Dear producers,

Welcome to our 49th Annual Production Sale here in Springdale, Montana. This year is no different in that we will be selling 2-year-old bulls, fall yearling bulls and bred heifers. As always, we stand behind and guarantee everything that we sell. Montana and the surrounding areas have been hit hard by drought, fires and grasshoppers. Feed is high priced and sometimes hard to find. Due to our ranches being in "EXTREME DROUGHT" areas it did affect the cattle and numbers in the sale. Our 2-year-old bulls are smaller this year than normal, but are growing well now. Weaning weights have suffered some due to the conditions. We still say the genetics are there even though the weights are lower.

Since feed is of short supply this year, we will feed the bulls free of charge until April 1st. Call if want us to hold them past April 1st, there will be a yardage fee charged. I will have the bank staff ask during your checking out if you want us to feed past April 1st.

The bulls have been ultra-sounded again this year by Wade Garrett from Texas. Bulls scanned very high, IMF with minimal backfat. If you look at the data received from our fat cattle in the book, you will see cattle that Grades 2's, not 5's. Premiums are sometimes the only way to make money on live cattle and these cattle get the premiums.

The bulls have all passed the fertility tests and are guaranteed by our friends at Mountain Valley Vet in Wilsall, MT. Ben does a great job with the cattle and we appreciate it. If you have any other questions feel free to contact us anytime. We're looking forward to seeing you on the 15th of February here at the ranch, until then have a safe and profitable few weeks on your ranch.

Travel

The Ranch is within driving range of two International Airports:

Billings Logan International Airport is located exactly 100 Miles east of the ranch in Billings. Airlines that fly into here are Delta, United, American, Alaska/horizon, Frontier and Allegiant airlines.

Yellowstone International Airport is located in Belgrade Montana, which is 50 miles west of the ranch. Airlines flying into here are Delta, United, American, Alaska/ Horizon, frontier and Allegiant.

Rental cars are available at both locations.

If we can be of any assistance please feel free to call us.

How To Participate As An Absentee Buyer

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

Here's How It Works

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding program for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on Dish Network channel 997. Please note that there is a delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at both www.superiorlivestock.com and www.superiorclicktobid.com. The video feed on the homepage of www.superiorlivestock.com looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid".

*Buyers will be contacted by the ranch after the sale for payment and delivery details.
IF YOU NEED ANY ASSISTANCE CALL SUPERIOR AT (800) 422-2117.*

ULTRASOUND

WHAT IS CARCASS ULTRASOUND AND HOW IS IT COLLECTED?

Carcass ultrasound is collecting the carcass data from a live animal using an ultrasound machine. The tech gets images of the ribeye, cross sections of the loin, and a rump. Once the images are saved, they are sent to a lab in order to be processed. The ribeyes are measured around to see the size in inches. The intramuscular fat percentage or (%imf) is measured by the black to white contrast in the cross section of the loin. The back or rump fat is also determined by the space between the fat line and hide line. The rump fat is measured with the thickness of fat in the rump image.

Locations Scanned

Ribeye scan

HOW DOES A RANCHER USE IT?

Each data is presented in a different way.

Ribeye size is presented in inches. So you may see a 10-inch ribeye. The bigger the inches the better the ribeye, but you also need to look at the weight. The lower the weight and bigger the ribeye the better. This shows the efficiency to convert feed to meat. The imf image will be shown in a percentage. You may see a 3.5% imf. You also want this number to be higher. This is where you will see the meat quality (select, choice, or prime). The back fat and rump fat you will see in smaller numbers. You will see a .1 or .3 inch. Both of these measurements you want to be smaller. These help you know how fat the cattle are. The higher the number the fatter the cattle.

Wade Elliott

UGC Certified field technician
(903) 388-6223

Ranchers who care about their data use UltraInsights to "take a peek under the hood."

Improve your herd and create more value for your customers.

PRESALE SOCIAL

Monday, February 14 from 6-9 at the Buckhorn Bar in Livingston (5237 Hwy 89 South). Hors d'oeuvres and cash bar.

Guest speaker is Livestock nutritionist Luke Miller with Great Plains Livestock consulting.

CattlActive
100% Natural
Made in the USA

The health of your cattle all starts in the rumen.

Did you know that 80% of a cow's immune system lies in and around the rumen? The ravages of acidosis, poor nutrient absorption and consequent illness can damage not only your cattle but your bottom line.

CattlActive® is 100% natural. It works to neutralize acid, encourage feed and water consumption, support beneficial gut flora and increase nutrient absorption for healthier, stronger, heavier cattle come sale time.
