*Selling*

80 BULLS \* 35 FEMALES \* EMBRYOS

SUNDAY, FEBRUARY 11, 2024 \* 2:00 PM CST

Sale is 3 miles west of Center, ND at the ranch.  
*Heated sale barn!*

## *Fellow Cattleman,*

We would like to invite everyone to our 26th Annual Spring Production Sale. Where do we start with this letter this year. We have seen some of the best calf prices ever in the history of raising cattle. Steers are topping markets at \$1800-1900/head. Input costs have more then doubled and the cattle market is finally catching up. We are very optimistic that this market is here to stay for a while. Cow numbers are still at all time lows across the globe. We still have an important job as commercial cow/calf opertors, supplying the best and safest form of protein on the market. I believe right now is the best time to be in the cattle business and it will be here to stay for a while.

We are a 100% family owned and operated ranch. We value each and every one of our longtime friends and customers we have made throughout the years. We very much appreciate your support and are motivated and dedicated to providing you high quality bulls and females for many years to come.

This year's bull offering consists of the top 40% of our calf crop. We culled very hard this year to offer the best cutting-edge genetics possible. We weaned the bulls in September and have grown them out with longevity and soundness in mind. We have put these bulls on test and many of them were gaining over 3.5lbs per day. We selected them for overall calving ease, performance, and phenotype. We feel these bulls will suit anyone's needs, whether you're a purebred seedstock producer or a commercial cow-calf operation. We once again have bigger framed bulls that will sire offspring that excel in the feedlots, and more moderate framed bulls that will stand up to the harsh rangeland of the western states.

This years offering has a few rare matings in it that you wouldn't likely find anywhere else in the country. We are excited to offer a deep powerful set of bulls from the top of the 2023 calf crop. Once again this year we are offering a stout and powerful set of bulls sired by our record selling bull Brown Double Decker 0004. First calf crop of our new herd sire CFI Payout; calving ease with the look and muscle that will be a crowd favorite. Other notable sires include EXAR Declaration 1686B, International, Eldorado, Rito 9969, Bloodline, and Sterling. They are sure to catch your attention as many of these are backed by proven cows that have been time tested around the world in many diifferent environments. We have an elite set of power packed performance bulls from Double Decker that you wont miss in the pens. The female offering is the most maternal bred sets we have ever offered for sale at auction. There has never been this many daughters and grand daughters of EXT sell at one place in years. We feel there are many potential donors in this offering. We are offering females from the first calf crop of CFI Payout. They are the right type and kind for our ND environments, deep bodied, easy fleshing with a productive look.

We will continue to strive in breeding top quality Angus cattle that work for the commercial breeder and the registered seed stock producers. We don't select based on just EPD's or data that isn't proven. We select genetics that are deep bodied, easy fleshing type that work in anyone's environment. We place very high standards on udder quality, foot structure, and longevity. We don't want to help calves nurse, we don't trim feet on our cows or bulls, and we want them to last well into their teens.

Overall, we feel this is the most complete and powerful set we have ever offered for public auction. We are offering over 95% AI sired bulls. The females come right from the heart of the herd, offering some foundation cow families that have started our program. We hope you can join us on Sunday, February 11, 2024 at 2PM CST at the ranch in our HEATED SALE BARN! Feel free to call us anytime with questions or if you would like to stop in and check out the offering. Once again, we will hold the sale online for our friends and customers that cannot make it on sale day. Check it out online at [www.dvauction.com](http://www.dvauction.com). Videos will be posted for all sale lots prior to the sale. Visit our website at [www.brownsangusranch.com](http://www.brownsangusranch.com) for more info.

We look forward to visiting and meeting you on sale day!

Sincerely,

## *Brown's Angus Ranch*

Rod Geppert, American Angus Rep (605) 295-3673

## SALE LOCATION

At the ranch, 3 miles west of Center, ND on Highway 25. Watch for the big red and white barn on the North side of the road.

## CATTLE VIEWING

The sale cattle will be on display before the sale any time from now until sale day at the ranch. Three miles west of Center, ND on Highway 25.

