WELCOME

celebrating
60 years

MC CUMBER ANGUS RANCH

Welcome to our Annual Production Sale. This year we are celebrating our 60th year in the Angus Seedstock business. A lot has changed in 60 years but our commitment to providing the best seedstock possible to our customers has not. Our PATH has not wavered. Our FOCUS has and will continue to be to produce profitable, problem-free cattle for the commercial cow-calf producer. We BELIEVE an efficient, highly maternal, low maintenance cow herd is key to a profitable operation. We are truly humbled and so thankful for the support of our program over the years and look forward to many more years of providing quality seedstock to you, our customers, friends, and neighbors.

Although we talk about our path and focus not changing, that certainly does not mean we are not constantly striving to make them better. Ultimately, the goal is to make each calf crop better than the last and to continue to progress the direction and goals of our program. We take our job seriously as a seedstock producer and for 60 years have been focused on what is predictable, problem-free, and profitable for your operations.

We believe our offering is one of the most unique you will have the opportunity to evaluate. Not only is the cowherd that produced them recognized around the world for maternal quality, but the bulls and females offered are built unlike many you will have the chance to appraise. A balance of productivity, efficiency, and maternal strength has been bred into them for over 60 years with the same goals and direction at the forefront.

Like last year, we will be providing two options for bidding, viewing, and evaluating the offering. Both DV Auction and Superior Productions will have the videos available for viewing on their websites and will be here on sale day to provide internet bidding. Videos will be available a week or two ahead of the sale.

As always, all the information is provided in the catalog. We will have scrotal measurements available on sale day or by request prior to the sale. The cattle will sell in catalog order. We stand behind the bulls and heifers 100%. If you have a problem, please let us know so we can take care of it to the best of our ability. Please join us for lunch at Noon, and the sale starting at 3:00 P.M. CST. Feel free to contact us with any questions and stop over anytime to view the bulls and go through the cow herd.

Sincerely,

Matt and Cynthia Tastad Family

Chuck and Gail Tastad

Sale Terms & Conditions

All cattle sell under the standard terms and conditions of the American Angus Association. Terms of the sale are cash.

Volume Discounts: We will discount your purchase price 3% on 3 head purchased by one buyer and up to 10% on 10 head purchased by one buyer.

Delivery: We offer free delivery in North Dakota and adjoining states on all bulls and free delivery up to 1,000 miles on purchases totalling \$2,500. Beyond 1,000 miles delivery will be billed at cost.

Sight Unseen Purchase Program: If you cannot attend the sale and would like to purchase bulls, please give us a call and we'll be glad to help you with your order. Describe the type of bull, minimum and maximum parameters and price range. We want to assure you that your bid will be handled with the utmost professionalism and your money handled like it is our own. We guarantee 100% satisfaction on all orders. If you get the bull and don't like him, we will take him back.

Lodging & Transportation

Multiple locations in Minot ND

Rolette ND has a 3,500
foot paved runway. Minot,
ND is served by Northwest
Airlines. Minot is 90 miles
from the ranch.

Herd Health & Nutrition

Herd Health: Bulls have been vaccinated with Vista Once SQ, 7-Way w/Somnus, poured with Ivermectin, and feed Safeguard. The bulls will have passed a complete fertility test. All cattle will sell with interstate health papers.

Nutrition: The bulls were fed a high roughage ration. The ration was balanced to ensure the bull's soundness and longevity. We reached a maximum of 46 Mega Cals, and the protein level was 13.2 percent. The bulls are hard, sound footed, and have not been pushed at all. The ration consisted of Alfalfa, Corn Silage, rolled corn and mineral package. For those that do not know what earlage is, it consists of the grain, cob, and husk, thus adding additional fiber to the ration. The bulls were raised on momma's milk and grass from birth to weaning and have performed well this winter.

Semen Interest

You will notice that we are retaining an interest in quite a few of the bulls. These are bulls we may want to collect semen from in the future for use within our herd. If we are able to sell semen from your bull, we would share with you any revenue generated from the sale of semen. The bulls would be collected when it was convenient for you. The buyer has full possession and salvage value of the bull. Many of these bulls will undoubtedly sell in the price range of the commercial man.

- Top selling bull in 2021 with interest from around the Globe.
- A true, light birth calving ease sire whose calves have incredible newborn calf vigor and get up even in the toughest conditions.
- Stamps his male progeny with true Angus breed character, masculinity, body dimension and natural thickness. Some of the widest based cattle we have come across.
- His first daughters in production have mama cow written all over them, with abundant capacity, thickness, fleshing ease, udder quality, and maternal instincts. They check a lot of boxes.
- His full sisters represent next level fleshing ability, maternal instinct, docility, and udder quality within our program.
- His first progeny were in high demand in last year's sale with 20 sons averaging \$15,000.
- Owned with JR Ranch and Juan Debernardi SRL/Select Sires
- Semen available

- Impressive sire group of both bulls and heifers
- Our selection from the 2019 Ohlde Cattle Company sale
- Sires performance in a moderate, heavy muscled, package with a style and look all their own
- First daughters in production excel for mothering instinct in a quiet, attentive manner, udder quality, fleshing ease and productivity.
- Sparked the attention of cattlemen across the country when he sired 3 heifers that sold for in excess of \$40,000 heifer in last year's production sale
- Dam is a powerful, impressive full sister to OCC Big Time 746Z
- Now deceased, but proved himself in the harsh New Mexico environment where he also sired a strong set of progeny for Diamond 7 Angus
- Owned with Diamond 7 Angus Ranch and Ohlde Cattle

Selling ½ interest and full possession - As his names implies, Mc Cumber Masterplan 3194 was not by chance and is the result of a plan put in motion in 2021 when evaluating his sire Mc Cumber Zodiac 073. When 073 was a yearling being developed here at Mc Cumber, I was sure we had never bred one with as much muscle shape to his top and rear quarter and combined with the structure and soundness as Mc Cumber Zodiac 073 displayed. The mating of 073 to Miss Wix 2012 of Mc Cumber put in motion the plan to combine 073 with one of the most fertile, productive and prepotent females ever at Mc Cumber. Masterplan 3194 is the result and has exceeded all the expectations I would have had for this combination. He is an absolute standout among a powerful pen of bulls with the muscle mass, masculinity, base width and capacity you would expect from Zodiac 073 and the length of body, extended front end, soundness, hoof quality and disposition contributed by his Pathfinder donor dam Miss Wix 2012 of Mc Cumber. In addition to this he has as much hip and rear quarter as we have probably ever put in one and displays the muscle expression while only having .19 in. of BF. He combines this with some of the top performance numbers of the entire offering earning a 205-day weight of nearly 800 lbs., gained 3.97 lbs/day on test and has 365-day weight of 1434 lbs. to rank #2 of the entire offering. I've exceeded my quota on this footnote, so I'll let the record and influence of Miss Wix 2012 of Mc Cumber speak for itself, but there may not have been one better than her ever here at Mc Cumber. We plan to utilize Masterplan back in our herd to build upon the continuity of our breeding program set in place 60 years ago.

Selling ½ interest and full possession - The good ones are timeless and possess the traits that make a positive impact on the industry no matter the fads or what is perceived as popular. Mc Cumber Archive 3187 is a good one with genetic make-up to leave a mark no matter the era or times. A soft, well-balanced, sound structured OCC Edge of Glory son out of the Pathfinder donor dam Miss Wix 2003 of Mc Cumber. He is a heavy muscled, big-bodied bull with extra length to his front end and a large square hip and rear quarter. He has performed well and not only pushes the scale down but has a REA of 14.5 sq. in. for a ratio of 116 and an IMF ratio of 102. His unmatched Pathfinder donor dam has been a cornerstone of our program and will go down as one of the all-time great contributors to our goals and direction. Mc Cumber Archive 3187 is a Maternal Brother to past sale toppers and bulls used back in our program Mc Cumber Steadfast 635, Mc Cumber Armour 7148 and Mc Cumber Zodiac 9119. In addition to this I believe the most complete son of Edge of Glory produced in our program to date with the ingredients to sire forage efficient, easy fleshing, fertile, productive females that will last. Poised to pave his own path into the future with the foundation and predictability of the best from the Miss Wix cow family.

