HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.**

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding program for cattle buying. **Please note that high speed internet is required – this is not for dial-up or satellite internet.** Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on Dish Network channel 998. *Please note that there is a delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on.* The sale will also be broadcast live on the internet at both www.superiorlivestock.com and www.superiorclicktobid.com. The video feed on the homepage of www.superiorlivestock.com looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid".

Buyers will be contacted by the ranch after the sale for payment and delivery details. IF YOU NEED ANY ASSISTANCE CALL SUPERIOR AT (800) 422-2117.

TERMS & CONDITIONS: Terms of this sale are cash, or a good check, unless arrangements are made prior to the sale. Settlement to be made immediately at the conclusion of the sale, before animals are loaded. All supplements to this catalog or announcements made from the block take precedence over what is written in this book. Registration papers will be transferred upon request.

The most customer friendly GUARANTEE in the Bull Business!

Our top priority is to produce breeding stock that will perform for our customers. We take pride in breeding and developing bulls that are sound, functional and fertile. Bulls have passed a complete Breeding Soundness Examination by Dr. Don Peter, Hermiston, Oregon and are guaranteed breeders.

For years we have offered the most customer friendly, one year, money back guarantee in the bull business. We are easier to deal with than an insurance company!

Every bull purchased in the Herd Builder Bull Sale on March 21, 2022 regardless of price—

First year – (must contact us by 3/19/2023) Full 100% refund for failure of any kind.

.....

Bulls purchased for \$3000 or more are covered two additional years against a failed semen test or unsoundness due to foot structure!

Every bull in this sale with a purchase price of \$3000 or more will be covered for 3 years against foot structure problems that impede travel or a failed semen test. If such an issue occurs, and a suitable replacement is not available or desired, we will **refund** (credit toward a future purchase **only** if you prefer) the difference of the purchase price and salvage value on a pro-rated basis as follows:

Second year – contact us by 3/19/2024 (Purchase price – salvage) x 67% = REFUND

Third year – contact us by 3/19/2025 (Purchase price – salvage) x 33% = REFUND

PLEASE check out immediately after the sale!

FREE DELIVERY to Washington, Oregon and Idaho. Trips exceeding 500 miles one way will be made at cost. Understand that spring is an extremely busy time in our farming operations and while we will do our best to accomodate every buyer's needs, some deliveries will be combined to minimize trips or fit our schedule. We appreciate your cooperation in this regard.

Buyers of 5 or more bulls will receive delivery at a time of the buyer's convenience.

Haul your bulls home within 3 days of the sale and save \$50 per bull.

Out of state buyers; older bulls may require a TRICH test prior to leaving Washington.

UPDATED EPDS & \$INDEXES: The EPDs printed in this catalog are current as of 2/11/2022. EPDs are updated every week by the American Angus Association, and may vary slightly due to the time between the catalog being produced and sale day. To check the most current EPDs visit the American Angus Association website (angus.org).

Welcome once again to the Herd Builder Bull Sale. When we chose the name for our event a few years back, I don't think I realized fully what the name implied. But over the past few years I have begun to see this come to fruition. Our cattle have gone out into the real world and have been busy doing just that. Building cow herds one (sometimes by the trailer load) bull at a time. Many people have shared with us some of the differences that they have seen over time with the evolution of their cows. It is gratifying to listen to the positive changes that come about with some focus on the important maternal traits. We take this responsibility to heart. Our goal is to make your process more enjoyable, more profitable, and we just want our cattle to work for you, our customers! We can't explain in a sentence how much we appreciate your willingness to trust these bulls to move your programs in a positive direction. It is not a responsibility we take lightly. JR Ranch and Sackmann Cattle Co. are truly intent on making each generation better than the last. It is a challenge with today's push toward terminal performance at all costs. Some programs out there today have taken this to a level that simply is not sustainable in some environments. And most of us live in an area that requires some unique characteristics in a cow for her to be successful. We like where we're at and I think the future is bright for us here. We have been able to add some bulls in the last couple years that exemplify so many of the economically relevant traits we strive for. It's going to be a fun journey and we thank you for joining us!

