SALE BOOKS AND SALE DAY ORDER: All bulls are listed according to sire groups. Sale order will be available sale day.

CHANGE OF FORMAT: As in the past, Koupal Angus will be using a large screen TV for the sale instead of running the bulls through the ring. The bulls will still be on display outside as usual, but

HERD HEALTH AND REGISTRATIONS: All bulls will have been inspected by our licensed vets at Northwest Vet located at Parkston and Wagner. All vaccinations that are required are given to the bulls along with a hoof rot shot. All bulls have been bled for Brucellosis and are BVD free. They will be semen tested, guaranteed breeders and all health papers will be ordered for all bulls to be shipped anywhere in the United States. All registrations and transfers of the bulls will be taken care of by the Koupals.

DELIVERY: Free delivery on all bulls selling for \$3,000 or more within a 300 mile radius, after 300 miles at cost. When delivering bulls, we may deliver to a central location spot such as vet clinics, sale barns or ranch that has agreed to be a drop off point. We ask in advance for your cooperation.

BOARDING: Save \$50 per head by taking the bull home sale day. We will start delivering shortly after March 1st. If you choose not to have them delivered, you will need to pick them up by April 1st. Please tell the girls clerking if you are leaving them or want them delivered. **All bulls left at the ranch do so at the buyer's risk. We suggest you buy mortality insurance if leaving the bull at Koupal Angus.**

RETAINING INTEREST: KOUPAL ANGUS IS RETAINING A ONE-THIRD REVENUE SHARING SEMEN INTEREST IN EVERY BULL SELLING IN THIS SALE UNLESS STATED OTHERWISE FROM THE BLOCK. FULL POSSESSION AND FULL SALVAGE SELLS ON ALL BULLS UNLESS INDICATED FROM BLOCK SALE DAY.

VOLUME DISCOUNT: The purchase of 5 or more bulls by a single buyer will earn a 5% discount.

instead of bringing them in, you will be able to view the bulls on a large screen TV set up for you in the ring. We feel this will better serve our customers and save stress on the bulls.

BUYERS UNABLE TO ATTEND THE SALE: Koupal Angus will be using DV Auction via the internet. If you have DSL (fast speed internet), you will be able to log on and watch the sale and bid. You will need to register a couple of days before the sale. Just go to www.dvauction.com. We recommend watching a different sale ahead of time. We think this will be especially nice if you have been here to look at the bulls ahead of time and are unable to make the sale. Koupals will still have a telephone for bidding for your convenience.

TRANSPORTATION: Upon request, we will provide transportation from the Sioux Falls airport for anyone flying in. Private planes may land at the Wagner Municipal airport. We will pick up, just call.

ACCOMMODATIONS: The following motels are located in the Wagner area for your convenience. The Northview Motel, Avon, SD (605) 491-3739, the Ft Randall Inn, Pickstown, SD (605) 487-7801 or the Lakeside Motel, Wagner, SD (605) 384-5464. When making reservations, tell them you are with the Koupal Angus bull sale and receive a 10% discount. There is also the Fort Randall Casino & Hotel, Pickstown, SD at (800) 362-6333. You may call Alice at (605) 384-5315 or Bernie at (605) 384-3481, and they will be happy to help you with your reservations.

TERMS AND CONDITIONS: Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

INSURANCE: An Insurance Representative will be on hand to answer any questions you have on mortality and breeding injury insurance. Mortality and breeding insurance will be available sale day and two representatives will be on hand to explain and handle your needs.

GUARANTEE: We guarantee all bulls to be sound and fertile, but reserve the right to test any animal that is returned to the farm as a non-breeder for 90 days before making an adjustment. All bulls selling for \$3,000 or more will be covered at 50% minus \$1,500 (salvage price at sale) if they have a breeding injury during their first breeding season. In the event of an adjustment, a replacement of equal value or credit on the purchase of another animal will be made. Breeding season is defined as the 90-day period following the first turnout of the bull. Please notify us as soon as possible if an injury does occur and prior to the injured bull being sold. All bulls need to be diagnosed by a veterinarian and claims made before September 1st. This is not an insurance policy nor does it cover neglect or mismanagement. Credit will not be issued on bulls that are purchased on credit.

LIABILITY: All buyers attending the sale do so at their own risk. Koupal Angus assumes no liability for accidents or property loss that may occur.

PERFORMANCE DATA: Current EPDs are available on each lot in addition to birth weight, 205-day weight and 365-day adjusted weight. Fertility test, scrotal measurements and ultrasound carcass data are all included in the sale book.

HOSPITALITY: Donuts and coffee in the morning. A complimentary lunch will be served at 11 a.m.

For inclement weather or postponement, listen to WNAX 570 AM radio.

ANGUS MEDIA Visit the *Angus Journal* Web site, www.angus.org and view this sale book online. References: American Angus Association®, AHIR®, AngusSource®, CAB®, Pathfinder®, EPDs current as of Jan. 10, 2020. Updated EPDs can be viewed online at www.angus.org. The American Angus Association does not generate nor endorse \$C numerical ranks (versus percentile rankings) until \$C numerical ranks are officially released.