Selling ½ interest and full possession - A herd bull prospect that is designed to move any program forward and if you are serious about building a cowherd that is easy fleshing, fertile, efficient, and maternally superior, Mc Cumber Conviction 3202 should be at the top of your list. Conviction 3202 is one of the top prospects to sell this year that is predictably bred to enhance these traits in any top cowherd. Conviction displays massive volume, natural thickness, and masculinity. He has a large, expressive rear quarter that he carries down deep. He exhibits true Aberdeen-Angus breed character with herd bull presence and authority. He is a heavy weaning bull that came off his recipient dam at 850 lbs. without creep and has good carcass data with a REA ratio of 102 and IMF ratio of 106. His donor dam is a rising star in our program. A herd bull producer that has already produced two top herd sires Mc Cumber Tribute 0145 and Mc Cumber La Joya 202. Miss Wix 8004 of Mc Cumber is not an accident and is produced from the Pathfinder donor dam Miss Wix 7126 of Mc Cumber and Mc Cumber Tremendous 2008. She is a maternal sister to Miss Wix 9122 of Mc Cumber the now 15-year-old dam of Mc Cumber Fortunate 307 and Mc Cumber Trademark 4203 and Miss Wix 175 of Mc Cumber the 13-year-old dam of Mc Cumber Unmistakable 524. We strive to breed cattle that breed true and predictably pass on the maternal strength we have based our program on. The genetic make-up and physical traits that Mc Cumber Conviction 3202 exhibit make him one of the top herd bull prospects from our program in our 60-year history.

Selling ½ interest and full possession - A stout, masculine, heavy muscled son of 4 Real that has excelled at every measure and combines it with an impressive phenotype and generations of top cows behind him. A standout amongst tough competition with massive muscle shape and dimension which he carries down his top into a large expressive rear quarter. This is confirmed by the #1 actual REA of 16.0 sq. in. and a REA ratio of 123, while still maintaining an IMF ratio of 102. A moderate birth weight bull that never looked back after starting with a 78 lb. BW. He earned a WWR of 110 and then nearly hit 1400 lbs. for 365-day weight with a YWR of 110 and an ADG of 3.93 lbs/day for a ratio of 109. His stats are impressive, but even more importantly is the maternal heritage from which he descends. His big-bodied, stout built moderate framed, easy fleshing dam is produced from 4 consecutive generations of Miss Wix Pathfinders and her Pathfinder donor dam calved again this year at the age of 15 and still possesses impeccable udder and teat structure as well as being extremely good footed and sound. He sets the bar high in the race for the top.

Selling ½ interest and full possession - 352 has been a standout from the start and never looked back. He has been catching our eye since the day he was born and went to be the #1 weaning and #1 yearling weight bull of the entire calf crop. He not only is the performance standout of the calf crop but is backed by cows that have excelled for fertility, productivity and functionality. His Pathfinder dam never fails to bring in a good one and has an excellent record for fertility. She is the first daughter of the donor dam Miss Wix 2002 of Mc Cumber, we lost this summer, but has left an impressive legacy of daughters to carry her influence forward. Nearly qualifying as a heifer bull candidate, 352 is a soft big-bodied, naturally thick La Joya son that will not only move a cowherd forward for fleshing ease, fertility, and efficiency but also sire the pounds and performance we desire.

Selling ½ interest and full possession - Recommended for use on heifers -A calving ease, herd bull prospect with generations of the best cows bred at Mc Cumber stacked into his pedigree. A favorite of mine since birth 359 has the credentials to make a positive impact to any program. He has excelled at every measure and earned a WWR of 106 and YWR of 108 as his dam's first calf. 359 is a soft, extra thick, wide based, heavy muscled bull with extra length and extension to his front end. You will really appreciate him on the move with his athleticism on full display and excellent hoof shape both front and rear. His dam is a big bodied, long fronted, near perfect uddered daughter of Edge of Glory and Miss Wix 2012 of Mc Cumber. She bred right back and is nursing another bull calf. She is a flush sister to the \$50,000 Miss Wix 1020 of Mc Cumber who sold in the 2022 production sale as an open heifer and is a member of the same flush that produced the dams of 353 and 383 selling in this sale. Miss Wix 2012 of Mc Cumber and her daughters have risen to the top here and excel for fertility, udder quality, productivity, structural soundness, and disposition. The daughters of Miss Wix 2012 produced both Lot 1 and 2 bulls in last year's sale that sold for \$35,000 and \$22,000 respectively. Mc Cumber Progress 359 represents without a doubt what we strive to produce and contains the genetics to move a program forward.

Selling ½ interest and full possession - A herd bull prospect that gets it done at nearly every level. A favorite of mine all year with impeccable balance, style and soundness. He combines this with extra muscle both down his top and in his hip and rear quarter. He is wide-based and puts a foot down in the corners. His Pathfinder dam is a herd favorite. Built like the kind that will thrive in any environment and still is highly productive. She has massive volume and rib shape and combines this with impeccable udder structure, hoof shape and fleshing ability. She is wide based, naturally thick and easy-going. She has never missed the AI service and brings in a standout every year. 3113 is a complete herd bull prospect that rises to the top amongst tough competitors.

Selling ½ interest and full possession - A powerhouse by Mc Cumber Believe 1169, the top selling bull in our 2022 production sale. 3236 is not only one of the top performers but possesses as much mass and thickness as any bull in this sale. Additionally, he is stout, powerful, easy-going, sound structured and built to sire easy fleshing, forage efficient females that can make an impact. He is outstanding across the board earning a WWR of 113, an ADG of 3.93 lbs/day and a 365-day weight of 1416 lbs. for a YWR of 111. His dam is an a top daughter of Lassie 113 of Mc Cumber, making her a maternal sister to Mc Cumber Tribute 702, Mc Cumber La Joya 098 and Mc Cumber Zodiac 073. She has added capacity, natural thickness and near-perfect udder quality. She is docile, productive and earning her way to the donor pen. 3236 is backed by a plethora of top cows within our program combining the Pathfinder donor dams Lassie 113 and Lassie 935 with Miss Wix 7126, Miss Wix 2003 and Miss Wix 2022.

Selling ½ interest and full possession - Recommended for use on heifers - A unique herd bull prospect that represents what we strive to produce very well. 345 is unmatched with his combination of phenotype and numbers within this group. He started at just 60 lbs at birth and has a CED of +15 and a BW EPD of -3.7. He weaned off his dam without creep at 705 lbs and earned a WWR of 105. He gained above the pen average at 3.68 lbs/day and has a 365-day weight of 1275 lbs for a YWR of 106. His combination of REA and IMF is also in a league of his own with a REA ratio 110, a REA/CWT of 1.20 and IMF ratio of 148, which ranks him in the very top of the bulls. 345 is deep, thick, and loaded with muscle. He displays the masculinity, muscle shape and base width we try to consistently breed into our cattle. He moves with ease across the pen and tracks as true and wide as you can make one. In addition, he has extra extension to his front end and possesses a presence and style all his own. Like his sire, 345 has the potential to be used in large scale heifer AI projects and I am confident that like his sire will prove to be a true, calving ease heifer bull that can be used successfully on any set of heifers. His young dam is a gorgeous, feminine, long bodied near perfect uddered daughter of Sinclair Shadow Rider with an excellent disposition and mothering instincts. Treasure covers all the bases and is bred to make a positive impact on the Beef industry.

Selling ½ interest and full possession - Recommended for use on heifers - One of the top calving ease, herd bull prospects in the sale. The one and only Mc Cumber Cow Power 118 son in the offering with the maternal strength, performance and phenotype to be considered one of the top bulls of the entire offering. He has calving ease stats with a BW of 72 lbs. a CED of +12 and a BW EPD of -1.4. He combines this with above average performance at every measure and both REA and IMF ratios above the average. Statistically he covers the bases, but when you evaluate him phenotypically you will appreciate the muscle mass, capacity, and structural soundness he displays. 3184 is a masculine, wide based, big scrotated, easy-going bull with a balance of traits all wrapped up in a good one. His moderate, stout built, thick dam is neat uddered, easy fleshing, and docile. She is a top Steadfast daughter produced by a maternal sister to Lassie 935 of Mc Cumber who reached Pathfinder status as well and exhibits the fertility, fleshing ease and longevity bred in for generations. There are more Cow Powers on the way next year and we are really excited about this sire group.

Selling 2/3 interest and full possession -Recommended for use of heifers - If you like looking at heavy muscled bulls, then 3108 will be an easy find. 3108 displays as much visual muscle expression to his top and rear quarter of any bull in this sale. He has a big, expressive, square top that comes out of his shoulder and carries all the way along his topline. Additionally, the muscle expression to his hip and rear quarter is impressive as well. He is wide based, wide tracking and built unlike many you will evaluate this sale season. He has a herd bull presence with masculinity and authentic Aberdeen-Angus breed character. He has calving ease numbers and then went on to earn a WWR of 108 and sports a REA of 14.2 for a ratio of 113 and still has an IMF above the average with a ratio of 104. His dam is an easy fleshing, moderate framed, neat uddered daughter of Manzano Electra 0214. She is easy going, good footed, and fertile. Her grand dam is Miss Wix 7126 of Mc Cumber the 4th consecutive generation Pathfinder, donor dam of Mc Cumber Titanium 5005, Miss Wix 9122 of Mc Cumber, the dam of Fortunate 307 and Trademark and Miss Wix 175 of Mc Cumber, the dam of Mc Cumber Unmistakable 524. A combination of proven cows that have excelled for the traits that keep you in business.