I will never claim that one set of bulls is better than the last, mainly because I don't think we can judge a bull's worth in our situation for at least four years. He has to produce daughters that calve, raise that calf and breed back to do it all over again. The bulls are certainly more consistent today. We have solidified the type, decreased the frame variances, and the quality runs much deeper today. As always there are a few that really stand out in the mix. You will find them pretty easily. Thick, deep-bodied, long-sided calves that have some true muscle dimension to them. These are the bulls we think are the changers. When you can build them like that and have a long line of solid producing cows behind them, you have got to be pleased. There are not too many places that have put as much moderation and real dimension in the bulls from top to bottom as you find here. There are some that come to mind, and most likely we have been incorporating those genetics here already.

As you study this catalog, you will see a few minor differences in some pedigrees from Sackmann Cattle to the JR Ranch bulls. But I have always taken pride in the fact that we have been able to share a common vision and our pedigrees are backed by so many of the same genetics. Jeff and I have been able to see the same things in cattle for as long as I can remember. It's truly a blessing to have them involved in our cooperative marketing effort in the Herd Builder Bull Sale. They once again have made this sale catalog and do it between farm chores, moving and calving cows and of course, BASKETBALL!!

The JR Ranch bulls have been developed in large groups on plenty of acres. They have been butting heads for a year now and get plenty of exercise. Our bulls are not as accustomed to close, daily human interaction as some, but we have tried to leave the bad attitudes behind in this group. They only see people in their pastures if we are going to catch them and that usually ends up with a squeeze chute. If you need really quiet bulls, there are a few that have proven to be quite calm and predictable. Just ask us and we can point them out for you. Please call us and visit about the bulls. It helps us to point you in the right direction if we have some idea of your operation and goals. I love to talk cows, and I am passionate about putting bulls in your pasture that work. As always, we thank you for your continued support and look forward to March 21st. It's going to be a fun day and I promise no snow or ice!

Jeff, Pam, Colton and the whole crew here at JR Ranch

Thank you for taking some time to review our sale offering and please make plans to join us at the Herd Builder Bull Sale on March 21st in Othello, WA. If you can get away for an overnight trip I would love to show you the cow herd that produced these bulls. We will be conducting a herd tour on Sunday afternoon (or any time prior to the sale – just give me a call). I recently hosted a group of cattlemen from Argentina and Uruguay that appreciated the mass and body dimension they found in our bulls and the cow herd. We continue to focus on producing maternally oriented cattle with performance that are three dimensional, sound and functional; culling relentlessly for feet, udder quality and disposition. Easy fleshing, lower input cattle are probably appreciated more than ever today with drought-caused shortages of grass and skyrocketing feed costs.

A few thank yous are in order. First, to my parents Sid & Debbie Sackmann for making this all possible; to my wife and kids for making it all worth it and for the help and support; to our crew, Matt Hayter and Brad Marcus for all that you do every day; Jeff & Pam Schmidt and the crew at JR Ranch for their friendship and partnership in our cattle marketing efforts; and last but certainly not least, thank you to all of our customers! Your support has made this dream a reality and the friendships developed with so many of you are invaluable.

We are excited about our new sale date! This change was made for two primary reasons: It is preferable for all involved if our customers can attend in person. We hope longer days with better weather should make it more convenient for you to join us during calving season. The other reason for the move was to accommodate my family's basketball schedule. Our 16 year old, Molly has earned a spot on the post-season roster for the Warden varsity team that has completed an undefeated regular season and league title, punched their ticket to the state tournament and won the district championship last night (which would have been our old sale date). Our 13 year old twins, Trevor and Lila, are pretty good middle school players in their own right and we travel to AAU tournaments with them. Our youngest, Nia, who will be 9 in March is tired of watching her older siblings and prefers to play herself when she gets the opportunity. The next 10 years will be fun!

You are welcome any time to call, text (509-760-2832) or visit. I appreciate the opportunity to talk bulls, cows or basketball!

Thanks for your interest and we look forward to seeing you in Othello on March 21st!

Jeff and Jaime Sackmann

Sackmann Fall Bulls - Lots 1-50

Sackmann State 1528 is the lead-off bull in a powerful group of flush brothers, amongst whom he remained at the head of the performance pack at every weigh-in. He has an exceptionally quiet demeanor, is ultra-wide based, big-topped with tremendous spring of rib. He gained 3.5 lb. per day for 156 days on 4 pounds of grain and grass hay. If you are looking for a performance powerhouse in an efficient, moderate framed package, you have found your bull.

Sackmann Regional 1532 is another high performing phenotypically elite herd sire prospect. He may possess the most center-mass of the offering and has a commanding physical presence.

1530 is a stout, capacious beast that is big in all the right places and puts pounds on the ground in a moderate framed package. He scanned the biggest ribeye of the flush with a ratio of 106.

