Welcome

GREEN MOUNTAIN RED ANGUS

Welcome to Green Mountain **RED** Angus!

As they say, 'Home is where the heart is.' And what a lesson learned this past year! We think this statement has become truer than ever as people realized they didn't need to leave home to find the good things in life. We proudly feel that is something that those of us in the ag industry already knew. So, while we stayed home and self-quarantined, we found out this was something most of us had been training for our entire life. Nothing takes precedence over our crops and cattle and families. Nobody needed to tell us to stay home to figure this out. What a tribute to all of us in production agriculture!

During this past year the consumer has realized how their life has changed from a focus on, shall we say, the less important things in life, to the more basic necessities. Moving forward this does nothing but give us optimism for the future of the cattle markets. Now more than ever we need to concentrate on moving our herds forward and providing top quality beef that makes a positive impression. Always keep in mind that your new genetics will be your most advanced genetics. If you are contemplating keeping that older bull one more year, this just might be the year to decide to move forward and upgrade your bull battery. As technology progresses, we are available to more readily identify the cattle that will excel in various facets of production, and here at GMRA we utilize everything we can to provide you with the most comprehensive and accurate data in the industry.

When looking through this catalog you will see a nice blend of heifer bulls and growth bulls, including several that will be able to transition into your mature cow herd after being used in the heifer pasture. We strive to provide bulls that can excel in more than just one arena. Many bulls in this offering fit that bill and will be able to provide calving ease as well as

growth and carcass. It's obvious as you look through this offering that we pay very close attention to the RAAA indices and EPDs with the goal of providing our customers with infallible number sets that stay strong across the board. We take DNA samples on every bull and receive genomically enhanced EPDs to increase the accuracy of those numbers so you can feel confident in your choices. As always, we do full physical evaluations on the bulls to evaluate phenotype and disposition. Even though the RAAA has not yet defined a reporting structure for feet and legs, we do our own evaluations based on industry standards and have been doing this for years. This is invaluable as we have seen our feet structure improve yearly, to the point that we simply don't see any unacceptable rankings.

As we approach the 2021 sale we move forward with optimism and excitement. The beef industry is poised to become stronger than ever, with Red Angus at the forefront. 2020 has taught us that perseverance is a trait that runs strong in the rural communities, yet we do need to remember not to take anything for granted. In addition to a promising future for Red Angus, the Morton family is looking forward to some very exciting changes in 2021. Jim will be graduating from the MSU school of photography in May. He is coming back to the ranch with the knowledge that he can continue to pursue his passion of documenting the ranching way of life through his lens. In June, Tom is getting married and we are welcoming Katie Harris to the family. Katie is a perfect match for Tom and a great addition to the GMRA crew.

We are truly honored to have been a part of the Red Angus community for over 35 years. Whether you are a seasoned Red Angus cattleman or new to the breed, the crew at Green Mountain Red Angus would like to thank you for putting your trust in our program. We hope you enjoy looking at the genetic packages offered here. Please reach out if you would like any additional information to help with your genetic selections. Stay well and we look forward to seeing you on sale day!

Auctioneer Trent Stewart

Clint Berry

Nolan Woodruff

John Goggins

Devin Murnin

Jeff Thomas

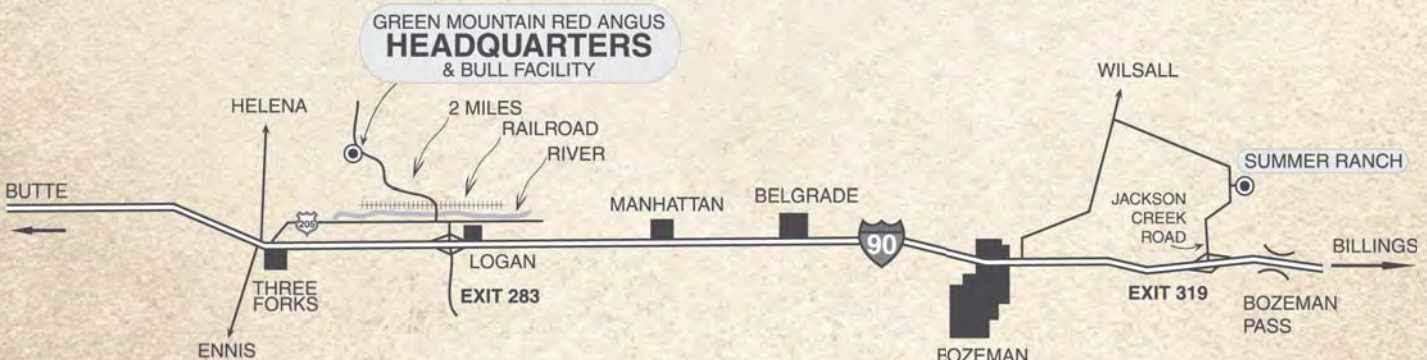

Matt Wznick

Jay Rost

Nate Smith

Get off 1-90 at the Logan Exit, #283. Go north and take a left on the frontage road. Proceed west toward Three Forks, about 1/2 mile. Take a right onto Logan Trident Road, heading north. The road immediately crosses the Gallatin River and the railroad tracks, as shown on the map. Green Mountain Red Angus is 2 miles from the railroad tracks. Watch for the large Green Mountain Red Angus sign.

