Hello and welcome to our 46th Annual Bull Sale!
Sunday, February 7, 2021 • Granville, ND

Dear Friends and Customers,

As we write this letter, we are entering into the holiday season and about to see the end of another year that presented a number of challenges not only for livestock producers but the public in general. We sure didn't need this pandemic to deal with. As many of us in agriculture express, there is always the hope of a better year next year and find appreciation for what we have. We were fortunate to have put together a sufficient feed supply and the most impressive calf crop ever. We are extremely excited about the first progeny from FREYS COWBOY LOGIC and KR QUALITY 8525. The performance to-date on the bulls has never been as good. We can attribute some of that to the weather however the genetics no doubt have played a major role. We will be exhibiting bulls at the Cattlemen's Congress at Oklahoma City, Oklahoma, on Jan. 2-9. This show took the place of the National Western in Denver that was cancelled. The entries will be sired by Logic and Quality as well as two full brothers to FREYS UNDISPUTED sired by KR OUTFIT.

Lynsey, Edward, Arlen, Lynn & Dustin

Again, we would like to invite you to be with us on "SUPER BULL SUNDAY," Feb. 7, 2021, for our 46th Annual Production Sale at Frey Angus Ranch. We will be offering a SUPER set of Angus cattle which represent the following:

SUPER CALVING EASE: generations of cattle known for shorter gestations which allow for lighter calves that grow

SUPER MILKING ABILITY: generations of females with optimum milk production to allow for heavier weaning weights and successful rebreeding.

SUPER GROWTH: cattle that continue to perform in the feedlot and produce high-valued carcasses

SUPER SERVICE: cattle that sell with a guarantee second-to-none, you deserve nothing less.

In addition to the above, we strive to provide Quality in the offering, cattle that have the type and look that command attention when they enter the sale ring. Cattle that gain you a reputation and make you proud as well as prosperous. There is one bull that does that more than most, thus the name KR QUALITY 8525.

In addition to the above, the bulls have been developed on a sound growing ration with complete performance and carcass information. All of the bulls as well as females have been DNA tested under the Angus GS program for enhanced EPDs, parentage verification and are free of genetic defects unless otherwise stated as carriers. This year a select group of younger aged and pasture sired open yearling heifers will offered without registration papers. However, if you are interested in registration papers they are available for an additional \$250/head.

The average birth weights on the bulls are 80 pounds as a result of selection for shorter gestation and those suitable as calving-ease bulls are identified as such. The average adjusted 205-day weaning weight is 813 pounds and their average daily gain for the first 122 days since weaning on August 12th was 3.88 pounds with an average weight per day of age on Dec. 12 of 3.93 pounds. This information in addition to their 12-12-2020 weight is posted for each individual as well as an adjusted scrotal circumference to a year of age. Carcass data will be available on sale day from ultrasound.

The sale offering will be sorted and penned on display for your evaluation. The cattle will be sold in catalog order, however via big screen TV in our heated sale barn. A video of the entire offering will be on our website as well as on www.dvauction.com. We have provided photos of most of the bulls in the event that you may wish to bid online. We plan to make your attendance as safe and enjoyable as possible.

In closing, we appreciate your kind words upon the passing of our mother to which have in tribute, dedicated this sale to her. Again, we invite you to be with us on Sunday, Feb. 7, 2021. Come early for a complimentary beef lunch. If we can be of assistance, please do not hesitate to call. You are always welcome to come and view the cattle at any time.

GLOSSARY & EPD EXPLANATIONS

PERFORMANCE DATA

All of the EPDs, birth weights, 205-day weights, ratios and carcass information in this catalog are official data processed by the American Angus Association and Red Angus Association of America. The information was the most current information available prior to printing the catalog. Supplemental information will be available sale day.

EXPECTED PROGENY DIFFERENCES

EPDs are the prediction of how progeny from each animal is expected to perform relative to the progeny of other animals in the Angus breed. As data continues to accumulate, accuracy levels rise and EPDs will shift accordingly.

CALVING EASE DIRECT (CED)

Is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers. Breed average is +6.

BIRTH WEIGHT EPD (BW)

Expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires. Breed average is +1.2.

WEANING WEIGHT EPD (WW)

Expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. Breed average is +57.

YEARLING WEIGHT EPD (YW)

Expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires. Breed average is +100.

MATERNAL MILK EPD (MILK)

Is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability. Breed average is +25.

CARCASS WEIGHT EPD (CW)

Expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires. Breed average is +42.

MARBLING EPD (MARB)

Expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires. Breed average is +0.56

RIBEYE AREA EPD (RE)

Expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires. Breed average is +0.57.

