Sale is 3 miles **West** of Center, ND at the ranch.  
*Heated sale barn!*

## *Fellow Cattleman,*

We would like to invite everyone to our 24th Annual Spring Production Sale. 2021 was a challenging year in the cattle business. We experienced one of the worst drought years we have faced in along time. We were fortunate to come up with enough feed and didnt have to cut back to hard on our cow herd numbers. We want to make note we had some extreme conditions in certain pastures with bad quality water sources and short grass, which in turn affected some of our weaning weights this year. Bid and buy with confidence on them that they are the same quality and type we normally have offered in the past. They have done extremely well considering the stress test they went through with the extreme heat and lack of high quality water. We hauled water to a heifer pasture last year as we had a stock pond dry up and them calves did very close to normal in comparison to the cattle on the stagnant ponds.

We are a 100% family owned and operated ranch. We value each and every one of our longtime friends and customers we have made throughout the years. We very much appreciate your support and are motivated and dedicated to provide you high quality bulls and females for many years to come.

This year's bull offering consists of the top 40% of our calf crop. We culled very hard this year to offer the best cutting-edge genetics possible. We weaned the bulls in September this year and have grown them out with longevity and soundness in mind. We have put these bulls on test and many of them were gaining over 3.5lbs per day. We selected them for overall calving ease, performance, and phenotype. We feel these bulls will suit anyone's needs, whether you're a purebred seedstock producer or a commercial cow-calf operation. We once again have bigger framed bulls that will sire offspring that excel in the feedlots, and more moderate framed bulls that will stand up to the harsh rangeland of the western states.

This years' offering is sired by some of the most potent and well-respected bulls in the Angus breed for calving ease, growth, carcass, and high maternal genetics. This is our first offering from \$1.51 million dollar record top selling bull SAV America 8018, they have done exceptionally well and should be sale favorites. The second calf crop for us from Hoover No Doubt and SAV Downpour 8794. They have surpassed our expectations. They are the cowman kind with tremendous depth, calving ease, and growth. The ET calves represented in this offering of bulls and females are of the highest quality and have breeding potential beyond measure. The SAV Blackcap May 7888 flush brothers from SAV Downpour 8794 and Brown Pay Back 7012, will give you the opportunity to see the consistency and overall depth of body she can inject into her progeny. The Abigale 5646 cow needs no introduction to this program. She has a great flush of bulls from the maternal and performance sire SAV Downpour 8794, that have extra frame and length and will make a great set of feeding cattle from their progeny. Rainfall has been used for multiple years now and he is very consistent in his ability to produce low birth calving ease sons that are easy keeping, sound made, and very good footed. This years highlights from Rainfall are sure to add some power and performance to a set of calves, while leaving you a tremendous set of replacement females.

We will continue to strive breeding top quality Angus cattle that work for the commercial breeder and the registered seed stock operations. We don't select based on just EPD's or data that isn't proven. We select genetics that are deep bodied easy fleshing type that work in anyone's environment. We place very high standards on udder quality, foot structure, and longevity. We don't want to help calves nurse, we don't trim feet on our cows or bulls, and we want them to last well into their teens.

Overall, we feel this is the most complete and powerful set we have ever offered for public auction. We are offering over 95% AI sired bulls. The females come right from the heart of the herd, offering some foundation cow families that have started our program. We hope you can join us on Sunday, February 13, 2022 at 2PM CST at the ranch in our HEATED SALE BARN! Feel free to call us anytime with questions or if you would like to stop in and check out the offering. Once again, we will hold the sale online for our friends and customers that cannot make it on sale day. Check it out online at [www.dvauction.com](http://www.dvauction.com). Videos will be posted for all sale lots prior to the sale. Visit our website at [www.brownsangusranch.com](http://www.brownsangusranch.com) for more info.

We look forward to visiting and meeting you on sale day!

Rod Geppert, American Angus Associate (605) 295-3673

## SALE LOCATION

At the ranch, 3 miles west of Center, ND on Highway 25. Watch for the big red and white barn on the North side of the road.

## CATTLE VIEWING

The sale cattle will be on display before the sale any time from now until sale day at the ranch. Three miles west of Center, ND on Highway 25.

## TRANSPORTATION

Bismarck is serviced by several major airlines.

## LUNCH

Lunch will be served starting at noon CST prior to the sale.