The entire GMRA herd has undergone GGP-LD testing and have genomically enhanced EPDs and parent verification.

TERMS AND CONDITIONS

1. The terms of the sale are cash unless prior arrangements have been made.
2. Each animal will be sold to the highest bidder. The person in charge will settle any disputes as to bids, and his decision on such matters shall be final.
3. Any announcement from the seller on sale day will take precedence over printed material.
4. Health certificates will be furnished for shipment anywhere in the United States.
5. Each animal becomes buyer's risk as soon as sold; but it shall be the obligation of the seller to see that animals are fed and cared for, free of charge to purchaser, until loaded for shipment or until the expiration of April 1st of the current year.
6. Retained Interest: Green Mountain Red Angus is retaining one-third revenue share interest in all bulls in the sale. We reserve the right to participate in the collection and marketing of semen. Buyers receive two-thirds interest, full possession and full salvage value. If seller wishes to collect semen for in-herd use only it will be at seller's expense and the buyer's convenience. If the buyer wishes to share in the collection costs and keep his share for in-herd use that is their choice.
7. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event an animal is claimed to be a non-breeder, the Seller shall be entitled to six months' trial following the return of the animal in which to prove the animal is a breeder. If at the end of six months the Seller is unable to prove the animal is a breeder, restitution shall be made, in compliance with the terms set forth by the Red Angus Association of America. Any expenses incurred for transporting the animal shall be the buyer's responsibility.
8. Everyone attending this sale does so at their own risk. Owners, clerks or other helpers do not assume responsibility, legal or otherwise, for damages of any kind.
9. A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.
10. The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

**These cattle do sell in accordance with the Sale Terms and Conditions
set forth by the Red Angus Association of America.**

DVAuction

Broadcasting Real-Time Auctions

Watch and Bid Online at DVAuction.com

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DVAuction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Creat New Account" tab
- Enter a user name, password and your contact information.
- Complete the Banking Information. (If you are only interested in viewing you can skip this section)
- Select your Time Zone, Accept the Terms and Conditions and click "Create Account"
- Complete the process by answering a few questions, selecting your subscription choices
- Click on "Apply for Bidding" in the upper left corner of your screen to select the sales you wish to bid on
- Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
- If you would prefer to be approved using your credit card, call (402) 316-5460.
- Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com. "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.**

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number." Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone..

Click-To-Bid. This is Superior's online bidding program for cattle buying. **PLEASE NOTE THAT HIGH SPEED INTERNET IS REQUIRED – THIS IS NOT FOR DIAL-UP OR SATELLITE INTERNET.** Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are two places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid." Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

***If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.**

A-BAG-A-BULL

RED ANGUS
RANCH TESTED. RANCHER TRUSTED.

If you purchase a bull from us, we will provide you with credit equal to the value of one bag of Feeder Calf Certification Program or Allied Access tags for each bull you purchase. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. Cattle enrolled in the FCCP are accepted into the exclusive Choice+ and G.O. Red grids. The FCCP 'yellow tags' are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.

Top Dollar Angus Feeder Calf Program

Promote Your Verified Genetic Investment

Top Dollar Angus is the industry leader in third-party genetic verification and marketing assistance for superior Angus and Red Angus-based feeder cattle. Our program stamps a unique identity on the 'best of the best' by verifying and then showcasing their genetic merit. The Top Dollar Angus team works directly with a large number of feedyards and buyers to provide them with documented superior

feeder cattle, coupled with genetic risk mitigation and the precision understanding they need to pursue your cattle with absolute confidence.

Top Dollar Angus enables cow-calf producers to benefit from the genetic value already built into their herds. Producers that invest in high-end genetics, as well as strong health and nutrition programs, need a means of positively differentiating their calves from average cattle. Top Dollar Angus does that. Industry demand is strong for genetically superior feeder calves with the right supporting documentation. Don't make buyers guess, let them know by putting the Top Dollar Angus badge of honor on your premium genetic investment.

