Bruner Angus Ranch

brunerangusranch

Welcome Cattlemen and Cattlewomen!

It is a pleasure to welcome you to our family's 20th Annual Production Sale, annually held the third Sunday in February. It is because of great repeat buyers and the excellent new customers we have met along the way that we can present this offering to you. We want to personally thank all of you and we are privileged to have the opportunity to be your trusted seed stock supplier.

This year's offering consists of 65 yearling bulls, 35 2-year-old bulls, and 35 registered bred heifers. The commercial female group this year will consist of: 18 commercial Angus open heifers consigned by the Dockter-Jensen Ranch in Denhoff, ND, 25 F1 black baldy heifers from Ryan and Stacy Bruner of Drake, ND, 14 F1 black baldy heifers from Luke and Jacy Peterson of Kief, ND, and new this year 25 commercial Angus bred heifers from the Ronglien Ranch in Towner, ND. This will be the largest and most diversified offering to date with 200+ head that is sure to satisfy your needs!

The yearling bulls were weaned September 14th and have been developed on a ration of barley hay, alfalfa hay, corn silage, rolled corn, and modified distillers grain. This ration is balanced at a NEg of .46 Mcal/lb. and has produced a 3.4 lb. average daily gain since weaning on this set of yearling bulls. After sale day, the energy will be dropped further and they will be moved to a larger pen for more exercise and to create pen space for us during calving. These bulls will be in good breeding shape when they are delivered. This group of yearling bulls are all born in about a 2-week period. This tight age group allows for an easy evaluation for you, the buyer. We have had one of the toughest times this year making our catalog/sale order due to the consistency in this set of bulls. This is a good problem in our eyes and we hope you feel the same!

The 2-year-old bulls this year are big, stout, mature bulls ready to work. Raising 2-year-old bulls is a great test to see how our breeding decisions are benefiting one step further. The power, performance, look, and genetic potential they have exhibited to this point is showing the true benefits of the critical pressure in selection we continue to put on our cowherd. Our 2-year-old bulls come either from our AI/ET program or our top herd bulls. The mothers to these AI/ET bulls in this group are bred to calve the end of April. These bulls are fed a modest growing ration their first winter off the cow, then pastured on grass together as a group, and then returned home in the fall. They are fed the same ration as our yearling bulls the winter preceding the sale. These age-advantage bulls have never been offered for sale and will give you extra reliability and increased cow coverage.

All bulls have genomic enhanced EPD's and are parent verified. This provides the most up-to-date EPD's, \$Values, and also a guaranteed pedigree. The EPD's in the catalog are as of the 1/14/21 update to the AAA database. We will provide a supplement sheet sale day with scrotal measurements, ADG and ADJ Yearling Weights.

The registered bred heifers have been ultra-sounded and sexed with complete calving information in the catalog. In a time when herds may need rebuilding due to tough drought-induced decisions, heifers like these will keep your herd quality high. These heifers will have been poured with Clean-Up II and be up-to-date on their pre-calving Scour Boss and breeding vaccinations before the sale.

Again this year, the sale will be broadcast live online through DVAuction. The individual videos of each lot will be available approximately 2 weeks before the sale. If your schedule does not allow you to be with us sale day, we hope that this option can help out. If you have any questions with this please let us know.

The cattle are available for viewing anytime, or join us at our Pre-Sale Open House at the ranch February 12th from noon to 5 pm and receive \$100 sale day credit! If you have questions please do not hesitate to call. We look forward to seeing you at the sale!

Sale Day Lunch:

Complimentary hot beef lunch starting at 11:30 AM sponsored by Feed Mix of Harvey, ND

Liability:

All persons who attend this sale do so at their own risk, and Bruner Angus Ranch assumes no liability, legal or otherwise, for any accidents which may occur.

Herd Health:

At weaning our calves were given 7-way, Bovishield Gold 5, and One Shot Pasturella. They were boosted with Bovishield Gold 5 and Vision 7 somnus, and poured with Clean-up II. The Bred heifers were given one shot of Scour Boss 4, one shot of Scour Boss 9, and CattleMaster 4 VL5. Our entire cowherd is fecal tested annually for Johnes to ensure our herd stays Johnes-free. All calves were tested, and all sale bulls are negative for BVD-PI. Herd health performed by Russell Behm, DVM, Minot Veterinary Clinic, Minot, ND, and Kristi Best, DVM, Best Vet Services, Towner, ND.

