Welcome to our 49th Annual Production Sale

Again it is a pleasure to welcome you to our Annual Production Sale. This is a very exciting time of year. For us, seeing Friends and Customers that have been with us for many years along with meeting many new Angus Friends.

The direction the cattle industry appears to be heading is also exciting. Last year (2021) was a very trying year with the weather; market and World Events. 2022 is sure looking better at this time.

This year in our production Sale, we will be offering 120 big powerful yearling bulls. We're very proud of this set of bulls. They represent the very top of our 2021 production. Also, 150 yearling heifers out of the heart of the commercial herd will be in the offering. These heifers have been Bangs Vaccinated along with all other precondition shots and ready to breed. Weight will be 780lb. to 800lb. on Sale Day. As in the past 25 Cow/Calf Commercial Pairs will also be sold.

The entire sale offering has been bred-Fed-developed and evaluated daily here at Apex.

For over 20 years we have been feeding and finishing our Commercial Steers at Poky Feeders in Kansas. The individual carcass data we receive after-slaughter has been very interesting to follow. With the carcass quality slowly improving the effect on carcass value and grid premiums keeps us on track and is why we raise cattle.

Again, we would like to invite you to Apex on March 1st to the Annual Sale. Any questions give us a call. The sale will be broadcast on Northern Video. If you can't make the sale but would like to bid, pre-register with Northern early (Page 28 in the Catalog) and bid online or of course getting a hold of any of the Swanson's, Ringmen or Auctioneer and your bid will be handled professionally. Don't forget our sight unseen guarantee. Videos of the sale offering will be on Northern Video prior to the Sale for those who would like to view before sale.

We sincerely thank you for the confidence so many of you have placed in Apex Angus. We remain dedicated in producing seed stock that will enhance the commercial cattlemen from birth to plate.

Sincerely,
From all of us at
Apex Angus

FIRST YEAR BREEDING GUARANTEE

All bulls selling for \$3000.00 or more will be covered 50% by Apex Angus if they are injured during their first breeding season. This guarantee does not include death as that can be insured for. Breeding season is defined as a 60-day period following the first turnout of bulls. Fifty percent of the value of the injured bull, minus one-half the salvage value, will be given credit in a future Apex Angus sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Apex Angus and the buyer. All injured bulls must be diagnosed by a veterinarian. We also reserve the right to a second opinion by a veterinarian of our choice. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 2, 2022.

Selling First 150 FANCY SOLID FOUNDATION OPEN HEIFERS

These first-class very feminine deep bodied heifers carry peak performance cowherd building traits. Moderately framed, quiet dispositions, and Added-Value carcass returns.

Our vaccination's program is directed by Dr. Robert Lee, DVM. Bangs vaccinations - December.

Compiling Superior Outcross Genetics

Apex's battery of high performance natural service sires are used in both cowherds. When making Herd Bull Selections within herd and/or introducing outside genetics, Apex's decisions are based on the bulls ability to gain, soundness, scrotal development, docility, conformation and a good strong maternal background.

The Apex Angus cowherd does quite a quick turn around. At 15 months of age heifers and yearling bulls are in the breeding pastures. The steers are already on the kill floor furnishing PRIME and CHOICE carcasses.

The bulls and heifers offered in the 3/1/22 sale will keep on doing for you what they've done for years for Apex Angus, an honest and trustworthy job.

THE APEX ADVANTAGE

Apex Angus meets the needs of both the cowherd and marketplace

Our herd sire selection, outcross or in herd are based on the bulls performance record for gainability, docility, feed conversion, and a good strong maternal background.

942 was used primarily in the commercial herd. Planning to add more structure, maternal strengths and carcass values. That he did. Standing on excellent feet and legs he covered many females in tough country. Our weaning weights improved considerably and carcass info showed much added improvement. 5811's dam, 9045 always a standout, WR 10/109, YR 8/107. Edition is an outcross bull for all programs.
