BROWN'S

— ANGUS RANCH —

www.brownsangusranch.com

**Sale is 3 miles west of Center, ND at the ranch.
Heated sale barn!**

B RANDED

Fellow Cattleman,

We would like to invite everyone to our 23rd Annual Spring Production Sale. 2020 was a very challenging and difficult year for some, but the world doesn't stop turning for cattle ranchers. We are at this job 24 hours a day and seven days a week. We have a very important job to do, raise beef for consumers all over the globe. The world in 2020 was in a tizzy and the demand for high quality Angus beef was at an all-time high. Although we didn't see the prices of beef directly affect us, it has shown many people in the world how important the cattle ranchers are.

We are a 100% family owned and operated ranch. We value each and every one of our longtime friends and customers we have made throughout the years. We very much appreciate your support and are motivated and dedicated to provide you high quality bulls and females for many years to come.

This year's bull offering consists of the top 40% of our calf crop. We culled very hard this year to offer the best cutting-edge genetics possible. We weaned the bulls in September this year and have grown them out with longevity and soundness in mind. We have put these bulls on test and many of them were gaining over 3.5lbs per day. We selected them for overall calving ease, performance, and phenotype. We feel these bulls will suit anyone's needs, whether you're a purebred seedstock producer or a commercial cow-calf operation. We once again have bigger framed bulls that will sire offspring that excel in the feedlots, and more moderate framed bulls that will stand up to the harsh rangeland of the western states.

This year's offering is sired by some of the most potent and well-respected bulls in the Angus breed for calving ease, growth, carcass, and high maternal genetics. The first calf crop for us from Hoover No Doubt, SAV Downpour 8794, Sitz Accomplishment 720F, SAV Supercharger 6813, and more. They have surpassed our expectations. They are the cowman kind with tremendous depth, calving ease, and growth. The ET calves represented in this offering of bulls and females are of the highest quality and have breeding potential beyond measure. The SAV Blackcap May 7888 flush brothers from three different sires will give you the opportunity to see the consistency and overall depth of body she can inject into her progeny. The Abigale 5646 cow needs no introduction to this program. She has a great flush of bulls from SAV Seedstock 4838 and SAV Cutting Edge 4857, that have extra frame and length and will make a great set of feeding cattle from their progeny. SAV Erica 9448 another favorite donor cow has a very stylish and well balanced flush of bulls by \$235,000 Supercharger 6813. A great opportunity in this sale to get multiple flush brothers.

We will continue to strive breeding top quality Angus cattle that work for the commercial breeder and the registered seed stock operations. We don't select based on just EPD's or data that isn't proven. We select genetics that are deep bodied easy fleshing type that work in anyone's environment. We place very high standards on udder quality, foot structure, and longevity. We don't want to help calves nurse, we don't trim feet on our cows or bulls, and we want them to last well into their teens.

Overall, we feel this is the most complete and powerful set we have ever offered for public auction. We are offering over 95% AI sired bulls. The females come right from the heart of the herd, offering some foundation cow families that have started our program. We hope you can join us on Sunday, February 14, 2021 at 2PM CST at the ranch in our HEATED SALE BARN! Feel free to call us anytime with questions or if you would like to stop in and check out the offering. Once again, we will hold the sale online for our friends and customers that cannot make it on sale day. Check it out online at www.dvauction.com. Videos will be posted for all sale lots prior to the sale. Visit our website at www.brownsangusranch.com for more info.

We look forward to visiting and meeting you on sale day!

Sincerely,

Brown's Angus Ranch

SALE LOCATION

At the ranch, 3 miles west of Center, ND on Highway 25. Watch for the big red and white barn on the North side of the road.

CATTLE VIEWING

The sale cattle will be on display before the sale any time from now until sale day at the ranch. Three miles west of Center, ND on Highway 25.

TRANSPORTATION

Bismarck is serviced by several major airlines.