King James – the name says it all! The first thing you notice is, of course, the phenotype. There is so much rear quarter, depth and capacity it's hard to notice that there is abundant length as well. The straight broad top leads to tremendous spring of rib and a broad and deep chest floor. He strides out nice and easy with no restriction on movement. The performance is second to none, with a nice moderate BW followed by outstanding growth. He posts the #2 adjusted WW of the GMRA bulls and a WR that is tied for #4 in the offering. This lends to an ADG ratio of 106 and a WDA of 111. His carcass scans were excellent with the #3 actual REA, adjusting to the #1 REA in the class, resulting in the top ratio of 122. Now take into account the EPD profile... Absolutely outstanding with an impressive 15 numbers in the top 25% of the breed or higher! Indices and maternal numbers blend with the impressive performance, while all carcass EPDs rank in the top 16% or higher. He is a curve-bender with a BW EPD in the top 24% and WW in the top 14%. His HPG is tied for #3 in the class and he has the #2 YG and REA EPDs. His dam is a true Matriarch at GMRA with an MPPA of 103 on 8 calves. His great grandam is the well-known Estonia 8102 cow that produced such greats as GMRA EBV 266. The straight maternal line is full of performance, with MPPAs of 100+ going back to a 1977 born dam. This bull, named King James as a tribute to Bob's father, who founded Green Mountain Red Angus, is sure to make his mark on the Red Angus breed!

Our DDRA Venice 4003 has produced another standout bull. Her Union 05C bull calf topped the sale last year and this year has an outstanding Brunswick calf. 4003 is a 6-year-old, moderate framed Peacemaker daughter that has clean feet and legs and a perfect udder. She consistently produces above average calves and readily breeds back in the front of the herd. Additionally, she is one of the quietest cows we own. This quiet disposition is passed on to her offspring, as evidenced when you move around this bull out in the feed-yard. 005 has herd bull potential. He is moderate framed with extra thickness. Phenotypically he is very correct in leg shape, hoof structure and moves freely about. He has a very smooth head shape and top line. Boasting 12 EPDs in the top 17% of the breed he offers loads of maternal qualities along with good growth and carcass traits to his offspring. Personal performance is all there with an ADG ratio of 104 and a WDA of 102. Carcass scans turned in an IMF ratio of 118 and REA of 106. Bowman is complete and is a true stand out in every aspect.

If you want a bull that will take extreme calving ease all the way to the top of the scales at weaning, look no further! Patriot is a product of a Tesla daughter from the high production Ophelia cow family. His dam, a first calf heifer, is posting an MPPA of 107, followed by a maternal pedigree posting a 102, 108 and 106 in succession. The 108 belongs to the performance-minded GMRA Ophelia 036. This maternal power is combined with calving ease sire, Independence. Patriot hit the ground at a modest 63# and took that birth weight to a WW ratio that ties for 4th in the class and a WDA ratio of 107. CED, BW, CEM and Milk EPDs are all in the top 10% of the breed. Just one look tells you his calves will come nice and easy. He features a smaller head, flowing into a smooth shoulder, followed by a smooth muscle pattern throughout. His profile is second to none with a straight top and a tight sheath. He has excellent feet and legs with a nice stride. And the cherry on top? Disposition - he is one of the gentlest bulls in the pen! This is a calving ease bull that will do it all!

There is no way you can ignore Apache when you walk into the bull pen. He is a standout, with a nice straight topline, expressive muscle pattern, and all the depth and capacity in the world. Take a step toward him for another look and you will find out just how calm his disposition is! The Excellence progeny are known for calving ease and this bull will add growth and carcass to that equation. He posts a WDA ratio of 101, an IMF of 104 and a REA of 101. He features an incredibly complete number profile with 11 numbers in the top 25% and all but 3 in the top 50%. Single digit standouts are ProS, HB, CEM, Stay, YG and REA. He will be easy to breed to, going into any herd and complementing existing EPD profiles. And don't forget the strength of the maternal pedigree. His dam features a 102 MPPA on 8 calves, following a maternal pedigree featuring MPPA's ranging from 100-105 going back to a 1980 born dam before you see one under 100. The proof is in a Stay EPD that is tied for #3 in the class.

Here is one of your last chances to get a simply outstanding Profitbuilder son from the GMRA program. His is out of one of our most productive Trilogy dams, who features an MPPA of 103. She is backed up by a tremendous maternal lineage with a line up of MPPA's that read like a who's who in the herd, culminating in a 1995 born dam featuring a 112. One needs to go all the way back to a 1984 born dam before you can find an MPPA under 100. Personal performance is at the top of the class with the #4 adjusted YW, an ADG ratio of 112 that is tied for #3, and a WDA of 113, tied for #5. Carcass ultrasound is strong with an IMF ratio of 101 and a REA of 108. An impressive 11 EPDs are in the top 25% of the breed, featuring single digit percentile ProS, GM, WW, YW, ADG, MB and REA. Phenotype is outstanding with an exceptional muscle pattern with a deep rear quarter and tons of depth and capacity.

