Terms - Cash

All cattle will sell under the current terms and conditions of the American Angus Association.

Liability

All persons who attend the sale do so at their own risk. Hinman Angus LLC, Dave & Yvonne Hinman, William & Heidi Luloff assume no liability, legal or otherwise, for any accidents which may occur.

Trucking

Free delivery on bulls to CENTRAL POINTS (stockyards, etc) within 1000 miles, or the nearest Canadian border, on purchases of \$4000 or more. We will refund \$50 per bull on any bulls picked up sale day or within the next three days after the sale.

Bids

Sight unseen satisfaction guarantee. Call Dave or Billy prior to sale day to discuss your requirements; that will help us purchase the bulls you need.

Volume Discount

A 10% discount will be given on 10 or more bulls purchased by, transferred and delivered to one buyer.

Retained Interest

Hinman Angus is retaining 1/3 semen revenue-sharing interest in each individual bull in the sale, unless otherwise announced from the block. Natural use and salvage value belong to the buyer.

EPDs

EPDs are current as of March 6, 2020. Updated EPDs at www.Angus.org

Cattle Available For Viewing

The cattle are fed at Hould Feedlot southwest of Malta and can be seen there anytime until the weekend before the sale, at which time they are moved to the ranch.

Calving Ease Explanation

✱ - Recommended for Cows

✱✱ - Moderate Calving Ease, recommended for use mostly on cows

✱✱✱ - Superior Calving ease, should work well with most heifers

✱✱✱✱ - Excellent calving ease, use on first calf heifers

Herd Health

We have an excellent whole herd health program with the help of Dr. Rick Levesque. All bulls have been tested for BVD and have had 2 shots of Fusogard.

Fertility & Ultrasound

Bulls were semen evaluated and scrotal measured by Dr. Roger Baxter DVM on March 2 and scanned by Sonja Gregory on January 21.

First Year Breeding Season Guarantee

In lieu of a shared commercial policy, we are offering our own First Year Breeding Season Guarantee. Breeding season is defined as 90 days after first turn out. All bulls selling for \$3000 or more that do not complete a full breeding season, will be allowed 50% of the value of the injured bull, and buyer may keep the salvage value.

Please notify us as soon as possible after any injury and prior to the injured bull being sold for salvage. All injured bulls must be diagnosed by a veterinarian and the written claim must be submitted by September 1, 2020.

AM, NH, CA, M1, DD and OH Guarantee

All sale bulls are pedigree free or have been tested free of all known genetic defects.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER WITH SUPERIOR

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day.

Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

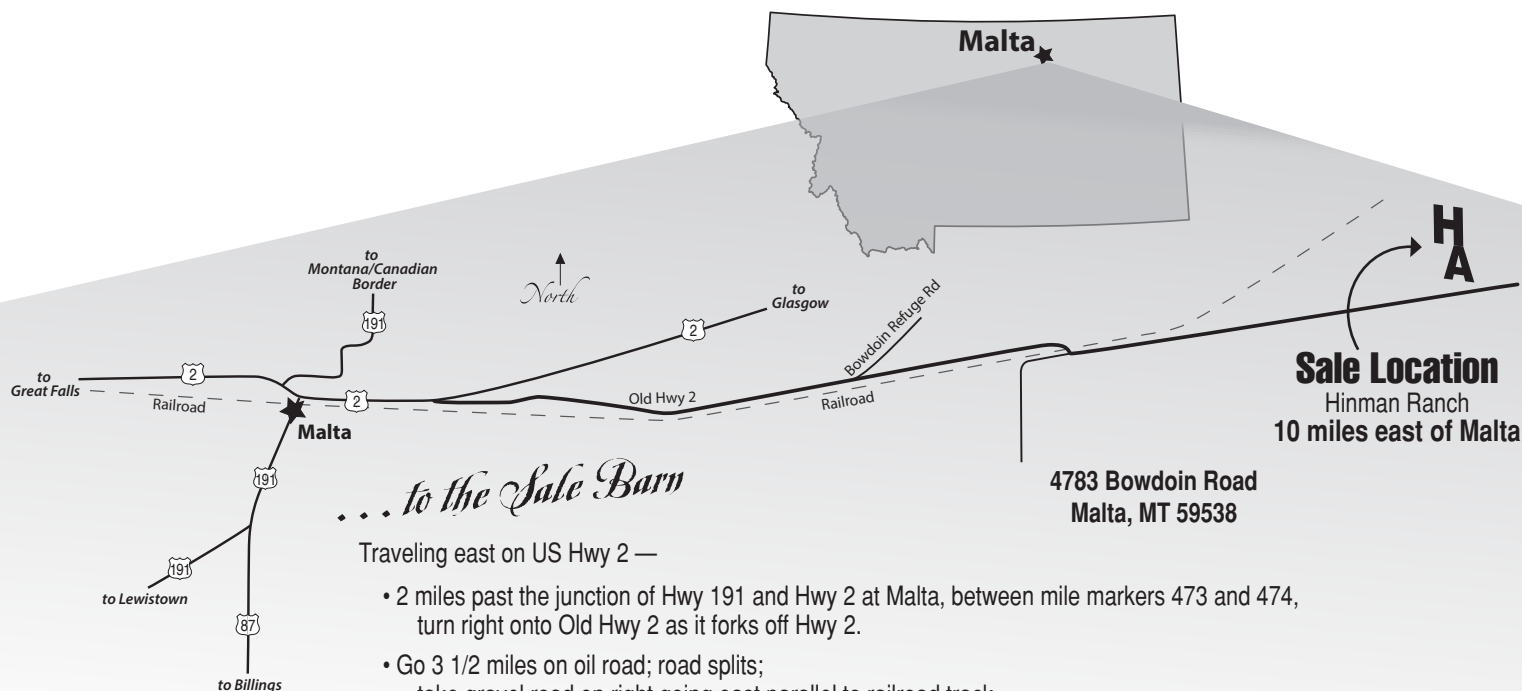

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "clickto-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

**If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.*

... to the Sale Barn

Traveling east on US Hwy 2 —

- 2 miles past the junction of Hwy 191 and Hwy 2 at Malta, between mile markers 473 and 474, turn right onto Old Hwy 2 as it forks off Hwy 2.
- Go 3 1/2 miles on oil road; road splits; take gravel road on right going east parallel to railroad track.
- Go 1 1/2 miles, cross the railroad tracks, immediately turn left still going east.
- Go 3 more miles.

Sale Barn is the green building on the left; turn in at the Hinman Angus Sign.

Dear Friends,

Everyone at Hinman Angus welcomes you to our sale. It is very encouraging to see so many of our customers and friends come back year after year. From that end, we take our responsibility as a seedstock supplier with great humility and the will to want to make each years' bulls better.

Just a few thoughts on our philosophy of breeding cattle. In my opinion, more is not always better in any one trait. We try to blend as many solid numbers as we can in each bull we use. We have always believed that if you incorporate traits in a slower, more balanced fashion, when you get to where you want to be, it will be real and have a much better chance of breeding true. Cow families that have many generations of top end females is what it is all about.

As always, we provide all the information we can to help in your selections. Every bull has been DNA tested through Angus GS, parentage tested, performance tested, fertility tested, scrotal measured, BVD tested, had two foot rot vaccinations and has been ultrasounded for carcass merit.

It is a pleasure to work with Bruce, Linda, Lance and the entire top notch crew at the Hould Bull Development Facility. Bruce's want-to is unmatched in his feeding and caring for the bulls. We also want to recognize Ron Frye for all his expertise and friendship he brings to our program.

