Bull Sale*

Tuesday, April 5, 2022

At the Ranch • Malta, Montana • 1:00 pm MDT

Cowboy Up 3 year old daughter
with her calf, Lot 8
July 16, 2021

This picture pretty much says it all. Cattle have to fit the environment they live in.
In our area, 2021 served up one of the most severe droughts in many years.

We have always bred for the wide bodied, deep sided cow, that can handle the extremes of our environment.
We believe balance is the key to staying in touch with the challenges mother nature throws at us.
Fertility, structure, good udders, ample milk and the desire to travel the hills
searching for the feed to excel in all situations.

H *Hinman* **A** *Angus*
We do one thing . . . Angus!

Terms - Cash

All cattle will sell under the current terms and conditions of the American Angus Association.

Liability

All persons who attend the sale do so at their own risk. Hinman Angus LLC, Dave & Yvonne Hinman, William & Heidi Luloff assume no liability, legal or otherwise, for any accidents which may occur.

Trucking

Free delivery on bulls to CENTRAL POINTS (stockyards, etc) within 1000 miles, or the nearest Canadian border, on purchases of \$4000 or more. We will refund \$50 per bull on any bulls picked up sale day or within the next three days after the sale.

Bids

Sight unseen satisfaction guarantee. Call Dave or Billy prior to sale day to discuss your requirements; that will help us purchase the bulls you need.

Volume Discount

A 10% discount will be given on 10 or more bulls purchased by, transferred and delivered to one buyer, when purchase price is \$3000 or more.

Retained Interest

Hinman Angus is retaining 1/3 semen revenue-sharing interest in each individual bull in the sale, unless otherwise announced from the block. Natural use and salvage value belong to the buyer.

Sale Order

We will start with Lot 1 and sell in Lot order.

EPDs

EPDs are current as of February 25, 2022. Ultrasound data had not yet been processed and reflected in these EPDs. View updated EPDs at www.Angus.org

ANGUS
ASSOCIATION

Cattle Available For Viewing

The cattle are fed at Hould Feedlot southwest of Malta and can be seen there anytime until the weekend before the sale, at which time they are moved to the ranch.

Calving Ease Explanation

★ - Recommended for Cows

★★ - Moderate Calving Ease, recommended for use mostly on cows

★★★ - Superior Calving ease, should work well with most heifers

★★★★ - Excellent calving ease, use on first calf heifers

Herd Health

We have an excellent whole herd health program with the help of Dr. Rick Levesque. All bulls have been tested for BVD and have had two shots of Fusogard.

Fertility & Ultrasound

Bulls were semen evaluated by Dr. Brock Aiton DVM on February 8 and were scanned by Sonja Gregory on February 15. Actual scrotal measurements will be taken approximately March 25 and will be available on Hinman Angus website and at the sale.

First Year Breeding Season Guarantee

Bulls are guaranteed to be sound and healthy breeders, with a first breeding season guarantee. Breeding season is defined as the first 90 days following the first turn out. All bulls selling for \$3000 or more will be given 50% of the value of the injured bull, minus salvage value. Credit will be given in a future sale or towards a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian and information sent to us. Please notify us as soon as possible should an injury occur and prior to the injured bull being sold for salvage.

All claims must be filed with us by September 1, 2022.

AM, NH, CA, M1, DD and OH Guarantee

All sale bulls are pedigree free or have been tested free of all known genetic defects.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER WITH SUPERIOR

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day.

Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com

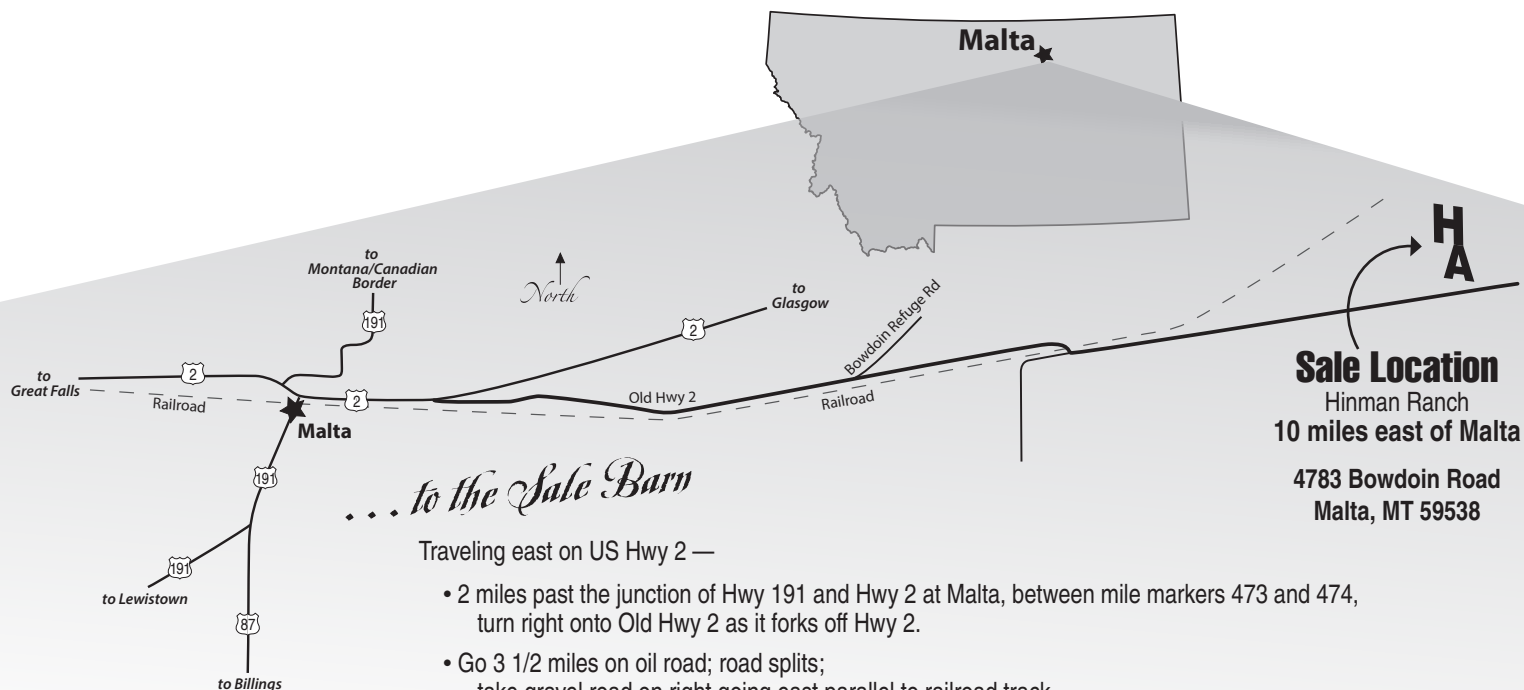

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding program for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Buyers will be contacted by the ranch after the sale for payment and delivery details.

IF YOU NEED ANY ASSISTANCE CALL SUPERIOR AT (800) 422-2117

... to the Sale Barn

Traveling east on US Hwy 2 —

- 2 miles past the junction of Hwy 191 and Hwy 2 at Malta, between mile markers 473 and 474, turn right onto Old Hwy 2 as it forks off Hwy 2.
- Go 3 1/2 miles on oil road; road splits; take gravel road on right going east parallel to railroad track.
- Go 1 1/2 miles, cross the railroad tracks, immediately turn left still going east.
- Go 3 more miles.
Sale Barn is the green building on the left; turn in at the Hinman Angus Sign.

Dear Friends,

Welcome to our 2022 annual bull sale! It was 48 years ago that we purchased our first registered Angus heifers, and now we are looking forward to our 35th annual bull sale.

Our area and a big part of the west was hit hard by the 2021 drought. We, as well as many of you, are looking forward to some much-needed moisture. We can't change the weather, but we can breed cattle that will withstand the challenges that Mother Nature throws at us. We are looking forward to some timely spring rains.

I would like to add a few thoughts on our philosophy of breeding cattle. We insist on heavy weaning, feedlot gain and yearling performance, along with the right calving ease. We do not have to have the highest numbered cattle, we just like them to be as good as they can be in all areas. With a balanced trait selection, we feel what you get will breed truer to where you want to be time after time. We also believe in cow families that are generations deep in top end maternal lineage. Bulls that are the wide topped, deep sided, long bodied kind, with a performance look, are what we want. We all still sell pounds!