BEEF VALUE (\$B)

An index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires. Breed average is +130.

SCROTAL CIRCUMFERENCE (SC)

Scrotal measurements in centimeters will be cataloged on all bulls selling. A measurement of 33 centimeters is considered acceptable for yearling bulls. The larger the measurement is a good indication of semen volume one can expect from each bull. Scrotal circumference in catalog is adjusted to 365 days of age for yearling bulls. Older bulls are actuals.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	28	Milk	33
Birth Weight	21	Mature Weight	11
Weaning Weight	26	Mature Height	8
Yearling Weight	21	Carcass Weight	9
Dry Matter Intake	8	Yearling Height	11
Scrotal Circumference	13	Carcass Marbling	9
Docility	10	Carcass Ribeye	12
Heifer Pregnancy	14	Carcass Fat	10

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

Identification Responsibilities

1. Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (e.g., tattoo, hot-iron brand or freeze brand) corresponding to its registration.

Sex

1. Unless otherwise represented by the seller, there are no guarantees that offspring will be of a particular sex.

Privileges of Return or Adjustment: Options

1. With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.

2. Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.

3. If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim.

Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.

4. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of the sale.

5. If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of sale.

6. If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. The Seller is responsible for all transportation expenses.

7. White skin or hair must not be painted or altered. If such painting or alteration has occurred, the buyer may return the animal to the farm of the seller for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer.

8. If an animal is sold and subsequently becomes ineligible for registration under the rules of the American Angus Association for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.

9. If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the second anniversary of the date of the sale.

10. If the resulting calf of a pregnancy is not of the sex represented at the time of the sale, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary date of the sale.

11. Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

1. If seller retains any genetic materials of an animal being sold that can be used for cloning, the seller must disclose such fact to any potential buyers prior to the sale.

GENETIC CONDITIONS: REQUIRED DISCLOSURES RELATING TO CERTAIN TEST RESULTS OR POTENTIAL CARRIER STATUS OF AN ANIMAL.

1. In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of (1) any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by the American Angus Association) as a carrier of any genetic conditions recognized by the American Angus Association, and (2) whether the animal has a potential carrier designation on its pedigree for any genetic condition that is recognized by the American Angus Association.

Optional Guarantee: Genetic Conditions

1. The buyer and seller may determine the scope and duration of a guarantee, if any, on an individual basis. The seller may, but is not required, to provide a guarantee to the buyer relating to genetic conditions.
2. Nothing contained herein should be construed to relieve the parties from complying fully with all the rules and policies of the Association relating to genetic conditions generally or individually.

FREY ANGUS RANCH

THE PEOPLE ...

At the Frey Angus Ranch, you have three cattlemen riding herd on your investment. Your investment represents 70 years of breeding and selection for cattle that are acceptable in size, correct in structure, sound in their movement, and functional on the range, in the feedlot, and desirable as the end product to the consumer. Cattle that calve easy, breed back quickly, milk and grow. They do it consistently and in a superior manner. Our records show it, our cattle prove it and we guarantee it. Count on these bulls to make a difference in your operations profit. We intend to see to it that our cattle make a difference in your program. You deserve nothing less.

THE CATTLE ...

At the Frey Angus Ranch, the cattle are measured for profit.

- Profit is a live calf at birth
- Profit is a good milking, sound-uddered cow that breeds back quickly and weans a heavy calf every year
- Profit is a carcass of high value and quality
- Profit is eventually determined by herd sire selections

Here you will be able to select from value added bulls where profit and quality are stressed right down to the last bull to sell. The bulls offered will have a strong maternal influence of FAR Krugerrand 410H, the 2002 National Western Champion Bull bred by Frey Angus Ranch. Many of his daughters and grand-daughters will have produced sons by some of the most prominent herd sires of the breed: Freys Appearance, KR Outfit, Freys Cowboy Logic, KR Quality 8525, FAR Athlete, Freys Presence, FAR Status 116, FAR Big Sky 6014, and others.

THE PROGRAM ...

At Frey Angus Ranch, the program is a simple one. It is a program where performance testing breeds performance and where the cowherd makes a difference. Each cow has to make a difference and that difference is measured in the average results in the bulls selling. The average birth weights are at or near breed average of 80#, average weaning weights of 813#, and average yearling weights of 1433#. These are fertile, mature, and active bulls with balanced EPD's and exceptional individual performance that also includes carcass information determined by ultrasound. These bulls will be delivered to your ranch after April 1st at no charge with an unconditional guarantee for injury through the first breeding season. Most importantly, these bulls will work because they are bred and developed to do so. They are the kind that make a difference.

