

# Prickly Pear Simmental Ranch

HELENA, MONTANA

ANNUAL BULL SALE

**ONLINE BIDDING ONLY**

**FEBRUARY 4, 2023 @ 2:00 MST**

# Welcome

---

*Dear cattlemen,*

**THIS YEAR HAS BROUGHT BIG CHANGES TO OUR BULL SALE! WE ARE HOSTING OUR FIRST ONLINE ONLY BULL SALE. WE WILL HAVE TWO PENNED VIEWING DAYS PRIOR TO SALE DAY ON JANUARY 21ST AND 28TH. YOU WILL ALSO BE ABLE TO VIEW THE BULLS AT ANY TIME DURING THOSE TWO WEEKS BY APPOINTMENT. WE WOULD LIKE TO ENCOURAGE ANYONE THAT HAS ANY CONCERNS ABOUT THE BIDDING PROCESS TO COME TO THE RANCH ON SALE DAY AND WE WILL BE HAPPY TO ASSIST YOU THROUGH THE PROCESS. YOU CAN ALSO FEEL FREE TO CALL PELTON LIVESTOCK AT ANY TIME FOR ASSISTANCE ON BIDDING. AS IN THE PAST, WE WILL PROVIDE FOOD AND DRINK ON SALE DAY.**

**NOW FOR THE BULLS IN THE OFFERING: THIS YEAR WE HAVE AN EXCELLENT SET OF BULLS WITH A FEW SIRE GROUPS THAT I WOULD LIKE TO HIGHLIGHT. FIRST WOULD BE THE KESSLER'S COMMODORE BULLS WHICH HAVE GREAT LENGTH OF BODY WITHOUT SACRIFICING DEPTH. THE SEVEN IN THE SALE HAVE AN AVERAGE WEANING RATIO OF 107. MY FAVORITE PART OF COMMODORE IS THAT THE BULLS ARE EXTREMELY MASCULINE AND THE FEMALES VERY FEMININE.**

**THE SECOND SET OF BULLS WOULD BE THE FOUR EMBRYO BROTHERS Sired BY HA PRIME CUT OUT OF A GREAT BLACK IRISH KANSAS DONOR. THEIR TWO EMBRYO BROTHERS WERE IN THE TOP TEN SELLING BULLS IN OUR 2022 BULL SALE. THE FOUR BROTHERS HAVE AN AVERAGE WEANING WEIGHT OF 777 LBS. WITH LOT 11 HAVING AN 816 LB. WEANING WEIGHT. THEY HAVE EXCELLENT DISPOSITIONS WITH LOTS OF THICKNESS.**

**THERE ARE SEVERAL OTHER SETS OF BULLS THAT I WOULD LIKE TO TALK ABOUT. THE FIRST IS OUT OF TFS DUE NORTH. THEY ARE DEEP BODIED WITH AN ATTRACTIVE LOOK AND HAVE A VERY WELL ROUNDED SET OF EPD'S.**

**IF YOU'RE LOOKING FOR SOME POWER, THE SHSF FREIGHTLINERS ARE SOME OF THE BEST FOR ADDING WEANING WEIGHT TO A GROUP OF ANGUS COWS.**

**AS ALWAYS I WOULD LIKE TO TALK ABOUT THE BULLS OUT OF ELLINGSON BLAZER. HE HAS BEEN MY "GO TO" HEIFER BULL FOR THE LAST 11 YEARS. THEY STAY MODERATE FRAMED AND ALWAYS HAVE LARGE SCROTAL MEASUREMENTS. THE FEMALES ARE EASY KEEPING, RAISE BIG CALVES AND REBRED EVERY YEAR.**

**THIS IS THE SECOND YEAR OF HOOK'S FRONTLINE. HIS CALVES ARE VERY NICE AT WEANING AND THEN BLOSSOM INTO SOME OF MY FAVORITES WHEN THEY MATURE. THE BRED HEIFERS WE'VE RETAINED LOOK LIKE THE RIGHT KIND OF CATTLE FOR OUR ENVIRONMENT.**

**THE LAST GROUP I WOULD LIKE TO MENTION ARE THE MARDA BLACKSMITH BULLS. WITH LOTS OF LENGTH AND FRAME, THEY WILL SIRE CALVES WITH ADDED VIGOR AND GROWTH. LOT 41 HAS A 205 WEIGHT OF 836 POUNDS.**

**SINCERELY ALL OF US AT PRICKLY PEAR SIMMENTAL RANCH,**

*Troy Wheeler*

# Sale Day

## Information

### JANUARY 21<sup>ST</sup> & 28<sup>TH</sup>

## **NEW CUSTOMERS**

For those of you that are new customers, I just want to go over a few goals we strive for:

1. Disposition. I see a lot of people now are putting disposition codes in their catalogs. We take great pride in the disposition of our cattle, so you can assume they're all very docile unless noted by us.
2. Retaining growth while improving everything else we all want. Calving ease, smaller birth weights, moderate frame size, good udders, feet, etc. Growth is one of Simmental's best assets. Some people are concentrating on birth weights so hard they are losing the growth advantage.
3. We concentrate more on calving ease and maternal calving ease than birth weights. All the bulls in the sale were unassisted at birth.
4. We also look at individual performance more than growth EPDs. The EPDs will change if the animal has the performance, but the animal won't always perform just because he's got good EPDs.

## **RETAINED SEMEN INTEREST**

The bull buyer will receive full possession, 100% salvage value, and 2/3 semen interest of any bull purchased in this sale (unless otherwise noted). This means we are retaining a 1/3 semen interest in these bulls. This semen interest is a royalty interest that entitles Prickly Pear Simmental Ranch (PPSR) to 1/3 of the revenues of any semen sold. PPSR semen interest remains even if the bull or any interest in the bull is sold to a third party. It is the buyer's responsibility to ensure that PPSR's interest is upheld if semen is ever sold. The buyer must also inform any third party of PPSR's interest if the bull is ever sold. PPSR will not be responsible for expense related to semen collection or promotion of any bull purchased, unless a mutual agreement is reached prior to semen collection or promotion. Our retained semen interest also includes the right to collect semen on the bull at our expense and the buyer's convenience.

## **ACTUAL SCROTAL MEASUREMENTS**

We do not believe in adjusted yearling scrotal measurements, therefore all scrotal measurements are actual figures. Actual measurements will be taken at the end of January. All bulls under 30 centimeters will be sifted regardless of age. The bull's testicular size is an early indicator of puberty, which is passed on to their sons and daughters. Bulls with larger testicles service more cows and produce more semen, plus their daughters cycle at an earlier age and have a higher conception rate.

All bulls are measured and palpated by Derek Brown DVM prior to sale. Since a lot can happen between January and April, they will all be fertility tested prior to delivery. The extra \$25 added to our \$100 off if you take your bulls on sale day is to pay for testing at home with your other bulls. The scrotal measurements will be on a supplement sheet along with carcass data.

Most testicular growth occurs from nine to twelve months of age. Remember to consider the age of the calf at the end of January when using these measurements.