As always, we provide all the information we can to help you in your selections. Every bull has been DNA tested, parentage tested, performance tested, fertility tested, scrotal measured, BVD tested, has had two foot rot vaccinations and has been ultra-sounded for carcass merit.

We want to thank Bruce and Linda Hould and the entire crew at the feedlot; they all give a hand anytime something is needed. Bruce works hard at feeding the bulls the right rations and we are very appreciative of all their efforts.

We would like to invite everyone to come the afternoon and evening before the sale to view the bulls, and at 5:30 we will have Troy Marshall, Director of Commercial Industry Relations at American Angus Association, speak on ways to add value when merchandising your calves. Dinner at the barn will follow.

We are always so grateful for the support you have given our program. All the decisions we make in the breeding of the cattle are made to enhance you our customers, with the most trouble free, balanced trait bulls, that will be profitable to you. Thank you again and we look forward to seeing you at the sale.

Sincerely,

Dave & Yvonne
Billy & Heidi

Ty and Sascha

Dave and Yvonne

Heidi and Billy

YOU'VE DONE THE WORK.

Get paid for it.

Get paid for the **records**.

Get paid for **quality genetics**.

Get paid for the power of **Angus**.

In 2021, AngusLink calves
earned an average
PREMIUM of \$13.01/cwt.

AngusLinkSM combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves. From age and source verification to cattle care and handling, you choose which programs make the most sense for your operation.

Welcome to the Annual Hinman Angus Bull Sale

Longevity is the term cattle producers use to determine the length of time a cow stays in their herd.

It is also used to describe the number of years a bull is available to service your cows.

At Hinman Angus they are in pursuit of both. Realizing that if cows stay in their herd for a long period of time, that creates a more profitable situation for Hinman Angus. It also allows those cows to produce progeny that have that same longevity bred in. They take great pride that their bulls last many breeding seasons creating a better value for the HA customers.

Longevity also describes a program that has spanned decades, seen many fads, and multiple changes to the cow herds across America. Decades of breeding Angus cattle can give you great perspective. Primarily understanding that the job of a purebred breeder is to provide seed stock that improve the commercial producers bottom line. Live calves, weaning weight, fertility, uniformity, eye appeal, and carcass merit are just a few traits at the core of the Hinman Angus cow herd. Commercial cattlemen don't need the latest and greatest; they need genetics that are proven to be solid and reliable, backed by cow herds and breeders that have longevity.

If I can be of any assistance as you prepare for the Hinman Angus Sale please feel free to contact me.

All the best,

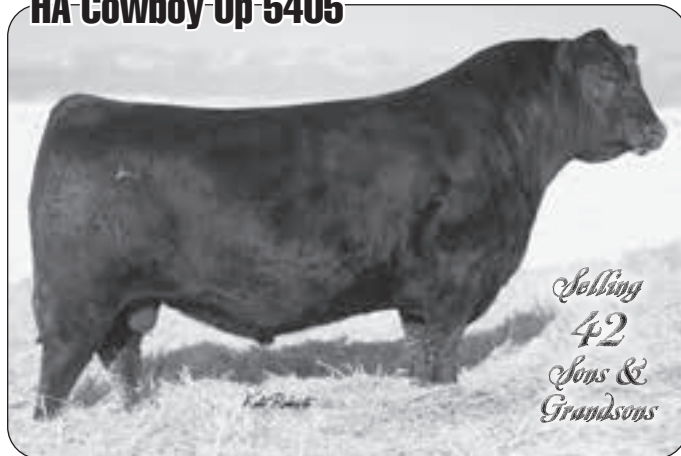

Ron Frye

Reference Sires

HA Cowboy Up 5405

HA Cowboy Up 5405 was the right bull at the right time with his terrific body mass and exceptional performance from birth to yearling. Cowboy Up sons and daughters have shown the same body mass and have exhibited exceptional fleshing ability time after time. Cowboy Up daughters have shown exceptional fertility at HA along with bringing in some of our very best calves time after time. We have received reports from all over, such as our good friend James Coffee of Illinois. He called to let us know that 8 of his top 15 bull calves were out of HA Cowboy Up 5405 daughters. Cowboy Up sons have been in demand by astute cattlemen as they have seen many benefits of his progeny in a multitude of economic traits.

