GENERAL HEALTH

All bulls will have a general health and fertility exam, performed by a licensed veterinarian, prior to the sale. All bulls are sold as guaranteed breeders. Heifers are guaranteed open and have been Bangs vaccinated, and had preg-guard 10. For re-vaccinating bred cattle always use a killed vaccine. Health certificates will be obtained for interstate transportation, if necessary. Arrangements for any other health requirements will be made sale day, according to terms agreed upon by both buyer and seller. All semen and bull soundness exams performed by Dr. Lane Schmidt DVM.

TERMS OF THE SALE

Terms of the sale are cash. All settlements will be made with the clerks of the sale immediately following the sale and before the cattle are released. *See additional terms and conditions on the inside back cover of this catalog.*

BRAND INSPECTIONS

Brand inspections will be available at the yards on sale day.

GUARANTEES

All bulls are sold as guaranteed breeders. All heifers are sold guaranteed open. Additional terms and guarantees are included in the terms and conditions at the back of the catalog.

DELIVERY

Free delivery on bulls for the first 300 miles, All other deliveries at cost. **There is a \$50 per head rebate on bulls taken home on sale day.** Any animals left for delivery will be delivered from the yards the day after the sale, or returned to the Seller's ranch to be delivered at a later date in accordance with the Seller, or picked up by the Buyer in accordance with the Seller. There will be no free delivery on heifers, arrangements need to be made or they will be delivered at cost.

ABSENTEE BIDDING

Absentee bidding may be made in confidence with any representative listed and will be handled in the strictest of confidence.

Announcements from the block take precedence over printed matter in this catalog.

Welcome to the 15th Annual Bowles J5 Reds Production Sale!

We take a lot of pride and care in the breeding stock that we bring to Glasgow, MT every April. If you are in the market for bulls or heifers we would encourage you to contact us for specific traits that you are pushing for in your program such as disposition, calving ease, maternity, feet, growth etc. As good as epd's are at being a guide for general information it is not a replacement for actual on the ground knowledge of generations of cattle selection or our process to find the right animals to fit our program and environment. I see a chance to improve both the cattle and the programs that use our genetics year by year and we are here to help with any information that you may want. We also have video of all sale animals on

WWW.FRONTIERLIVESALE.COM.

Our cattle are all run on the ranch between Chinook and Harlem, MT south of the Milk River where they experience some of the most drastic temperature and weather changes in America. If you are looking for tough cattle that are bred and acclimatized to succeed in any environment, then you are looking in the right place. From the beginning we have always fed all of our bulls and heifers at home to help make sure we know our cattle well enough that I should be able to tell you nearly anything you would want to know about them. It also allows us to control the diet and the condition that they sell in to be as close to ideal as possible.

I have spent everyday at least twice a day with these bulls and I consider them all my boys. It is important to take care of and manage our cattle as well as we possibly can. I believe a little extra input and effort into a young animal can prime them for the rest of their life. We strive to deliver our customers animals that are sound of both body and mind. As the old man says "you just can't starve a profit out of your cows" what you put in is what you can expect to get out of them. Healthy, happy cattle breed up better, raise healthier calves and breed back again, and you can take that to the Bank.

Thank you for looking to Bowles J5 Reds to further your program.

FEED RATION INFORMATION FOR SALE ANIMALS

Bowles J5 Reds have developed this set of bulls on a high fiber, low-starch, roughage based ration. They have been grown at a conservative rate that ensures longevity, soundness, semen quality, and overall durability. This strategy enables optimization of genetics along with ensuring a bull that will go straight to work. Brady has fed a Hubbard Feeds product called Beef 14 Developer from Ryan Jensen of Milk River Ag. This product is high in fiber and comes with important fortifications to maximize correct performance and health. It has numerous technologies including a mineral package that is 100% Bioplex® organic trace minerals as the source of copper, zinc, manganese and cobalt, along with SelPlex® as a source of organic selenium. It also contains Bio-Mos® and Yea-Sacc® to support overall gut health, feed utilization and performance. Along with this pellet, long stemmed hay made up the majority the diet. The bulls are in great shape and size for breeding season without excess condition.

-Josh Stroh, Beef Field Nutritionist, Hubbard Feeds

We are offering 24 Registered Heifers picked right out of our keep pen. They are from some of our best and most productive cow families that we have here at Bowles J5 Reds. We will sell 8 pens of 3, we will sell pick of the pen until all 3 heifers in the pen have been sold. The winning bidder can take 1, 2, or all 3 heifers in the pen selling. If only 1 heifer is picked the bidding will start up for the pick of the remaining 2 heifers in the pen etc. All sale heifers have had their weaning boosters of 7 Way w/ Somnus and Pyramid 5 w/ Pre-Sponse. They have also had Preg Guard 10, and are Bangs Vaccinated and are tagged with the E I D tags. They have all had Safeguard Drench wormer and have been poured with Clean-Up II. Always use a killed vaccine to vaccinate pregnant bovines. All heifers are guaranteed breeders and are guaranteed to be open.