Retained Interest:

Bruner Angus Ranch will retain 1/3 semen interest on all bulls.

Volume Purchase Discount:

The volume discount will be \$100 per bull after the third bull is purchased.

Additional Performance Data:

Adjusted 365-day weights, average daily gain, and actual scrotal measurements will be available sale day. Check out our website, www.brunerangusranch.com, after Feb. 12th for additional performance information.

Terms and Conditions:

The terms of the sale are cash or check payable to Bruner Angus Ranch with the clerks following the sale, unless credit arrangements have been made with Blaine or Travis prior to the sale.

Feeding Arrangements:

We are offering free keep on the bulls until April 1st, and then we will start deliveries. Free keep and delivery will not apply to the females in the sale.

Breeding Guarantee:

A full 60-day breeding season guarantee, from the date of turn out, will be given for any bull selling for \$3,000 or more, for any injury that would keep them from being a breeder for the first breeding season. This does not cover injuries prior to the breeding season. If a problem occurs we will provide a suitable replacement, or you will receive full credit, minus \$2,000, towards a purchase in next year's sale. The guarantee does not cover death as that is insurable. Injury or death prior to delivery of the bull is not the responsibility of Bruner Angus Ranch, also insurable. The bulls are fertile to the best of our knowledge and are guaranteed to pass a breeding soundness exam. We request that you notify us before you cull an infertile bull. We reserve the right to a second opinion by a veterinarian of our choice.

Delivery:

We are offering free delivery within the state of North Dakota. For bulls going outside of North Dakota, we will help coordinate delivery to get the bulls to you as economically as we can. For all Females, it is the buyer's responsibility to transport them to their desired location. The sooner this can be accomplished the better as some of the bred heifers will not be too far away from calving.

Turn Out Bull Sale

Monday, June 6th, Rugby Livestock

Mark your calendars: Bruner Angus Ranch will be holding our 6th Annual Turn Out Bull Sale on Monday, June 6th at Rugby Livestock in Rugby, ND offering 35 yearling and 15 2-year-old bulls ready to work, and 40 replacement heifers. Look for more info this Spring!

Welcome!

Staying the course...Excellent set of cattle, great family, great hospitality and customer service — four things that are very evident when you visit Bruner Angus Ranch. Always striving to improve and make things better are number one at Bruner Angus. They seek out new genetics not only to improve their herd, but also for you, their customers. When doing so, you will likely produce a superior bull of your own. In this case, BAR B-52 is a bull that was born and raised here at Bruner Angus Ranch. He sold in their 2020 Bull Sale, with his first progeny being offered in this sale. You will definitely be amazed at what this young sire is doing. Along with BAR B-52, you'll see offerings by Kessler Commodore 6516, a very popular ABS bull who has calving ease and growth, and another calving ease bull, Connealy King Air. Together with those sires, SAV Emblem, an SAV America performance bull will round out the new additions to the program. This year's sale offering includes 65 yearling bulls, 35 two-year-old bulls, 59 bred heifers, and 52 open commercial heifers of Bruner Genetics. I've mentioned in the past they are proud of their offering and proud of being in the Angus business, as well they should be. If I can be of any assistance, please call me at 701-721-0344.

Sincerely,
Vern Frey

Your guide to our genetics

All bulls have been Zoetis HD 50k tested. These genomic-enhanced EPD results are listed with each lot number in the catalog. To assist in your selection, below is an explanation of each EPD that is listed with each bull.

American Angus Association® Selection Tools

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus.

GROWTH

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Docility (DOC), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves.