As we had envisioned, Emerald is siring both bulls and heifers with calving ease and exceptional body depth. His calves are high-performing at both weaning and yearling weights and the bulls have strong scrotal circumference. We just calved his first daughters out and they have a beautiful look with excellent udder suspension and quiet dispositions. A proven spread bull that is siring balanced trait progeny that are doing everything very well.

H A Image Maker 0415

Image Maker has been a standout from day one. He was the high selling bull in the 2001 Performance Breeders Bull Sale; his EPDs were BW +2.8, WW +34, Milk 28, YW 54. Since that time his progeny have excelled him to his present numbers with high accuracy as one of the best spread bulls in the industry. Image Maker has been used very successfully in large heifer projects all across the county. He sires extra length of body, with heavy weaning weights and extra feedlot growth along with outstanding daughters that have exceptional fertility with good udders and are very easy to be around.

0415 is homozygous for tenderness markers and homozygous SNP 530, an additional indicator of tenderness. 0415 is among the top 1% of the bulls in the breed for WW. Image Maker daughters are truly foundation females that have the unique ability to work with a wide variety of pedigrees.

Image Maker sons have also been used in many herds across the country with the same consistent results as their sire.

0415 is in the top 1% for \$W index. As you go through the catalog, you will notice many Image Maker daughters who, with their steady production of superior progeny, have made a major impact on our cowherd.

Image Maker died at home on the ranch in June 2013. His tremendous influence will live on for many generations at HA, as well as on farms and ranches, in both registered and commercial herds across our great country. He truly is **A Bull that will Keep You in the Cow Business!**

Cowboy Kind was the high selling bull in our 2019 sale. Cowboy Kind sires calving ease with explosive growth at weaning and yearling. They do what we all need, they get there quickly while maintaining a reasonable, moderate, mature cow size. The daughters are perfect uddered with nice dispositions and terrific mothering ability. Cowboy Kind has been used in some large heifer projects with excellent results at calving and weaning. Cowboy Kind is doing all things very well. We are **selling 18 sons** with that same attractive look for calving ease and maternal strength.

DAM 3 WR 97									

Diamond is a very complete, well-balanced, long bodied, attractive bull with very strong performance. Use on heifers or cows. Beautiful, smooth made herd bull prospect loaded with strong muscle traits along with an excellent maternal portfolio. Sure shot heifer bull with high end balanced trait numbers. Top 20% of the breed or higher in 10 traits-CED-BW-WW-YW-RADG-HP-Doc-RE-\$M-\$W. We just calved our first set of Emerald daughters, they are excellent uddered cows with beautiful disposition, lots of volume and excellent mothering ability. We expect HA Diamond J791 progeny to be balanced trait cattle that excel in many areas.

DAM 2 WR 116 Very high-performance herd bull prospect that is at the top 1% of the breed for weaning weight and yearling weight. His dam is a near perfect uddered Cowboy Up daughter with excellent feet and she had our heaviest calf off the 2-year-olds last year. Use J482 on big heifers or cows and he will produce progeny that will do all things very well. Very strong maternal background with the 4206 cow who was one of the best we have ever raised. HA Cool Country was born on a very cool Montana morning, 40 below with a north wind blowing. Then we went into a record drought last summer, that is where we live. Cattle have to fit their environment.

DAM 1 WR 100 Top 10% WW-YW-\$M. Top 15% \$W. Balanced trait

heifer bull with very strong feedlot performance and an excellent cow family. Dam is a high volume, perfect uddered cow and the granddam is one of our best and in our donor program that has produced many bulls and heifers that have went on to be some of the very best in their own groups. Deep-bodied, good kind of a bull.

DAM 3 WR 102 High growth heifer bull with strong carcass traits. J457

is a bull I really like. Very strong in all areas of economic relevance with an exceptionally strong cow family for many generations. Long bodied, thick, smooth made, attractive bull that puts it all together very well.