Selling ½ interest and full possession - I believe 382 is one of the best Tribute sons we have bred with the muscle, masculinity, and performance to get your attention. He is a wide based, big-bodied beef bull with abundant muscle shape and stoutness. He has performed at a high level at every measure with a WWR of 110, YWR of 106, a REA of 14.3 sq. in. for a ratio of 113 and IMF of 104. His dam is a stout, high volume, naturally thick daughter of Mc Cumber Titanium 5005. She is neat uddered, good footed and has a WWR of 2@105 with another standout heifer calf nursing her this spring. 382 is a mating combination that consistently results in heavy muscled, deep ribbed, high performing cattle that are bred for efficiency and fleshing ability.

Selling 2/3 interest and full possession - A La Joya son for the cows with masculinity, muscle shape, and base width so common among the sire group. 3141 is loaded with meat, he exhibits a big, square top and extra width and dimension to his hip and rear quarter. This herd bull prospect weaned off his dam with an actual weaning weight of 900 lbs without creep and earned a WWR of 117. He can really get out and move with a ground pounding stride that is wide and true. Probably could grow grass between his tracks. His Pathfinder dam is a top producer that also excels for fertility. She is a maternal sister to the Pathfinder donor dam Miss Wix 7126 of Mc Cumber, the dam of 5005. She is big-bodied, naturally thick female that fleshes with ease and stands down a large, well-shaped hoof. She is easy-going even with a newborn and always brings in a top calf. A top La Joya son with added performance, while still possessing all the traits that make the La Joya cattle so impressive.

Selling 1/2 interest and full possession - Recommended for use on heifers - This well-balanced, complete calving ease prospect is sure to catch your eye. Moderate, extra thick, deep-ribbed and wide-based best describes this calving ease herd bull prospect. Stacked with calving ease and light birth 305 started with just a 60 lb. BW and earned a CED of +16 and a BW EPD of -3.8 to ensure his predictable, problem free calving ease on heifers. Stacking both Tribute and La Joya to double up the great Pathfinder Lassie donor dams Lassie 113 and Lassie 935, both still in production at 13 and 15 years old respectively. A true, calving ease herd bull prospect, built with the ingredients to consistently sire forage efficient, easy fleshing, low maintenance progeny.

Selling 2/3 interest and full possession - A big, stout, masculine, long bodied Edge of Glory son with the eye appeal and soundness to get your attention. He is not hard to spot, 335 is built with extra extension to his fronted and carries the added length throughout his entire body. He is built stout, with extra substance and dimension. He is a top performer with an ADG of 3.89 lbs/day and a 365-day weight of 1336 lbs. for a ratio of 105. His moderate, big-bodied dam is highly productive and fertile. She has never missed to the AI service and never fails to bring in a good one. 335 possesses not only an eye-catching body type, but is bred to add pounds, maternal strength and adaptability to any program.

Selling 1/2 interest and full possession - Recommended for use on heifers - Herd bull prospect by Edge of Glory and a top Tribute 702 daughter produced from the 4 consecutive generation Pathfinder donor dam Miss Wix 7126 of Mc Cumber. 331 is a high volume, naturally thick, wide based, square hipped son of Edge of Glory. He is the #1 ADG bull on test with an ADG of 4.49 lbs/day and earned a 365-day weight of 1410 lbs. for a ratio of 111. His dam may be on the fast track to the donor pen and has once again calved first service AI. Miss Wix 0001 of Mc Cumber is a capacious, naturally thick, easy fleshing, near perfect uddered young female. She is built to convert forage and does it efficiently. 331 is one of the top Edge of Glory bulls in this sale and descends from some of the best cows to ever reside at Mc Cumber.

Selling 2/3 interest and full possession - The cowman's kind with mass, muscle and masculinity. 356 has been a favorite of mine since birth with his added mass and muscle. He combines this with soundness, length and top weaning performance. He is easy-going and has the soft cow-maker look we desire. He earned a WWR of 108 and sports a REA ratio of 110 confirming the added muscle expression he displays. His dam is a favorite of mine. She not only is a gorgeous, feminine fronted female with extra length of body but has the added capacity and fleshing ability on forage we strive for. In addition, at the age of 10 she still possesses excellent udder quality and near perfect hoof shape. A herd bull prospect that checks all the boxes.

Selling 2/3 interest and full possession - A thick, heavy muscled Red Meat son with balance and eye appeal combined. A masculine, muscular bull with base width and natural thickness. 3110 is a heavy weaning bull that earned a WWR of 107. He is easy going, good footed and loaded with meat. The Red Meat sire group is consistently good footed, which is always a trait that needs attention. His dam is a top young cow in the program with an excellent production and fertility record to this point. She is a stout, big-bodied cow with thickness and fleshing ability. She displays outstanding udder quality with small, well-placed teats and proper attachment both fore and rear. If you utilize Facebook, she is the dam of the La Joya 2-year-old videoed in the pole barn when Santiago was here in February that we shared to the Mc Cumber page. A really good choice for those looking for a different bloodline in our program.

Selling 2/3 interest and full possession - Here is one neat looking dude, with the softness, capacity, natural thickness and soundness to make an impact to any program. 3137 has a look all his own and possesses the ingredients to sire forage converting, easy fleshing females that will work anywhere. In addition to his impressive phenotype, 3137 has performed well with above average ratios for WW, YW and gain. He combines this with outstanding carcass data with a REA of 15.0 sq. in. for a ratio of 119 and an IMF ratio of 128. His dam is a stout made, easy-going daughter of Mc Cumber Big Time 7188. She is good footed, neat uddered and fertile. He combines the structure, capacity and muscle, with data and maternal strength of a top cow family.

Selling 2/3 interest and full possession - Here is one stout, big-bodied, massive, heavy muscled bull. 372 has as much capacity and internal dimension as you can put into one. In addition, he has performed at every measure and possesses not only the phenotypic ingredients to sire easy fleshing, forage efficient females that will thrive in any environment, but it is bred into him maternally from the easy fleshing, high volume, naturally thick females from which he descends. He stands down on a well-shaped hoof with extra bone and substance. He has an excellent disposition and has been a favorite of mine all year. An excellent option for long-term customers looking for a little different pedigree.

Selling 2/3 interest and full possession - A Red Meat son that is a real load. This thick, massive bodied, wide tracking bull is big hipped and stout made. A forage converter to pounds at its best with some of the best post-weaning performance of the offering. 3105 gained 4.23 lbs/day on test and earned a 365-day weight of 1383 lbs for a ratio of 109. His dam is a tight uddered, small teated daughter of Mc Cumber Titanium 5005 that fleshes easy on forage and converts efficiently. Some new blood for long time customers without sacrificing the goals and direction of our program.

Selling 2/3 interest and full possession - A herd bull prospect by the outside sire Duff JC 4 Real 16250 and produced from the predictable and consistently top producing B Pride 8122 of Mc Cumber. A Maternal Brother to the past sale feature and top-selling bull Mc Cumber Global 07. 311 is a stout, big-bodied, sound structured bull with masculinity and muscle. He has been a standout since birth and has never looked back. His dam is an easy fleshing, fertile, near perfect uddered daughter of Mc Cumber Steadfast 635. 8122 has never missed settling to the AI service and is consistent producer of pounds and performance. She is produced from 2 consecutive generations of Pathfinder donor dams and continues to build upon a tradition of top B Pride females.

Selling 2/3 interest and full possession - Recommended for use on heifers - 3218 has been a favorite of mine since last spring. He has an eye-catching, well-balanced sound structured look to him and is a favorite when evaluating the bulls. Following in the footsteps of his sire 3218 is a masculine, heavy muscled bull with muscle shape and expression to his top and rear quarter. He is wide based and tracks wide as he travels the pen. Not only is he impressive phenotypically but has data to match with above average performance and a top IMF ratio of 112. He is large scrotaled, easy going, bred to sire progeny that will fit the goals of many operations. His dam is a big, stout, OCC Big Time 746Z daughter with excellent udder structure, fleshing ease and disposition. She is a daughter of an all-time favorite 4X13 daughter whose influence spread throughout our program. I'm a big fan of this good bull.