Any heifers that sell for under \$1200 will be sold as commercial, if you want papers you will need to bid at least \$1200. The sale starts with the heifers so if you are interested get there early. Thank You!

CALVING SUPPLEMENTS

Last trimester and calving to breed-back interval is the most critical time for cow nutrition. Vitamin and mineral supplements support:

- ✓ Reduced calving problems
- ✓ Newborn calf vigor
- ✓ Improved colostrum quality
- ✓ Overall calf health
- ✓ Improved breed-back

Bio-Mos-
Fed 45-60 days prior to calving through turnout will reduce calf scours and improve calf health. Available in most products.

Granular mineral -
Bio Range and Blueprint both offer 100% organic (chelated) trace minerals for complete absorption, with no antagonistic effects.

Crystalyx-
molasses based lick tubs containing protein and vitamin and mineral package.

Cake and Pellets
Bulk or Bagged

- 16%-30% Range Cake
- Calf grower pellets
- Bull developer pellets

YOUR FORAGE SEED SOURCE:

- ✓ Alfalfa
- ✓ Grass
- ✓ Grazing Corn
- ✓ Cover Crops
- ✓ Annual Forages
- ✓ Grain and Silage Corn

This may be the set of heifers with the most production potential that we have ever offered, starting with this pen of 3 all from highly productive, and influential cow families. We are offering pick from these pens but I tried to put them in as consistent of groups as possible so that it wouldn't hurt you to take all 3 if you wanted.

It's not always easy for a smaller framed cow to compete with bigger more powerful cows so keep that in mind while making your selections. This is a hieifers that will work for a living while not getting too big. I really like the way she is put together.

She is fancy and thick made out of a first calf ET heifer by Trilogy X Glorylass out of our Spartacus bull that we really think a lot of. If you are looking for a show prospect this may be the one. An 87 BW ratio to 106 WW ratio and 105 YW ratio I think that is also good.

Not sure why we named Lola, as she is from the Mercedes cow family originally from Westphal's, but hey nobody is perfect. Here is a nice deep thick dark red heifer by Guardian.

[illegible]

Thriller doing what he does, bringing below average birth weight to at or above average growth. Easier said than done on a consistent basis.

We really like these Advocate cattle so far they are making nice young cows with a good balance of carcass and maternal traits. I'm pretty sure she will outperform her numbers as a producer.

A good rule of thumb if you have a really good cow have a bit of an off year on a heifer, keep the heifer. Or in this case buy the heifer they usually come back with great maternal production. Another showy little heifer.

It takes great cows to make great bulls I have herd said, and this bull is a good example of that. If you want a bull to make an incredible set of feeders and females you won't find one much better. Legendary 9080 is extra-long, extra thick, extra deep, extra handsome with and extra good disposition. There are really no words to describe the dimension that this bull possesses. Keeping ¼ semen interest and selling full possession. My daughter Sydney took his picture. Not bad!

If you are looking for power and style it's pretty hard to go wrong here. He is dark red and stout with a sleek yet extremely powerful look about him. These Thriller bulls have a bit more shape and style than most, don't miss out! Dam has an MPPA of 107 for a reason. His biggest attribute may be the fact that he can stand in the same pen as our leadoff bull. You'll know what I mean when you stand next to them. HerdBuilder in top 4% not too bad for a power bull.

He just keeps getting better and better, with a level top, great depth of rib and heart girth he has a really balanced and attractive profile. His mamma is a solid 8 year old cow that does a dang good job year after year. There is a reason we stacked this Legend bull on our Mats Signal cows. We want to have great cattle stacked on great cattle.

Thrill Ride is Big Time. No need to look too hard for him he cannot be missed. He is out of a power cow that already has a son in a Registered herd & she is looking to do it again. If you are looking for an absolute stud you just found him. He hits our target weights as good as we can ask for and does it with style and shape to spare. Keeping ¼ semen interest selling full possession. Why am I selling him again? I don't feel so good, I feel dizzy, I think I'm gonna be sick! It's a Thrill Ride!

High performance and great efficiency in one long bodied super sleek made bull this is the kind of growth and balance that we are striving to produce. Federalist is a long-bodied bull from Biebers with extra marbling growth and ribeye. The dam is a medium sized cow that keeps up with the pack on most years and performed above and beyond on this guy.