## TRANSPORTATION

Bismarck is serviced by several major airlines.

## LUNCH

Lunch will be served starting at noon CST prior to the sale.

## GUARANTEE

All bulls selling for \$3,500 or more will be covered 50% by Brown's Angus Ranch if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turn out of bulls. Fifty percent of the value of the injured bull minus 1/2 the salvage value, if any, will be given as credit in a future sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Brown's Angus and the buyer. All injured bulls must be diagnosed by a veterinarian.

Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage.

Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus 1/2 any salvage value will be given to the buyer.

Example 2: A \$3,500 bull is injured and will not heal. A credit of \$1,750 minus 1/2 salvage value will be given to the buyer.

Example 3: A bull less than \$3,500 is injured and will not heal. No credit is given. Buyer retains all salvage value.

## BULL DEVELOPMENT

The bulls have been developed in a large group on a high roughage ration to ensure soundness, longevity, and customer satisfaction.

## RETAINED INTEREST

We retain 1/3 semen interest on all bulls selling unless noted otherwise.

## VIDEOS

Cattle will be videoed ahead of the sale and posted online at [www.brownsangusranch.com](http://www.brownsangusranch.com) and on [www.dvauction.com](http://www.dvauction.com) a few weeks prior to sale day.

## SIGHT-UNSEEN PURCHASES

If you are unable to attend the sale but wish to place a bid, feel free to call Justin, Paul, Kelan, or any sale representation prior to the sale or on sale day. We will handle your bid as if you were at the sale.

## GENETIC TESTING

All cattle selling that are suspect by pedigree to be carriers of AM, NH, or CA have been tested and determined free by DNA testing. Cattle that are DDP will be guaranteed to be free if tested.

## PERFORMANCE DATA

All performance information has been calculated by the American Angus Association by the use of AHIR. All performance data will be printed in the sale book, or supplement sheets will be available sale day.

## ULTRASOUNDING

All the bulls will be ultrasounded for carcass data. Supplement sheets will be available sale day.

## HEALTH

All cattle selling have had a complete vaccination program.

## FEEDING ARRANGEMENTS

The bulls will be fed free until April 1. Feeding is available at \$3.50/day.

## FERTILITY TESTING

The bulls will have passed a breeding soundness exam prior to delivery at sellers' expense unless other arrangements have been made. All females will be vet examined safe for breeding.

## FREE DELIVERY IN NORTH DAKOTA!

Free delivery to central stockyards or sale barns in North Dakota. Bulls will be delivered starting around April 1. Take \$50 off your bull on sale day if you haul them home yourself. Bring your trailer and save! All the females will need to be hauled to their new home on sale day, unless otherwise arranged.

## TERMS OF THE SALE

Terms of sale are cash or check. Please have your ID available for identification. The settlement is to be made on the day of the sale with Brown's Angus Ranch. Cattle will not be released unless payment has been received. All registered animals will be available for transfer. We will need your Angus membership code at the time of settlement. All cattle sell under the terms and conditions recommended by the American Angus Association

## LIABILITY

The Brown's Angus Ranch assumes no responsibility for accidents or injury.

## Comments from the Sale Manager:

### BROWNS ANGUS RANCH-26TH ANNUAL PRODUCTION SALE

What an exciting day February 11, 2024 promises to be! One of the most progressive Angus herds in the Great Plains hosts their annual production sale! This is truly a family operation of three generations working together. You can always expect to see a powerful set of bulls and a great set of females! Strictly the stockman's kind!

Why not make it an Angus weekend and attend the Schaff Angus Valley Sale on Saturday, February 10th, and then just a short distance from the Brown's Angus Sale on Sunday, February 11th? I can assure you these cattle will meet with your approval.

The Brown Herd is now celebrating its 26th sale. These cattle are rich in some of the best-performance Angus bloodlines. You will appreciate the pounds and performance of these Angus cattle!

Another special feature is that you will enjoy doing business with the Brown Family. Because they are totally customer-driven and always willing and available to assist you in any way. I am looking forward to seeing you at this important Angus event!