## GUARANTEE

All bulls selling for \$2,500 or more will be covered 50% by Brown's Angus Ranch if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turn out of bulls. Fifty percent of the value of the injured bull minus 1/2 the salvage value, if any, will be given as credit in a future sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Brown's Angus and the buyer. All injured bulls must be diagnosed by a veterinarian.

Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage.

Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus 1/2 any salvage value will be given to the buyer.

Example 2: A \$2,500 bull is injured and will not heal. A credit of \$1,250 minus 1/2 salvage value will be given to the buyer.

Example 3: A bull less than \$2,500 is injured and will not heal. No credit is given. Buyer retains all salvage value.

## BULL DEVELOPMENT

The bulls have been developed in a large group on a high roughage ration to ensure soundness, longevity, and customer satisfaction.

## RETAINED INTEREST

We retain 1/3 semen interest on all bulls selling unless noted otherwise.

## VIDEOS

Cattle will be videoed ahead of the sale and posted online at [www.brownsangusranch.com](http://www.brownsangusranch.com) and on [www.dvauction.com](http://www.dvauction.com) a few weeks prior to sale day.

## SIGHT-UNSEEN PURCHASES

If you are unable to attend the sale but wish to place a bid, feel free to call Justin, Paul, Kelan, or any sale representation prior to the sale or on sale day. We will handle your bid as if you were at the sale.

## GENETIC TESTING

All cattle selling that are suspect by pedigree to be carriers of AM, NH, or CA have been tested and determined free by DNA testing. Cattle that are DDP will be guaranteed to be free if tested.

## PERFORMANCE DATA

All performance information has been calculated by the American Angus Association by the use of AHIR. All performance data will be printed in the sale book, or supplement sheets will be available sale day.

## ULTRASOUNDING

All the bulls will be ultrasounded for carcass data. Supplement sheets will be available sale day.

## HEALTH

All cattle selling have had a complete vaccination program.

## FEEDING ARRANGEMENTS

The bulls will be fed free until April 1 unless other feeding arrangements have been made. Feeding is available at \$3/day.

## FERTILITY TESTING

The bulls will have passed a breeding soundness exam prior to delivery at sellers' expense unless other arrangements have been made. All females will be vet examined safe for breeding.

## FREE DELIVERY IN NORTH DAKOTA!

Free delivery to central stockyards or sale barns in North Dakota. Bulls will be delivered starting April 1. Take \$50 off your bull on sale day if you haul them home yourself. Bring your trailer and save! All the females will need to be hauled to their new home on sale day, unless otherwise arranged.

## TERMS OF THE SALE

Terms of sale are cash or check. Please have your ID available for identification. The settlement is to be made on the day of the sale with Brown's Angus Ranch. Cattle will not be released unless payment has been received. All registered animals will be available for transfer. Females will be transferred at buyers' expense. We will need your Angus membership code at the time of settlement.

## LIABILITY

The Brown's Angus Ranch assumes no responsibility for accidents or injury.

## *Comments from the Sale Manager:*

### THE 24th ANNUAL PRODUCTION SALE ANGUS CATTLE THAT YOU WILL REALLY APPRECIATE

#### THE 24th ANNUAL BROWN'S ANGUS RANCH ANNUAL PRODUCTION SALE!

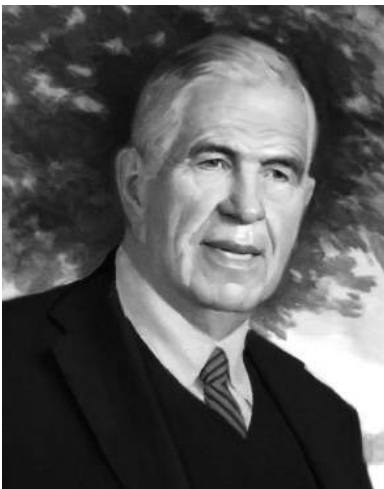

What an exciting day February 13, 2022 promises to be! One of the most progressive Angus herds in the Great Plains host their annual production Sale! This is a true family operation of three generations working together. You can always expect to see a powerful set of bulls and a great set of females! Strictly the stockman's kind!

Make it an Angus weekend and attend the Schaff Angus Valley Sale on Saturday, February 12th and then just a short distance away the Brown's Angus Sale on Sunday, February 13th. I'm looking forward to seeing you with us.

