Dustin Carter .....(712) 898-9972

**SALE BOOKS AND SALE DAY ORDER:** All bulls are listed according to sire groups. Sale order will be available sale day.

**BUYERS UNABLE TO ATTEND THE SALE:** Koupal Angus will be using DV Auction via the internet. If you have DSL (fast speed internet), you will be able to log on and watch the sale and bid. You will need to register a couple of days before the sale. Just go to [www.dvauction.com](http://www.dvauction.com). We recommend watching a different sale ahead of time. We think this will be especially nice if you have been here to look at the bulls ahead of time and are unable to make the sale. Koupals will still have a telephone for bidding for your convenience.

**TRANSPORTATION:** Upon request, we will provide transportation from the Sioux Falls airport for anyone flying in. Private planes may land at the Wagner Municipal airport. We will pick up, just call.

**ACCOMMODATIONS:** The following motels are located in the Wagner area for your convenience. The Ft Randall Inn, Pickstown, SD (605) 487-7801 or the Lakeside Motel, Wagner, SD (605) 384-5464. When making reservations, tell them you are with the Koupal Angus bull sale and receive a 10% discount. There is also the Fort Randall Casino & Hotel, Pickstown, SD at (800) 362-6333. You may call Alice at (605) 384-5315 or Bernie at (605) 384-3481, and they will be happy to help you with your reservations.

**TERMS AND CONDITIONS:** Cattle will sell under the suggested Terms and Conditions of the American Angus Association ([http://www.angus.org/Pub/suggested\\_sale\\_terms.pdf](http://www.angus.org/Pub/suggested_sale_terms.pdf)).

**HERD HEALTH AND REGISTRATIONS:** All bulls will have been inspected by our licensed vets at Northwest Vet located at Parkston and Wagner. All vaccinations that are required are given to the bulls along with a hoof rot shot. All bulls have been bled for Brucellosis and are BVD free. They will be semen tested, guaranteed breeders and all health papers will be ordered for all bulls to be shipped anywhere in the United States. All registrations and transfers of the bulls will be taken care of by the Koupals.

**DELIVERY:** Free delivery on all bulls selling for \$3,000 or more within a 300 mile radius, after 300 miles at cost. When delivering bulls, we may deliver to a central location spot such as vet clinics, sale barns or ranch that has agreed to be a drop off point. We ask in advance for your cooperation.

**BOARDING:** Save \$50 per head by taking the bull home sale day. We will start delivering shortly after March 1st. If you choose not to have them delivered, you will need to pick them up by April 1st. Please tell the girls clerking if you are leaving them or want them delivered. All bulls left at the ranch do so at the buyer's risk. We suggest you buy mortality insurance if leaving the bull at Koupal Angus.

**RETAINING INTEREST:** KOUPAL ANGUS IS RETAINING A ONE-THIRD REVENUE SHARING SEMEN INTEREST IN EVERY BULL SELLING IN THIS SALE UNLESS STATED OTHERWISE FROM THE BLOCK. FULL POSSESSION AND FULL SALVAGE SELLS ON ALL BULLS UNLESS INDICATED FROM BLOCK SALE DAY.

**VOLUME DISCOUNT:** The purchase of 5 or more bulls by a single buyer will earn a 5% discount.

**INSURANCE:** An Insurance Representative will be on hand to answer any questions you have on mortality and breeding injury insurance. Mortality and breeding insurance will be available sale day and two representatives will be on hand to explain and handle your needs.

**GUARANTEE:** We guarantee all bulls to be sound and fertile, but reserve the right to test any animal that is returned to the farm as a non-breeder for 90 days before making an adjustment. All bulls selling for \$3,000 or more will be covered at 50% minus \$1,500 (salvage price at sale) if they have a breeding injury during their first breeding season. In the event of an adjustment, a replacement of equal value or credit on the purchase of another animal will be made. Breeding season is defined as the 90-day period following the first turnout of the bull. Please notify us as soon as possible if an injury does occur and prior to the injured bull being sold. All bulls need to be diagnosed by a veterinarian and claims made before September 1st. This is not an insurance policy nor does it cover neglect or mismanagement. Credit will not be issued on bulls that are purchased on credit.

**LIABILITY:** All buyers attending the sale do so at their own risk. Koupal Angus assumes no liability for accidents or property loss that may occur.