The Ophelia cow family just keeps producing standouts like this Domain son, year after year! Authority is out of a first calf heifer that is posting a 107 and goes back to the great GMRA Ophelia 036, who was one of the most performance-minded cows in GMRA history, posting an MPPA of 108. Authority features it all, from low actual birth to outstanding personal performance, from weight gain to carcass. His WR is tied for #4 in the offering and he has the 3rd highest YR. He posts an ADG ratio of 112 that ranks as #3, and a WDA of 113, which is 5th. His IMF ratio of 101 and REA of 112 are backed up by EPDs in the top 7% and 10% of the breed, respectively. 5 more numbers rank in the top 10% of the breed or higher, including ERTs of ProS, GM, WW, YW and ADG, which is tied for the 5th best in the offering. Authority is built right with a super broad top and a wide rear quarter. Replacements? Retained Ownership? Sell calves at weaning? He'll do it all!

This Tesla son is a true standout, from pedigree to performance, and phenotype to genotype. His performance is unparalleled with a moderate BW being taken to extreme personal growth. Single digit percentile WW and YW EPDs are backed up by his growth ratios. He turned in an ADG ratio of 108 and WDA of 111. Carcass scans were impressive with a 112 IMF ratio, 108 REA and 113 BF. This is all backed up by a top notch set of numbers, showcasing 11 in the top 25% of the breed or higher, with several in the top 11%, including WW, YW, Milk, CEM and Marb. His pedigree is a who's who in the world of GMRA. He is out of Tesla, who is a Trilogy son, bringing in the power of the Lakota cow family. His dam is the #1 MPPA mature cow in the herd, posting an impressive 113 on 8 calves. All MPPAs in the maternal lineage are over 100 going back for 5 more generations. Ferrari has a great set of wheels and strides out well for a smooth ride and is super easy to get along with.

This Domain son rose to the top of the list with ease. One look and you see the smooth muscle pattern complemented by a deep rear quarter, extreme length and great depth and capacity. There is no extra leather here, with a tight sheath and a clean front end and it all sits on an excellent feet and leg structure with a nice, smooth stride. He took a low birth weight to the #1 weaning and yearling ratios in the offering, leading to the #3 ADG ratio of 112 and #1 WDA of 118. He features 9 numbers in the top 19% of the breed, with single digit percentile ProS HB, WW, YW, ADG, ST and CW. His REA ratio of 108 backs up a REA EPD in the top 27% of the breed. Velvet will put calves on the ground with no difficulty, that jump up and go to work, leaving you with outstanding gains and carcass. His dam is a first calf heifer already posting a 110 MPPA, following a maternal lineage full of high production MPPA's.

I think this bull didn't comb his hair for picture day so he got thrown back in general population. He is an absolutely beautiful dark red with extra length, capacity and thickness. He has outstanding feet and legs and moves out with a very natural, smooth stride. The phenotype is complemented by the personal power. Top ranking growth ratios give him the #2 WR with the #1 adjusted 205-day weight of all GMRA bulls. His adjusted yearling weight ranks at #1, giving him the #2 YR. ADG and WDA ratios are both 118 and sit at #1 of all bulls on test. His REA scan resulted in the #5 actual and adjusted REA's and the #3 REA ratio of 119. All of this performance slides right into a very complete set of EPDs that confirm the performance. WW, YW and ADG are all in the top 1% of the breed with WW tied for the 5th best in the class, YW tied for #4 and ADG tied for #2. Marb, CW and REA all sit in the top 16% or higher and verify a GM in the top 5%. Now let's look at maternal power. His dam posts a 105 MPPA on 5, following in the footsteps of an impressive lineage that features an MPPA of 112 and never shows an MPPA below 101 for nearly 40 years.

Pam Vanek

Lot 11

This bull holds his own with a moderate birth weight and impressive gain ratios. He is built like a tank and exhibits an impressive rear quarter with extra length and great capacity all sitting atop an excellent feet and leg structure. But now it's time for a history lesson and this is where things get interesting... The maternal lineage is one of the most high-end production sets of females we have come across. His dam has an impressive MPPA of 108 and the grandam features a 104. The great grandam has an MPPA of 99, but that is the **ONLY** MPPA of less than 100 in the entire straight maternal pedigree line going back to the start of it all. All the way back to Red Angus Foundation Female, BKT Larkable 2, born in 1949, holding RAAA registration #95. And when I say foundation, I mean her pedigree says 'Foundation Angus' in place of her dam's name. Now take a look at her sire, Larkspur. He was born in 1945 and owned by Mrs. Waldo E. Forbes, and he is registration #1. Yes, that's #1 in all of Red Angus! Yup, purchase this bull and you could own a piece of history!

Just look at the phenotype on one of the youngest bulls in the offering! He is very capacious with a square butt and deep rear quarter showcasing a smooth, yet powerful muscle pattern. High end growth rates an ADG ratio of 105 and WDA of 106. 9 numbers are in the top 25% of the breed or higher and 7 of those are in the top 10%, with a CW at 2%, and WW, YW and ADG all in the top 1%. His WW EPD is tied for #5 in the offering. Growth and maternal combine with an impressive maternal pedigree from the Peacha cow family. His dam has an MPPA of 101 on 5 calves. You have to go back over 35 years to find a dam in the maternal lineage that posts an MPPA under 101. His great grandam was a highly prolific donor cow, who posted a 107. He's double bred Lakota on the paternal side, giving him an extensive, high performance pedigree on the top side as well.