CARCASS

The genetic evaluation produces a single set of EPDs for carcass weight, marbling score, Ribeye area and fat thickness. The units of measure are in carcass trait format and analyzed on an age-constant basis.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

MATERNAL

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

\$VALUE INDEXES

\$Value indexes, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

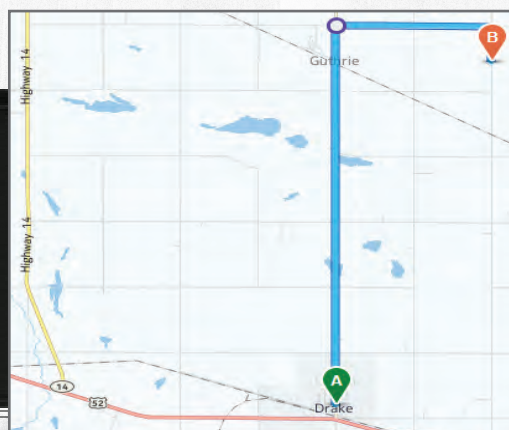

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

Combined Value (\$C), an index, expressed in dollars per head, which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

Directions to the Sale

From Drake, ND:

- Head North on Lake St (CR-10) - 5.8 miles
- Take first Right after the railroad tracks to head East on 41st St NE—2 miles
- Turn Right on 12th Ave NE—0.5 miles
- Arrive at Bruner Angus Ranch, on Right

Lot 1 - BAR B-52 1005 is one of the headliners from the first calf crop of BAR B-52, our record setting and high selling bull from the 2020 production sale. The B-52 calves have been so fun to watch over the last year! With this being the first time we have used a bull we raised and sold into our AI program, they were put to the test against some of the breed's most highly recognized sires. The results completely exceeded our expectations, and made us even more confident in what our operation has accomplished over the last 60+ years. The B-52 calves as a sire group come with moderate birth weights, but never have we seen calves with as much early growth! Driving through the pairs this past spring, it was easy to find them. They already had an attractive look, and extra length, that then propelled them into those extra pounds at weaning time.

1005 was the first B-52 calf born and has been a standout ever since! He was always that calf that would make you stop when you found him in the pasture, to take one extra look. 1005 is super clean fronted and smooth shouldered, but at the same time has possibly the most spring of rib and thickness as any bull in the offering. The part we like about him the best is when you get behind him! He tracks wide with a big square hip and has just the right amount of flex in his rear leg. This bull definitely has "the look", but when you add in a +10 CED to a weaning ratio of 110 you have a herd bull in the making.

1005 was the first B-52 calf born and has been a standout ever since! He was always that calf that would make you stop when you found him in the pasture, to take one extra look. 1005 is super clean fronted and smooth shouldered, but at the same time has possibly the most spring of rib and thickness as any bull in the offering. The part we like about him the best is when you get behind him! He tracks wide with a big square hip and has just the right amount of flex in his rear leg. This bull definitely has "the look", but when you add in a +10 CED to a weaning ratio of 110 you have a herd bull in the making.

The dam of 1005 is a young, up and coming star in our cow herd, who was flushed for the first time this spring. After seeing this calf at her side and picking her son from the year before to use as clean up bull in our own herd, we knew we wanted as many offspring from her as possible. The combination of an excellent young cow and a sire we are very confident in has created an exciting young sire!

BAR B-52 1026

2 BAR B-52 1026

REG #: 20194744

Tag: 439R

Calved: 02/27/21

Lot 2 - BAR B-52 1026 is a high performing, calving ease son of BAR B-52, the \$26,000 high selling bull in 2020 going to Ressler Angus in Cooperstown, ND. Born at a moderate 71 lbs. and performing to an 820 lb. adj. 205 wt. this bull will put your operation to the next level. Thickness, adequate bone, extra rib depth, and a super Angus look is what you will find when you study 1026. Like all the B-52 progeny, 1026 has an extra tick of length that takes you by surprise when they hit the scale. By factoring in the calving ease coupled with top notch growth, this is a bull you can turn in with your best set of replacement heifers and be confident that he will be that herd bull running with your best set of cows in a couple years.

Lots 2&3 - FULL BROTHERS! The donor dam in this pedigree is a beautiful daughter of Mogck Sure Shot, who is responsible for BAR Enhance, the \$16,000 bull purchased by Alta Genetics from our 2020 sale. Udder quality, superb feet, with no lack in performance are all qualities of this Sure Shot cow that we come to expect in our cowherd. Look for this flush of 4 bulls by B-52 (lots 2, 3, 15, & 39) to be a sale highlight!