Selling 2/3 interest and full possession. - A thick, wide based, well-made son of Mc Cumber Zodiac 073 with maternal quality bred in for many generations. 346 has the balance, style and soundness to catch your eye when on the move and combines it with a big, expressive rear quarter and a masculine, extended front end. His productive dam is easy going, neat uddered and excellent on her feet and legs. Numbers would indicate that 346 could be used on heifers, but I would recommend him on the cows for the first year at least.

Selling 2/3 interest and full possession - Recommended for use on heifers - This moderate framed, big-hipped, wide based, tank will probably not be for everybody, but if you are concerned about fleshing ease, forage efficiency, adaptability and maternal strength then 3119 should be near the top of your list. A naturally thick, big-bodied calving ease bull with a look and style all his own. His picture doesn't do him justice, so be sure to check out the video, when he gets out on the move you really appreciate the bull. His dam is quickly making her way to the top. She is the dam of last year's Lot 2 bull Mc Cumber La Joya 280 who was used right back here in the program and was the 3rd high selling bull of the day to JR Ranch. Miss Wix 8008 of Mc Cumber is a long bodied, feminine fronted near perfect uddered daughter of Mc Cumber Titanium 5005 and Miss Wix 2012 of Mc Cumber. She is easy-going, good footed and a favorite of visitors to the ranch. She is nursing a stud full brother to Mc Cumber La Joya 280 already this year. A real world bull, bred to sire progeny that work for you, not you for them.

Selling 2/3 interest and full possession - An absolute tank by 4 Real. If you have cattle lacking top then check this guy out. 3151 has a top that pops with muscle and he carries it out into a huge, expressive rear quarter. I've called him diesel since he was a baby calf because I think of a truck when I look at him. He is wide based, big-bodied, and good footed. He has performed well with a WWR of 106, YWR of 101. His visual muscle is confirmed with an actual REA of 15.0 sq. in. for a ratio of 118 and a REA/CWT of 1.30. His dam has brood cow written all over her. Miss Wix 0007 of Mc Cumber is a high volume, thick made female with added stoutness. She is big hipped, wide pinned and has near perfect udder quality. She has settled first service AI every time and is nursing a fancy heifer calf this year. She is a daughter of the Pathfinder donor dam Miss Wix 2012 of Mc Cumber whose influence and importance to our program has been well documented. Additionally, she is a flush sister to the dam of Mc Cumber Black Pearl 291, who topped last year's sale to JR Ranch and Juan Debernardi/Select Sires in Argentina. Built to thrive the toughest conditions and bred to sire forage efficient, adaptable, long-lasting progeny that will make a positive impact.

A thick, heavy muscled, meaty son of Duff Red Meat 20114. 3216 has performed well at every measure and is a well-balanced, sound designed, easy fleshing, wide based bull. He is good footed, with excellent hoof shape and heel depth both front and rear, which is a common trait among the Red Meat sons. His dam is a pretty, neat uddered female with an excellent disposition and a daughter of a top 4X13 daughter that produced to the age of 13. Good choice for longtime customers looking for different blood.

Selling 2/3 interest and full possession - Recommended for use on heifers - A La Joya son with extra length and size. 312 has been a standout from birth and has never looked back. Starting at just 83 lbs at birth, 312 went on to nearly hit the 900 lb mark at weaning with an actual weaning weight of 895 lbs earning a WWR of 111. 312 is long, smooth and deep bodied. He moves with ease as he travels and has an excellent disposition and large scrotal circumference. His dam doesn't miss with a perfect 6 for 6 on AI service and a top production record. One of the top performers in the contemporary group with the ability to enhance the fleshing ease and maternal traits of any cowherd. He will be an easy find and one that can move a program forward.

Selling 2/3 interest and full possession - Recommended for use on heifers - Won't be hard to spot this guy sale day. An extra-long, eye appealing son of La Joya from one of the top cows on the ranch. 329 has been excellent at all the measures. After starting at just 82 lbs. he went on to wean off his outstanding 12 year old dam with an actual weaning weight of 845 lbs. for a ratio of 109 and earned a 365-day weight of 1383 lbs. for a YWR of 109. He is a big-topped, sound structured bull with added length. His fertile, highly productive dam has consistently settled first service AI and is once again at the age of 12 nursing a top end bull calf. She excels for teat size, hoof shape and maternal instinct. The 4X13 daughters have been long-lived, fertile females that are productive and problem free and B Pride 2011 of Mc Cumber is one of the best. 329 is loaded with maternal superiority but also brings excellent performance and carcass to the table as well.

A big, stout, deep bodied performance bull with excellent figures across the board. 3114 is a masculine, soft-made bull with extra capacity and the natural thickness to sire forage efficient easy fleshing females that will make a positive impact to any program. His dam is a feminine near perfect uddered daughter of Mc Cumber Tremendous 2008 with excellent fleshing ease. 3114 is one of the top gainers on test with an ADG of 4.19 lbs/day and a 365-day weight of 1389 lbs. for a ratio of 109. Definitely one with the ingredients to sire market topping calves that really push the scale down.

Selling 2/3 interest and full possession - A top performer of the calf crop with the bred in ability to sire stout, heavy muscled, scale pounding progeny. 3115 is a masculine, long bodied stout bull that moves with ease and catches your eye when you enter the pen. He has weaning and yearling ratios of 111 and 114 respectively. In addition, he has an ADG of 4.19 lbs/day and combines this with a REA ratio of 106 and IMF ratio of 120. His quiet, easy going dam has massive body capacity. She is sound structured, easy fleshing, fertile and highly productive. She is a maternal sister to past sale feature Mc Cumber Remington 031, who has sons selling in this sale. This performance standout will not only sire market topping feeder cattle but leave a set of females that can convert forage efficiently.

Selling 2/3 interest and full possession - A big, stout, heavy muscled La Joya son from the full sister to Mc Cumber Steadfast 635. 3228 is an attractive, well-balanced herd sire prospect with added length and an abundant amount of muscle and stoutness. He has an expressive hip and rear quarter and stands wide and square. He is large scrotaled and easy going. He is one of the top bulls at weaning with a WWR of 110 and earned a 365-day weight of 1354 lbs. for a ratio of 107. In addition to this his muscle expression is confirmed by a REA of 14.6 sq. in. for a ratio of 116 and REA/CWT of 1.20. His dam is stout, good footed, high volume, thick made female with impeccable udder quality and excellent disposition. She is a daughter of the herd bull producer Miss Wix 2003 of Mc Cumber. 3228 combines the best of the Miss Wix and Lassie cow family bringing to the forefront the ability to predictably sire profit-oriented progeny.

Selling 2/3 interest and full possession - Recommended for use on heifers - This masculine, muscular, herd bull prospect has been catching my eye all winter. He has the look we desire, with the mass, muscle and soundness we try to breed into every one of them. This big hipped, expressively muscled La Joya son not only has the build we strive to produce but has performed well across the board with WWR of 109, ADG of 3.68 lbs/day for a ratio of 103 and a 365-day weight of 1353 lbs. for a ratio of 106. In addition to his performance, he is one of the top bulls for carcass with a REA ratio of 106 and IMF ratio of 127. His 12-year-old dam is a moderate, sound, easy fleshing, neat uddered daughter of Sinclair Entrepreneur 8R101. She consistently gets her job done year in and year out. A La Joya son that shines no matter how you look at it. Calving ease, performance, carcass combined with outstanding phenotype for siring forage efficient progeny.

Selling 2/3 interest and full possession - Recommended for use on heifers - I know it gets repetitive, but the mating combination of Mc Cumber Tribute 702 on the Mc Cumber Titanium 5005 daughters does not miss. 3191 is another perfect example of this combination that doesn't fail. A light birth, calving ease son of Tribute with top end performance from start to finish. He is a long-bodied, heavy muscled bull with plenty of capacity and excellent soundness and structure. He is large scrotaled and not only performed well but has a REA of 13.8 sq. in. for a ratio of 110. His dam is a sound, neat uddered, easy fleshing, naturally thick daughter of Mc Cumber Titanium 5005. 3191 checks a lot of boxes from a numbers standpoint and is genetically designed to sire problem-free, predictable, efficient progeny.