A solid maternal pedigree sets the stage for a very solid bull, showcasing a great set of numbers & an expressive phenotype. His dam is backed by the GMRA Ophelia 036 pedigree which goes back to a 1974 born dam before you find an MPPA under 100. 11 EPDs in the top 25% of the breed or higher with an emphasis on maternal traits. Milk, HPG, and Stay are all single digit percentiles, while growth & carcass numbers stay strong with all numbers in the top 35%. Milk is tied for #4 in the offering, & HPG is tied for #3. Look for extra length, capacity, excellent feet & leg structure.

A powerful maternal lineage is the start of a great foundation for this Tesla son. He's a maternal sib to GMRA Proclamation 9238G, featured as Lot 4 in last year's sale, selling to Allen Trigg for \$7K. His granddam is the dam of GMRA Connery 8205F, featured as Lot 5 in our 2019 bull sale, selling to Bybee Cattle Co. for \$9.5K. She also raised GMRA Spot On 9277G in our 2020 sale, selling to 50 years. If that doesn't boost your confidence take a look at the phenotype. A straight broad top with above average marks across the board for length, depth, capacity and thickness. He has excellent feet and leg structure and moves out with a long, smooth stride. He has a very solid set of numbers with over half of them in the top 25% of the breed or higher. He attains curve-bender status with a CED at 8% and a BW at 9%, while still having growth numbers in the top 35%. ProS, HB, Milk and CEM are all in single digits as well. Breed this bull to heifers with confidence and then transition him straight into your mature cow herd.

Rolling Deep Y118 is an extremely heavily used bull within the Red Angus world. GMRA purchased Rolling Deep B627 in 2015 and we both have been offering his offspring since. He left GMRA in 2017 and has stayed in use in the DDRA herd, and these will be the last of his direct offspring. B627 was a thick butted, big ribbed long made bull with a moderate frame and sound feet and legs. He also had a very quiet disposition. His sons and daughters are the same. 039 has the look of his sire. Offering top of the breed CED, CEM and BW EPD he is sure-fire calving ease. He also posts top-notch maternal numbers, with a HB at 6%, a Milk at 4%, which is tied for #4 in the offering, and Stay at 2%, which is tied for #3. In addition, he turned in a 113 IMF ratio and his Dam posts a 104 MPPA.

There is a tremendous amount of growth here that continues on through yearling. He posts an ADG and WDA ratio of 108. 9 EPDs rank in the top 25% of the breed with ProS, WW, YW and ADG all in single digit percentiles. He scanned exceptionally well, with an IMF ratio of 111 and a REA ratio of 106. Dam posts a 101 MPPA and the granddam has an outstanding 106 on 8 calves. Following the impressive maternal lineage there is only one MPPA under 101 in 10 generations, spanning back nearly 50 years.

Just one look at this Odyssey son gives you an idea of the powerful performance and number package on board. Personal growth gives him an ADG ratio of 111 and a WDA of 114. He posts the #5 adjusted WW, the #4 YR, WDA and adjusted REA, and the #3 adjusted YW and REA ratio of 119. 10 numbers are in the top 19% of the breed with very impressive top end growth. REA is in the top 11%, CW top 7%, a WW at 3%, and ProS, HB, YW and ADG in the top 2%, and Stay is in the top 1%. The maternal pedigree is stacked with MPPA's well over 100 and longevity in the herd. His dam posts a 103 on 5 calves, grandam is 105 on 6, great is 103 on 10 and great-great is 105 on 12.

There is a lot of potential in this Tesla son. He hit the ground fast and easy and turned a 66# birth weight into explosive growth, turning in an ADG ratio of 106 and a WDA of 107. The GMRA Absolution dam's pedigree is full of GMRA maternal performance. The dam posts a 105 MPPA and the grandam posts a 109 on 10 calves. Going back in the pedigree takes you again to GMRA Ophelia 036, who was one of the most performance-minded cows in GMRA history, posting an MPPA of 108. The EPD profile is superb with a consistence mix of birth, growth and carcass, culminating in ProS in the top 5% of the breed. His CEM and Milk are in the top 2%, and his Milk EPD is tied for #4 of all bulls on test. This bull's profile hits all the marks, with a broad, straight top with good length and thickness in the rear quarter. Front and rear feet earned excellent marks and set the foundation for this phenotypically correct bull.

