Welcome to our 2021 Sale

Thank you to all our past customers, and a warm welcome to all our new guests. We welcome all, in person, on line, on the telephone or by third party proxy. We appreciate your interest in our program.

Events of the last 12 months have affected all of our lives in some form or another. We will not dwell on any of these events, but will stress the changes we have made adjusting to the many changes and concerns. First of all, at the urging of many customers, we are moving the sale to the ranch. One of the big changes we are making is that all bulls will be in display pens for one week prior to the sale. This will allow those with health concerns to look over the offering without concerns of being in a crowded situation. Please let us know if you will be coming to preview bulls before the sale, we will have a hot cup of coffee for you. The sale will be a video sale with no animals going thru the auction ring. This has become an accepted method of selling seed stock in the past few years.

Directions and a map are in the catalogue. **“PLEASE DO NOT USE GPS WITHOUT REFERRING TO THE MAP, SOME SERVICES WILL GIVE YOU A VERY INTERESTING ROUTE”**. If you have questions or need assistance please call.

We have adopted the practice of using multiple sires in all breeding pastures. The range management results and breed up have been very successful. One of the shortcomings of this management tool is that all calves need to be DNA parent verified which takes extra time. At the present time, IGENITY, the AGA contractor to do the DNA analysis is backlogged and has not given us our DNA results. The catalogue has calculated EPD's based on dam traits and have

FRIDAY MARCH 5 2021

1 p.m. CST • At the RANCH • Mandan, ND.
701-663-9573 • 1-800-732-1163

no sire input. They are not official DNA derived numbers. The DNA results will be published on line and a flyer will be sent as soon as they are available. We know this is inconvenient, but work at Igenity is slowed due to the virus, and less than full staffing capabilities.

In spite of all the turmoil, challenges and changes, our mission to our customers remain unchanged, **“TO PROVIDE GENETICS THAT HELP INCREASE OUR CUSTOMERS PROFITS”**.

After reviewing the data, looking at the catalogue, and watching the videos, please feel free to contact us regarding any animals. We will be happy to discuss specific animals with you.

If you physically come to the sale, watch or bid on DV Auction, phone bid, or have someone bid for you, be assured we will work to make your purchase a very satisfying experience. **YOUR COMPLETE SATISFACTION IS IMPORTANT TO US.**

GOD BLESS

Doug, Carol, and family

Watch & Bid online for FREE!

Can't make the sale?
Let DVAuction bring the sale to you!
Busy during the sale?
Let DVAuction represent your bid!

Visit www.dvauction.com and Register!
 It's as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "create new account" tab
2. Apply for bidding by clicking "apply for bidding" in the upper left corner of your screen, at least 24 hours prior to the auction
3. Tune into the sale and make your purchases!

For General Questions Please Contact Our Office:
 (402) 316-5460 or support@dvauction.com

*High Speed Internet Access Required

VIDEO SALE * This is an all-video sale. No bulls will walk through a ring. Bulls will be available in pens near the sale facility for your inspection leading up to and on sale day.

EPDS * At printing time DNA results for genomic EPDs were not yet returned. Igenity, like many companies has experienced labor issues due to the COVID epidemic. Data will be published on our website and included on the supplement sheet when it becomes available.

CHIMNEY BUTTE RANCH SIGHT UNSEEN WARRANTY * If you cannot make it to the sale and wish to purchase a bull, please contact us. We will help select bulls for you to review. You may review the catalog and video to assist in your selection. On sale day, we will assign a third-party to call you and review the bull before the sale. We will have someone on the phone to bid for you, bid online using DV auction, or you may ask one of the Livestock Representatives to bid for you. Your bid will remain confidential and will be handled professionally. When we deliver the bull to you, if he is not what you think we described, we will refund 100% of your purchase price.

BULL PERFORMANCE INFORMATION * EPDs, birth weights and adjusted weaning weights are published in the sale book. Adjusted yearling weights and scrotal measurements will be available sale day in the form of a supplement sheet and will also be posted prior to the sale on www.chimneybutteranch.com as soon as the results are available.

Reference sire information, the sale book and videos are all on our website, www.chimneybutteranch.com.