Sincerely,

Tom Burke

A big power bull with extra size, length, muscle and power. His performance is hard to beat in all areas that drive profit. Double Decker is known for his superior soundness in his feet and legs. The bull moves very well and smooth. He is breeding the same great characteristics of his dam by adding true body depth and capacity to his progeny. His daughters already look like big powerful brood cows in the making. Added performance and power will be one of his best qualities. He improved every cow we had used him on for the better.

Brown Program 3002 is a big time power bull sired by the \$28,000 all time high selling Brown Double Decker 0004. A bull with an abundance of width, depth and capacity. He dominates the ground he walks on, truly a great representation of our program. He has a masculine herd bull presence that will be hard to miss on sale day. If your serious about weaning big heavy calves this is your bull. His dam Brown Chloe 0053 is sired by multiple Brown Angus sired cattle, including the \$20,000 Brown Pay Back 7012, who served in Montana for Les Craft Angus for 5 years. He now resides back home here at the ranch to live the rest of his life.

Brown Double Decker 0004 has been proven to be a major contributor in our herd and herds all around the country. He currently has 43 calves with weaning data and maintains a 103 ratio against some very tough competition. He now has a new home in Bolivar, MO at Hawk Angus Farms. We will have the first daughters in production this spring and are very excited about them!

Program 3002 ranks in the top 10% for weaning and top 15% for yearling. Dam is 2@97 for birth ratio and 2@113 for weaning ratio with a 356 day calving interval.

1	3.3	81	27	133	-16	86	865	3.98

Brown Dakota 3110 might be one of the most complete and powerful sons of Double Decker we have raised to date. He is massive in his overall design, deep and bold sprung in his middle section. His up and coming popular sire is really hitting his mark at multiple herds across the world. In North America Double Decker is currently boasting a 103 weaning ratio on 43 progeny, which is no small task in a tough set of contemporary groups.

Dakota 3110 has been a standout since birth showcasing his masculine look and muscle expression. He was a favorite of all the summer tours and has compliments from some very reputable breeders from across the country.

His dam Blackbird 219-116 has a beautiful udder with depth of rib and capacity, just the kind that can survive in our brutal environments. Her 2022 son sold for \$5,000 to Myles Stevensen. The Sky High females in our program have been very productive. She is 2@95 for birth weight and 2@109 for weaning ratio.

Dakota 3110 ranks in the top 10% for weaning, top 20% for yearling, top 20% for \$W and top 25% of the breed for \$M.

A soggy middled belly dragger bull with a moderate frame and massive herd bull presence. If you want to inject some fleshing ability and moderate frame size while keeping your costs low here is a highly recommended bull. We have used Double Decker to add muscle and depth of rib and this one surely worked. His dam is a moderate framed easy fleshing Charlo daughter back to a very good line of Primrose cows. He ranks in the top 4% of the breed for \$M.

We selected Declaration to utilize on some of our larger framed yearling heifers to add some body and muscle shape. He definitely exceeded our expectations by a long ways. We only have these two sons in the sale, but I would say they are really complete and should make excellent herd sires and be profitable for years to come. The Declaration daughters in production are great cows with loads of depth and rib shape with angular nice feminine fronts. They look like females are suppose to look. We firmly believe either one of these front end sons of Declaration could be used in top end registered programs and excel their program to the front. Henrietta Pride 643T is well known as the full sister to the popular and proven Genex sire Sitz Upward 307R. 643T has sired countless AI studs that have been used all over the country. Don't miss this opportunity on a great blending of Emblazon and 643T.

Brown Decision Maker 3022 is a major sale attraction with endless breeding potential. We believe he might be one of the best bulls we have ever raised in our history. He has an outcross pedigree with huge potential to be a major stud bull. Seeing this bull is believing in what we have on offer.

He has a bold shape, massive amount of middle and true angus character with great set of feet. He has been a favorite since birth and has kept his foot on the pedal the whole summer and fall.