You cannot go through the bulls and not pick this guy out. He is masculine and really exhibits that "mature bull" look. Out of an Epic bred cow and Brunswick as his sire, he is sure to produce excellent growing calves without sacrificing maternal qualities. He posts an ADG ratio of 115, WDA of 102 and a REA of 103. He has the #2 adjusted YR and ADG of all bulls on test. He is the top 1% in ProS, HB, WW, YW, ADG, and HPG. Additionally, he ranks in the top6% or higher for GM, CW, and REA. He is tied for the #4 HB EPD in the class, has the #4 WW, is tied for the #2 YW and has the #1 ADG and HPG. There is not much he won't do. Both his phenotype and personal data make him an attractive option for any breeder.

Here is a full sib to last year's Lot 3 bull, GMRA Sinatra 9250G, who sold to Berg Ranch Co. for \$6000.00. His young dam is posting an impressive MPPA of 103 on her first 3 calves. Like his brother, excellent growth through yearling equates to an ADG ratio of 108 and WDA of 105. Power and performance are the order of the day with over half of his EPDs in the top 25% of the breed or higher with WW, YW, ADG, and CW all in the top 1%. His WW EPD sits at #3 in the offering, while YW and ADG are tied for #2, and CW is #1. Look no further if you sell pounds at weaning! Want to keep replacements? He will pass on excellent feet structure, good length and abundant depth and capacity. Maternal numbers are solid.

Here is a solid, compact, bona-fide heifer bull with the 3rd lowest birth weight in the 2020 class. He took that low birth to an impressive 107 WR. He has 10 EPDs in the top 25% of the breed or higher with a super strong set of calving ease and maternal numbers. HB, CED, BW, Milk, CEM and Stay are all in the top 1% of the breed. These numbers rise to the top of the class as he is tied for the #2 CED, had the #3 BW, is tied for the #1 Milk and CEM, and has the #2 Stay. The dam's pedigree reads like a who's who in the GMRA herd. She posts a 103 MPPA and they go all the way up to a 108 before you find a 1974 born dam with an MPPA under 100. This pedigree goes back to the great GMRA Ophelia 036, who produced many standouts for the GMRA program.

Lot 31

the top 1% of the breed. There is a strong set of EPDs with 13 in the top 25% of the breed or higher, including curve-bending stats of CED, BW, WW, YW and ADG. Overall, there are only 4 numbers that are not in the top half of the breed. He ties for the #1 Milk EPD has the #1 YG and the #3 REA in the offering. The Dam posts an MPPA of 100 and goes back to the Estonia 8102 Matriarch, who produced several top end progeny for GMRA.

Another Brunswick son with that Brunswick phenotype we love, all sitting atop a set of excellent feet. He has a straight, broad top, nice spring of rib and capacity and nice muscle expression. He posted the #2 REA ratio of 121, and the #2 actual and adjusted REA, which verifies a REA EPD in the top 1% of the breed. He ties for the #1 Milk EPD has the #1 YG and the #3 REA in the offering. The Dam posts an MPPA of 100 and goes back to the Estonia 8102 Matriarch, who produced several top end progeny for GMRA.

The length of Declaration always crosses well with a Roosevelt dam. This bull exhibits great spring of rib lending to well above average capacity. He comes from a performance minded dam with a 105 MPPA on 6 calves, and a grandam with an MPPA of 108 on 8. He posts an ADG ratio of 106 and WDA of 107. Growth EPDs are in single digit percentiles and carcass is solid with a CW EPD at 1% which is tied for 3rd highest in the class.

Here's an exceptional heifer bull turning in a nice WR of 105, a WDA of 100 and a REA ratio of 107. He has excellent feet and abundant length. His dam is a first calf heifer already posting a 102 MPPA. The straight maternal pedigree is full of performance with only 1 MPPA under 100 going back 11 generations. His calves will be quick to hit the ground and will have the ability to stay in the herd as replacements.

CEM. His HB is #3 of all bulls on test, CED is tied for #2, BW is #5, CEM is tied for #1 and his Stay is tied for #3. At the same time, he has enough growth merit to make his offspring weigh up at the end of the day. Additionally, his progeny will do well on the rail with a large REA and an outstanding YG, as is evidenced by his top 1% YG EPD that ranks as #5 in the offering. He himself is a deep cherry red color and has a very smooth look with a clean head and shoulders as well as a good top line. He has that easy-calving look about him and the numbers to back it up. There is a strong maternal line with a dam posting an MPPA of 102, and no MPPAs under 101 for 5 generations. **Please note that this bull is a 1B.**

There is a lot of potential in this Excellence son. He performed above average through yearling, posting an ADG ratio of 108. His IMF ratio of 134 is tied for 3rd in the class and he is tied for the 5th actual and adjusted IMF scans. 12 EPDs are in the top 25% of the breed or higher with all but 4 in the top half of the breed. ProS, GM, YW, ADG and CW are all in the top 1% of the breed, followed closely by a WW and REA in the top 5%. He is tied for the 5th best ProS and ADG in the class and posts the #1 GM. All traits combine to blend into a solid maternal package that will perform through yearling and on the rail. The Dam is posting an MPPA of 103, and her grandam is the dam of Lot 1, GMRA King James 0272H. Look for a uniform phenotype from length, to capacity and thickness, with a solid feet and leg structure.