VIDEOS * Videos are also posted online at www.cattleseller.com and www.dvauction.com.

DELIVERY * Option 1: Take your bulls home the day of the sale and receive \$100 off your purchase price.

Option 2: We feed the bulls until April 1, provide a breeding soundness exam, and deliver the bulls up to 350 miles at no charge. If the delivery is over 350 miles, we will work with you to insure safe, prompt and economical delivery. No delivery will cost the buyer in excess of \$250. We will feed the bulls for you after April 1, for \$3.00 per day per bull. Buyer assumes all risk if bulls are left for us to feed. Insurance is recommended.

STORM DATE * We will make every effort to hold the sale regardless of the weather. The technology we have in place will allow us to hold the sale in case of a storm. All animals are presented on the video and the sale will be broadcast over the internet on www.dvauction.com.

We will have phones available for bidders to call in and place their bids. In other words, you can buy your bull from the comfort of your home or office regardless of the weather or road conditions. Please call us if you cannot make the sale. We will postpone the sale if we feel road and weather conditions will place our help, customers or animals at excessive risk. Postponement will be announced on DVAuction, www.ChimneyButteRanch.com and local radio stations.

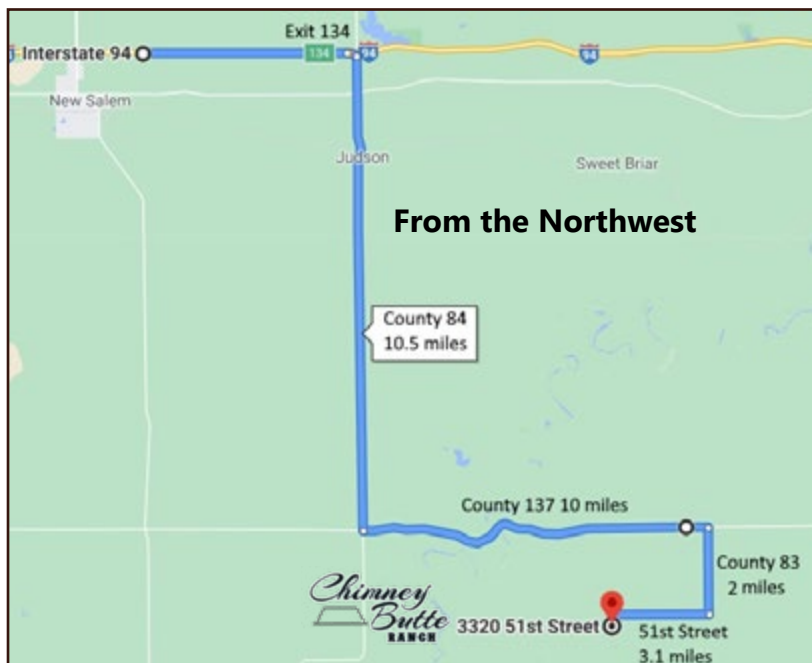

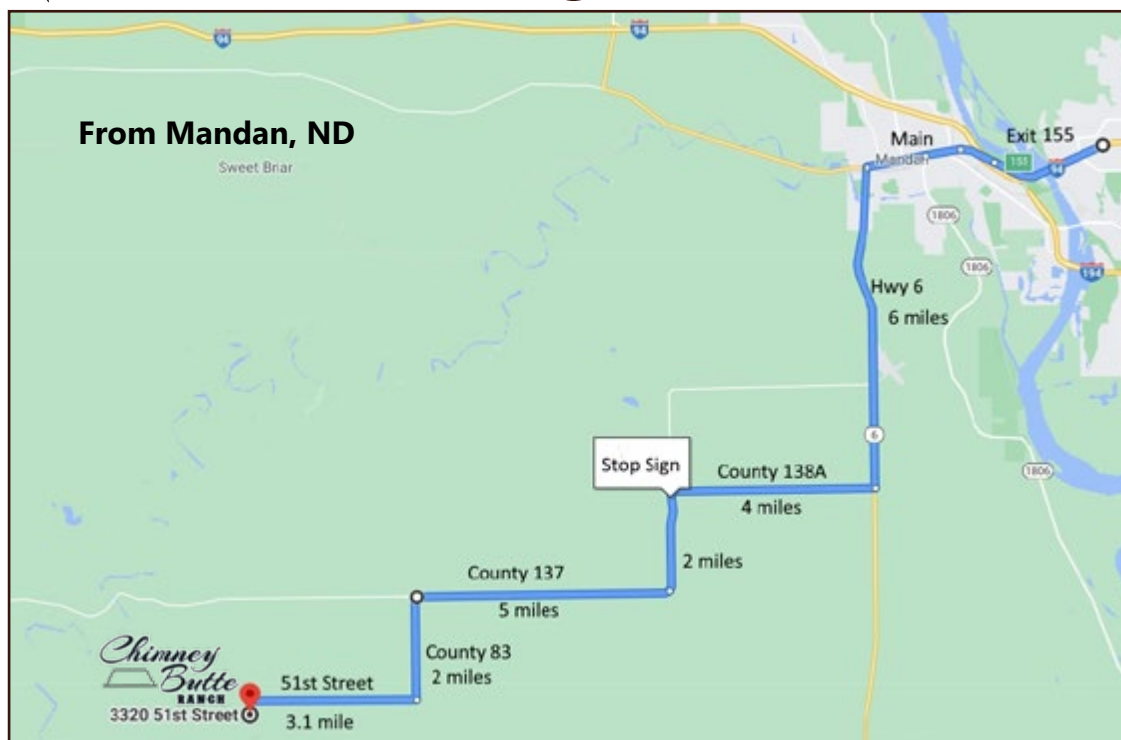

INSURANCE * Ownership transfers at time of sale. It is recommended that bulls be insured. Bulls left for us to feed are at the buyers risk. Insurance is recommended for all bulls returned for us to care for.

RETAINED INTEREST * Unless otherwise specified, Chimney Butte Ranch reserves 1/3 semen interest on any bull offered for sale. Any collection for our use, or sale, will be done at our expense, and the customers convenience.