**PERFORMANCE DATA:** Current EPDs are available on each lot in addition to birth weight, 205-day weight and 365-day adjusted weight. Fertility test, scrotal measurements and ultrasound carcass data are all included in the sale book.

**HOSPITALITY:** Donuts and coffee in the morning. A complimentary lunch will be served at 11 a.m.

*For inclement weather or postponement, listen to WNAX 570 AM radio.*

**AM** EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at [www.angus.org](http://www.angus.org) and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded.

# KOUPAL ANGUS

LaVern and Alice Koupal

Bud & Bernie Koupal & family

***Welcome to the 45<sup>th</sup> Annual Koupal Angus bull sale. We have been very fortunate to catch timely rains this summer as our row crops were better than expected. The hay crop was down some but as you drive around the county it could have been much worse. 2021 was a unique year in all that we did and we hope your year was a great one despite all the happenings of the world.***

***As always, we strive to run our cattle as close to the way a commercial herd is run as we can. The cattle for the sale come from the different family herds and are sold all together in one production sale. Some cattle may be creep fed for 3 weeks before weaned, making a difference in comparing weaning weights. This is why EPD's were built.***

***We have stepped up our embryo program a little this summer as we are trying to capitalize on a few of the older proven cows to bring predictable genetics with longevity and fertility. We are flushing cows with longevity and top end maternal genetics as this is what makes the commercial man the most profit. The cattle we are selling have generations of productive genetics that can help make your herd more profitable. We are striving to breed cattle for our customers. It is very easy to breed numbers on paper while using bulls that are friendly to the DNA profile, but when the dust settles, we need functional cattle that can produce in real world conditions.***

***We are very excited to be adding Dave Mullins to our team as a sale manager. I met him a couple years ago and was so inspired by his professionalism and knowledge. Please take the time to visit with him and get to know him. He will be a great asset to our program.***

## ***The Koupals***

---

Cattlemen,

It is my privilege to have the opportunity to work with the Koupal family and their team members at this 45th annual bull sale. While this is my first year working with this highly respected event, the Koupal name is certainly a staple in the Angus and beef business, primarily because of their relentless pursuit of producing some of the breed's very best cattle. Without question, the priority of this operation is to produce a product that fits the needs and demands of the commercial and purebred cattleman alike, and they do so by avoiding short cuts and unreliable fads. It is understood, that these cattle and genetics will be placed in diverse and challenging environments, and yet it's expected that they will remain practical and profitable in kind. While utilizing the most modern resources and technology in their daily practices, traits like longevity, fertility, and structural soundness remain the focal point of this family operation.

I personally invite you all to attend this year's annual bull sale, and look forward to meeting and visiting with you in the near future. Should you have any questions about the sale or seek additional information on the bulls, please do not hesitate to reach out to me, and I'll be more than happy to assist.

Respectively,

Dave Mullins  
(317) 503-2798

+45	+65	+63	+036	+89	+272

- Top-selling semen bull for 2021 at Breeder Link. Backed by 5 genetics of Pathfinder Dams. Excellent low-birth-to-growth spread! Dam is a power house! High fertility, backed by generations of productivity with real production records! This bull brings the most important profitable trait to the table heifer pregnancy. The first females by this sire prove to carry on this trait as they were highly fertile and had great mothering instincts. Seven out of the last eight dams on the maternal side are pathfinders. You can chase all the high dollar beef and extreme EPD cattle, but when the dust settles all we need is optimum. We don't need a home run every tenth bat, we just need a base hit every time.

## Koupal's Mission

- To enrich the traits that made Angus cattle No. 1.
- To offer our customers progressive genetic traits.
- To offer fertility, calving ease, maternal, and easy fleshing.
- To realize that our future depends on a Satisfied Customer.

- The dam of Lots 28-35. She is one of the most prolific and fertile females at B&B Herd. She has an outstanding production record. She made her EPD's the old fashion way with real data. Dam of Pathfinder, Progress, Blackout 0039, and Blackout 9021. She has 7/101 BWR, 7/107 WWR, 6/YWR, 15/106 IMF, and 15/103 REA. There will be eight sons selling out of her. They will definitely be some of the sale features. She will become one of the cornerstones for our program in the future.