0240H is phenotypically correct in every way. Feet and legs are excellent. He is very broad topped with a thick, square rear quarter. Abundant spring of rib and a broad chest floor lend to depth and

capacity. This bull was a graft calf so no ratios are present, but his profile and muscle pattern speak volumes. He has 12 EPDs in the top 25% of the breed or higher with single digit percentile standouts of ProS, HB, Milk, Stay, Marb, YG and REA. He has the #2 HB in the group and tied for the #3 Stay. There is a great combination of phenotype and genotype here and in addition he has a very nice disposition. Dam posts an MPPA of 102.

Look at this solid set of numbers! There are only 2 EPDs that do not rank in the top half of the breed, with 8 numbers in the top 24% or higher. Maternal and calving ease are the order of the day with ProS, GM, which is tied for #5 in the class, and CEM in single digit percentiles, while BW and CEM stay in the top quarter. ADG and Marb are also in single digits. Performance and growth through yearling provide an ADG ratio of 105 and a WDA of 102. Carcass scans are top-notch with an IMF ratio of 127, a REA of 103, and a BFat of 108. His maternal pedigree takes you back to the highly productive GMRA Ophelia 036, with an MPPA of 108.

fast and always had a real masculine look. 004 is no exception. He is a long clean made bull. He offers a little extra frame size with plenty of muscle. He grew fast, posting a WW ratio of 103 and continuing on with a YW ratio of 101. He turned in the #4 actual REA with a REA ratio of 108, confirming a REA EPD in the top 10% of the breed. Please note that this bull is a 1B.

This heifer bull will provide calving ease and keep an eye towards pounds at weaning. His EPD profile is second to none with 12 numbers in the top 25% of the breed or higher and only 2 that are not in the top half of the breed. Calving Ease is king, but carcass and growth aren't far behind. And he has the combined maternal power of both the Lakota and Estonia cow families on the bottom side of the pedigree. There are 7 generations of cow families posting MPPA's of 100 or higher, including the powerful Estonia 8102 cow. You have to go back 47 years to find one under 100. If you are looking for a bull that you can put on heifers and then transition into your older cow herd, look no further.

This was our first calf born at 63# as a twin to a heifer. He grew out extremely well and has always had loads of eye appeal. Out of a top producing Blockana cow, this bull has the look and numbers to put pounds on calves with his weaning and yearling in the top 17%. In addition, having 4 out of 5 of his carcass EPDs in the top 21% of the breed, he is sure to add value to his calves. As a twin he posted no ratios, but his carcass scans gave him the #1 actual REA and the #3 adjusted REA of all bulls on test. He offers a little extra frame but has the muscling and shape to make him an attractive bull.

There is a solid profile here, taking a moderate birth weight to above average growth. 10 EPDs are in the top 25% or higher, with ProS, GM, ADG, YG, REA and BFat all in single digit percentiles and a very solid set of carcass numbers. The maternal profile is strong, with a 100 MPPA dam and a grandam posting a 109 MPPA on 4 calves and in the top 3% of the GMRA herd. Within 7 generations there is only one MPPA under 100.

If you're selling by the pound you simply cannot miss this Declaration son. Numbers are in the top 3% and 2% for WW and YW EPDs, respectively. He is DDRA's number one adjusted WW at 715lbs. He turned in an ADG ratio of 101 and WDA of 103. IMF scan resulted in a 119 ratio. In addition, he has a strong maternal background. If you trail the straight maternal lineage you find that 10 generations back to a 1960 born dam, registration #2541, there are only 2 MPPAs in the pedigree that are less than a 101 and go all the way up to 110.

The more you study this bull's EPD profile, the more impressive it gets. All but 5 are in the top 50%. Calving ease & maternal are collectively strong with ProS, HB, Milk, CEM & Stay all in single digits. Milk EPD is tied for #1 in the class & Stay tied for #3. Growth & carcass hold their own as well, with impressive Marb, YG & REA EPD that's tied for 4th highest overall. His dam has an MPPA of 104 on 5 calves & is the dam of GMRA Acquisition 9300G, featured as Lot 7 in last year's sale. The maternal line goes back to the high performance donor cow, GMRA Lakota 527, with an MPPA of 112 on 7 natural calves.

Here is the youngest bull in the sale, and he stayed right at the front of the pack for performance resulting in a WDA ratio of 101. He also turned in a nice REA ratio of 108. He features a super profile with a straight, broad top and a square butt and excellent feet. There is a strong maternal pedigree here. He is out of a dam with a 102 MPPA and you have to go back over 35 years in the straight lineage to find an MPPA under 100.