Sincerely, Tom Burke

Kurt Schaff

SAV America 8018 the world record selling bull at \$1.51 Million dollars to Herbster Angus Farms. Known for his massive design, length of spine, thick deep body with a square hip. America possess a gentle disposition with superb structure. He broke all time records at SAV for the record heaviest 205 day weight bull in the history of their program. He had a whopping 16.4 ribeye and scanned a 134 ratio for IMF. He has a cowmaking phenotype and is a one of a kind pedigree that will never be recreated. His phenomenal dam is a maternal powerhouse and has produced past AI studs, SAV Registry 2831 and SAV Supercharger 6813 to name a few of the most noted ones. We used America to make females that will be productive and functional cattle with added depth of rib, performance, and longevity. The dam of America stayed in production until she was 18 years old. This is our first set of America 8018 calves we have offered.

Lot 1 • Brown America One 1028

Lot 2 • Brown American Loam 1109

Lot 1 & 2. Brown America One 1028 & Brown American Loam 1109- A pair of flush brothers with extra performance from a solid foundation female. They are sound structured and deep ribbed and have excelled at all levels of the game. We decided to flush this cow after the daughters she had been leaving us. She has a young female in the program that is flawless and another bred heifer due this spring that is awesome. Deep ribbed cow with massive muscle expression in a nice package. Foot quality is excellent along with a great track record with 6@104 for weaning, 2@126 for IMF, 2@102 for RE, and 2@123 for FAT. When you look at this cow she is the total definition of a beef cow she is exceptionally easy fleshing and does it with the same feed as the next female. We plan to flush her again as this mating is highly sought after and will be major sale highlights, as they have been found by some very good cattlemen and cattlemen.

Brown American Soil 1079 is a huge middle, moderate statured bull with a stellar pedigree and Phenotype. He looks like he will add tremendous rib shape and dimension to set of cows. We ended up losing his dam in the drought to what we believe was bad water. We had some huge obstacles to climb this year with the drought. The dam of American Soil was a big bodied female with extra capacity and volume standing on very good feet.

Hoover No Doubt was the \$67,500 top-selling bull at the Hoover 2015 auction. No Doubt has been the buzz of the Angus breed. His progeny have met the market's demands for width of base, superior feet, and sound skeletons with real-life true performance that is not just genomic-based. No Doubt consistently transmits style and eye appeal with an unreal amount of meat and muscle. Progeny have topped sales in all corners of the country! Backed by Bullseye and CC&7 – two of the highest proven bulls for Docility in the history of Docility EPD. The No Doubt progeny are unquestionably breed leaders for this important trait! Daughters in production offer a notch more frame and superior udder shape, attachment, and teat size. We are very excited about this great offering of No Doubt sons. We flushed another cow to him this spring and will be getting calves by sale day.

A crowd favorite with nice shape and dimension. Flush brother to last years high seller Brown Double Decker 0004. This bull has all the right pieces in the puzzle to become a breed sensation. He is cleaner made and structurally sound with great feet and overall one of the bulls in the pen that will stop you and make you look. He will have Angus GS data available sale day. His dam is a full sister to the highest income producing cow in the world, S A V Blackcap May 4136. S A V Blackcap May 7888 is very well represented in this sale through her powerful, cowmaker sons and her first elite daughter to ever leave the ranch. Dam is a proven producer and has been flushed very heavily here. 5@106 weaning, 4@109 Yearling. Blackcap May 7888 has tallied \$64,250 in total receipts on her progeny sold through past sales for an average price of \$12,850.

Brown No Fear 1061 is a powerhouse bull with an exceptional maternal background and sired by the now deceased Hoover No Doubt. He is smooth, pounds heavy in the right package. He stands on good feet and has a presence that just says HERD BULL. He is from the great full sister to SAV Eliminator 9105. We have flushed her to multiple matings and she consistently cranks them out with style, maternal look and power. Brown No Fear 1061 has caught the eye of many breeders alike and is sure to be a potential sale topper. UPDATED EPDS on sale day as we dropped the ball and missed DNA on his dam.

A flush brother to Lot 9 that is a little lighter today mainly due to his recip dam. We think this bull will really mature into a powerful bull once he gets older. We retained 3 flush sisters to this flush and they look beautiful and angular.