Yet another big-ribbed, thick, sound made stud from the same cookie cutter as his brothers. The depth of quality in this group is impressive.

The donor dam of lots 1-4, Sackmann Dixie Erica 4112, is a highly valued donor cow, now residing at Sandford Ranches in Texas. She is a moderate framed, thick, easy fleshing powerhouse. Her flush brother, Sackmann Columbia 4115 is our all time top selling bull, topping our 2015 sale to John Dixon and JR Ranch.

The sire of lots 1-5, Sackmann Unmistakable 549, was the selection of Gebbers Cattle in our 2016 sale. He was a high performing stud that was as soggy and massive as you can make one. He rose to the top of their elite herd bull battery and remained in service for 11 consecutive breeding seasons over six years.

Long bodied, up headed, deep sided, square hipped and sound is how I describe this high performance herd sire prospect. He is very eye-appealing, moves well, and has the look of a great breeding bull. Ultrasound Ratios of 107 for IMF and RE. His dam recently entered the donor pen and a full sister, nursing her first calf, is an exquisite Angus female.

Trevor's bull and man, is he a good one! He is a long spined, majestic beast that is really deep from forerib to flank with plenty of mass and performance. His moderate framed, deep bodied dam is a third generation pathfinder that just gets it done every year. She is a maternal sister to Sackmann Wallula 504, one of our top sellers in 2016. If you need a really good heifer bull with performance and maternal, check out this bull.

100	1129	100	6/104	

This bull is moderate, thick, and made right. Two flush sisters bred this fall are the same and absolute peas in a pod. With his phenotype, pedigree combination and number profile, he might just leave some super productive and efficient little cows!

A high performing Solo that is really well balanced. He is sound, stout with a lot of shape and body. He gained really well in the feedlot and has ratios over 100 for IMF and Ribeye. His dam is the last daughter of the 240x bull on my place. I wish I had collected him before we lost him to a stifle injury because his daughters are tremendous. 451 is moderate, thick, easy fleshing, great uddered and one of the most attractive cows we have. The bull calf she is raising right now is an absolute monster that is sure to be a sale feature next year. I finally decided to flush her to get more of her kind in my herd. This bull's daughters should be the herd building kind.

Explosive early growth in a controlled frame size is a combination we are always looking for. This is the top performing bull among his flush brothers. He is soggy middled, soft topped and has a big hip. The donor dam is a foundation female for us whose daughters possess a ton of femininity, udder quality and eye appeal.

1501 had our biggest actual weaning weight and remained on top of the performance heap, weighing in at 1575 on Jan 30. Emblazon is well known as a sire of easy fleshing females and his combination with 9732 should make this bull a real cow maker. A full sister is raising her first calf and has a picture perfect udder.

1177 is the result of a full sib x full sib pasture mating. This kind of line breeding has been used throughout the history of the breed to create some incredibly consistent breeding cattle. Both of his parents are full siblings to Sackmann Columbia 4115 and Sackmann Dixie Erica 4112. This bull packs a tremendous amount of performance and muscle in a really moderate frame. I really like his depth of body, fleshing ability and overall look.

O C C Double Wide 715D was the selection of JR Ranch and Sackmann Cattle Company at the Ohlde Cattle Company Bull Sale in the spring of 2018, where he was the 2nd highest selling son of O C C Zodiac 655Z. He has been used heavily in both of our herds, and sampled around the country via AI. His first progeny have lived up to his name; moderate, stout and wide bodied. His first daughters in production look to be easy fleshing with excellent feet and udder quality.

In the fall of 2021, Ohlde submitted DNA on the 638A cow and it was discovered that (according to the AAA genetic database) she was indeed not his dam. The search continues (with DNA sampling and submission) for his real dam. At this point, per Association rules, his registration number is suspended. Progeny registered prior to this discovery retain their registrations and EPDs, with the exception of individuals without contemporary groups (foster calves, twins, ETs from commercial recips) that lost some of their EPDs. Progeny not registered prior to this DNA mystery revelation are currently ineligible to be registered and therefore have no EPDs.

Fall Production Sale

Thursday, Nov. 17, 2022

Coming 2 Year Old Bulls & Females

Loyal Customer?

If you have a group of good young females to sell this fall

heifer calves, bred heifers, or young cows

with Herd Builder genetic influence
and/or service

We would like you to consider a consign-
ment to our Fall Production Sale

Call either Jeff!