The bulls, from end to end, are the strongest set yet. Large sire groups of one-half and three-quarter brothers, along with several sire groups of embryo transfer calves, will help with consistency in kind. We are excited about the new sire groups as well as the strong sire groups from our tried and proven lines. With any luck at all, I think the cattle industry is about to enter into a long term strength. (There goes the eternal optimist in me again!) We sincerely thank everyone who has invested in our program over the years and look forward to seeing you on April 7th.

Sincerely,

*Dave & Yvonne,
Billy & Heidi*

Dave and Yvonne

Heidi and Billy

YOU'VE DONE THE WORK.

Get paid for it.

You've invested in good genetics.
You've kept all the records.

AngusLink™ combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves. From age and source verification to cattle care and handling, you choose which programs make the most sense for you.

Group Age & Source: Verifies the group age and source of the cattle

Angus-Sired Genetics: Verifies calves are sired by 100% registered Angus bulls

Non-Hormone Treated Cattle: Verifies cattle have never received hormones

NeverEver®: No antibiotics, no hormones, no animal by-products ever

Cattle Care & Handling: Documents proper management, demonstrates quality commitment

Calf Management: Documents preventative health program

Genetic Merit Scorecard™: Measures the genetic merit of calves for feedlot performance and carcass merit.

*Optional, not part of the PVP claims

Easy and affordable, our customer service representatives walk you through the process

Pre-Sale Gathering
April 6 • Monday Afternoon
at the Sale Barn

Join us to preview the bulls, guest speaker at 5:30, followed by dinner

Please join us in the bleacher section of the sale barn at 5:30 pm Monday evening as Ginette explains the AngusLink program. She will be available later that evening, as well as on sale day, to visit with individuals who would like more detailed information. Dinner will follow Ginette's talk.

guest speaker
**Ginette
Gottswiller**

*American Angus Association
Commercial Program/AngusLink Director*

Ginette Gottswiller grew up on a diversified farming operation in Northwest Missouri where her family farms and manages commercial Angus cattle. She currently serves the as the Director of Commercial Programs for the American Angus Association headquartered in Saint Joseph, Missouri.

She has served in many capacities during her tenure with the Association, but most significantly, she has led the Commercial Programs Department since 2011. In today's changing marketplace, she works in conjunction with staff, regional managers and registered Angus breeders to provide commercial cattlemen the tools needed for success in communicating the value of record keeping, marketing and proper cattle identification. The Commercial Programs Department oversees the promotion and daily operations of the AngusLink Process Verified Program, Custom Cattle Tags website and the Angus Black Book mobile application.

www.RonFryeMarketing.com

Welcome to The Annual Hinman Angus Bull Sale.

The Hinman program always creates a lot of excitement this time of year! It's a bull sale packed full of big stout performance bulls with a strong maternal base that draws breeders and top commercial producers to Malta, on April 7th. The HA prefix is synonymous with high quality feeder calves and replacement females. The summer videos will always have market toppers with Hinman bulls listed as their primary source of bull power. Dave and Billy have always taken great pride in providing seed stock that not only increase your bottom line but produce a product that you can be proud of. They understand that pounds pay; that quality, consistency, and eye appeal drive the commercial cattle markets each and every day.

The longevity of the Hinman program speaks volumes to what you will find in the offering on sale day. They only keep cattle that will perform and fit the northern environment. After decades of this kind of mind set you're left with an excellent cow herd that defines who you are as a breeder. It also allows for maximum flexibility from a breeding stand point, very little corrective mating's are needed come spring breeding season.

At Hinman Angus they've done it all for you, decades of performance testing, DNA testing of every bull in the sale, fertility tested, ultra sounded for carcass merit, all the information you need to make an informed decision. If that's not enough give Dave or Billy a call, they will give you a honest evaluation of any lot in the sale.

If I can be of any assistance as you prepare for this sale please don't hesitate to contact me.