This calf is a nice showing from a first year Brunswick female. A moderate birth weight culminates in growth through weaning and an ADG ratio of 107. 12 numbers are in the top 25% and all but 4 are in the top half of the breed. There is curve-bender potential here, with a solid group of calving ease numbers followed up by growth numbers in the top 14% or higher, not to mention a strong suite of maternal numbers. Dam has an MPPA of 100. Tesla 0227H is stout with a broad top leading into an expressive muscle pattern.

This bull is out of one of our favorite cows that has always produced consistent top-end performance. She has an MPPA of 106 on 8 calves, with no weaning ratios under 100. Her first calf was a standout, selling to Croissant Red Angus. This Declaration son posts 10 numbers in the top 15% of the breed with standouts of ProS, HB, WW, YW, ADG, CEM, YG and REA. He has an ADG Ratio of 100, WDA of 101 and a REA of 109.

This smooth made sleep all night heifer bull brings more than just calving ease to the table. He posted the 4th lowest birth weight of the 2020 season and ended test with a 100 ADG ratio. His number profile is outstanding with 12 in the top 25% or higher and all but 3 EPDs in the top half of the breed. He profiles as a true curve-bender with single digit percentile CED and BW EPDs and then posts a WW in the top 21%, YW at 6%, ADG at 1% and CW at 2%. His ProS EPD is tied for #5 and his GM is tied for #3 in the offering.

This is a very solid Heavily Armed son. No ratios are available as he was a graft calf. Nonetheless, he has made a strong showing on test, with an overall ADG of 3.63. His EPDs are impressive with WW, YW and ADG and CW all in the top 1% of the breed, and REA in the top 2%, and Milk, GM and ProS are all in single digits. His EPDs rank him at the top of the class - he is tied for the #1 WW EPD, has the #1 YW and the #4 ADG and is tied for the #3 CW.

There is an impressive 10 EPDs in the top 25% of the breed or higher, with an emphasis on maternal and carcass. ProS, HB, Milk, HPG, YG and REA are all in single digit percentiles. The Milk EPD is tied for #4 and HPG is tied for #5 in the class. YG and REA are in the top 1% of the breed, with YG at #3 and REA tying for #4. A nice carcass scan results in a 109 IMF ratio and a 105 REA ratio. A strong maternal line shows only one MPPA under 100 going back to a 1985 born dam.

Nearly 2/3rd of this bulls EPDs are in the top 37% of the breed are higher. Standouts are a HB and CED in the top 7% and a CEM at 4%. Don't let that 82# birth weight make you question his calving ease abilities. A nice set of calving ease numbers and a heifer bull phenotype with a smooth shoulder suggest a struggle free calving season without sacrificing growth. He features outstanding feet and has a great disposition.

This heifer bull supreme brings it home with the #1 actual and adjusted IMF scans and IMF ratio of 162, with a Marb EPD in the top 5% of the breed. He features 11 total EPDs in the top 25%, with an emphasis on calving ease, with the #2 CED in the class. CED, BW and CEM are all in the top 1%, with the #4 BW EPD and is tied for the #1 CEM. His maternal pedigree is strong with his dam and grandam both posting a 103 MPPA, and his great grandam posts a 105. There is only one cow in the direct maternal lineage that posts an MPPA of less than 100 for almost 50 years. A smooth shoulder transitions to a nice rib shape and a very straight top line.

This bull features the lowest actual birth weight in the entire offering. He has 9 EPDs in the top 25% of the breed with CED, BW and CEM in the top 1% of the breed and HPG in the top 2%. The CED and BW sit at #1 in the class and CEM is tied for #1. A 121 IMF ratio backs up a Marb EPD in the top 9%. Excellent feet and legs are the base for a very well proportioned, small headed and narrow shouldered heifer bull.

Dam posts an MPPA of 102 and the grandam has a 103 and is the dam of Lot 5 in this sale. A strong maternal pedigree is in play here with MPPAs at 101 or higher for over 35 years, culminating in a 1995 born dam that posted a 112. Unfortunately, this bull's dam was severely injured on the ice after calving, so she never made the trip to mountain pasture. As a result, this bull has no ratios, but one look tells you all you need to know. He is very proportional with an attractive front end flowing into a nice spring of rib and good rear quarter. Disposition is fantastic.

There is no extra leather here, with a clean front end and a tight sheath. This Indy son is a smooth made heifer bull candidate that posts a CED in the top 4% and a CEM in the top 2%. His Marb EPD is in the top 2% and ranks as #4 in the offering. Overall, 8 numbers are in the top 25% of the breed or higher with a top-notch ProS, GM and ADG.

PROFIT. REPEAT.

Generate repeated profits with the industry's most-favored female.

Independent research from a decade of data collection showed Red Angus-sired heifers commanded \$66/head more than females of other breed types. That's nearly \$5,300 on a single load of replacement heifers to boost profits on your operation.

Visit **RedAngus.org** for details on the industry's most-favored female.
