Welcome to our 38th Annual Production Sale!

Welcome to our 38th Annual Production Sale! A special thank you for the support and loyalty of our friends and customers. We also appreciate any new interest in our program, and pledge to provide any additional information needed.

As Red Angus continues to be a more prominent beef breed, we endorse the challenge of verifying the genetic value of our cattle through collecting and analyzing data with actual measurements, as well as DNA technology. Our herd sires and total cowherd have all been 50K DNA tested for genetic and parent assessment to insure the most accurate numbers possible on all progeny.

We conduct rigid selection practices to ensure the most accurate information available. These include traits not measured by the computer, but by cowboy logic – traits such as foot and udder structure, disposition, fleshing ability and survivability. Our cattle are guaranteed breeders, with the bulls passing a breeding soundness and semen evaluation. Heifers are guaranteed open and ready to breed.

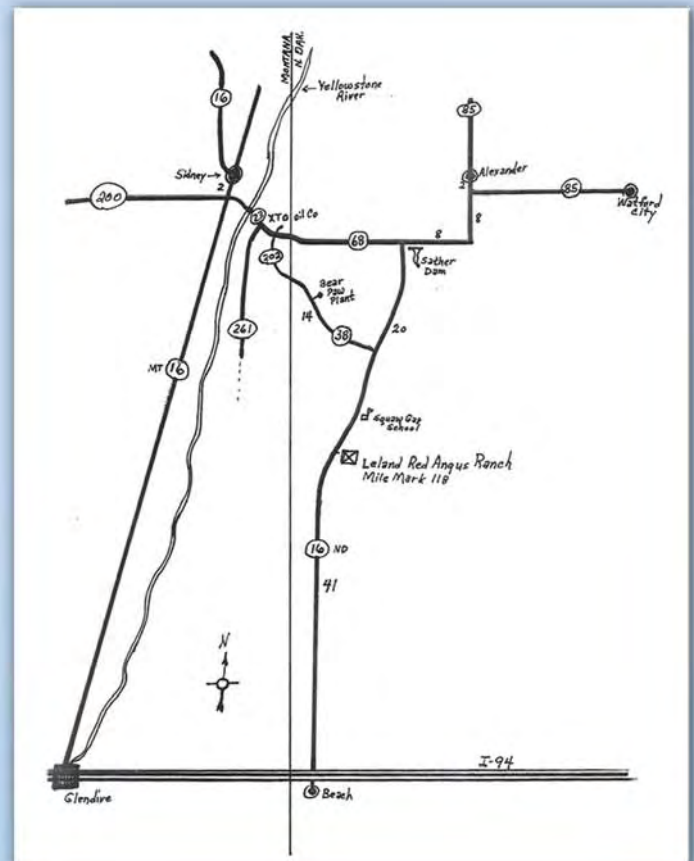

We do recommend insurance, particularly on yearling bulls when used in multiple breeding groups with older bulls.

As always, we are happy to assist in any specific needs you may have for your program and guarantee confidentiality, as well as lowest bid, on any sight-unseen purchases.

We continue to offer free delivery to central points up to 500 miles. Historically, when possible, we have delivered direct to your yard. However, due to age constraints and labor shortages, we may have to ask customers to accept central points, with every effort to make it as convenient as possible.

*Best wishes from all of us at
Leland Red Angus &
Koester Red Angus*

DVAuction Broadcasting
Real-time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast
“live” over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the “Register” tab.
- Complete “Registration” and “Applying to Bid” at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale “live” from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access (DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 11, 2021, for on-line bidding. Every attempt will be made to complete your application, even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 12, 2021

Sale will begin at 1 p.m. MST

Cattle may be viewed any time prior to sale day.

LUNCH

A free noon lunch will be served on sale day.

TRANSPORTATION

Sidney is served by Gulfstream International Airlines. We will meet planes on request. Dickinson and Williston also offer air service.

ACCOMMODATIONS

VIDEOS OF SALE LOTS

Video of sale bulls and heifers will be available to view on our websites, www.lelandredangus.com and www.koesterredangus.com, a couple weeks prior to the sale. All cattle will be available to view sale day and will sell via video display.