If you are looking to put a group of performance cattle together look into putting a few of these Federalist bulls together. You will top the market at the stockyard, on the video or by the load. Cattle with great style and thickness will always top the market in their weight range. The heifers will be a great asset to your bottom line as well.

I would advise that you take a look at this long made stylish and thick made bull out of a 12 year - old cow that calves at the front end every year and holds an MPPA of 103. This is a bull with a lot of upside with efficiency, gain and carcass.

Yes! He is a Thriller in his own right. This bull is super thick and shapy in a medium frame. Out of an 8 year old cow that always puts thickness into her progeny, she outdid herself on this guy though, if you are looking for that masculine shape without extreme mature size he should be at the top of your list. In a word he is AWESOME!!! Keeping 1/4 semen interest selling full possession.

We accidentally had this guy in the wrong group is why he didn't ratio at weaning and yearling. Don't let that scare you away from a really nice heifer bull from a great cow family. When you layer in thickness and style for generations this is the outcome, cattle built to work.

Super stylish heifer bull with added muscle expression. The 905 cow is still working at 11 years old
From the Larson Flo-Marie 185 cow.

[illegible]

This is a heifer bull out of Guardian. His Warrior dam has a lot of style and a positive production history. The Darling cow is from a very attractive line of cows coming from the Laubach program of Big Timber.

There are a lot of $\frac{3}{4}$ and greater brothers throughout the book in multiple sire groups. We greatly value the ability to offer closely related bulls to ensure that our customers can put together some consistently bred cattle.

He is product of his breeding. Long, sleek, with a nice top good depth with the angularity in type to produce those top end beautiful replacement heifers. You know, the kind that outsell your steers!

Legend X Mats Signal again out of a smaller framed yet very stout and sound cow that is always in very solid body condition. One of these days our Mats Signal cows will all get too old and we will miss them, our youngest ones are 8. This cow tends to stamp her calves STOUT!

[illegible]

I like him quite a bit. His mother is a solid count on her every year, bring a herd average calf while being below herd average for mature size cow. We have a type and kind of cattle that we are breeding for and he fits right in.

One of the youngest bulls in the sale he doesn't lack for style of muscle expression, his sire was a direct EBV 3531 son from Sutherlins and his daughters all bred up very early. Heifer bull

NOTES

TERMS & CONDITIONS

TERMS: The terms of the sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before the cattle will be released.

BIDDING DISPUTES: The auctioneer in charge will settle any disputes as to bids and his decision on such matters shall be final.

PURCHASER'S RISK: Each animal will become the risk of the purchaser as soon as sold. Any animals left in the care of the Seller after the sale shall be reasonably cared for and the Buyer will be advised of any health issues that should arise while in the Seller's care.

ANNOUNCEMENTS: Changes of information contained in this catalog relating to animals offered for sale will be announced from the auction box and such announcements shall take precedence over printed material.

REGISTRATION CERTIFICATES: A certificate of registry and transfer will be furnished on all registered cattle at the Buyer's request and after settlement has been made. Certificated will specify exact percentage of Red Angus blood as is applicable. Please be sure to inform the clerk at the time of settlement how you would like the papers transferred.

IDENTIFICATION: Each registered animal carries a readable tattoo.

BREEDING GUARANTEED: All bulls are guaranteed to be breeders and have passed a fertility and soundness exam. All heifers are guaranteed open. Any claims for refund of adjustment must be made in writing within six months of the sale **RATIO**. In the event a bull is claimed to be a non-breeder the purchaser may return the bull to the ranch of the Seller. If in good condition and complying with the health requirements of the Seller's state the Seller will be entitled to a six month trial to prove the bull is or isn't a breeder. The Seller will be obligated to offer a suitable and comparable replacement, credit toward the purchase of another bull or refund the purchase price less any salvage value received by the Buyer. Such replacement, credit or refund shall in any case be deemed full satisfaction and settlement. If the Seller proves the bull to be a breeder it shall be the obligation of the Buyer to take delivery of the animal at the Buyer's expense.

LIABILITY: Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise for damage of any kind.

RETAINED INTEREST: Seller reserves the right to keep a breeding interest in any bull so designated in the catalog or during the auction. In the event Seller elects to collect semen from a designated bull it will be done at Seller's expense and during such time when purchaser is not using the bull for breeding.

IMPLIED WARRANTY: Except for those stated in the terms and conditions there are no warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with the respect to the cattle being sold in this auction. The warranties are set forth in the terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the Buyer or any party claiming through the buyer. For any breach of warranty or guarantee therein provided and all other obligations or liabilities.

CONTRACT: The above terms and conditions shall constitute a contract between the Buyer and Seller of each animal sold.