LaVern and Alice Koupal

Bud, Bernie and family

Our family would like to welcome you to the 43rd Annual Bull sale. What a year at the Koupal Ranch. We have had many adverse weather happenings. I can't say it has been the best year, but I can say that we are very blessed. Stay tuned as you look through the sale book this year. Along with family and cattle, you will see the very best part, our grandkids! We love them to pieces and try to be the best grandparents to them that we can be...now to the bulls 😊

When you go through the sale book this year, you will see that our weaning weights are a little lighter. The mud, rain, snow, sleet and ice continue to have an impact on the weaning weights. We have done everything we can to make sure they have been taken care of but the lush grass this summer has resulted in a little lighter weaning weight. Our program is still to see which cows come to the top in ordinary conditions and breed back year after year. We also only select the top 50% of the bulls to be in the production sale. These bulls all have been bred, born and fed solely by us here at Koupal Angus. We also do not trim feet.

The videos will be up towards the end of January on DVAuction.com. I highly recommend you take a look and study the videos of the bulls. It is easier to evaluate a bull on the video rather than a picture. This is why we do not picture every bull for the sale book. We have a great selection from top to bottom. Remember everyone likes different things and different things work in each program, so we try to have a broad selection for everyone. The offering this year is solid and we have tried to use sires that have great maternal and performance traits so that we have a selection for you to choose from, purebred to commercial breeders.

We especially want to thank all the good people we have met in this business. Every day there is something different, whether it is the weather, the Angus business or our families. We are truly fortunate to be able to live our lives and bring our families together in the cattle industry. We work extremely hard to help you all succeed; this is definitely the highlight of our business. Please stop by to look the bulls over or give us a call if you have any questions. We are happy to show you around and visit over coffee and cookies.

Bud and family

To view the video of the bulls, please log on to koupalangus.com or dvauction.com.

COMMENTS FROM THE SALE MANAGER: Koupal Angus –43rd Annual Sale, Over 200 Bulls Sell!

The Koupal Angus operation is legendary. For nearly one-half a century, this 5th generation Angus family has been a remarkable contributor to the betterment of the Angus breed for both commercial and purebred breeders.

This year's sale will offer over 200 bulls with superior performance and powerful individuals, generation after generation of the best Koupal breeding. The Koupal family, LaVern, Alice, Bud and now Bud's children are a down-to-earth, practical family where the concern for their customers is first and foremost.

As I travel across America, I am always impressed with the many happy Koupal customers I encounter. Believe me, Koupal cattle are profitable and work for their new owners.

I recently had the opportunity to see the bulls, and believe me, I was really impressed with their overall goodness. You won't be disappointed. Over 200 bulls, the finest to be found anywhere, with that unquestioned Koupal guarantee.

I am looking forward to seeing my many Angus friends on sale day!

Sincerely,

Tom Burke

- We are extremely pleased with the progeny from Sunrise.
- Cut his tool last year so didn't get many more calves.
- He will see heavy use in the future.
- Sunrise 715 has a little more birth than his sire, Kozi 418. Sunrise is deep sided and moderate frame with a powerful foot and hoof structure.

Angus bulls have long been known for their paramount calving ease. If you are breeding heifers, Angus is the go-to breed of choice. But what about the so-called “big” birth weight Angus bulls - where do they fit in? The vast majority of mature cows calve unassisted - it is pretty rare for a mature cow to need assistance, except for abnormal deliveries (backwards, breech, twins, etc.). Data reported to the AAA shows that 99% of Angus cows, second calf or beyond, calve unassisted and only 1% need some type of assistance (abnormal deliveries excluded from this data). Back to the question at hand: where do the “big” birth weight Angus bulls fit in? Example: If you have a bull with a Birth EPD of +5, he would be 3.2 pounds heavier than the average (breed average BW EPD 1.8) ($5 - 1.8 = 3.2$ pounds difference.) However, his superior growth EPDs mean he will wean bigger calves and put way more money in your pocket than the average Angus bull! The moral of the story: If you are breeding mature cows to an Angus bull, don't make birth weight be your focus.

- Known as "Dude" to us, he is a moderate to larger framed bull and extremely long spined with a great hoof structure.
- We love his high productive females and after 12 years Dude is still in the top 2% for Heifer Pregnancy, top 5% for Yearling Weight and top 8% for Weaning Weight along with top 10% for \$Maternal.
- Apollo, one of Dude's top sons, is also working in our herd for linebreeding purposes.

Koupal Angus

Heifer Sale

Koupal Angus has decided to host a heifer sale in December of 2020. We are inviting our customers to share their heifers, bred or open in this sale. To be eligible, these females need to be bred to/ or sired by Koupal Angus bulls. This sale will be held at the Stockmans Livestock in Yankton, SD. By having this sale we feel we can add extra value to our customers' females. An Angus female is always in high demand and by combining our Koupal Angus gene pool, we will be offering great genetics to share and build some efficient cow herds for other breeders. An actual date has not been confirmed, but we are looking at late December before the holidays.

Koupal Angus has some excellent bulls that will work on heifers, or semen is available to purchase at a discounted price of 50 or more straws. For more information, contact any one of the Koupals.

Something all of us cattle breeders need to be aware of is Age and Source Verification.

Age and Source Verification has been a topic of increasing interest in the beef industry, as the Japanese and other foreign markets have reopened to US beef. Beef export regulations have clearly defined the meaning of Age and Source Verification, as age and source claims must be documented and verified through a recognized USDA program. These programs include the USDA Process Verified Program (PVP) or a USDA Quality System Assessment (QSA).

If you are interested in age and source verification, we will try and assist you in accomplishing this.