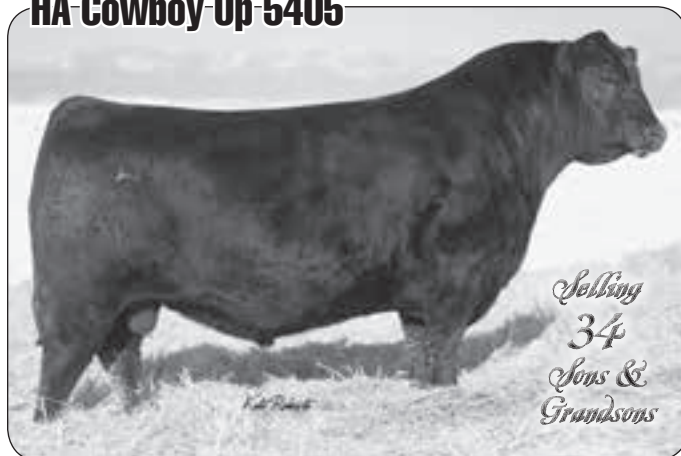

All the best,

Ron Frye

Reference Sires

HA Cowboy Up 5405

Cowboy Up is a unique sire that is living up to his promising beginnings. Sons and daughters are powerful individuals, consistent in kind, with that striking look and big volume phenotype. Cowboy Up sires feedlot performance in his progeny as good as it gets. Excellent foot structure and quiet dispositions. The first Cowboy Up daughters are in production now and they look just as we imagined they would. They have lots of milk, beautiful udders and outstanding mothering ability wrapped up in a high volume package to ensure fleshing ability and longevity. One other thing that is remarkable, is Cowboy Up's ability to sire one good calf after another.

Prime Cut 4493 was the high selling bull in our 2015 sale going to U2 Ranch in Canada. Prime Cut sires an attractive look in both his sons and his daughters, along with strong performance and carcass ability. Prime Cut daughters are making excellent cows with very good udders and strong fleshing ability as well as a good temperament. Prime Cut's influence will have a lasting effect at Hinman Angus.

Owned by Hinman Angus, Del Porto Livestock

We purchased T72 from David & Jeanine Del Porto. Boundary had that performance look along with very strong carcass qualities. T72 is a calving ease specialist and his first 66 progeny averaged 110 IMF Ratio and 100 Ribeye Ratio. Boundary sons are large scrotal bulls with excellent disposition. We would look for the maternal side to be very strong from his Dash x Image Maker dam. Strong sire group with calving ease, growth, maternal and carcass traits all in one package.

Owned by Hinman Angus, Rollin' Rock, Bodner Angus,
 Boylan Angus, Witte Angus. Leased to ABS.

Image Maker has been a standout from day one. He was the high selling bull in the 2001 Performance Breeders Bull Sale; his EPDs were BW +2.8, WW +34, Milk 28, YW 54. Since that time his progeny have excelled him to his present numbers with high accuracy as one of the best spread bulls in the industry.

Image Maker has been used very successfully in large heifer projects all across the county. He sires extra length of body, with heavy weaning weights and extra feedlot growth along with outstanding daughters that have exceptional fertility with good udders and are very easy to be around.

0415 is homozygous for tenderness markers and homozygous SNP 530, an additional indicator of tenderness. 0415 is among the top 1% of the bulls in the breed for WW. Image Maker daughters are truly foundation females that have the unique ability to work with a wide variety of pedigrees.

Image Maker sons have also been used in many herds across the country with the same consistent results as their sire.

0415 is in the top 1% for \$W index. As you go through the catalog, you will notice many Image Maker daughters who, with their steady production of superior progeny, have made a major impact on our cowherd.

Image Maker died at home on the ranch in June 2013. His tremendous influence will live on for many generations at HA, as well as on farms and ranches, in both registered and commercial herds across our great country. He truly is **A Bull that will Keep You in the Cow Business!**

Owned by Hinman Angus, Wilks Ranch, Express Ranches

Cowboy Up is a unique sire that is living up to his promising beginnings. Sons and daughters are powerful individuals, consistent in kind, with that striking look and big volume phenotype. Cowboy Up sires feedlot performance in his progeny as good as it gets. Excellent foot structure and quiet dispositions. The first Cowboy Up daughters are in production now and they look just as we imagined they would. They have lots of milk, beautiful udders and outstanding mothering ability wrapped up in a high volume package to ensure fleshing ability and longevity. One other thing that is remarkable, is Cowboy Up's ability to sire one good calf after another.

