48TH ANNUAL GENETIC ADVANTAGE BULL SALE

February 29, 2020 1:00 CST

Mobridge Livestock - Mobridge, SD

62 YEARS OF AI & PRODUCTION TESTING

Welcome Cattlemen!

We are excited to invite you all to our 48th annual bull sale on February 29, 2020. The bulls in the sale are a true testament to how hard our cows work to get the job done. These cows thrive on Native grass in the summer and are only supplemented with hay when winter weather dictates. We consistently calve over 85% of them in the first cycle. Our bulls are not supplemented with creep feed – this is an accurate representation of what the cows get done. I really encourage you to come out in the summer to take a look at the calves on the cow and get a closer look at our program.

2019 brought its share of challenges for everyone. The bulls were weaned a little later this year due to the first blizzard of the season; they were weighed and brought home on October 19. They stayed on a small pasture post weaning and were hand fed for about a month with a protein pellet and some long hay. While we pride ourselves on top notch dispositions year after year, I can assure you this is the calmest set of bulls we have ever offered. The bulls are developed on a high roughage ration to ensure soundness, fertility, and longevity. We want to see them express their genetic potential in a gain, but realize the importance of having them in optimal breeding condition.

These bulls are a careful balance of maternal genetics and incorporate added performance in order for you to get the most out of your calf crop. They are going to sire a ripping set of steers, but they will also make you a set of replacement heifers to build a herd on. Remember, the bulls you buy today will directly influence your cowherd for the next 10-15 years. Long term decisions like this have a major impact on your bottom line.

We will have final weights, gains, and scrotal measurements available on sale day. As always we offer an unrivaled guarantee on these bulls. If you aren't able to attend the sale, it will be available to watch on www.cattleusa.com. We can also handle your bid if you prefer.

Once again this year we are offering to pay half of the premium on the insurance offered through Martin-Trudeau Insurance.

We appreciate your interest in our program. If you have any questions or want to take a look at the bulls prior to the sale, just give us a call. We look forward to seeing you on sale day.

Sale Day Phones:
Mobridge Livestock
(605)845-3622 or 1(800)658-3598

Auctioneer:
Seth Weishaar (605)210-1124

Sale Day Representatives:
Dan Piroutek *(Tri-State Livestock News)* (605)544-3316
Kirby Goettsch *(Farm and Ranch Guide)* (605)380-3939
Ryan Casteel *(Cattle Business Weekly)* (605)423-6000
Will Bollum (Western Ag Reporter) (507)244-0833

Phone Bids:
If you would like to place a bid on any lot, but will not be able to attend the sale, please direct your bid to a sale day rep listed. We will also be available to assist you with any questions or concerns prior to the sale. The sale will also be on cattleusa.com Please be sure to pre register if you plan to bid this way.

Feeding and Delivery:
Johnson-Rose Angus offers free delivery. Johnson-Rose will take home any bull selling over $5000 and feed free of charge until they are semen tested and delivered. Bulls selling for less than $5000 will be fed free until April 1st, after April 1st a $2.50 per head per day charge will be assessed. Deduct $50 per head on yearling bulls if hauled from sale facility by new owner. Deduct $100 per head on aged bulls. We prefer not to take aged bulls home.

Herd Health:
All bulls have had a breeding soundness exam by Dr. Pat Prusha of Oahe Veterinary Hospital. Aged bulls have been semen tested. The bulls have been on a complete vaccination and mineral program.

Terms & Conditions:
The terms of the sale are cash and all settlements must be made at the close of the auction. Cattle may be left at the sale barn for a reasonable length of time at the buyer's risk. All breeding animals are guaranteed in accordance with the rules and regulations set forth by the American Angus Association.

Liability:
All persons attending the sale do so at their own risk.

Guarantee:
All bulls selling are guaranteed to be breeders. In the event of a bull failing a semen test or being injured a suitable replacement will be furnished if available. We encourage buyers to purchase livestock loss of use and mortality insurance provided by Martin-Trudeau Insurance. We will pay half the premium on this insurance.

Scrotal measurements and current weights and gains will be available on sale day. Yearling bulls will not be semen tested, but the aged bulls will be tested and ready to go. EPD profiles on registered bulls will also be available sale day.

Enterprise continues to gain popularity as a go to heifer bull in many commercial programs. The calves come easy and display excellent calf vigor. Reports on daughters have been outstanding, being noted with above average udder quality. We are excited to calve our first Enterprise heifers this spring. They are moderate, broody, and easy fleshing.

Kicking off the catalog with a super sound, smooth moving Enterprise son! With an abundance of muscle and fleshing ability, lot 1 will add lots of rib and make super daughters. Our Cash daughters are impressing us with their superior mothering and milking ability, along with excellent fertility. With an individual ratio of 106, lot 1 features added performance and will make a great choice for heifers.

Rockmount continues to be a go to heifer bull in our program for his predictable calving ease, growth, and replacement heifer quality. He consistently sires our top bulls year after year. We love his daughters for their fertility and function; they raise some of the top calves and breed back well. Rockmount progeny stand on an excellent foot and have great dispositions. We continue to use him as a no miss sire in our program.

Rockmount and Charlo always make one of my favorite crosses and this bull is no exception; added length and a moderate frame make him an excellent choice for making females. We have retained a full brother to lot 25's dam for our own use and are excited to transfer some embryos from his grand dam. This is a pedigree that never misses! Recommended for heifers. Registered.

Dam's ratio: Two year old **Grand dam's ratio:** 9 @ 104

Power in the blood! It's hard to find a bull who can posses so much length and maintain added shape stifle to stifle and depth in the rear quarter; lot 33 gets it done with a long, level top line, added bone and power throughout. His dam raised our herd sire, Dictator, as a two year old and continues to roll, ratioing 3 calves above average and never missing first cycle. She is the kind to build a herd around. Lot 33's grand dam also produced into her teens. Unmatched longevity and performance bred in deep here! Retaining half semen interest. Registered.

Dam's ratio: 2 @ 102 (plus twins) **Grand dam's ratio:** 11 @ 95

If you plan to sell your calves off the cow and retain females in your herd, then there is no doubt you need a Charlo herd sire. Siring calves that push down the scales with added thickness and cows that are deep sided and flesh super easy with nice udders and feet, Charlo makes a logical choice for those looking to lower their inputs without sacrificing weaning weight. Our Charlo cows are easy to handle and have excellent mothering instincts.

If you are looking to add docility to your herd these Seedstock sons are a great place to start. Lot 53 loves some extra attention when someone is out in the bull pen. He features extra capacity and length. Several generations of proven and productive cows in his pedigree make him a great choice to make females.