LUNCH * Please join us for lunch featuring award winning, homemade knoepla soup from Rusty's Bar and Grill and Carol's special, one-of-a-kind pizzelles!

We are pleased to host this **VIDEO SALE** at our **RANCH HEADQUARTERS**

Maps to Chimney Butte Ranch:

Crossbreeding is easy with

GELBVIEH & BALANCER[®]

PERFORMANCE

Gelbvieh and Balancer[®] maternal influence in a crossbreeding system offers increased longevity, added fertility, and more pounds of calf weaned per cow exposed.

PRODUCTIVITY

The crossbred female is 30% more productive over her lifetime. More productivity and added longevity equates to more money in the bank.

PROFITABILITY

A Gelbvieh and Balancer crossbreeding program can increase profitability through heavier weaning weights, feed bunk efficiency, as well as heavier, faster gaining feeder cattle.

“WE LIKE THE DOCILITY, FERTILITY AND STAYABILITY OF THE GELBVIEH-INFLUENCED FEMALE.”

-Harry Haythorn, Haythorn Ranch Co., Maxwell, Neb.

HPS: Homo Polled • **%GV:** 94 • An outstanding bull. His maternal sister was the high selling red heifer in our fall 2020 heifer sale. His mother is one of the last Majesty daughters we have in production, she is a flush mate to the X107 bull and has a weaning ratio of 108. She would be a dam of merit, but broke her ankle as a calf before breeding, we held her open for a year to heal. This bull stands on his own. High 205 weight bull for the year, great structure, big volume, and definitely seed stock quality. Look close, there are few bulls offered this good. Retaining 50% semen interest. We will collect this bull prior to delivery.

HPS: Polled • **%GV:** 94 • Dam is a dam of merit. Maternal grand dam achieved dam of merit 3 consecutive years and dam of Distinction 3 consecutive years. Maternal great grand dam has achieved dam of Distinction. Not many animals in any breed have this strong of a maternal pedigree, indicating fertility, performance and longevity. With this pedigree it is easy to overlook the scurs we found when clipping.