ONLINE CATALOG & SORTABLE DATA

www.lelandredangus.com • www.koesterredangus.com
Sortable data on the BullPEN app, see page 14

TELEPHONE BIDS

Bids will be handled in strict confidence by any of the publication representatives or the ranch. Capabilities to bid by phone on sale day are limited. To do so, please make prior arrangements with a livestock press representative or call the ranch directly at 701-565-2347. Bidders may also log on to DVAuction.com to bid online. Please see additional information on page 1.

HEALTH

All the bulls will have a general health and fertility examination by sale day and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All bulls are 50K DNA tested. All heifers are Bangs vaccinated.

FERTILITY

Yearling and 18-month-old bulls will have a breeding soundness evaluation and semen test prior to delivery. Yearling heifers are guaranteed open and breedable.

GUARANTEE

The bulls and heifers are fully guaranteed. Concerns are handled on a case-by-case scenario. We do encourage you to purchase livestock insurance. For more information on these affordable options, see page 6. All cattle will be sold according to the terms and conditions recommended by the Red Angus Association of America.

DELIVERY

Free delivery of bulls to central points up to 500 miles. Balance at cost. Heifers in load lots or by arrangement. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

LIABILITY DISCLAIMER

All persons attending the sale, any sale functions or viewing the cattle do so at their own risk. Leland Red Angus, Koester Red Angus, their staff or representatives assume no liability, legal or otherwise, for any accidents or injuries that may occur.

Auction Procedure

The cattle will be displayed in sale order for viewing sale day and remain in the pens for viewing during the entire sale.

No animals will be run through the sales ring, but instead every lot will sell via a pre-recorded video and displayed on large video screens in the sale barn. Videos may be viewed in early March at LelandRedAngus.com, KoesterRedAngus.com or DVAuction.com.

Bidding will be done as normal, with ring men to take your bid, or with the option for absentee bidding through DVAuction.com or by contacting someone from the ranch or a Press Representative prior to the sale. As always, all sight-unseen purchases are guaranteed.

Our Family

Todd, Tripp, Carla and Trey Leland

Luella and Melvin Leland

Koester Family: Jake and Kacey Jacobson, Shaye Koester, Steve and Tracey Koester

Sam, Imogene and Jessica Orpin

Hovde Family: Wacey, Tana, JJ, Cedar and Trista Hovde

SCROTAL CIRCUMFERENCES MEASUREMENTS & FERTILITY

All bulls will have a breeding soundness evaluation and semen test before delivery.

Scrotal measurements are taken at 10½ to 11 months of age and adjusted to 365 days of age. Scrotal measurements will be available sale day.

RED ANGUS AVERAGE EPDS AND RANGES

Average EPDs are printed at the bottom of each page and EPD breed ranks are included on the reference sires and each bull lot for easy comparison.

A-BAG-A-BULL

If you purchase a bull from us, we will provide you with credit equal to the value of one bag of Feeder Calf Certification Program or Allied Access tags for each bull you purchase. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. Cattle enrolled in the FCCP are accepted into the exclusive Choice+ and G.O. Red grids. The FCCP 'yellow tags' are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.

RedAngus.org
940-477-4593

RED ANGUS
RANCH TESTED. RANCHER TRUSTED.

CARCASS ULTRASOUND

This is the 21st year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site.

This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

RETAINED INTEREST

One-half semen interest is retained and full possession selling on all bulls. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus and Koester Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus or Koester Red Angus and at the purchaser's convenience. Leland Red Angus or Koester Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

Top Dollar Angus Feeder Calf Program

Promote Your Verified Genetic Investment

Top Dollar Angus is the industry leader in third-party genetic verification and marketing assistance for superior Angus and Red Angus-based feeder cattle. Our program stamps a unique identity on the 'best of the best' by verifying and then showcasing their genetic merit. The Top Dollar Angus team works directly with a large number of feedyards and buyers to provide them with documented superior

feeder cattle, coupled with genetic risk mitigation and the precision understanding they need to pursue your cattle with absolute confidence.