- Full flush brother to Lots 32, 33, and 35. Excellent heifer bull prospect. Selling full possession and 2/3 interest. Would like to keep possession until May 15. The maternal power with these flush brothers is endless. Many say the 3293 dam of Territory is one of the best cows at S A V. Add to the dam of pathfinder, Cow Power! Calving ease with extreme cow power. This bull brings a tremendous balanced set of numbers together while improving fertility and longevity.

• No fall creep. Dam's production BWR 6/95, WWR 6/103. Maternal brother sold for \$6,000 in 2021 sale. Granddam production 8/98, WWR 8/108.

## Combined \$Value (\$C)

This relatively new index provided by the American Angus Association attempts to characterize cattle by combining maternal (\$M) and terminal traits (\$B) into one index. \$C is heavily weighted towards the "terminal" traits found in \$B, and \$C has a .95 correlation to \$B.

As a review of \$B, it is a terminal index, comprising of the traits YW, DMI (Dry Matter Intake), Marbling, CW (Carcass Weight), RE (Ribeye), and Fat. \$B is designed for herds that send all of their calves (male and female) to the feedyard, retain ownership, and hang them on a quality-based carcass-merit grid.

If you ever have questions about the information provided, please call Bud at 605-491-2102. Our success depends upon your success, and we are committed to helping you select the best genetics to fit your needs.

• Excellent structure. Adds muscle. Dam is excellent producer with great udder. Short hair, early shedding with excellent disposition. Has naturally bred over 180 head in first 2 years of service. Good scrotal bull. The progeny a little more moderate but are super dense. Excellent foot structure. Excited to see his daughters in production next spring. His first progeny ratio 103 on weaning and 100 on yearling with a whopping 105 REA ratio.

• Moderate framed. Excellent cow family. Dam is Maternal sister to Dam of Knockout. Very tight bred, should breed very consistently. Out of a first calf heifer. Granddam production 8/102 WWR and 7/102 YWR. Bull is excellent structured with very high libido. Like his father, daughters should be excellent.

• Big time performance! Dam is Excellent! The 50K came back that he should be the worst on marbling, but actual data put him at a 100 ratio which would make him average. Detail has 101 progeny ratioing 103 on IMF, yet he is only a .17 for marbling on his EPD. This is one of the instances where raw data has some true value. The problem is DNA is weighted so heavily that raw data doesn't help.

B&B Blackcap 9140 - Dam of Lot 113.

• No fall creep. 113 IMF Ratio.

Angus bulls have long been known for their paramount calving ease. If you are breeding heifers, Angus is the go-to breed of choice. But what about the so-called "big" birth weight Angus bulls - where do they fit in? The vast majority of mature cows calve unassisted - it is pretty rare for a mature cow to need assistance, except for abnormal deliveries (backwards, breech, twins, etc.). Data reported to the AAA shows that 99% of Angus cows, second calf or beyond, calve unassisted and only 1% need some type of assistance (abnormal deliveries excluded from this data). Back to the question at hand: where do the "big" birth weight Angus bulls fit in? Example: If you have a bull with a Birth EPD of +5, he would be 3.2 pounds heavier than the average (breed average BW EPD 1.8) (5 - 1.8 = 3.2 pounds difference.) However, his superior growth EPDs mean he will wean bigger calves and put way more money in your pocket than the average Angus bull! The moral of the story: If you are breeding mature cows to an Angus bull, don't make birth weight be your focus.

• Larger framed.

Do not believe ranching or life for that matter be conducted in solitude. Perhaps the most important work of our nation at this point is to invigorate the power of being a good neighbor and bring back to our culture the lessons learned on front porches or leaning on the top rail of a fence. At a time when our country is being torn apart perhaps there is an alternative answer. Turn off the news, take a deep breath, put away the technology, and sit with our neighbors on the front porch with a cold drink in our hand sharing the journey and lessons and truths taught by our grandpas and grandmas, aunt and uncles, and caring friends and neighbors. Only then can we heal this nation.

• Heifer bull.

## THE FIVE L'S OF A PROFITABLE COW HERD

**Live Calves.** Having a live calf on the ground is the number one starting point for any profit for the cattleman. We have all seen cows that are too big or too small, but we have never seen a cow that is too fertile. Fertility is not negotiable. It is one trait you can't get too much of. Cows that don't breed back can't produce a calf.

**Low Maintenance** should also be high on the list. An animal that is easy fleshing, moderate framed, and thrifty will keep more money in your bank account. Most cattlemen will agree that the cost of feed dips into the profit more than anything else.