Selling 2/3 interest and full possession - A heavy weaning son of Edge of Glory. 3164 is a deep ribbed, long bodied, naturally thick bull. He earned a WWR of 107 and possesses the maternal strength to build a cowherd around. His dam is a top young Mc Cumber Tribute 702. She is off to a good start with a WWR of 2@105 and a perfect record for fertility. She is a feminine, long bodied, high volume female, with a neat, well-attached udder and quiet disposition. She is a maternal sister to Mc Cumber La Joya 280, a top seller in last year's sale and Mc Cumber 073 Zodiac 3119 a feature in this year's offering. Her dam is Miss Wix 8008 of Mc Cumber and grand dam Miss Wix 2012 of Mc Cumber. A prime example of our goal to stack as many of our best cows into the pedigrees of these cattle, to help ensure that what we expect them to do, that they actual do what we expect them to do.

Selling 1/2 interest and full possession - Recommended for use on heifers - Length, muscle shape, body depth and soundness best describe this herd bull prospect by Mc Cumber Zodiac 073. 383 is another of the full brother-in-blood to 353 and 359. He is the top performer of the 3 with a WWR of 108, ADG of 3.80 lbs/day for a ratio of 110 and a 365-day weight of 1315 lbs. for a ratio of 109. His dam is a feminine fronted, big-bodied daughter of OCC Edge of Glory with a neat, well-attached udder and excellent hoof shape and heel depth. She is easy going and a member of an excellent flush of flush sisters by Edge of Glory and Miss Wix 2012 of Mc Cumber. The power and prepotency of Miss Wix 2012 of Mc Cumber and her daughters is well documented. Her daughters have consistently risen towards the top and follow in her footsteps. They are responsible for the top bulls and females offered through our production sale for several years now and are poised to continue to build upon a strong legacy.

Selling 2/3 interest and full possession - Recommended for use on heifers - A complete, well-balanced, sound structured, heavy muscled calving ease herd bull prospect by La Joya 098. 3157 has the masculinity, base width, body capacity and length common among the sire group and combines this with performance and carcass traits. His dam is a new generation Sinclair Extra 4X13 daughter and full sister to Miss Wix 9122 of Mc Cumber, who calved again this year at the age of 15 and Miss Wix 175 of Mc Cumber who produced to the age of twelve. Her 4th consecutive generation Pathfinder dam Miss Wix 7126 of Mc Cumber was lost this past summer at the age of 16. When you combine it with the maternal side of La Joya's pedigree you include his Pathfinder dam Lassie 113 of Mc Cumber producing at the age of 13 and her Pathfinder dam Lassie 935 of Mc Cumber still in production at the age of 15. Time-tested, proven females that have excelled for fertility, productivity, longevity and functionality. I would guess not many bulls selling this year have that much proven longevity stacked into their pedigree.

Selling 1/2 interest and full possession - Recommended for use on heifers - A full brother in blood to the bulls 359 and 383. All 3 are Zodiac 073 sons produced by 3 full sisters by OCC Edge of Glory 841E and Miss Wix 2012 of Mc Cumber. The dams are full flush sisters to the \$50,000 Miss Wix 1020 of Mc Cumber who sold in the 2022 production sale. 353 has been getting our attention from the start. He is an attractive, well-balanced, long bodied bull with top performance and plenty of muscle. He moves with ease and has a big, square hip and rear quarter. He is easy going, large scrotaled and good footed. He combines the best of the Miss Wix and Lassie cow families here at Mc Cumber and is produced from a big-bodied, feminine fronted, neat uddered daughter of Edge of Glory and Miss Wix 2012 of Mc Cumber. A breeding tool to not only inject the proven maternal quality of the cows from which he descends but also sire plenty of performance and carcass quality.

Selling 2/3 interest and full possession - Recommended for use on heifers - An outstanding Tribute 702 son that has all the ingredients of a top herd bull prospect. This masculine, heavy muscled herd bull prospect is a full brother to past sale feature and 2nd top selling bull Mc Cumber Noble 1121. His dam is a moderate, easy fleshing, near perfect uddered daughter of Fortunate Son that never fails to raise a good one and has already calved again to La Joya. Earning her way to the donor pen the old fashioned way, by proving it. 379 has been near the top this winter with an ADG of 4.02 lbs/day and a YWR of 102. He combines both REA and IMF with ratios of 110 and 101 respectively. 379 represents the kind to build a cow herd around.

Selling 2/3 interest and full possession - This massive, big bodied, soft-made bull has a great disposition, large scrotal and good feet. He has extra extension to his front end and added length through. He combines it with muscle shape and expression and a free and easy stride that is so common among the Zodiac 073 sire group. 3214 is one of the top performers, earning a WR of 106, ADG ratio of 106 and a 365-day weight of 1350 lbs for a YWR of 106. A big REA bull that really pushes the scale down. His neat uddered dam is big bodied, long sided and good footed. She has an incredible disposition all the time and passes it on to her progeny. She comes from a long line of productive, fertile, easy fleshing, long-lived Miss Wix females tracing to Miss Wix 2022 of Mc Cumber.

An absolute powerhouse by Edge of Glory with as much mass and muscle as any bull in the offering. A top performer with weaning and yearling weight ratios of 107 and 110 respectively. He is one of the top gaining bulls on test with an ADG of 4.10 lbs/day. This wide tracking, big bodied bull has converted as well as any and is built like one that can thrive in the toughest conditions. His deep bodied, naturally thick dam is a maternal sister to the outstanding Edge of Glory heifer that was a feature of the 2022 sale and his grand dam is a top B Pride cow still in production at 10. Put him on the cows and benefit from the added performance and power he possesses.

Recommended for use on heifers - A top son of Tribute with added length and extension throughout. He is a smooth fronted, long striding bull with the ability to not only calve easy on heifers but add pounds to a calf crop. Started with just a 67 lb BW and then weaned off at 750 lbs. without creep as his dam's first calf. His neat uddered, deep-ribbed, easy fleshing dam is produced from a top Pathfinder dam, tracing back to Miss Wix 2027 of Mc Cumber.

Selling ½ interest and full possession - An April born herd bull prospect that is heavy muscled, masculine, and full of meat. He is the natural born bull calf of the Pathfinder donor dam Lassie 113 of Mc Cumber, who at the age of 12 still got it done with this top bull. 3279 earned a WWR of 108 and then went on to gain 3.68lbs/day on test competing with many bulls over two month older than him. He has a massive REA with an actual REA of 13.0 sq. in. and a REA/CWT of 1.24. He possesses muscle mass, not often found in the current Angus gene pool. His maternal heritage doesn't get much better within our program and has consistently been a source of power, performance, calving ease, fertility, productivity and longevity. Both his Pathfinder dam and Pathfinder grand dam are in production here at the age of 13 and 15 respectively. A unique herd bull prospect with maternal strength and muscle mass combined.

Selling 2/3 interest and full possession - A 4 Real son with impeccable structure, soundness, capacity and muscle. He moves out well with a long, smooth stride and tracks wide as he moves across the pen. He is loaded with muscle and carries it in a soft cow-maker package. He has a REA of 14.1 sq. in. for a ratio of 112 and a REA/CWT of 1.24. His dam is a top young Armour daughter on the rise in our herd. She is a favorite of mine and I would describe her as just the right size with abundant capacity, femininity, and udder quality. She is the kind you see and say, "who is that cow" when going through the cowherd. Her dam is still in production at age 12 and still has impeccable udder quality, hoof shape and fleshing ease. Based on the 4 Real daughters we have calved this year, I would predict the females 3235 will sire will be the kind to build a cowherd around.

MATERNAL BROTHER MC CUMBER LA JOYA 2155

Selling 2/3 interest and full possession - One of the widest based, naturally thick bulls in the entire sale. 328 has abundant center rib dimension and depth of body. He is square hipped, thick topped and puts a foot down out in the corners. He earned a WWR of 109 as his dam's first calf and has 1306 lb. 365-day weight for a ratio of 108. He combines this with one of the top IMF ratios of 143. His moderate, high volume, easy fleshing dam is an impressive you female with extra bone and excellent hoof shape. She is easy going and passed it on to her son. Her Pathfinder dam is going to have her 14th calf this spring here and has a WWR 13 @107 and never fails to get the job done. Predictably bred to sire no nonsense, adaptable progeny that can thrive in even the harshest environments.

Recommended for use on heifers - You won't find calving ease bulls built like this guy on every street corner. 3107 is a tank. He is moderate, with added rib shape and dimension. In addition, he is big topped and carries it out into his hip and rear quarter. His visual muscle is confirmed by a 14.0 sq. in. REA and REA/CWT of 1.30. Along with his muscle he still is above average for IMF with a ratio of 109. His moderate, deep ribbed, neat uddered dam is an ET daughter of Manzano Electra 0214 and Miss Wix 175 of Mc Cumber. Her dam died before I got a parentage test done on her so at this time I am unable to register Miss Wix 1006. 3107 will sell unregistered at this time, but we are working on it. His EPDs are pedigree estimates. Forage conversion, fleshing ease, adaptability and longevity are bred in for generations here.