Crossbreeding is easy with

GELBVIEH & BALANCER[®]

PERFORMANCE

Gelbvieh and Balancer[®] maternal influence in a crossbreeding system offers increased longevity, added fertility, and more pounds of calf weaned per cow exposed.

PRODUCTIVITY

The crossbred female is 30% more productive over her lifetime. More productivity and added longevity equates to more money in the bank.

PROFITABILITY

A Gelbvieh and Balancer crossbreeding program can increase profitability through heavier weaning weights, feed bunk efficiency, as well as heavier, faster gaining feeder cattle.

“WE LIKE THE DOCILITY, FERTILITY AND STAYABILITY OF THE GELBVIEH-INFLUENCED FEMALE.”

-Harry Haythorn, Haythorn Ranch Co., Maxwell, Neb.

GENETICS AND PROGRAMS FOR THE COMMERCIAL CATTLE BUSINESS

BALANCER® EDGE: Balancer® Edge is a source and age verification program that provides an opportunity for producers using Gelbvieh and Balancer® bulls to participate in a breed-identified feeder calf marketing program. This program also provides producers the flexibility to choose additional value-added programs that allow access to more markets to generate additional value for their feeder calves.

FEEDER FINDER: Find load lots of Gelbvieh and Balancer-influenced feeder calves from across the U.S. Sign up for free at www.gelbvieh.org or call 303.465.2333 to receive emails when cattle are available via auction or private treaty.

EXCHANGE: Looking for Gelbvieh-influenced replacement females, bulls or feeder cattle? The AGA's free Exchange lists Gelbvieh and Balancer-influenced cattle for sale and helps to match potential buyers with sellers.

SMART SELECT SERVICE: Get to know your cows better through Smart Select Service. Smart Select Service is an online record management database that gives the commercial producer tools generated from their cows' records. These tools can then be used to make sound culling and breeding decisions to identify the cows that will increase herd productivity and profitability.

Chimney Butte Ranch sent their home raised steers to be fed at Roode Feedlot in Nebraska. They gained an impressive 3.9 Average Daily Gain and converted 6.17. Their out weight was an impressive 1599 pounds and were only fed for 154 days. It was one of our best closeouts in 2020 when you combine Gain and Conversion. Genetics that put pounds on efficiently is very important with high feed cost."

- Dustin Rippe

GELBVIEH

The Maternal Edge on Efficiency

INCREASED EFFICIENCY

With a more moderate mature cow size, Gelbvieh females consume less while weaning heavier calves.

GREATER LONGEVITY

Gelbvieh cows excel in stayability according to research conducted at Colorado State University.

IMPROVED DOCILITY

Docility is one of the most valued Gelbvieh traits among commercial cattle producers.

MATERNAL SUPERIORITY

Gelbvieh cattle offer the maternal advantage through moderate mature weights, quiet dispositions, added fertility and greater longevity. Gelbvieh ranks #1 for moderate mature cow size and are the earliest to mature of the seven major beef breeds (U.S. Meat Animal Research Center, progress report #22).

"GELBVIEH IS THE MOTHER BREED. NO QUESTION ABOUT IT!"

-Bill Tucker, Tucker Family Farms, Amherst, Va.

BALANCER®

Gelbvieh x Angus or Red Angus

ADDING THE POUNDS

Steers in the 2018 AGA Scale and Rail Contest had an average daily gain of 4 lbs. per day in the feedyard.

MAKING THE GRADE

Many feeders have reported Balancer-sired cattle that grade 90% Choice or better.

DELIVERING THE VALUE

Gelbvieh ranks #1 for percent retail product according to U.S. Meat Animal Research Center progress report #22.

PROVIDING VALUE ON THE RAIL

Carcass data from 302 head of 2016-born Balancer steer and heifer calves fed in Amherst, Nebraska, and harvested at Tyson Fresh Meats in Lexington, Nebraska, prove Balancer cattle are the smart choice for feedyard profitability. These Balancer-influenced calves averaged 93% yield grade 1, 2, or 3, and 98% Choice and Prime quality grade.

"THESE BALANCERS ARE ONE OF THE BEST KEPT SECRETS IN THE CATTLE INDUSTRY."

-Adam Sindt, Riverview Farms, south-central Neb.