Top Dollar Angus enables cow-calf producers to benefit from the genetic value already built into their herds. Producers that invest in high-end genetics, as well as strong health and nutrition programs, need a means of positively differentiating their calves from average cattle. Top Dollar Angus does that. Industry demand is strong for genetically superior feeder calves with the right supporting documentation. Don't make buyers guess, let them know by putting the Top Dollar Angus badge of honor on your premium genetic investment.

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME..... Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB..... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

BULL & HEIFER DEVELOPMENT

LELAND BULL DEVELOPMENT

Our bulls are developed at our ranch facilities on a total mixed ration formulated for adequate growth, but mild enough to protect their fertility and longevity. Bulls are started on a roughage-only diet and gradually transitioned to a low mega-cal ration that never exceeds 50 mega-cals.

LELAND HEIFER DEVELOPMENT

The heifers are wintered on a roughage-only ration to restrict the ADG to no more than 1.5 lbs per day which is optimal for breeding performance.

KOESTER BULL DEVELOPMENT

The fall-born bulls are weaned in March and put on a high-roughage ration until we have green grass – hopefully in late May. The bulls summer on grass and protein blocks to encourage slow but steady growth for optimum longevity and fertility.

In September, we bring the bulls into the lot and put them on a 48 mega-cal ration consisting of chopped hay, sorghum-sudan haylage, cracked corn and DDGs. The bulls stay on this ration until sale time.

We strive to promote steady growth, sound foot development and healthy, active potency so they are prolific breeders and maintain their body condition throughout breeding season.

BULL MORTALITY INSURANCE

Purchases are the responsibility of the new owner. We strongly encourage you to insure your bulls. Coverage is affordable and a good business practice.

Ask for specific details at the clerking desk or contact Jeff Thomas.

**Jeff Thomas • 406-581-8859
jeffthomas138@gmail.com**

Jeff Thomas

GENOMICALLY ENHANCED EPDS

All sale bulls have been DNA profiled through GeneSeek's GGP-uLD test.

This ensures our customers have the most accurate

information available to make their purchasing decisions. With the GGP-uLD profile, the bulls' EPDs now have the same accuracy as they would with their first calf crop reported and registered through the Red Angus Association of America.

The GGP-uLD test also verifies parentage so you are assured of the bloodlines you are buying.

We trust in the science behind the genomics and are committed to ensure more value in your purchases, increasing the profitability of your calf crop.

For those who would like to gain even more genetic knowledge of your cowherd, consider testing your replacement

heifers with RAAA's Red Navigator test, specifically designed for high-percentage Red Angus females.

- EPD percentile rankings for all traits
- Sire verification (if sire is DNA profiled)
- Follow-up from RAAA Marketing Team Member
- Potential qualification tool into Top Dollar Angus

Identify your top replacements before breeding!

After using Merlin in our program for 7 years, both natural and AI, his progeny continue to elevate his multi-trait values. Leased to Genex, he is, to date, their highest selling semen bull over all beef breeds. Merlin is no longer a secret to cattlemen using him to capitalize on his calving ease, growth, carcass, longevity, easy fleshing, quiet disposition, structural soundness and good udders. Merlin 018A ranks top 1% of the breed for \$Profit and Feed Efficiency, and top 3% for \$Ranch. Co-owned with Wedel Red Angus, KS.

Domain's extreme breed popularity is well deserved. After being used all over the country, his EPD proof has impressed us even more. He has extremely high maternal values with above average growth and exceptional carcass values. His daughters in production are phenomenal with exceptional udder structure and type. He was the #1 Red Angus bull for sales at Genex last year, surpassed only this year by WFL Merlin 018A. Owned by Sonstegard Red Angus, MN, Koester Red Angus, ND, & Genex.

REFERENCE SIRE C

Reference Sire C, LELAND ROLLIN DEEP 6421

We retained possession of Rollin Deep 6421 in 2017 because he was the best replacement for Bieber Rollin Deep Y118 we could find with a powerful maternal pedigree. He sires smooth muscle pattern with extra length and thickness. His dam and granddam have consistent performance history. His progeny seem to rise to the top and visitors are quick to admire his attractive appearance. Semen available.