Recommended for use on heifers - A La Joya son with the depth, thickness and masculinity you expect from the sire group. 3144 displays the true Aberdeen-Angus breed character and exhibits the added base width and soundness we desire. He is a top gaining bull with muscle shape and a large scrotal. His dam is a powerhouse, with mass, thickness and added capacity. She is stout, tight uddered and big hipped. A powerful female by Mc Cumber Titanium 3127 with the fleshing ease, efficiency and predictability bred in.

Recommended for use on heifers - A long, heavy muscled, big topped, square hipped calving ease bull by Duff Red Meat 20114. 3227 has been a top performer at every measure and has a REA of 13.4 sq. in. for a REA ratio of 106. He is a long striding, wide based bull with a large scrotal and excellent disposition. His dam is a beauty, with extra extension to her front end and an overall eye-appealing balance that catches your eye. She has a near perfect udder and combines it with fleshing ease and forage efficiency. One of the best from the Red Meat sire group.

Selling 2/3 interest and full possession - A rugged, stout, big-bodied son of 4 Real with capacity, muscle and soundness. 3169 is one of the quietest bulls in the group with a super disposition. He tracks wide and puts a foot down in the corners. He has been a performer from the start with a WWR of 101, an ADG of 3.89 lbs/day and a 365-day weight of 1328 lbs. for a ratio of 104. His muscle shaped is confirmed by a REA ratio of 109. His docility largely comes from his dam. Lassie 0262 of Mc Cumber is an easy-going, deep ribbed, neat uddered daughter of OCC Big Time 746Z. Her docility is on display every time you are around her no matter newborn calf or working through the chute. We can all appreciate a quiet one, but that's not all 3169 has to offer.

Recommended for use on heifers - A long, smooth Mc Cumber Armour 7148 son with a big top and good disposition. He can work on heifers and then transition to cows if you desire and has good performance from the start with a WWR of 103. He has a long, free stride and extra expression to his hip. His visual muscle is confirmed by a large REA of 13.4 sq. in. and then combines it with an IMF ratio of 110 while having less than .15 in. Back Fat. His dam is a favorite of mine and on the fast track to the donor pen. She is a stout, big-bodied, easy fleshing near perfect uddered daughter of Mc Cumber Trademark 4203 and her Pathfinder donor dam B Pride 463 of Mc Cumber. In addition, she is docile, has excellent hoof shape and is not only productive but fertile as well.

This soggy, big-bodied Noble son is soft-made, sound structured and naturally thick. He is masculine, square hipped, and wide based. He really gets out and moves nicely and is an eye-catching, well-balanced bull. He really performed post weaning with an ADG of 3.93 lbs/day and a YWR of 103. His dam has massive volume and natural thickness. She has a neat, well-attached udder with very good hoof shape and heel depth. She maintains her condition with ease and is an efficient converter of forage. Good, well-bred bull with top cows behind him.

Selling 2/3 interest and full possession - Recommended for use on heifers - A Tribute son that not only doubles up the flush sister Miss Wix 2003 of Mc Cumber and Miss Wix 2002 of Mc Cumber but goes 3 times to Miss Wix 2022 of Mc Cumber in 4 generations. Predictable fertility, productivity and longevity bred into this good bull. A full brother in blood to 327 selling in this sale and are generations of our very best cows stacked into his pedigree. This heavy muscled, calving ease bull started at just 71 lbs. and then earned a WWR of 104 as his dam's first calf. He is packing a large REA of 12.6 sq. in. for a ratio of 105 in his contemporary group and confirms the extra shape and expression he displays. His dam has extra rib dimension, she is wide made and has excellent udder quality and teat placement. She maintains her flesh well and bred right back to the AI service and has a stout bull calf nursing her again. Consistency and predictability is bred into this bull with all the top cows our program has to offer.

Recommended for use on heifers - La Joya 098 consistently stamps his progeny with depth, natural thickness and base width, 394 fits that mold. In addition he is long bodied, square hiped and large scrotaled. His dam is a feminine, neat uddered, productive daughter of Mc Cumber Armour 7148. She has a perfect record for fertility. The combination of Lassie 113 and Miss Wix 2003 is a sure bet for functionality, fleshing ease, and fertility.

Selling 2/3 interest and full possession - A massive, heavy muscled, beef bull that resembles his sire Duff Red Meat 20114 in many ways. 3212 is wide based, square hipped, masculine bull with extra power and dimension. He displays the added muscle shape and dimension that is confirmed by his large REA of 15.2 sq. in. for a ratio of 121, earning him a top 5 ranking in REA. His dam is a big-bodied, easy fleshing, neat uddered daughter of Mc Cumber Tremendous 2008 and the 4th consecutive generation Pathfinder dam Miss Wix 7126 of Mc Cumber. Her flush sister is the dam to a previous sale topper Mc Cumber Believe 1169 and Miss Wix 9015 of Mc Cumber is a well on her way to leaving a positive impact to our cowherd.

Recommended for use on heifers - Calving ease bull with double digit CED and a low BW EPD. 3166 is a long, smooth fronted, easy moving son of La Joya with plenty of capacity and natural thickness. His easy-going dam is good footed, neat uddered and a daughter of Chapman Memento 7601. Along with the calving ease, he should have inherited the ability to sire easy fleshing, forage efficient females that will work in any environment.

A La Joya with mass, muscle and fleshing ability bred in. 3185 is an easy-going, wide based, big-bodied son of La Joya with a large scrotal. His dam is a docile, easy fleshing, deep bodied daughter of OCC Big Time 746Z. She has an excellent fertility record and always gets the job done. The La Joya daughters have been a treat. They are excellent mothers with maternal instinct to get their calf up and going as well as keeping track of the young calf when turned out with larger groups. They are neat uddered and maintaining their condition like we expected them to do.

Recommended for use on heifers - 348 is a long, smooth fronted, masculine calving ease bull by a top Tribute son, Mc Cumber Tribute 0145. 348 got set back a bit this summer by foot rot which affected his weaning performance but has come on strong this winter. His dam is a moderate, easy fleshing, stout, wide hipped daughter of Duff JC 4 Real 16250. We purchased her as a feature of a past Power Plus production sale. She has never missed to the AI service and is nursing another calf this year.

A Red Meat son with masculinity, muscle shape and body capacity. He is a heavy weaning bull that earned a WWR of 106 and combines that with an IMF ratio of 120. His highly productive dam is off to a great start with a WWR of 2@108 and already nursing a standout heifer calf again this year. She is a docile, deep ribbed, long bodied daughter of Manzano Electra 0214 and continues to excel at functionality, fertility, fleshing ability and efficiency. With Red Meat 20114 and Electra combined in this good bull, his pedigree allows for mating flexibility of long-time customers.

Recommended for use on heifers - Another well-bred, deep ribbed, wide based bull maternally backed by Miss Wix 2012 of Mc Cumber. A calving ease bull with mass, muscle and base width. His dam has excellent udder quality and femininity. She is a highly productive daughter of Mc Cumber Tribute 702 combining the best of the Lassie and Miss Wix cow family and doubling up the flush mates Mc Cumber Tremendous 2008 and Miss Wix 2012 of Mc Cumber. A solid performer from the start 3197 is stacked with some of the top cows in our program and combines it with the muscle and mass of Duff Red Meat 20114.

Selling 2/3 interest and full possession - Recommended for use on heifers - A thick, deep bodied, wide based calving ease, cow-maker right from the ET program. 3175 has all the best cows up front in his pedigree. He started at just 66 lbs. and has a CED of +14 and a BW EPD of -1.4. He is moderate framed, easy fleshing and combines this with above average carcass data. His dam is Miss Wix 2002 of Mc Cumber, who along with her flush sister Miss Wix 2003 of Mc Cumber and Miss Wix 2012 of Mc Cumber will go down as 3 of the most impactful females ever at Mc Cumber Angus. The fertility, productivity and longevity they possess and pass on will have a lasting impact on our program.

Recommended for use on heifers - This attractive, well-balanced Armour 0191 son is docile, deep ribbed and heavy muscled. He has over a 13 in REA and sports a REA/CWT of 1.21. 376 has performed well across the board and is produced by an easy-going, neat uddered, sound structured daughter of Mc Cumber Tribute 702. The first Mc Cumber Armour 0191 daughters have come into production this year and display near perfect udder structure, mothering instincts and good dispositions. We are waiting on DNA work on 0191 in order to register his sons and daughters but should be getting close.