Lot 4 - BAR Commodore 1024 will be the lead off son of a new sire group

for us this year by Kessler's Commodore 6516. We are excited about this sire group and what is to come in the future. 1024 is the new record setting ADJ 205 weight bull ever at Bruner Angus coming in at a whopping 933 lbs. with a weaning ratio of 132! 1024 is a big time power bull with individual data and genomic data to back him up. With 6 EPD's in the top 1% of the breed this bull will put that next group of big heavy steers on the truck or top performing sons in your next production sale for you.

1024's dam is a first calf heifer, sired by Jindra Acclaim, who really put herself on the watch list after this herd sire she produced. She is big in her outline, while carrying extra depth and rib shape. The granddam in this pedigree was a pathfinder cow that raised above average calves until she was 12 years old, so longevity and maternal excellence is something you can expect from this pedigree.

7	1.5	88	149	0.96	19	0.58	0.43	19

Lot 5 - BAR Commodore 1111 is a big, long stretchy bull that has pounds in all

the right places. Boasting a weaning ratio of 127, this bull has pushed down the scales. He is a big spread bull when you study his EPD's. With performance like this and starting off with a moderate birth, this bull has the ability to improve any registered or commercial operation. Look for 1111 to be a crowd favorite on sale day!

When you dig into the bottom side of the pedigree on 1111, you will find that he was raised by a first calf heifer. His dam had the highest weaning ratio of all the heifer calves in 2019, so her performance was directly injected into her first calf. As you go one generation further you will find Miss Wix 348 of SAF. She is the donor dam of the lots 1 and 16 bulls in last year's February sale, the Lot 2 bull in the June sale, plus a bull we retained for in herd use, all sired by Hoover No Doubt. It is great when we look at a pedigree like this and our best cows keep finding their way to the top. This bull has a ton of performance, with built in maternal influence.

1	4.2	89	160	2.25	24	0.72	0.68	26

Lot 6 - BAR General 1156 is a big-time herd bull with big-time figures! These General sons this year are an excellent sire group from top to bottom. Overall as a group you can count on extra frame, length of body, extra pounds, and mild temperaments. 1156 has been one that impresses us more and more every day. When pounds are what pays, 1156 is a prime candidate - he has a big weaning weight of 854 lbs., he is top 2% for WW, and top 1% for YW.

His dam is an excellent young Resource daughter that stems back to one of the first donor cows here at BAR. The General x Resource combination definitely worked and this is a prime example. Expect heavy feeder calves and replacement heifers that are easy to work with and the kind you will want to keep.

Yearling Bulls

BAR No Doubt 1157

Lots 7 & 8 - BAR No Doubt 1157 & 1155 are full brothers sired by Hoover No Doubt, out of our Sure Shot bred donor dam that has excelled in the multiple ways we have bred her. These are the only 2 bulls in the entire offering by No Doubt and like last year's sire group, they did not disappoint us. The No Doubt sire group last year was the high selling sire group of the day, with 7 sons averaging \$9,785 per head. These 2 bulls this year are very similar in design, full of red meat, superb length, with great feet and leg structure. As you study them on paper you will again find very similar information. Turning out these full brothers together would create a great opportunity for a large group of similar high-performing set of calves.

The donor dam in this pedigree is a second generation donor for us at Bruner Angus. She seems to add extra growth, pounds, and performance to any bull we have mated to her. In our sale last year, she had two ET sons by Young Dale Xcaliber in the 2-year old division that were the most talked about set of ET brothers in that sale. They sold to John and James Ronglien of Towner, ND. Docility, extra frame, and big scrotal bulls like these two sons of Hoover No Doubt are what you can count on when you look at offspring from this cow.

Lot 9 - BAR Emblem 1090 will be a favorite sale day because of his thickness, extra rib expansion, and big square hip. He has been one of the calves that has been really fun to watch since grass turn-out time. His massive rib and depth that carries through his flank and rear quarter comes from his mother. She is one of the thickest, big-barreled cows in the herd. 1090 stands on a really excellent set of feet and legs and tracks wide all the way down to the ground. Keep an eye on this one, he is a good one.

Lot 16 & 17 - FULL BROTHERS! BAR Success 1508 is a headliner in the Success sire group this year. You will not find another bull in the pen with as much spring of rib and depth as this bull. He is an ET bull out of the dam of B-52 and also a full brother to a couple of the best 2 year old bulls this year. 1508 has a big actual weaning weight, a weaning weight EPD in the top 3%, a yearling weight EPD in the top 4%, and foot score EPD's in the top 5% of the breed. Keep all the daughters out of this great Success son as this combines some of the most influential cows from Schaff Angus Valley, Mohnen Angus, and Bruner Angus. They will be the front pasture kind!