**Bull Videos available at
SuperiorLivestock.com**

HA Cowboy Kind 8157

Cowboy Kind, our 2019 high selling feature bull out of 3303 (a Final Answer daughter straight from one of the best cows to graze our ranch) and sired by none other than Cowboy Up. With a +14 CED and a +13 CEM, this is a bull that you can put on heifers with confidence. His -1.7 BW with 85% accuracy has undemanding calving written all over it. Along with all that calving ease, this bull is well above the national average in both yearling and weaning weight. He boasts a +71 WW and +130 YW, no wonder why over 75% of his calves made it to the top pen here at Hinman Angus. He will create calves that will save you money on feed with a RADG .07 above the national average. He will also create beautiful, moderate frame-sized daughters with udders, mothering ability, and dispositions that will keep you in the cow business. This bull is impressive for more than just low birth, high growth, and great daughters. He is structurally correct, large topped, with loads of eye appeal. If you need great cattle that will perform at home and in the feedlot, Cowboy Kind is the sire for you.

DAM **3 WR 103** HA Reflection J459 is a bull that I get excited about for many different reasons. His sire HA Image Maker 0415 has 4393 daughters reported with a NR of 103. 0415 has left daughters all over the country that have stayed in the herd and produced at the top for many years. J459 is double bred to Image Maker's dam HA Rito Blackcap 9038 who has left 200 progeny at HA and innumerable grandsons and granddaughters who have risen to the top of production in all ways. Interesting pedigree with the Rito lineage on both sides. J459 has performed above average in his large contemporary group which says a lot from a sire that would be 22 years old. Top 3% \$W-WW-HP, top 20% YW. Use Reflection for heifers or cows as he has that unique spread of calving ease with exceptional growth tendencies along with top-of-the-line maternal value.

DAM 5 WR 103 HA Complimentary is a heifer bull that is a fundamental prodigy. He is a bull with a great made hip, back, and pattern. He puts on a show with his EPDs with 13 traits in the top 20% of the breed. His -.9 BW and +14 CED line him up perfectly for heifers. His powerful +80 WW and +134 YW put him in the top 10% of the breed. If a beautifully made, powerful, sleep-all-night heifer bull is not enough, his maternal and management numbers also shine. Maternal, +34 Milk, +14 CEM, and a great +15.4 HP. Management, with every trait being in the top 30%, +27 Doc, +.17 PAP, +.45 Claw, and a +.29 Angle, this bull has Tim Duncan level fundamentals. All that added up he brings a huge +267 \$C, +98 \$W, and +96 \$M. He is the perfect bull to complement any group of heifers or create a fundamentally perfect herd of cattle.

DAM 1 WR 110 Good performing, attractive made, balanced trait bull. He is a heavy weaning, high gaining, nicely made, cool bull that you can use on heifers or cows. Loaded up with good cows on both sides of the pedigree. I really like this bull as he has done everything extra good in all areas of production. Feeder calves that have the right look bring more money in the sale ring.

DAM 3 WR 97									

We went back and used the E&B Dominett 814 bull because of his terrific ability to sire females that are excellent uddered, high-performing, long lasting, moderate framed cows. You will really like this bull's daughters. Good bull that will do many things at the top and sire progeny that will have some real stayability qualities.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	26	Heifer Pregnancy	17
Birth Weight	23	Calving Ease Maternal	20
Weaning Weight	27	Milk	36
Yearling Weight	23	Mature Weight	15
Dry Matter Intake	12	Mature Height	9
Scrotal Circumference	15	Carcass Weight	15
Docility	12	Yearling Height	17
Claw Set	10	Carcass Marbling	11
Foot Angle	10	Carcass Ribeye	17
		Carcass Fat	14

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

Cattle First.

BVD VIRUS TYPE 1B IS ON THE RISE.

Bovine viral diarrhea (BVD) infection can disintegrate herd productivity. And if you're using a vaccine, like BOVI-SHIELD GOLD®, that isn't labeled for the most prevalent strain, your cattle could be at risk. Play it safe. Choose the only vaccines specifically labeled to protect against Type 1b: Express® FP and Pyramid® + Presponse® SQ. Know more at BVDTracker.com.

¹ Data on file, Boehringer Ingelheim and BVDTracker.com. Data collected November 1, 2018 through November 1, 2019.