Cowboy Up Sons

Lots 1 - 5

We will start this year's sale with this group of 5 Cowboy Up sons who exemplify his ability to sire consistency in kind, weaning weight and high gain ability on feed test, with the long bodied, wide topped look. All around high performance good bulls. We are extremely excited about the Cowboy Up daughters, as they show that same deep bodied, long hiped kind. They are holding their condition and breeding back at the top of the list. Excellent udder structure with lots of milk. These bulls are truly the kind that will keep you in the cow business!

Heavy weaning cow bull with an excellent maternal background, along with big ribeye.

Flush Brothers

Lots 27 - 32

We flushed the 1575 cow to Colonel because of his strong maternal background. These 6 bulls averaged 4.47 ADG on test. While weaning at an average weight of 805 pounds. Really nice flush of bulls that will sire heavy weaning calves with strong maternal ability.

We used Spring Cove Reno 4021 for his maternal background with excellent carcass traits. 9129 is a high performance bull in a beautiful made package. Excellent performance record with the outstanding maternal characteristics of the 1575 cow, who has produced numerous herd bulls. 9129 will sire beautiful heifers and strong performing bulls. Structurally very correct and I think the longevity of these bulls will be excellent.

Very nicely made Payweight son that has done everything very well. High gaining heifer bull, herd bull prospect. The 1682 daughters continue to be excellent females with moderate birth and near perfect udders. 9128's dam is another daughter of the 4206 cow and has been an excellent producer.

We will start the Prime Cut calves with a strong performing heifer bull. Heavy muscled, big ribeye, beautiful made bull. The Prime Cut sons and daughters have done an outstanding job at HA. Near perfect udders with good do-ability and temperament.

Image Maker son that is one ripping good bugger that could turn into a real stud. Heavy weaning weight and an excellent carcass scan with 130 IMF Ratio. As you can tell, I like this bull! With his low birth EPD and out of Cowboy Up's dam, this bull could end up having some real grow and the maternal will be as good as it gets.

Customer Harvest Data

We received this information from one of our customers who has been using our bulls for 20 plus years

They always buy good stout bulls with growth and maternal, the driving force in their bull selection.

Harvest data on
180 steers
64% Prime, 34% Choice and 2% Select.

We are extremely proud for them.

High gaining, nice made Plus son with good numbers across the board.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	26	Heifer Pregnancy	17
Birth Weight	23	Calving Ease Maternal	20
Weaning Weight	27	Milk	36
Yearling Weight	23	Mature Weight	15
Dry Matter Intake	12	Mature Height	9
Scrotal Circumference	15	Carcass Weight	15
Docility	12	Yearling Height	17
Claw Set	10	Carcass Marbling	11
Foot Angle	10	Carcass Ribeye	17
		Carcass Fat	14

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

Cattle First.

BVD VIRUS TYPE 1B IS ON THE RISE.

Bovine viral diarrhea (BVD) infection can disintegrate herd productivity. And if you're using a vaccine, like BOVI-SHIELD GOLD®, that isn't labeled for the most prevalent strain, your cattle could be at risk. Play it safe. Choose the only vaccines specifically labeled to protect against Type 1b: Express® FP and Pyramid® + Presponse® SQ. Know more at BVDTracker.com.

¹ Data on file, Boehringer Ingelheim and BVDTracker.com. Data collected November 1, 2018 through November 1, 2019.
² Ridpath JF, Lovell G, Neill JD, et al. Change in predominance of bovine viral diarrhea virus subgenotypes among samples submitted to a diagnostic laboratory over a 20-year time span. *J Vet Diagn Invest* 2011;23(2):185-193.
