is a son of MR Coach 1296 who was a sale topper at the MR Angus sale. Wooden sires calves with extra depth, capacity, spring of rib and bone. There's added growth in these bulls. Wooden daughters are some of our very favorite on the ranch with excellent udders and mothering ability.

One of a Kind 520 is a bull we partnered on from Pieper Red Angus. We used him heavily for multiple years and have gone back to using him after seeing his daughters bringing in some of our best calves year after year. The females out of 510 are truly outstanding with incredible udders and above average feet.

Freestyle is a bull owned by ABS that we saw the day he sold and were impressed with his phenotype and power. His calves have followed in his footsteps, and they are hard cattle to fault.

**SELECT OUR BULLS WITH EVEN MORE CONFIDENCE**

We believe in providing our customers with the most accurate information possible. DNA profiling has advanced to the point that when added to a bull's pedigree and his own individual data, the reliability of his EPDs increases significantly. Therefore, to better serve our customers, all of the bulls in the sale have genomic-enhanced EPDs through DNA 50K testing.

The table below shows the estimated number of progeny the DNA information adds to the reliability of the EPDs. For the growth and carcass traits, the higher reliability is equivalent to almost a complete calf crop of steer calves. For a maternal trait like Stayability, it's equivalent to getting information on at least three to four heifer calf-crops.

The genomic-enhanced EPDs are made possible through a partnership between the Red Angus Association of America and GeneSeek. Bottom line: we've made the investment so you can buy bulls from Feddes/C-T Red Angus with the highest possible confidence.

**FEDDES**  
**FAMILY MEATS**  
*Raising Beef in the Valley for 95 yrs!*

**Your only source for local Montana meats!**

**BEEF, LAMB, PORK, GOAT & BISON**

*"From Our Gate to Your Plate!"*

**AMSTERDAM**  
**Meat Shop**  
*Family owned and operated for 75 years*

On July 1, 2020, the Feddes Family purchased the Amsterdam Meat Shop and started Feddes Family Meats, Inc. For several years, Jake has wanted to keep our steers, feed them and market the meat. We never intended to own a state-inspected processing facility, but the Lord works in mysterious ways.

Jake was at the shop inquiring about processing dates and the manager said, "Just buy the place, then you can run as many through as you want."

Six weeks later, we closed on the shop. Since that time, we have added eight employees and doubled processing capacity. We opened a retail space to sell local beef, pork, lamb, goat and bison. We have also started supplying three different restaurants in Bozeman.

We believe that this endeavor affords us the opportunity to look at carcasses from herd mates of the bulls in this catalog and gives us visual data in regard to ribeye size and marbling as well as actual carcass weight and yield grade data. This additional data enables us to look at what genetics are providing superior carcasses as well as not losing the maternal traits that Feddes & C-T Red Angus are known for.

We can truly be the place where "Performance Meets Maternal."

We are very excited about this new endeavor. If any of you need processing done, have finished cattle or need any assistance in these areas, feel free to give Jake a call to chat about it. We look forward to where this added business can bring our operations in the future. If you're dining in Bozeman look for the Feddes Family Meats logo!

- C-T Reputation 0094 has been living up to his name the last 2 calf crops, by building himself quite a "Reputation" for consistent calving ease, plenty of growth and performance coupled with solid carcass data. That's not all! These cattle are correct with the right kind of foot and phenotype structure. His first daughters have just calved and look to make great mother cows. They have beautiful udders, plenty of size and good maternal instincts. 3003 is as complete of a son as you'll find with an eye-catching phenotype and lots of thickness and style. He started with a 94 BR and continued on to a 110 WR and 104 YR. He comes with a balanced set of EPDs; 10 traits in top 24% including top 1% REA. Dam is a moderate, thick, cherry red 3-year-old Darkhorse cow with a solid udder and foot set, all stemming from one of the most proven cow families in the breed - The Blockana's!

- Solid State is a bull that has passed every test and continued to impress us. This is the first Hard Drive calf on our place and could very easily be the one everyone has been looking for to replace his sire. His dam is a 15-year-old donor cow that is still in production. 107W goes back to the Basin herd and is out of one of the greatest female making bulls in Basin Hobo 0545 and her maternal grand sire is Trend Setter 6074 who was also known for highly productive females. His actual weaning weight off the cow was 860lbs. after starting with a 75lb. birthweight and a gain ratio of 119. His foot and leg structure is impeccable. He stands on a huge foot with added depth of heel. He carries as much natural thickness and depth of rib as any bull in the sale and moves very freely. His disposition is the as good as any bull in the sale. His EPD profile is exactly what we are striving for with top maternal traits while not sacrificing growth and carcass. With 14 traits in the top 35% of the breed can you say balance. A maternal brother was the high selling bull in the Wasem sale last spring selling to ABS, WSM Playmaker. 3602 is a bull we will be using heavily in our herd for years to come.

• CE \*\*

Lot 3

Bieber Primrose 107W, Dam to Lot 3

foot and leg structure is impeccable. He stands on a huge foot with added depth of heel. He carries as much natural thickness and depth of rib as any bull in the sale and moves very freely. A maternal brother was the high selling bull in the Wasem sale last spring selling to ABS, WSM Playmaker. 3602 is a bull we will be using heavily in our herd for years to come.