FREY ANGUS RANCH

TRIBUTE FOR ARLYSS

The Freys would like to pay tribute by dedicating this sale to their mother, Arlyss Frey, who passed away this past October at 95 years of age.

Arlyss Frey, the matriarch of Frey Angus Ranch was an integral part of the operation since its early beginning. Arlyss married Allen E. Frey on June 21, 1948 in the Hope Congregational Church at Granville. They celebrated 63 years of marriage prior to Allen's death in 2011. Arlyss and Allen began to build their operation at their home place south of Granville in 1950. The ranch is located $\frac{3}{4}$ mile from her parent's farm where she grew up. Arlyss often joked that she didn't get very far in life.

Registered Angus cattle became part of the operation at its onset and continues to its present day. Allen and Arlyss involved their children in the operation that would eventually be operated by three of their sons today. The brothers are presently involving their children as well for continuation of the operation that started some 70 years ago. 2021 will be the 46th annual production sale for the Frey's.

In the early years of the operation, Allen and Arlyss employed a number of town kids from nearby Granville during the summer. When Arlyss would drive to town, she invariable was met by a number of young boys wanting to come to the ranch. They indicated a desire to come work with Allen at the ranch, however, the underlying desire was most likely the meals that Arlyss provided.

Arlyss was a wonderful cook, always providing home cooked meals ready for her family and help. Because Allen was known to invite anyone in for dinner, who happened to stop by with a delivery or visit over dinner hours, Arlyss was always ready to set an extra plate at the dinner table. It was only natural, that Arlyss became in charge of the meal on sale day. The meal would soon become the main attraction on sale day and possibly over-shadowing the cattle.

Arlyss was a devoted mother to her five children. She encouraged them in reading, always making sure a box of books arrived each month from the State Library. Many hours were spent listening to her read stories. She also encouraged and supported their involvement in 4-H and FFA and made sure their homework was done after their chores were completed. She especially encouraged them to be involved in livestock judging as well as showing livestock. Her one daughter becoming the North Dakota Angus Queen and sons becoming involved in Junior Angus Activities, collegiate livestock activities as well as State Association Livestock activities in later years.

After her family was raised and off to college, in 1969, with the encouragement of Allen, Arlyss returned to Minot State University to earn her bachelor's degree in education. Arlyss then returned to teaching in Granville until retiring at age 72 in 1997. Arlyss continued as a substitute teacher until she was 80 years old. Arlyss was a natural teacher, always looking for the best in her students. She worked hard to make sure that all of her students felt valued and special in her classroom.

She loved taking care of her grandchildren during the summer months and "after school". She always had a carload of kids to take to school in the morning, and after school they would go to her classroom and patiently wait for Grandma to finish work and take them to her house for snacks. She was one of the Schwan's best customers and always had cookies on the counter for the kids and Eddie.

She was a wonderful role model, especially to her daughter and granddaughters, encouraging them to work hard to become educated women with families and careers. She was so proud that all of her grandchildren furthered their education at North Dakota colleges. Arlyss especially loved visits from her great grandchildren and had the unique ability of making each and everyone feel that they were special and her favorite.

Arlyss contributed her talents to her church and community. She was a lifelong member of Hope Congregational Church and served as Sunday School Superintendent and Women's Society Treasurer. She was a member of the Granville Chapter of the Order of Eastern Star for over 75 years as their Secretary. She was also an active member of the Legion Auxiliary, Granville Cemetery Board and Blanch M. Nelson Study Club. She was a great supporter of the local FFA Chapter and was awarded an honorary chapter degree.

She will be greatly missed for her support and encouragement that she gave freely without expecting anything in return.

CATTLEMEN'S CONGRESS PEN BULLS

In 45 years of production sales, we have seldom, if ever, written footnotes for each individual offering. We continue to provide as much individual data on each of the offering as possible, sort them to our liking, provide video and photos and allow you as knowledgeable individuals to appraise them. The first 8 lots were selected to be exhibited in the pen shows at the Cattlemen's Congress in Oklahoma City, Oklahoma. This show replaces the National Western Stock Show in Denver that was cancelled due to the pandemic. They again are not necessarily the best individuals

of the offering, however, in our opinion, they fit together and would best represent our program. Something we had seldom if ever done until last year was to sell any of the offering prior to the sale. Last year was an exception as we sold the pick of our carload in the National Angus Bull Sale held in conjunction with the National Western. This year, we were invited to sell a pick again and agreed to do so. The sale will be held on January 8th, 2021. As we have done previously, we will make a few comments on these lots which again could be said for most of the offering.