**Lovely Udders** with small and well-spaced teats, adequate milk and strong support are necessary for a trouble-free experience for a newborn calf. A newborn's first drink of colostrum is the most important drink that calf will have. An udder that is full of mud from hanging too low or has balloon teats will discourage them from nursing. Choosing the right herd sire for replacements females is very important.

**Longevity is a must.** Mother cows must continue doing everything right year after year. A cattleman cannot afford to turn his mother cows over every 3 or 4 years. That old cow that has raised a calf for 10 years even though it isn't the heaviest weaning is more profitable than the cow that raises a heavier calf but doesn't breed back on time or comes up empty and has to be replaced every two years. His factory is not efficient.

**Limit Inconsistency.** By stacking generations of the same kind of balanced and predictable genetics, you have a pretty good idea what that cow will produce. The present EPD system which is a valuable tool when used with other information doesn't have the ability to create cattle that are uniform and consistent phenotypically. Cattle with the same EPDs can look very diverse in conformation, type and structure.

• No fall creep. Potential heifer bull. WWR 107.

# COMMERCIAL FEEDER CALF MARKETING

Reputation feeder cattle are no accident. Information adds value. Today, buyers have access to more Angus cattle and generic "black" calves than any other type. Amid the marketing claims and hype, buyers are most likely to focus on cattle that add value to the best-known Angus genetics.

Ownership transfers vary from traditional auction markets to direct sales to cattle feeders or feedlots. With several outlets for marketing your calf crop, documentation of the value you've added is key. Regardless of how and when you intend to sell, tools and strategies for capturing a higher price are available. Information adds value. Cattlemen who raise Angus-type calves with detailed records that document no implants, antibiotics or animal-derived feeds used in production and still meet all brand specifications can qualify for Certified Angus Beef® (CAB®) brand Natural. Currently Tyson, National Beef and Niman Ranch produce the more than 6 million pounds of CAB brand Natural sold each year.

# Fall Bulls

This year we will be offering close to 40 aged Bulls. These Bulls are raised and handled with the commercial cattleman in mind. The majority of them are born in August/September and then run on grass the following summer. The bulls come off grass end of September and that's when they get their yearling weights recorded. They then get put on a high roughage ration until sale day. The Fall bulls offered this year are very similar to that of a car dealership, there is something for everyone!

The Pathfinder and Trapper sons will offer calving ease along with good performance. If you're looking for bulls to cover a few more cows the Blackout, Detail, Full Metal, and Substance sires will all add performance and maternal traits. If you run bigger pastures or want to cover a few more cows, check out these 18-month-old bulls! Tune in to their videos on dvauction.com or look at them any time prior to the sale at Dan's place.

- Phenotypically a standout! Long, deep, and wide. Backed by an awesome moderate cow. One of the highest performing Fall bulls on the sale and his EPD's say that as well. He'll be easy to find in the pen sale day! WR:109, YR:113.

## Koupal Angus Influence Female Sale

Koupal Angus held our 2<sup>nd</sup> Annual Female Influence Sale on December 17<sup>th</sup>, 2021. We had several customers consign their females for sale and it was a huge success. We sold 650 commercial females and averaged right at \$2,000 per head! Exciting times are among us in the cattle industry and Angus females are in high demand. Our goal going forward is to offer nothing but the best on this sale every year. By having this sale, we feel we can bring together our customers looking for the same Angus gene pool and better their herds going forward.

To reach our goals going forward we will be asking for strict protocol to better the quality and genetics of this sale. To qualify for this sale the females offered must be AI bred with Koupal genetics and also cleaned up with Koupal Angus bulls. We also ask that the females all be ultra-sounded into short calving windows. To add value to your females we ask you sort cattle for disposition and quality and also cake break them with range

cubes. We want to emphasize that these females will be front end type therefore it will not be a sale where we offer anything less.

For those of you doing heifer projects, we ask you know the history behind the females you purchase. By buying replacement females and AI'ing them to a Koupal bull does NOT qualify you for this sale. We ask that you also run Koupal bulls for cleanup and use strict culling practices if you're purchasing females. Be in touch with anyone of us here at Koupal's and we can help direct you to some front-end replacement females available to purchase from our customers.

Koupal Angus has some excellent bulls that will work for heifers and young cows that will qualify you for this sale. Get in touch with anyone of us Koupals and we would be glad to point you in the right direction when choosing your genetics.