An excellent Duff Red Meat 20114 son with added capacity, natural thickness and base width. 3247 is a well-made, square hipped, easy going bull with masculinity and muscle shape common among the Red Meat sire group. His young dam by Mc Cumber Tribute 702 exemplifies the type and kind we strive to produce. She is moderate, deep ribbed, thick, feminine and has an excellent udder structure. She has an excellent disposition and has a bright future within our program.

Recommended for use on heifers - Royally bred calving ease bull. 3130 is loaded with top cows and every cow in the 3rd generation of his pedigree are Pathfinder females. 3130 is a good-looking, deep ribbed, thick made son of Mc Cumber Tribute 0145. He is wide based and big hipped. His moderate framed, neat uddered dam is a full sister to past sale feature females Miss Wix 0148 of Mc Cumber. Her Pathfinder donor dam sets the bar for udder quality and at 15 years of age is still in production. As many top cows in the pedigree of 3130 as we can put in one.

Selling 2/3 interest and full possession - Recommended for use on heifers - A calving ease, cow-maker from the ET program. 3208 combines the best from the N-Bar and Mc Cumber. His pedigree is full of fertile, maternally superior, proven genetics that have stood the test of time. His dam is an easy fleshing, near-perfect uddered good footed cow that at the age of 12 continues to get the job done. 3208 is a long-bodied, smooth made bull with a good disposition. He is masculine and free moving and stands down on a well-shaped hoof. You can build a cowherd with this guy.

A young bull with power, muscle, and performance. A son of the Memento bull we retained for in-herd use from the Pathfinder donor dam Miss Wix 2003 of Mc Cumber. 3275 will not quite be a year old by sale day and has performed right along his older contemporaries. His productive, neat uddered, easy-going dam is off to a great start with a WWR of 2@105 and her third calf at side already this year. 3275 was too young to get an adjusted yearling weight, but really excelled for REA with a REA of 14.1 sq. in. for a ratio of 112 and a REA/CWT of 1.25. Top bull that has not missed a beat.

On track to become one of the top bulls in the sale this summer, but unfortunately lost his dam to a lightning strike. He will continue to get back on track and could be a real sleeper in the group. His dam was a powerful, big-bodied daughter of Fortunate Son with a neat, well-attached udder and excellent hoof shape and heel depth. One of the few La Joya sons that I wouldn't recommend for heifers, but will excel as sire of efficient, easy fleshing females that will work in any environment.

Selling 2/3 interest and full possession - Recommended for use on heifers - A moderate, shapely, masculine ET son of Mc Cumber Believe 1169 and Lassie 113 of Mc Cumber. 3195 is wide based, free moving bull with an expressive hip and rear quarter. His Pathfinder donor dam Lassie 113 of Mc Cumbe is one of the most influential cows in our herd and the dam of Mc Cumber Tribute 702, Mc Cumber La Joya 098, and Mc Cumber Zodiac 073. In addition, she has daughters within the herd that are making their mark as well. Along with the top Lassie cows in his pedigree, he brings the best of the Miss Wix and Dixie Erica cow family from the sire side of his pedigree making him a predictable sire of fertility, productivity, longevity and efficiency.

Recommended for use on heifers - The good looking, calving ease bull by 4 Real is a masculine, muscular bull with extra shape to his hip and rear quarter. He stands down square on all 4 and moves with ease as he travels. His moderate, near perfect uddered dam is easy fleshing and forage efficient. His visual muscle is confirmed by one of the top REA/CWT of the entire offering. Newer sire group for long time customers.

Recommended for use on heifers - You could put a large group of these true, sleep-all-night calving ease bulls together to breed a large group of heifers. There are many half and 3/4 brothers by Tribute, La Joya and 073 that could be run together to create a uniform calf crop with top of the line maternal genetics bred into them. 367 fits this description. He is a sound structured, easy fleshing, well-balanced bull that traces 3 times to Miss Wix 2022 of Mc Cumber in 4 generations and combines this with Miss Wix 2002, Miss Wix 2003, Lassie 113 and Lassie 935. Can't go wrong maternally.

Recommended for use on heifers - This April born Sun Dial son has really performed. He earned a WWR of 106 and was too young to adjust at a year but did not back off and would have ranked as the #1 YW bull of his contemporary group. Don't overlook him because of his age, he has competed right alongside his older contemporaries well and doesn't take a back seat to any of them. His productive dam is a high volume, wide made female with natural thickness and fleshing ability. Maternal strength bred into this good bull.

Recommended for use on heifers - Red Meat son with muscle, capacity and masculinity. Red Meat breeds true to his name and consistently sires added muscle and a big hip and large rear quarter. 3231 is a long-bodied, smooth fronted bull with a large REA of 13.1 sq. in. for a ratio of 104 and a REA/CWT of 1.25. His dam is a perfectly uddered daughter of Tremendous with an excellent disposition and fleshing ease. She is produced from a top cow that earned a BWR 11@94, WWR 11@102, and YWR 11@100.

Selling 2/3 interest and full possession - Wow, what a job this young bull has done. Born 3 weeks later than the next youngest bull in the calf crop and he has excelled at every measure and is truly a herd sire prospect with not only top performance, but the maternal quality to enhance any program. He earned a WWR of 109 and has not slowed down. He is a masculine, big topped, square hipped, wide tracking bull produced from a massive, easy fleshing, neat uddered daughter of Chapman Memento 7601 and Lassie 113 of Mc Cumber. His young dam is off to a great start with a WWR of 2@106 and exhibits an outstanding disposition. Do not overlook this good young bull, he is loaded with top cows and cows that have stood the test of time, with longevity, productivity, and fertility all throughout his pedigree.

Recommended for use on heifers - A smooth, long-bodied calving ease bull by Mc Cumber Armour 0191. 307 started with just a 68 lb BW for a ratio of 92 and earned double digit calving ease EPD and negative BW EPD. His dam is a fancy fronted, deep-ribbed, near perfect uddered daughter of Mc Cumber Tribute 702 and a full sister to the 2021 sale topping female Miss Wix 09 of Mc Cumber. Consistent calving ease bred-in on both sides of the pedigree.

A thick, powerful April born bull with mass, muscle and masculinity. 3278 is a heavy muscled son of Mc Cumber Big Time 7188, who will serve as a natural service sire here at Mc Cumber again this year at the age of 7. 3278 earned a WWR of 101 and has performed well on test. His dam is a tank with massive volume and thickness. She has fault-free udder quality and is one of the easiest fleshing females on the Ranch. Her dam is a top producer with a WWR of 6@103 and YWR 6@106. She has produced sons that have successfully adapted and are working from New Mexico to North Dakota.

Selling 2/3 interest and full possession - Recommended for use on heifers - A top young calving ease herd bull prospect sired by Armour and produced from a Pathfinder dam that never fails to bring in a good one. 3255 is a moderate, well-balanced, attractive patterned bull with muscle mass and structural soundness. He is free moving wide based and catches my eye when viewing his pen. His Pathfinder dam is the kind you wish you had a whole herd of. She is fertile, productive and problem free, and exhibits udder quality, excellent hoof shape and fleshing ease still at the age of 11. 3255 has a pedigree stacked with some of the best Miss Wix cows to ever reside here and is bred to pass on consistently the traits that lead to profitability.

Retaining the right to future flush or IVF collection- A unique sale feature that not only combines the mass, muscle, and eye appealing phenotype, but is the #1 IMF heifer of the calf crop with an IMF ratio of 211. Her dam scanned a 10.47 IMF for a ratio of 279 and ranks as the highest scanning IMF animal ever in our herd. She has passed it on to this young female. In addition, 3165 is a top performer with a WWR of 108 and YWR of 109. Her dam is a deep ribbed, easy fleshing, neat uddered daughter of Shadow Rider that traces to the 4th consecutive generation Pathfinder dam Miss Wix 7126 of Mc Cumber. 3165 is loaded with look, power, performance, and maternal quality bred in for many generations.

A La Joya daughter that puts it all together. She combines calving ease, performance, and carcass as well as any heifer of the calf crop. In addition to this she has abundant capacity, base width, and natural thickness. She is well-balanced, big hiped, wide based and moves with ease as she travels. Her dam is a top young Mc Cumber Armour 7148 daughter that just missed qualifying as a Pathfinder. She is a feminine, big-bodied female with a well-attached udder and small teats. She is fertile, easy fleshing, good footed and docile. She traces to one of the best Tremendous daughters on the Ranch, Lassie 0101 of Mc Cumber. A new generation cow prospect with donor potential and the bred in predictability to impact in a positive way even a top cowherd.