LUNCH

Lunch will be served starting at noon CST prior to the sale.

GUARANTEE

All bulls selling for \$2,500 or more will be covered 50% by Brown's Angus Ranch if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turn out of bulls. Fifty percent of the value of the injured bull minus 1/2 the salvage value, if any, will be given as credit in a future sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Brown's Angus and the buyer. All injured bulls must be diagnosed by a veterinarian.

Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage.

Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus 1/2 any salvage value will be given to the buyer.

Example 2: A \$2,500 bull is injured and will not heal. A credit of \$1,250 minus 1/2 salvage value will be given to the buyer.

Example 3: A bull less than \$2,500 is injured and will not heal. No credit is given. Buyer retains all salvage value.

BULL DEVELOPMENT

The bulls have been developed in a large group on a high roughage ration to ensure soundness, longevity, and customer satisfaction.

RETAINED INTEREST

We retain 1/3 semen interest on all bulls selling unless noted otherwise.

VIDEOS

Cattle will be videoed ahead of the sale and posted online at www.brownsangusranch.com and on www.dvauction.com a few weeks prior to sale day.

SIGHT-UNSEEN PURCHASES

If you are unable to attend the sale but wish to place a bid, feel free to call Justin, Paul, Kelan, or any sale representation prior to the sale or on sale day. We will handle your bid as if you were at the sale.

GENETIC TESTING

All cattle selling that are suspect by pedigree to be carriers of AM, NH, or CA have been tested and determined free by DNA testing. Cattle that are DDP will be guaranteed to be free if tested.

PERFORMANCE DATA

All performance information has been calculated by the American Angus Association by the use of AHIR. All performance data will be printed in the sale book, or supplement sheets will be available sale day.

ULTRASOUNDING

All the bulls will be ultrasounded for carcass data. Supplement sheets will be available sale day.

HEALTH

All cattle selling have had a complete vaccination program.

FEEDING ARRANGEMENTS

The bulls will be fed free until April 1 unless other feeding arrangements have been made. Feeding is available at \$3/day.

FERTILITY TESTING

The bulls will have passed a breeding soundness exam prior to delivery at sellers' expense unless other arrangements have been made. All females will be vet examined safe for breeding.

FREE DELIVERY IN NORTH DAKOTA!

Free delivery to central stockyards or sale barns in North Dakota. Bulls will be delivered starting April 1. Take \$50 off your bull on sale day if you haul them home yourself. Bring your trailer and save! All the females will need to be hauled to their new home on sale day, unless otherwise arranged.

TERMS OF THE SALE

Terms of sale are cash or check. Please have your ID available for identification. The settlement is to be made on the day of the sale with Brown's Angus Ranch. Cattle will not be released unless payment has been received. All registered animals will be available for transfer. Females will be transferred at buyers' expense. We will need your Angus membership code at the time of settlement.

LIABILITY

The Brown's Angus Ranch assumes no responsibility for accidents or injury.

Comments from the Sale Manager:

THE 23rd ANNUAL PRODUCTION SALE ANGUS CATTLE THAT YOU WILL REALLY APPRECIATE

What a historic day Sunday, February 14, 2021 plans to be as the Brown family celebrates their 23rd Annual Angus Production Sale at the ranch west of Center, North Dakota. Recently I had an opportunity to visit the ranch, without question the greatest set of bulls ever headlined by a spectacular bull Brown Double Decker 0004. What a powerhouse individual sired by Hoover No Doubt, great SAV Blackcap May 7888 cow. Brown Double Decker 0004 is certainly a unique individual and he sells along with his power packed full sister.

Over the years the Brown herd has made tremendous progress. They have used the most dependable and reliable genetics in the Angus breed and they have a long list of satisfied customers. The Brown family is truly devoted and dedicated to the Angus breed. They believe in Angus cattle and have built a great herd over a quarter of a century. Justin along with his family and father are committed to breeding the best Angus in the land.