Lot 4

Silverbow is a son of Y17 that win one of our top selling bulls of all time. Y17 has produced some of the top cows in our herd. The Reputation sons were our high selling sire group last year and for good reason. The added growth and carcass without sacrificing maternal traits in this mating is what intrigued us. 13 traits in the top 33% of the breed including 2% ProS, 1% HB, 7% WW, 12% YW, 1% Milk, 7% CEM and 1% Stay. 3218 has continued to knock it out with the third highest gain ratio in the sale at 124. REA ratio 112. Maternal, growth, carcass and cow families, what more could you ask for!

- This is a combination we have been waiting 3 years for. One of the very top donors ever at Feddes Red Angus in Y17 and the consistency and power of Reputation. This mating has not disappointed in any way. Y17 boasts an MPPA of 111 and has produced many herd sires and top selling females for us. A full sister to this bull sold half interest for \$15,000 as a 3-month-old calf. Feddes

- A full brother to Lot 4. This is a combination we have been waiting 3 years for. One of the very top donors ever at Feddes Red Angus in Y17 and the consistency and power of Reputation. This mating has not disappointed in any way. Y17 boasts an MPPA of 111 and has produced many herd sires and top selling females for us. A full sister to this bull sold half interest for \$15,000 as

a 3-month-old calf. Feddes Silverbow is a son of Y17 that was one of our top selling bulls of all time. Y17 has produced some of the top cows in our herd. The Reputation sons were our high selling sire group last year and for good reason. The added growth and carcass without sacrificing maternal traits in this mating is what intrigued us. 11 traits in the top 30% of the breed including 10% ProS, 2% HB, 11% WW, 21% YW, 1% Milk, 7% CEM and 2% Stay. 3210 has followed in his brother's footsteps with a gain ratio of 118. REA ratio 121. Maternal, growth, carcass and cow families, what more could you ask for!

- Take a look at this wide backed, heavy muscled Stockmarket son that comes with extra calving ease, big time performance and lots of carcass. This bull's WW ratio and YW ratio are right at the top with 112 WR and 114 YR. He also tops the EPD charts with ProS, GM, WW, YW, ADG, Marb all in the top 1% of the breed. The Stockmarket calves have been very consistent and will catch your eye on sale day. Dam is a beautiful cherry red 3-year-old with extra muscle, volume and a solid udder. MPPA 105. Have a look at this compete package herd bull prospect!

- A powerful, cherry red, wide backed Drifter son with the "herd bull" look! He is hard to find many holes in with extra calving ease, plenty of growth and solid carcass data. This Drifter sire group has been a very complete group of calves with 3050 right at the top. His personal performance starts with a 98 BR, 106 WR, 105 YR, 120 REA. Extremely balanced EPDs with 10 traits in the top 16%. Dam is as good of a cow as we have on the place. 11 years old, looks like a 6-year-old, solid foot and udder structure, sired by the great female making sire, C-T Grand Statement 1025. She stems back to the proven Verdi cow family and is a direct daughter of C-T Red Rock 5033's dam, C-T Verdi 1030. MPPA 100. Take a look at this bull in the pen!

- This may be one of the most exciting genetic combinations in the sale. We bought these embryos because of the production record of PIE Quarterback and MS Stony A302. Stony A302 may very well be one of the most sought-after cows in the breed with her incredible phenotype and near perfect udder. A full sister to this bull, Berwald Stony 0001, produced numerous of the high selling bulls in the inaugural Berwald bull sale last spring. This bull has a huge hip, incredible spring of rib, great feet and legs and boasts the highest gain ratio in the sale at 129. 72lb. birthweight to a 744 lb. actual weaning weight. 12 traits in the top 32% of the breed This bull should sire some incredible females that will raise front pasture type that will turn into donor cows. We plan to use this bull in our herd.

- This Reputation son comes with balance, eye appeal and plenty of performance. He starts with a nice 78 lb. BW and goes on to a 774 lb. WW. He tops the EPD chart with top 1% WW and YW and also top 10% REA with 106 IMF. Dam is one of our high-volume donor cows from the Verdale cow family that has incredible rib shape and picture-perfect udder, MPPA 100. These Reputation calves have been consistently coming to the top of the calf crops and 3070 may be as good as I've seen!

- A full ET brother to Lots 18 and 97. He is a calving ease specialist with a 71 lb. BW and -3.8 BW EPD. He also provides a balanced set of EPDs with 7 traits in the top 26% and a 108 REA ratio. He is very correct on his feet and legs with plenty of rib and muscle. I love this donor dam 5011 with all her rib shape and maternal traits stemming from the great Verdale cow family.

- We don't typically write a footnote this late in the sale but this bull deserves one! When you study this bull, he is hard to fault in his phenotype. 3225 puts it all together with a huge quarter, spring of rib and a gorgeous front end. He comes from royalty in Feddes Blockana C31. C31 has become our most highly sought after cow from other breeders with her embryos topping many sales and all of her calves demanding top dollar. We have been sexing her embryos to get more daughters of this prolific donor. If we could have an entire herd that looks and produces like her, we would be very happy. One of his full sisters topped the 2021 Bet on Red Sale in Reno for \$30,000, half of another full sister sold for \$10,000 and half of his dam, C31, sold for \$25,000. If you are looking for a cow bull that will add pounds, leave a beautiful phenotype and leave you perfect uddered females that will make you drool, this is the bull for you. REA ratio 106

Genesis 1:26 - Then God said, "Let us make man in Our image, according to Our likeness; and let them rule over the fish of the sea and over the birds of the sky and over the cattle and over all the earth, and over every creeping thing that creeps on the earth."