BAR Leader 1115

Lot 23 - BAR Leader 1115 is a power house of a bull! He is one of only 2 bulls in the sale sired by Mohnen Leader and we've got a good one here. Full of red meat and muscle, this stout bull is sure to sire a heavy set of steer calves. When you look at the dam side of his pedigree you will find a 12 year old cow that has an average weaning ratio of 106. She also raised the high selling bull for \$9,000 is our 2016 sale. Calves with pay weight and females that keep you in the business is what you can count on from this great bull.

BAR Bomber 1054

Lot 37 - BAR Bomber 1054 Casino Bomber has been one of the most consistent bulls we have ever used for a combination of calving ease and growth, to weaning and yearling. 1054 is a perfect example of Bomber progeny, out of a first calf heifer. He was born with a moderate birth weight and excelled to weaning. Be confident you will be able to put this bull on heifers and have a set of calves that competes with the best of the performance bulls on cows.

BAR King Air 1045

Lot 41 - BAR King Air 1045 is the first bull from a new sire group for us this year by Connealy King Air. As a group, the King Air sons were born the right size, all out of first calf heifers. Since birth they have performed well, and we really like their phenotype. They have nice, small heads, they are clean fronted, smooth shouldered with excellent foot and leg structure. 1045 is the leader of this sire group both individually and on his EPD profile. He had a 107 on his weaning ratio, and has 8 EPD's in the top 10% of the breed including excellent foot score EPD's.

1045's dam is an outstanding Casino Bomber daughter. His great-grandmother is Miss Wix 125 of SAF, the mother to BAR B-52 and multiple other high-selling bulls in our past sales. If you are looking for a new calving ease pedigree with one of our best cows in the background here is your bull.

Lot 66 - BAR Big Money 0403 is one of the youngest born 2 year old's in the pen, but possibly the highest performing! With big-time individual performance, this Big Money son will be a favorite sale day. 0403 is in the running for the stoutest calving ease bull in this entire offering. Coming in with just a 74 lb. birth weight and excelling to a 906 lb. 205 day weight, this bull will produce scale crushing steer calves. Phenotypically when you evaluate 0403 you will find a bull that is clean fronted, nice headed, with a smooth shoulder. His pounds are produced in the back 2/3's with extra rib dimension and a nice big square hip. 0403's dam is off to a great start weaning 2 calves ratioing 111 at weaning.

Miss Wix 125 of SAF

Lot 67, 68 & 69's donor dam is Miss Wix 125 of SAF, best known as the dam of BAR B-52. We have 15 daughters working in our herd that are directly out of 125 and they have all been great cows no matter who their sire is. Be confident in these bulls and pedigrees; they combine some of the best cows in the breed backing them up!

Lot 67 - BAR Big Money 0279 - It is

hard to fault this bull. He captures your attention from every angle. 0279 is sired by a herd bull, Mohnen Big Money 1847, who has been a great breeding bull for us the last few years. You will notice many sons from him in this 2-year-old group, and they all perform well and have great herd bull characteristics.

0279 is the natural calf from our donor dam Miss Wix 125 of SAF. As you can tell, in the donor pen or raising her own natural calf, she always rises to the top. Look for this herd sire candidate to add volume, frame size, and raw pounds to your next calf crop. We have considered keeping 0279 as a walking bull in our operation as a way to continue this great combination. Take advantage of this opportunity!

68 BAR Success 0314

REG #: 20112755 Tag: 7266 Calved: 04/07/20

0	4.2	82	143	1.57	22	0.25	0.87	21	

Lot 68 & 69 - BAR Success 0314 and BAR Success 0316 are massive built 2-year-old bulls. These ET sons sired by Mohnen Success 187, are above average frame, deep bodied, have extra muscle expression, and are super long spined. They have the look of a herd bull and have stuck out since birth. Their performance from birth to weaning was exceptional, but as you can tell by their overall size and shape they have continued that to mature bulls.