His young dam Brown Barbara 1005 has surfaced as a major headliner female in our program with her first calf. She also traces back to some breeds greats like 004, EXT, and Rito 707. She unfortunately got a nerve injury and had to be put down. This bull raised himself the last 2 months prior to weaning. Granddam is a highly productive model angus cow with a absolute beautiful udder with high quality milk. She holds 3@104 for weaning in a 363 day calving interval. Maternal brother to Decision Maker's dam sells as lot 45.

Lot 9 - Brown Decision Maker 3022

Brown Dispatch 3043 a heavy muscled, thick topped, big butted bull with a major herd bull presence. He dominates the ground he roams on and has been a favorite among visitors all summer.

He stems from the prolific and popular Duke Girl cow family that has been a major contributor in the Ash Coulee Angus herd for over 50 years. In my opinion, they are among the elite for maternal excellence and productivity. Granddam of Dispatch is a pathfinder daughter of the \$725,000 female maker S A V Pedigree 4834. She hosts a 4@83 birth ratio, 4@106 weaning ratio all within a 372 day calving interval.

A maternal sister to the grandam of Dispatch 3043, A C Duke Girl 366, is also a pathfinder in the Ash Coulee program, where she continues to dominate and raise top weaning sons and daughters year after year. Great-grand dam AC Duke Girl 085 has 4 daughters in production with 2 of the 4 currently qualified as pathfinders.

He ranks in the top 10% for weaning weight, top 15% for yearling weight.

# High Indexing Cow POWER from Rito 9969 and Coleman Donna 066.

Rito 9969 was selected for his ability to transmit power and muscle and turn up the performance. When you sell calves by the pound this bull gets it done! They are big ribbed, long and really quiet dispositioned. The 9969 daughters in production have been some of our favorite we've seen all around the country. His dam stems from the popular and proven cow families the Pollys. From one of the best herds in the western United States, Van Dyke Angus, Manhattan, Montana. Utilize this powerful set of sons to make sale topping steers and big power cows that will keep you profitable.

One of the most consistent and unique flushes ever produced at the ranch. This powerfully built trio of flush brothers will be herd changing in every way. Blending of the great full sister in blood to the popular \$240,000 Coleman Rock 7200 with the power and muscle of the \$147,500 S A V 707 Rito 9969. These bulls stand on perfect feet with great heel depth and claws. They are all extremely wide topped and super quiet to be around. The lead off flush brother Brown Rito Revolution 3121 took top honors as the #1 weaning weight bull in the entire 2023 calf crop. We knew he was going to wean off extremely well, and he really punched the pedal down!

Brown Rip It 3054 is just as his name implies, "RIPPED" with loads of shape and muscle in a very attractive pattern. He looks just like his picture in person with a big wide top and huge rear end. He has been dominant since birth and hasn't looked back! This pairing of the maternal from the Black Jestress and the power and muscle of Rito 9969 is sure to catch your attention on sale day. His daughters will be magnificent females with beautiful udders angular front ends and quiet dispositions. Dam have a 351 day calving interval with a near perfect udder. Granddam served here as a donor and had stayed in production until 16 years old where she ended up with 11@105 for weaning and 4@107 for yearling ratio.

A calving ease specialist and genotypic stand out. We decided to bring back Accomplishment after his first set of sons two years ago were really well received. The commercial and registered breeders nationwide have raved about their consistency from birth to weaning and their ability to be sustainable in a low input environment. We are excited about this offering of sons and females that will be major highlights in this years offering. ABS sums it up pretty well. They stated his progeny are eye appealing, have good carcass merit, and carry the body type and dimension of S A V Resource 1441. His dam by Resource has been a herd favorite at Sitz and has left an impact in their program.

Capacity, calving ease and performance sums up this brute force bull. He got his name for being an over "ACHIEVER". His 2 year old dam is a moderate framed cow with lots of high quality milk in a nice tidy udder. We have high anticipation that she will make a headliner cow in future and be in the donor lineup. He ranks in the top 10% for both weaning and yearling and top 4% for \$M and top 20% for \$W.