Why not make plans to attend the Schaff Angus Valley sale on Saturday, February 13th and Brown's Angus sale on Sunday, February 14th.

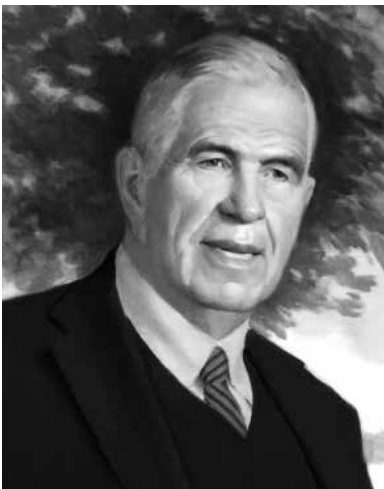

Whether you are a purebred or commercial producer these cattle are designed for you! They are pounds heavy, solid as can be, bred for profit and pounds!

We look forward to seeing our many Angus friends at this historic event!

Sincerely, Tom Burke

Kurt Schaff

Hoover No Doubt was the \$67,500 top-selling bull at the Hoover 2015 auction. No Doubt has been the buzz of the Angus breed. His progeny have met the market's demands for width of base, superior feet, and sound skeletons with real-life true performance that is not just genomic-based. No Doubt consistently transmits style and eye appeal with an unreal amount of meat and muscle. Progeny have topped sales in all corners of the country! Backed by Bullseye and CC&7 – two of the highest proven bulls for Docility in the history of Docility EPD. The No Doubt progeny are unquestionably breed leaders for this important trait! Daughters in production offer a notch more frame and superior udder shape, attachment, and teat size. We are very excited about this great offering of No Doubt sons. We flushed another cow to him this spring and will be getting calves by sale day.

Power is in the blood on this big scale crusher! He broke all records for the heaviest 205 day weight in the history of the ranch. He is destined to be an elite sire for adding pounds and performance to any cow he's bred to. A potential sale topper and AI stud prospect. He is very deep ribbed, stout, super good footed with some extra frame. His breed leading dam is a full sister to the highest income producing cow in the world, S A V Blackcap May 4136. SAV Blackcap May 7888 is very well represented in this sale through her powerful, cowmaker sons and her first elite daughter to ever leave the ranch. Dam is a proven producer and has been flushed very heavily here. 5@106 weaning, 4@109 Yearling.

Another powerful built son of Hoover No Doubt from one of the original cow families, the Black Jestress's. This bull is extra long, good footed, and phenotypically stunning. He has a powerful EPD tabulation that will sire an excellent set of progeny with extra carcass and marbling. His dam is a super good cow with a near perfect udder and attachment. Stems back to the BAR Lucy Trend 942 who was a past donor for us. Dam has 4@100 for birth, 4@104 for weaning.

SAV Downpour 8794 is a powerful, deep ribbed individual with loads of mass and belly. He took top honors as the #1 365 day weight bull in the 2019 SAV sale where he sold for a whopping price of \$100,000 to a group of breeders. His Pathfinder dam has a progeny ratio of 4@106 for weaning and 8@121 for marbling. She is a heavy- milking Resource daughter and is the #1 WEPD & YEPD cow in the SAV herd with 7 daughters retained. Downpour will sire massive, easy fleshing, high milking daughters and high performing bulls.

A great opportunity to get a son from the next generation superstar. He is a deep ribbed, soft made bull from the \$100,000 SAV Downpour 8794. Down Deep 0027 really overachieved starting out with a low birth and ground pounding weaning weight. You won't find many bulls in the breed with this epd spread. He will be a crowd favorite for his sheer mass and power without giving up style. His fantastic dam will be flushed this spring. She has earned her way to the top of our program. Sold a son of hers in 2019 to Clay Nagel, Montana. Dam is 4@92 for birth, 3@104 for weaning, 1@101 for yearling, and 1@110 for RE ratio.