SAV Downpour 8794 is a powerful, deep ribbed individual with loads of mass and belly. He took top honors as the #1 365 day weight bull in the 2019 SAV sale where he sold for a whopping price of \$100,000 to a group of breeders. His Pathfinder dam has a progeny ratio of 4@106 for weaning and 8@121 for marbling. She is a heavy- milking Resource daughter and is the #1 WEPD & YEPD cow in the SAV herd with 7 daughters retained. Downpour will sire massive, easy fleshing, high milking daughters and high performing bulls.

Donor Dam of Lots 11 & 12 • SAV Blackcap May 7888.

A pair of soft made powerhouse performance bulls from the proven donor Blackcap May 7888. They are extremely deep ribbed and has the look of a female making extrodinaire. Sound structured and eye appealing herd bull prospects that will add some extra depth and performance to a set of calves. This great blending and breeding achievement between Downpour and Blackcap May 7888 is a winning combination of the all time high income cow 4136 and the all time high income producing cow 7888 for us at \$64,250 to date. A maternal brother Brown Double Decker 0004 was our all time record selling bull at \$28,000 in our 2021 production sale to High Ridge Farms in NC. A maternal sister sold for a record breaking price of \$20,500 in our 2021 sale to Bridge View Angus and Arrowhead Creek Farms in Kentucky.

A Big time herd bull prospect here with a moderate birth weight. He is super stout and made very correct in his structure. His dam is a heavy milking and high growth daughter of the Connealy Capitalist 028 bull who resided at Select Sires for many years, where he led there semen sales for a few years. Dam is a young 3 year old cow with a nursing ratio of 104 of 2 calves. Maternal brother Brown Twister 0046 sold for \$7,500 in our 2021 sale to Tom Ryckman, Pollock, SD.

A powerful Downpour son with cow maker wrote all over him. He is extremely long bodied and high performing. He has excelled in the feedlot and will be one of the heaviest bulls on sale day. These Upward 307R females have been tremendous producers for us every single time. I would recommend him to breeders looking to increase performance and size. His dam is a good producer with a nursing ratio of 105 on 6 calves.

Brown Heavy Rain 1013 is a wide based tank that gets out and moves very well. He is a great breeding achievement and we are extremely excited about his young dam as this is her first calf and she smacked a home run! This bull has caught the eyes of many breeders from all over the country and will be a definite sale highlight. He stands on good feet and has a herd bull presence. Once again he goes back to the dam of SAV Eliminator 9105, who has been well recieved in our program with sons selling for \$9500, \$8500, \$6000, and a grandson Brown Pay Back 7012 who sold for a shocking price of \$20,000. This is a proven pedigree with the genetic material and power to move the breed forward. This bull is a potential breed changer type of bull.

Brown Pay Back 7012 was produced from a maternal sister to the dam of Brown Heavy Rain 1013. He was the highest weaning and yearling weight bull in the 2018 sale and commanded a sale topping price of \$20,000 to Les Craft Angus.

Reference Sire E

Eldorado E050 is a super elite calving ease bull backed by some of the best outcross genetics in the breed. Eldorado is massively constructed, wide load who posted the highest actual weaning weight in Baldridge Angus history. His beautiful dam Baldridge Pratissa W165 has sired many other AI stud sires such as Forecaster, Zone, and Chancellor. Dam of Eldorado has weaned 4 calves at 107 average and has scanned 34 progeny with a 107 IMF ratio, while also having 4 calves at 97 for birth ratio. E050 remains in the top 10% for birth, weaning and yearling. Top 15% of the breed for marbling. Expect his progeny to add some extra calving ease and carcass merit, without giving up performance.

-3	5.0	95	27	163	-38	97	939	4.03

A big time performance bull with a tremendous amount of rib shape and dimension. He smashed down the scale at weaning and had an adjusted weight of 939lbs. for a whopping 121 weaning ratio. He is the highest ratioing bull of the 2021 calf crop. His dam is unmatched for power and performance with a beautiful udder. She was the top ratioing heifer in her contemporary at weaning at 123. He has been well liked by all that have seen him. El-Camino 1022 is a phenotypic standout for cattle that need extra body and rib shape. He has solid feet and is sound structured and should leave a tremendous set of females. The Eldorado daughters coming into production have beautiful udders with an abundance of milk and mothering ability.