A calving ease Tribute 702 daughter that not only started light, but really performed across the board earning a WWR of 106 and YWR of 106 as her dam's first calf. 301 is a feminine, big bodied, wide made female with expansive rib cage and base width. She has the brood cow look, and I would consider her one of the top Tribute daughters we have offered for sale both phenotypically and genetically. Her dam is an easy-going, neat uddered, naturally thick daughter of Mc Cumber Titanium 5005 and a full sister to a past sale feature and AI sire Mc Cumber 5005 Titanium 9145. Hard to go wrong with a royally bred Tribute daughter.

A 4 Real daughter that has excelled at every measure and combines it with power, mass and soundness to be the front pasture kind. An impressive female with abundant capacity, natural thickness, and the length and extension to get your attention. A standout since she was born 308 has never looked back earning a WWR of 107, YWR of 108, IMF ratio of 122 and REA ratio of 104. She is the kind that will excel in any situation and program be it a low-input operation or one that pushes the bar for maximum output she could fit either place. Her dam is a productive, neat uddered, fertile daughter of Mc Cumber 4X13 Extra 829 and at the age of 11 is nursing another standout La Joya son already this year. Offered strictly as a sale feature and one that could go on to do big things.

A powerful Edge of Glory daughter that ranked near the top at weaning with a WWR of 110. 368 is not hard to find in a pen full of good ones. 368 is built stout from the ground up with substance and bone. She has added rib shape and dimension and carries extra width down her top out into a big, wide square hip and rear quarter. Her dam is a moderate, neat uddered, deep bodied daughter of Mc Cumber Steadfast 635 and is produced from a now 10-year-old Rito Rolette dam that looks like she is 6. Her dam produced well into her teens and was a productive, fertile, donor dam in Canada. 368 is backed by generations of fertile, productive, forage efficient, long-lived females that helps to remove the guess work.

When it comes to building the brood cow kind, OCC Edge of Glory 841E can sire them one after the other and 309 is no exception. I am a patient guy when it comes to breeding cattle, so we took our time making sure he was a fit, before really tying into Edge of Glory. He has exceeded our expectations, so we have really got on board and used him heavily within our program. As the daughters continue to calve, they confirm that it has been a good decision and because of the heavy use we are finally able to offer some more of these females in our production sale. 309 really sets the bar high for her combination of thickness, mass, structure and femininity. She has excelled at every measure and is one of the top heifers of the entire calf crop. Her dam is an impressive daughter of Mc Cumber Titanium 5005 with impeccable udder structure, hoof shape and fleshing ability. 309 is a neat combination of Miss Wix and Dixie Erica cow families.

Built like her $\frac{1}{2}$ sisters with the massive volume and natural thickness so common among the sire group. 3136 is a top performer post-weaning with a YWR of 105, IMF ratio of 112 and REA ratio of 111. In addition to this she has the added power, muscle and structure to work in any environment. Her dam is a long, feminine fronted, neat uddered daughter of Mc Cumber Titanium 3127. She is easy-going, well-balanced, and fertile. You will appreciate the quality of the Edge of Glory females as they become cows.

A fancy, feminine, sound structured, well-bred heifer from the first calf crop by the 2022 sale topper Mc Cumber Believe 1169. In addition, she is strong topped, big hipped and free moving. She has been outstanding post-weaning with a YWR of 103 and an IMF ratio of 104. Her pedigree is loaded with top cows and double and triple bred to a couple. Not only is she triple bred to Miss Wix 2022 of Mc Cumber but is also double bred to Miss Wix 7126 of Mc Cumber and combines Lassie 113 of Mc Cumber as well. Her pedigree also includes a Pathfinder dam in every position in the 3rd generation making her a predictable source of fertility, productivity, and longevity.

A bigger framed, real long bodied female that ranked #2 at weaning with a WWR of 117 off her 11-year-old dam by OCC Tremendous 619T. A power-packed female with explosive growth and maternal strength bred in. In addition to her performance, she combined both IMF and REA with ratios of 101 and 104 respectively. Her dam is a favorite of mine with added capacity, impeccable udder structure and teat placement, correct hoof shape, and excellent disposition. She is highly productive and never fails to bring in a good one. 3102 is a cow prospect from one of the top dams on the Ranch.

I think I repeat this statement time and again when, but here it comes again. 3138 is the result of a mating combination that predictably results in easy fleshing, forage efficient, sound structured progeny. Tribute on a 5005 daughter does not fail and 3138 is another example of this. 3138 is one of the top scanning females of the calf crop with an IMF ratio of 122 and REA ratio of 110. She combines this with a line of Miss Wix cows that go back to Miss Wix 2022 of Mc Cumber that excel for fertility, udder quality, productivity, and longevity.

A well-balanced, feminine fronted, sound structured, long boded daughter of Mc Cumber Tribute 702. She is a long striding female with base width and a long, level hip. Her dam by Memento traces back to B Pride 463 of Mc Cumber and is a docile, stout, deep ribbed female with the ability to convert forage efficiently. The Tribute daughters get the job done consistently. Some sires can make a few good ones, but you have to go through to many to get there, that is not the case with Tribute. He consistently sires daughters that are built for the long haul with impeccable udder quality, fertility, productivity, and structural soundness.

A moderate, deep ribbed, wide based La Joya daughter with a line of top cows behind her. 364 has added thickness and moves out wide and true as she travels. The first La Joya daughters have calved this year and are impressive young females. They get down and have their calf are up licking it off and are some of the most attentive young females we have worked with, not aggressive or mean, but know where their calf is and do a good job of keeping track of it. We can offer some of these good La Joya daughters because he stamps them so well it really doesn't matter if a good one leaves his ability to repeat it is uncanny.

A calving ease Tribute daughter that has been so much more than just a light birth weight female. 366 has been exceptional at every measure with a WWR of 107, YWR of 112, an IMF ratio of 107 and REA ratio of 109 as her dam's first calf. A pedigree loaded with a bunch of top cows that include the flush mates to Mc Cumber Tremendous 2008, Miss Wix 2003 of Mc Cumber and Miss Wix 2002 of Mc Cumber, which makes her triple bred to Miss Wix 2022 of Mc Cumber in 5 generations and combines the top Lassie cows 113 and 935. A lot of predictability is bred into this one.

COMMERCIAL BRED HEIFERS F1 BALDIES

EF1 Cattle Co.

Travis & Summer, Isabel, Gus, George & Hazel Engelhard
701-833-9699

When Matt asked us to consign these heifers to the sale we were honored and excited.

We are offering 45 broody, big boned, high-capacity bred females that are true F1 baldies. The Hereford genetics originate from the Mrnak Hereford Ranch out of Bowman, ND.

We turned out over a 100 head of these heifers with four of the top end heifer bulls in last year's sale. Including sale feature Lot 11, McCumber La Joya 202. Two of the other three bulls are also La Joya sons with one being a Tribute out of a foundation cow. EPDs on the bulls average +11 CE and -1.5 BW.

These easy-fleshing fertile females were ultrasounded on November 1st, with fantastic results, over 90% of the group being bred up in the first cycle. A testament to the fertility and libido of the McCumber Angus bulls. These 45 head are sorted for a 10-day calving window and will start calving May 22nd.

This fancy set of F1 heifers are weighing around 1100 pounds, freeze branded, broke to an electric fence and were in a rotational grazing system. They are gentle, sound footed and have excellent udder quality. A uniform group to build a herd from. Give us a call and stop by to look at these females. We are located right off US HWY 52, two miles east of Carpio, ND.

Selling in groups of 10 or more with buyer having option to take the whole group.

VIEWING THE AUCTION ONLINE

The auction will be broadcast online at Bid.SuperiorLivestock.com and the pre-recorded videos will also be hosted there prior to and on sale day. You do not need an account or login just to watch the auction.

ONLINE BIDDING

Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before you will need to create an account if you wish to bid (there is no registration required just to watch the auction). Once you have created an account, request a buyer number and you will then be able to bid online with the largest and most trusted cattle marketing entity in North America. Superior's new platform allows you to see both the live stream of the auction AND the pre-recorded videos on one screen at the same time!

TURN IN BIDS OVER THE PHONE

This is Superior's suggested bidding method for anybody who does not have consistent, high-speed internet. You still must register an account at Bid.SuperiorLivestock.com and request a buyer number and upon doing so you will see the bid line phone number. Just watch the auction online and call in at least 2 lots ahead of the lot you are looking to bid on.

**FOR HELP WITH REGISTRATION OR ANY PART OF THE BIDDING PROCESS
PLEASE CALL SUPERIOR AT (800) 422-2117.**