Eldorado E050 is a super elite calving ease bull backed by some of the best outcross genetics in the breed. Eldorado is massively constructed, wide load who posted the highest actual weaning weight in Baldridge Angus history. His beautiful dam Baldridge Pratissa W165 has sired many other AI stud sires such as Forecaster, Zone, and Chancellor. Dam of Eldorado has weaned 4 calves at 107 average and has scanned 34 progeny with a 107 IMF ratio, while also having 4 calves at 97 for birth ratio. E050 remains in the top 10% for birth, weaning and yearling. Top 15% of the breed for marbling. Expect his progeny to add some extra calving ease and carcass merit, without giving up performance.

El Chappo 0031 is a super calving ease bull with as much thickness, body shape, and dimension as any bull we have ever raised. He is moderate framed and super good footed and will surely catch your eye on sale day. Blending the breeds best of Rito 9969, Impression, and now Eldorado. His dam has done a great job on her first calf. We expect great things from this young cow.

3	2.2	70	28	125	-21	82	847	3.67

A low birth Eldorado son that has all the pieces to be a great calving ease prospect. His dam is sired by the popular bull 1682 who has left his mark on the breed in many programs. Her 2019 son sold for \$4250 to Roman Kauffman. She has 2@108 for weaning and 1@111 for yearling weight.

Lot 12 • Brown EL Corona 0022

Brown EL Corona 0022 is a calving ease outcross blending of the carcass bull Eldorado and the meat and muscle sire S A V President 6847. He is extra long bodied, capacious, and has gained very well on test. His dam is a superb producing young female that has done a tremendous job on her first calf. She characterizes a fantastic udder with perfect teats and a nice tight udder. The grandam of EL Corona, the great SAV Emblynnette 4367 was a past donor for us and definitely left her mark while working here and at Schaff Angus Valley. He will make an excellent herd bull prospect for anyone looking for calving ease, growth and carcass with maternal qualities at the top of the breed. Dam Birth Ratio 1@100. Weaning Ratio 1@117.

President sons with breed leading growth and maternal...

SAV President 6847 was the world record and top selling bull of the 2017 sale season, where he fetched a whopping \$750,000 to Herbster Angus of Nebraska. He was liked and admired for his overall thickness and structure, where he exhibited extreme mass and power. He was our pick of the entire world record selling flush by the great Coleman Charlo 0256. He since has sold the new world record selling son, SAV America 8018 at \$1.51 million. We have calves on the way from this great breeding achievement. We love the president daughters we have in production. They exceeded our expectations as first calvers! President sons were very well received in our 2020 Production sale where they averaged \$4,555.

Left-SAV Blackcap May 4136. Highest income producing female in the world at nearly \$11 million.

Right-Brown Prairie 9025. High selling President son in 2020 sale to Chad Berg.

Left-Featured President daughter, Brown Primrose 0014. She sells as Lot 72.

Twister 0046 is possibly the stoutest Rainfall raised to date. He is low birth and massive in his design. Moderate frame, good feet, and fleshing ability. He stems from a cow we purchased from the Steve Silbernagel program in ND. Granddam has produced us 3@110 for weaning and has maintained a 363 day calving interval. The fertility and productivity in this line of Empress Pride cows has been superior for us. The dam of Twister 0046 bred back AI as a first calver while nursing this guy. Dams ratio is 1@92 for birth and 1@104 for weaning.

A standout low birth Rainfall with thickness and lots of style. Rainfall consistently stamps his calves with a very distinct look. They are some of the most consistent calves we have had from such a low birth bull in a long time. His dam is a maternal powerhouse from the great blending of ICC Payraise 4886 with our time tested herd sire BJ's Bearcat 314. Dams weaning ratio is 1@107.