EG Eyes on you is a performance powerhouse and a physical standout. He carries on the legacy of his popular sire Hoover No Doubt. He is a blend of the best from the Baldrige program and adds maternal potency from one of the best cows in the breed, Baldrige Isabel Y69. We used him to add pure

pounds and performance at weaning. His progeny excel once in the feedlot and on test. His sons are stout and bold and will add some stoutness and power to a set of feedlot steers.

A moderate birthweight son of the Montana Ranch and Beartooth Angus herd sire Square B Atlantis. He has tremendous muscle expression and dimension. He is wide hipped, wide topped, easy fleshing and very good dispositioned. He should work on larger framed heifers with no issues. His young dam is a tremendous female with a beautiful udder with perfect spacing and teat size. Montana Blackbird 8122 was our selection from the 2020 fall Montana Ranch sale and she has had a lot of friends since we have had her home. She has been called a spitter image to the all time great Baldridge Isabel Y69, who is the dam of her paternal sire. We couldn't be more impressed with her and we have added her to the ET program and have a flush of calves on the way this spring.

Here is a grand opportunity to get a very stout made son of the performance and maternal sire SAV Net Worth 4200. Every once in a while we plug in some semen from Net Worth to try and make some more daughters and once in a while we get bulls and they never disappoint. This one will add extra muscle and shape to a set of calves. Dam is a good young female that is a big broody type female, with a good foot and nice udder.

An outcross bull with eye appeal and style. He is a curve bender with an exceptional pedigree. Dam is the only daughter of BAR Abigale 5312, the dam of Brown Pay Back 7012 that we have in production. The blending of President, International and Payraise will leave a great set of females that should be the right kind to keep you in business. We like the superb udder quality of his young 2 yr old dam. Its hard to make one any better! This female has a bright future and could enter the donor program in the next year or 2.

# High maternal herd bull prospects...Scale and Three Dimensional...

5	3	61	22	103	-13	85	790	3.9

A larger framed bull by Uno Dos 824 with extreme length of body and feedlot growth. He excelled well once he was on feed. He will leave you a set of big high growth steers that will be favorites on pay day. Dam goes back to the powerful SSAF General Sully 167 that was raised in the Silbernagel Angus Herd in ND. We used Sully to power up some more moderate cattle and he certainly did here.

A major sale attraction from one of the most historic and priceless flushes ever made in our program. The dam of Brown Blackcap May 1506 is a multigeneration embryo donor that goes back to the breeds greatest cows in the SAV program. S A V Blackcap May 7888 has tallied \$64,250 in total sales at Browns Angus since we have owned her. She has some highly noted sons such as last years all time record breaking bull Brown Double Decker 0004 who sold for \$28,000 to High Ridge Farms in NC. Brown Brave Heart 0006, a Coleman Bravo son was another high seller at \$7750 to Unruh Ranch, ND. A Full sister to Brown Double Decker 0004 sold in the 2021 sale to Bridge View Angus, KY and Arrowhead Creek Farm, KY for \$20,500. I havent seen any other America's anywhere with this maternal lineage behind them. This opportunity will be one that could jumpstart a program and get you moving forward.

Lot 79 • Brown Blackcap May 1506

S A V Blackcap May 7888 • Donor Dam of Lot 79.

S A V Blackcap May 4136 • Full sister to the dam of Lot 79 and 80. World Record high income cow in the Angus Breed. Has sold over \$10.5 million dollars of progeny sales.

A blending of the great maternal sire Uno Dos and the power of BJ's Bearcat 314 is sure catch some eyes on sale day. Dam is a good cow with a nice udder and plenty of milk and performance. This heifer was dry lotted early in the fall with her dam due to the drought and she still weaned off that group with a 105 weaning ratio.

S A V 707 Rito 9969 is the sire to Lot 89. He is known for his ability to add muscle and three dimensional shape to his progeny that crush down the scales. We continue to use him in our program on select females.

S A V Emblynette 4367 is the maternal granddam to Lot 89 and the maternal great granddam to lot 90. Also, the Donor dam of Lot 49 in this years sale. A past son Brown Probable 8500, a SAV President 6847 son sold to the Builders for Babies Ranch in Arkansas.