A proven outcross for calving ease with added muscle, dimension, and fleshing ability. Blends the best in forage efficient genetics from the toxic fescue pastures of Georgia to the high desert of Idaho. He has a balanced genetic profile stacking generations of gentle dispositions, flawless feet, udder quality and high fertility.

His sons have mass, power and an amazing look. Daughters exemplify the traits that made the Angus breed great across the globe. Elite tenderness sire!! Progeny averaged 3.42kg WB shear force, backed by a perfect 10/10 Igenity genomic profile. Kill data on red angus sired cattle was 57% prime on grain and 12.5% prime on grass with all making 100% Choice.

A superior calving ease specialist backed by a phenomenal cow with highly maternal traits and function. Brown Easy Pay 3145's dam by President is a perfect uddered female on the ranch. She is Parker's cow and she has been a great producer with 3@97 for BW and 3@103 for weaning weight while her calving interval is at 360 days.. Son sold last year for \$6500 to Morley Spotted Bear. These Payout sons have tons of eye appeal and above average for performance, while keeping your birth weights down.

Dam of Lot 27 • Linz May Active 2397-6003

Another younger April Payout with a bit more birth and performance. This longer spined, larger outlined bull, will sire a set of steers that the buyers will go crazy over. He has amazing eye appeal with great foot quality and quiet disposition. Dam has a near perfect udder with nice spacing on the teats.

# Large group of 1/2 brothers bred for consistency and calving ease.

SAV Certified 0849 was our pick of the entire Scale Crusher calf crop at SAV in the 2021 SAV Sale. He is a phenotypic powerhouse with length of body, size and heavy muscle. He was a big time performance bull in his group of contemporaries and earned a 205 day weight of 1039 pounds. He scanned a 17.3 ribeye with a huge scrotal of 40.2. His dam is a flush sister to SAV Resource 1441 and

is an ideal cow in terms of size and overall function and udder quality. We have some Certified daughters due to calve here really soon that appear to have great udder quality and dispositions.

Brown Certified Check 3026 is a big heavy muscled bull with power from front to rear. When you evaluate this bull from any angle, he just pops out at you as true herd bull. He represents his sire in almost every category. He has a huge top and muscle down his rear quarter like not many bulls have ever had before. We are very impressed with his dam's ability to raise a good one year after year. She is one of the best producing Resource daughters we have ever seen. She is 8@103 for weaning, 2@104 for yearling, 2@123 for IMF, and 2@113 for RE ratios, all while having a 370 day calving interval. This bull goes back to the one time high income cow at Schaff Angus Valley, "S A V Elba 1094." A son sold in 2022 Sale to Tom Ryckman, Pollock, SD for \$6,500, other notable sons have sold for \$7500, \$5500 in past sales.

A pair of high performing, scalebuster sons of SAV Certified 0849 with breed character and style. Cash 3048 and Certified Scale 3041 are maternal brothers to our all time record selling bull Brown Double Decker 0004, who sold in our 2021 sale for \$28,000. This pair of flush brothers are very consistent and should leave a big set of feedlot steers that the buyers will love. They had adequate muscle and dimension with extra extension in their front 1/3. We have 4 flush sisters we will calve any time. They are extremely docile and easy to work with and are laying down nice udders. We are very excited about the future of these females in our program and this pair of flush mate brothers should breed very true to their full sisters.

Their dam SAV Blackcap May 7888 is a prolific and foundation Blackcap May cow on our ranch is now 17 years old and still on the ranch and still flushing embryos. She has been a major contributor to our program for the past 6 years with her daughters popping up in pedigrees now in our Annual Production Sale. We now have retained 23 daughters in our herd and have sold progeny to multiple states across the United States. Her tally to date on 13 head sold through past production sales have tallied \$107,000, to average \$8,230.