SAV Renown 3439 has been used here for quite a few years for his ability to make a good one on just about any type of cow. He is the most consistent bull we have used in years. He stamps his progeny with his great phenotype and pure power and massive top. He has been a major headliner at Genex AI stud for years. Calves are extremely docile and easy to be around. Our pick of the full brothers that have shocked the Angus world!

Lot 31 • Brown Reclaim 0029

A solid performance bull by Renown with unprecedented muscle shape, added size, and as perfect of feet as we have ever seen. His beautiful uddered dam stems from the proven Black Jestress family, that has been one of our strongest maternal cow families since our inception. Reclaim is a phenotypic standout that will define gorgeous females with superb udder quality and maternal characteristics to keep you in business. BAR Missy Jestress 2942 the granddam of Reclaim, was a donor in our herd and was in production till the age of 16. She sired many herd sires including BAR Netmore, BAR Wildcat 0294, Brown Cut Bank 7001, that have elevated our program to the next level. Dam ratio 2@100 for birth and 2@111 for weaning.

Lot 32 • Brown Report 0019

A standout performance bull from the popular and proven SAV Renown 3439. He carries extra capacity and muscle shape and is solid footed. His dam is a heavy milking daughter of the Musgrave sire Pure Product 903-55 that has left his mark in the Angus breed. Dam characterizes a nice udder with small teats and is always one of the first cows to calve year after year. She is easy fleshing and easy to be around. We have retained a maternal sister by President 6847 that has a real good maternal look.

A big, stout powerful individual backed by one of the most powerful cows on the ranch. This big rugged herd sire prospect has loads of capacity and balance with a good disposition. He is with out a doubt one of the elite bulls on offer. Dam goes back to the Ellingson Angus program where we selected her from their 2017 Sale as a feature and performance leader, where she earned a 205 of 855lbs and a 125 weaning ratio.

A pair of flush brothers for the proven donor SAV Emblynette 6001 and the popular Canadian Sire. The flush brothers will sire a set of cows that will be moderate framed and super easy fleshing with gorgeous udders. This will likely be some of the last 6001 sons offered as she has stopped producing for us. Retained 1 flush sister and she is due to calve very soon.

A low birth calving ease prospect from the \$450,000 Coleman Bravo with tons of rib shape and incredible thickness. Brave Heart 0006 is a powerhouse low birth bull that dominates the ground when he walks. He is structurally correct and has a beautiful front end. This mating is a blending of the best cows in existence. Blackcap May 7888 the sister to the high income producing Blackcap May 4136 and Coleman Donna 714. We retained a flush sister and she is a tremendous bred heifer with lots of middle and style. A flush brother is the service sire of the bred heifers on offer as lots 91-97.

Lot 55 • Brown Brave Heart 0006

A deep ribbed capacious female from the Blending of Brown Cut Bank 7001 and the S Chisum 6175 daughter that had sold a female in our 2019 sale for \$3500 to Iron Heart Ranch in Wyoming. We won't have anymore Cut Bank daughters as he got injured after breeding this calf crop. They will be good uddered cows with longevity like their Paternal dam, the Missy Jestress 2942.

A major headline heifer from the proven and potent S A V Abigale 5646, the dam of \$95,000 and high IMF bull, SAV Eliminator 9105. She's a real powerful female from a multi-generation embryo donor. A full sister weaned off her first calf at a whopping 828 pounds for a 121 weaning ratio. Dam is 8@101 for birth, 8@108 for weaning, 4@113 for yearling, 23@106 IMF, and 23@102 RE. This might be your last chance to get an Abigale 5646 daughter!

A major opportunity to acquire a daughter of the high selling and popular Jindra Blackout. She is a bigger numbered female with performance and style. She has been a standout since a calf and has caught the eye of many people. This rare combination brings in some carcass with maternal. Dam is a easy fleshing daughter of the popular Genex bull SAV Resource 1441. We retained her daughter by Rainfall last year and decided we would offer this standout in our 2021 offering.