0314 & 0316 are full brothers to lot 16 yearling; you can see how this mating progresses and will turn out.

Lot 70 - BAR Circuit Breaker 0344 is an ET

son of SAV Circuit Breaker 7136. The Circuit Breaker sons were the 2nd high selling sire group in the yearling division last year. Nearly perfect feet on every one of these Circuit Breakers, with thickness and volume time and time again. Out of a great daughter of SAV International, pounds will pay and the daughters will be great cows from this excellent herd bull candidate!

Lot 77 - BAR Big Money 0302 another standout Mohnen Big Money 1847 son! This bull is a half-brother to BAR Explosive, the high-selling 2-year-old from 2021 selling to Mohnen Angus of White Lake, SD for \$12,000. A great Angus look, with pounds in the right package is what you will find when you see this bull. His mother is a solid producing Connealy Impression daughter that traces back to the great Miss Wix 125 of SAF.

Lot 94 - BAR Bronc 0280 has been a fun bull to watch as he matures. Sired by our high-selling yearling bull in our 2019 production sale, and is the natural calf of Carlson Madame Pride 8192 (full sister to SAV Renovation 6822) as a first-calf heifer. Carlson Madame Pride 8192 recently sold in the ND State Select Sale to Marshall & Fenner Farms of Missouri for \$17,000. 0280 is a moderate, easy-fleshing bull with great foot structure. The daughters out of this bull will be the keeping kind that will be in your herd for years to come.

Two-Year-Old Bulls

Consigned Heifers

Top bidder takes choice of 5 or more

Dockter-Jensen Ranch, Denhoff, ND
Kerry & Brenda Dockter, Kyle & Kristi Jensen

18 Black Angus Commercial Replacement Heifers

The Dockter-Jensen Ranch has provided a nice uniform set of commercial open heifers this year. There will be 18 heifers in this group that are March/April born calves, and will be big, fancy heifers when pasture time comes. They are sired by some of our previous years' top performing bulls, and it is great to see these results.

Kerry H: 701-884-2754 C: 701-220-7941 Kyle: 701-848-6443

Ryan & Stacy Bruner, Drake, ND

25 F1 Black Baldy Commercial Replacement Heifers

Ryan and Stacy Bruner have 25 F1 black baldy commercial open heifers. These heifers perform year after year and will add pounds to their calf crop. This will be a great opportunity to get the benefits of both the Angus and the Hereford world. All the Angus genetics here are also sired by Bruner Angus bulls, so buy with confidence.

Ryan: 701-626-2199

Luke & Jacy Peterson, Kief, ND

14 F1 Black Baldy Commercial Replacement Heifers

Luke and Jacy Peterson will have a group of 14 F1 black baldy open heifers. Again, all the genetics on the cow side are heavily influenced by Bruner genetics, and will provide a great addition to any commercial operation. Focused on docility and structural soundness, these heifers are the replacement kind.

Luke: 701-400-2221

John & Maxine, James & Alli Rognlien, Towner, ND

25 Black Angus Commercial Bred Heifers

New this year we have 25 bred heifers from the Rognlien Ranch. John and James Rognlien have put together an excellent set of females here. These heifers are ultra-sounded and due May 25-June 14. These heifers are sired by AI sires or Bruner Angus bulls and all bred to Bruner Angus bulls. This will be a great opportunity to build off of a proven cow herd.

James: 701-537-3121

BAR Commitment

- Free Delivery
- Free Keep of Bulls
- Fully Guaranteed
- 4th Generation, Family Run Operation
- Committed to Quality

BAR Mission

At Bruner Angus Ranch, our mission is to produce quality seedstock for the purebred and commercial cattlemen that will add consistency, longevity and maternal strength to their operation. We also strive to give each one of our customers a genuine, trustworthy experience when working with our family, and our cattle.

Thank you, for supporting our operation and allowing us to do what we love, and for being part of our BAR Family!

Pre-Sale Open House - Saturday, February 12th, 1:00pm - 5:00pm

Bruner Angus Ranch will be hosting an open house to cattle buyers interested in previewing our sale offering. Stop by and visit with us individually about how we can help you with your herd's needs. Pre-registration will be available, to save you time on sale day. We are offering a \$100 sale credit for sale day on one Bruner Angus lot, for each ranching family present at the open house.
