47TH ANNUAL GENETIC ADVANTAGE BULL SALE

February 23, 2019 1:00 CST

Mobridge Livestock – Mobridge, SD

61 YEARS OF AI &PRODUCTION TESTING

Welcome Cattlemen!

We are excited to invite you all to our 47th annual bull sale on February 23, 2019.

The bulls in the sale are a true testament to how hard our cows work to get the job done. These cows thrive on Native grass in the summer and are only supplemented with hay when winter weather dictates. We consistently calve over 85% of them in the first cycle. Our bulls are not supplemented with creep feed – this is an accurate representation of what the cows get done. I really encourage you to come out in the summer to take a look at the calves on the cow and get a closer look at our program.

These bulls are a careful balance of maternal genetics and incorporate performance in order for you to get the most out of your calf crop. They are going to sire a ripping set of steers, but they will also make you a set of replacement heifers to build a herd on. Remember, the bulls you buy today will directly influence your cowherd for the next 10-15 years. Long term decisions like this have a major impact on your bottom line.

Once again this year these bulls have dispositions that can't be beat. There is a strong line up of heifer bulls in the sale and those that are suitable for heifers are marked. The consistency throughout this year's offering is unmatched. They are ready to go to work for you. We will have final weights, gains, and scrotal measurements available on sale day. As always we offer an unrivaled guarantee on these bulls. If you aren't able to attend the sale, it will be on www.cattleusa.com.

We appreciate your interest in our program. If you have any questions or want to take a look at the bulls prior to the sale, just give us a call. We look forward to seeing you on sale day.

Kirby Goettsch *(Farm and Ranch Guide)* (605)380-3939
Ryan Casteel *(Cattle Business Weekly)* (605)423-6000

Phone Bids:
If you would like to place a bid on any lot, but will not be able to attend the sale, please direct your bid to a sale day rep listed. The sale will also be on cattleusa.com Please be sure to pre register if you plan to bid this way.

Feeding and Delivery:
Johnson-Rose Angus offers free delivery. Johnson-Rose will take home any bull selling over $5000 and feed free of charge until they are semen tested and delivered. Bulls selling for less than $5000 will be fed free until April 1st, after April 1st a $2.50 per head per day charge will be assessed. Deduct $50 per head on yearling bulls if hauled from sale facility by new owner. Deduct $100 per head on aged bulls. We prefer not to take aged bulls home.

Herd Health:
All bulls have had a breeding soundness exam by Dr. Pat Prusha of Oahe Veterinary Hospital. Aged bulls have been semen tested. The bulls have been on a complete vaccination and mineral program.

Terms & Conditions:
The terms of the sale are cash and all settlements must be made at the close of the auction. Cattle may be left at the sale barn for a reasonable length of time at the buyer's risk. All breeding animals are guaranteed in accordance with the rules and regulations set forth by the American Angus Association.

Liability:
All persons attending the sale do so at their own risk.

Guarantee:
All bulls selling are guaranteed to be breeders. In the event of a bull failing a semen test or being injured a suitable replacement will be furnished if available. We encourage buyers to purchase livestock loss of use and mortality insurance provided by Martin-Trudeau Insurance.

Scrotal measurements and current weights and gains will be available on sale day. Yearling bulls will not be semen tested, but the aged bulls will be tested and ready to go. EPD profiles on registered bulls will also be available sale day.

Commando is an excellent calving ease sire with added calf vigor and an outcross pedigree. He is a frame 5 bull and offers a nice spread from birth to weaning. These Commando bulls show a lot of natural muscle expression, great phenotype and will go out and cover a lot of country. Commando daughters offer a lot of style and look like they will maintain a nice, moderate frame size. We will calve our first daughters this spring.

Here's a bull that covers all the bases – calving ease, style, performance, and maternal. Lot 1 found himself at the top of the calf crop early this spring and has continued to impress us with his impeccable phenotype and performance. He's out of an outstanding two year old Rockmount daughter and is backed by many generations of top producing females. I could go on and on about what this bull has to offer, but you'll just have to see for yourself – you won't be able to look away. Recommended for heifers.

Dam's ratio: Two year old **Grand dam's ratio:** 3 @ 106

Standing wide on all four corners, lot 2 is loaded with muscle and power, and has the superb structural design that Commando is known for passing down to his offspring. Featuring an excellent maternal pedigree, this guy has been one of my favorites all year and is going to be a favorite of many on sale day. We do not recommend him for heifers.

Dam's ratio: Two year old **Grand dam's ratio:** 2 @ 104

Rockmount continues to be a go to heifer bull in our program for his predictable calving ease, growth, and replacement heifer quality. He sired the high selling bull in our 2017 sale and high selling sire group in 2018. We are happy to offer an even deeper, quality set this year. These bulls have great calving ease and performance with substance and fleshing ability. We calved our first Rockmount daughters last spring. They are powerful cows with perfect udder attachment and excellent fertility.

Wow! This bull has been a favorite of mine since we paired him out to pasture at 4 days of age. Lot 7 is the result of a mating that has been extremely predictable and successful for us; Rockmount and Cedar Ridge combine two excellent calving ease sires. The maternal do-ability is strong on both sides of this pedigree and this cross always features excellent growth. His dam and grand dam are both functional females with perfect udders and phenotype. This bull has a lot of muscle and capacity to him. Put a check mark here! Recommended for heifers.

Coleman Charlo 0256
6/44
8/35 by GAR Grid Maker

There is no doubt that Rockmount has been a favorite sire of mine since the first bull calf hit the ground 3 years ago; now when you can combine him with the maternal dominance of Charlo the result is just really awesome. This bull has the growth and superior fleshing ability that both of those sires have to offer – not to mention the maternal longevity that this cow family lays in at the foundation. You need calving ease, birth vigor, and maternal performance? Here's your bull. Recommended for heifers.

The first thing you will notice about lot 26 is his big, bold rib and exceptional body capacity. He is moderate, smooth shouldered and level hipped. This was our only Enterprise bull born in 2018 and he is a great one. The Enterprise daughters are very consistent in their type and kind and show the same fleshing ability. We are looking forward to many more Enterprise progeny in 2019.

Dam's ratio: Two year old **Grand dam's ratio:** 3 @ 91

If you plan to sell your calves off the cow and retain females in your herd, then there is no doubt you need a Charlo herd sire. Siring calves that push down the scales with added thickness and cows that are deep sided and flesh super easy with nice udders and feet, Charlo makes a logical choice for those looking to lower their inputs without sacrificing weaning weight. Our Charlo cows are easy to handle and have excellent mothering instincts.

One look at the Locomotive progeny and you will be sold on what they can do for you. These bulls are built to last – deep chested with rib capacity and a square hind quarter that carries down. Locomotive sires females about as flawless as you can make them, combining Motive and Final Answer in one of the most maternal driven pedigrees in the breed.