Eldorado E050 is a super elite calving ease bull backed by some of the best outcross genetics in the breed. Eldorado is massively constructed, wide load who posted the highest actual weaning weight in Baldridge Angus history. His beautiful dam Baldridge Pratissa W165 has sired many other AI stud sires such as Forecaster, Zone, and Chancellor. Dam of Eldorado has weaned 4 calves at 107 average and has scanned 34 progeny with a 107 IMF ratio, while also having 4 calves at 97 for birth ratio. E050 remains in the top 10% for birth, weaning and yearling. Top 15% of the breed for marbling. Expect his progeny to add some extra calving ease and carcass merit, without giving up performance.

A big performance curve bending bull with pedigree, phenotype and unmatched cow power. This bigger framed son of Eldorado will surely leave a big powerful set of calves. Dam has been a major contributor in past sales with sons selling for \$6,000 and \$5,000 to some very good cattlemen and women across the state. Dam is 3@96 for birth and 3@104 for weaning. The maternal power in this cow will leave a mark! Keep the daughters and they will make magnificent cows with perfect udder quality and an abundance of milk. This bull we believe will be a major attraction and herd bull candidate for anyone searching for power and low birth.

A big time power bull with lots of length of body and muscle shape. He has a blending of the great Blackcap May 3525, who is one of our all time favorite Final Answer daughters to ever walk in the breed. We feel this combination of power and carcass will blend perfectly and leave a solid set of feeder calves. They will perform and excel all the way to the finish-line. Dam has a nice udder and is destined to be a major headliner in the future.

A flush of bulls from BAR Miss Daniel 379, who is proven to be productive and powerful. This set of bulls were raised on a different set of recipient cows and have performed well considering the environment they were provided. We have always admired Eldorado's ability to sire performance, consistency and low birth in a easy fleshing and functional package. This flush of bulls will add some extra carcass merit, beautifully uddered daughters and scale crushing steers. Dam is 6@108 for weaning ratio and 2@105 for yearling. She was selected to enter the donor pen after her first daughters were so highly productive. A daughter, Brown Lady 9052 by S A V President 6847, has raised our top selling bull 2 years in a row and is well on her way to being a top end cow in our herd.

A really uniquely bred son of Eldorado from an absolute stunner of a young cow with style, power and phenotype that will be easy to spot on sale day. His dam is from the rare and popular S A V Renown 3439. A bull who has gained more steam in recent years due to his ability to sire such beautiful and functional daughters that are extremely hard to fault. Dam's udder quality is top notch and this maternally bred carcass outcross bull should leave a set of females that will be attractive and functional. Granddam was an ideal Angus cow with a stunning profile that we had flushed a few times.

Brown Ignition 3032 will get your fire started! This big heavy muscled power bull will catch your attention. He is a blending of the \$475,000 S A V International 2020 and the \$750,000 S A V President 6847. Which makes him a once in a lifetime type of bull. His moderate framed, beautifully uddered dam has made a mark in our program selling a past sale highlight son to John Halcrow, McClusky. Granddam is a 3rd Generation embryo donor and full sister to \$95,000 S A V Eliminator 9105, where he took top honors as the #1 IMF ratioging bull of his contemporaries in 2010.

A heavy muscled moderate framed bull that is stout made from the ground up. He will moderate frame and should excel well on forage programs that dont require any intake. His dam has been a good producer for us and has sold sons in past sales for \$6500 and \$5,000. Dam is from the Queen Dolly cow family who is a well known family in the Ellingson Angus program.

Dam of Lot 55 • Coleman Donna 892

Coleman Donna 892, a Connealy Thunder daughter from the proven flush of Juneau 807J daughters from the multi-million dollar income producing cow, Coleman Donna 714. Recently at the 2023 Coleman Fall Calving Dispersal Sale a direct daughter of Donna 714 from Connealy Thunder sold for a record selling price of \$375,000 for 1/2 interest to ZVVT Ranch in Tennessee. This female is bred very similar to her and has the very same maternal presence, excellent feet and a perfect udder.

Lot 56 • Brown Stage Coach 3051

First of these S A V Sterling sons to offer. We used Sterling for his great foot shape and heel depth. We felt he was one of the best footed Stellar sons we have seen, plus he is out of a Governor daughter back to the Polly cow family. He is eye appealing and very smooth made with ample amounts of rib shape and dimension. He will leave a very nice set of females that will have unmatched breed character and functionality. His dam is a maternal matron that excels for fleshing ability and maternal greatness, with a near perfect udder at 11 years of age.

A personal favorite bull that has been a standout since birth. His productive and nice uddered dam is leaving us a tremendous set of progeny. This bull will be a crowd favorite as he phenotypically might be one of the easiest bulls in the pen to find. He has a true Angus look with great muscle expression and eye appeal. Full sister will calve by sale day and she looks tremendous.

A mid March calving ease prospect that is a phenotypic standout among all bulls his age. He might be one of the best sons we have raised from the Explosion bull to this date! He had a masculine crest and neck at a young age. He should make a set of females that will be great production cows. The Duke Girls are very productive cows for us. A maternal sister to Extended 3149 is the dam of the popular Lot 10, Brown Dispatch 3043. Extended 3149's dam qualified pathfinder and continues to raise top end sons and daughters year after year, including \$9,500 Brown Added Value 0028 who sold to Northview Angus Ranch. She is 4@83 for birth, 4@106 for weaning, 1@107 for yearling, 1@136 for IMF, and 1@106 for RE. The Granddam has currently 3 pathfinder daughters under her belt, which to me seems like something that is nearly impossible for a cow to achieve. If you like low birth and explosive growth and daughters that will produce, dont over look this March calf. He definitely has endless breeding potential for seedstock and commercial producers.

6	2	57	29	101	-3	83	598	2.86

A massive middle, bold sprung daughter of Payout F408 that is an absolute stunner. She has brood cow written all over her. She has a very good pedigree stemming back to some of the breeds greats like Impression, Gridmaker, and Payweight. Her great granddam was a pathfinder for us and has left us a good set of females and sons that have highlighted past sales. Dam is 3@100 for birth and 3@100 for weaning.

A legendary Primrose female that has a broody look to her. She is a blending of the Juneau son from the \$107,000 high income producing cow on our ranch. This female should be very easy keeping and deep ribbed. Granddam was a big producer with ratios of 7@108 for weaning, 3@118 for yearling, 2@107 for RE, all while producing 10 calves in 368 days.

S A V Blackcap May 0589 is a flush sister to one of the greatest flushes produced at Schaff Angus Valley. She has an abundance of milk and beautiful udder. Her maternal presence and breed character will be highly desired in years to come. We have flushed this cow many different ways and she aspirates extremely well. We have some exciting matings on the way this spring from her including the 115A lot embryos. This is an opportunity to get in on the front end of one of our young donor females on the ranch. We own her with Hawk Angus in Missouri.

Guarantee 6 frozen embryos. Flush will be conducted at Yackleys Trans Ova in Onida, SD. Cost will be pro-rated for any production over 6 up to 12. Anything over 12 will be discounted.

Buyer will be responsible for all flush costs, semen, drugs, and shipping.

Flush to be conducted after she calves in June 2024.

Offering the right to one IVF Aspiration on Montana Donna 9102 to be done at Transova in SD. Donna 9102 is a big powerhouse female with an abundance of middle and mass. She is the higher octave, highest performance female from the flush of Renown daughters from the legendary Montana Angus donor Coleman Donna 206. Donna 206 is a type of cow you have to appreciate for her depth, consistency and power she can produce. When we seen this 9102 heifer out at Montana Ranch, we knew we wanted to own her. Sisters have sold in past Montana Ranch sales for \$9,500 and \$13,000. This is a unique opportunity to get in on one of our young up and coming donors. We have mated this female multiple different ways and are extremely excited to get them on the ground.

Guarantee 6 frozen embryos. Flush will be conducted at Yackleys Trans Ova in Onida, SD. Cost will be pro-rated for any production over 6 up to 12. Anything over 12 will be discounted.

Buyer will be responsible for all flush costs, semen, drugs, and shipping.

Flush to be conducted at anytime from now until March 25th.