REFERENCE SIRE E

Reference Sire E, VGW LOTTO 722

Lotto is an exciting young herd sire that we purchased from the Westphal program where he topped their sale. He has proven to be a super calving ease sire and readily stamps his progeny with an attractive type and dark, cherry red hair coat. We anticipate he may be a leading sire in the future. His MGS is VGW Megatron 141, who is also the sire of reference sire O, VGW Megatron 403P. Co-owned with Westphal Red Angus, MT. Semen available.

UDDER SCORES

Udder scores have been used to cull and select cattle at Leland Red Angus and Koester Red Angus for many years. Scores are taken within 12 hours of calving by the same person to insure consistency. Scores less than 5 are considered unacceptable, and those individuals are not kept in our herd. This year, we are including the dam's udder scores in the footnotes. These will be identified with two numbers and reflected as follows: Suspension Score/Teat Size Score

Udder Suspension			Teat Size		
Score	Description	Example	Score	Description	Example
9	Very tight.		9	Very small.	
7	Tight.		7	Small.	
5	Intermediate/moderate.		5	Intermediate/moderate.	
3	Pendulous.		3	Large.	
1	Very pendulous, broken floor.		1	Very large, balloon shaped.

Steve and Tracey Koester

Our vision for the future . . .

We look beyond the current season and market, seeking fresh genetics that will add value to our customers' calves and cowherd for generations into the future. We know – and accept the responsibility – that our decisions today impact the livelihood of the cattlemen that trust our genetics.

Rooted in heritage and stewardship while envisioning tomorrow.

The second set
of age-advantaged
bulls begins on
page 51 with Lot 111.

Winter breeding poses extra challenges for our fall herd. Our cows must breed during blizzards, long frigid spells and naturally shorter daylight hours. Likewise, the calves must grow during these conditions and wean in March. We have a zero-tolerance policy and sell open cows in the spring.

A 2-year-old Domain daughter taking care of business. All heifers calve in the pasture without preferential treatment.

Our Fall-Calving Program

We designed our fall-calving program in order to offer our customers the option of bulls with an age advantage. Those few extra months of maturity don't necessarily mean the bulls will cover more cows, but they will maintain their body condition and come in after breeding season in good rig.

We summer the fall bulls on pasture with minimal supplementation, diligently culling for performance, foot structure and disposition.

We calve the cows and first-calf heifers in the pasture starting in mid-August. Each calf is tagged and weighed shortly after birth, and we score the cows on udder and foot structure as well as disposition. We synchronize and AI in mid-November, and pull bulls on New Year's Day.

KOESTER MS YIELD 148, dam of Lot 125.

KOESTER PISTOL ANNIE 5103, dam of Lot 47.

KOESTER MS YIELD 116, MGD of Lot 44, Lot 113,
dam of Lot 129 and Koester Unmistakeabull 330.

Lot 31, KOESTER FULL HOUSE 9202

- We are starting the fall offering with three flush brothers.
- We chose to purchase the dam of Domain A163 to multiply her outstanding characteristics in our herd. These three full brothers are an example of the flexibility this cow allows and shows the power she is capable of producing while maintaining her exceptional maternal values. Eucla X723 has 20 progeny with a 95 birth ratio and 108 ratio for both weaning and yearling. We have several more offspring on the way.
- Sire Leland Full House 7465 was the Merlin 018A son that topped the Leland sale in 2018, and he is siring exceptional offspring. Full House unfortunately passed from a presumed snake bite. Limited semen is available.
- We will use 9202 in our program. He has exceptional shape and tons of rib and top, combined with great index rankings. Check out his Stay and carcass rankings as well.

- This Domain son out of a Merlin daughter spells success, since Domain and Merlin are the two hottest sires at Genex.
- He joins a family tradition of excellence, with his dam being a 3/4 sister to power bull Lot 9.
- Another 3/4 sister by Full House was retained and ultrasound confirmed with a Brunswick bull for next year.
- 740 lb weaning from a 2-year-old heifer speaks for itself.
- UDDER SCORES: 7/6

- A low BW bull whose dam, MGD and MGGD all evolve from calving ease bulls used on heifers.
- He has nice growth numbers, HPG, CEM and marbling.
- UDDER SCORES: 5/5

Lot 136, LELAND FRANKLY 018-0170

- His dam was our choice from the ND State Red Angus Sale.
- Two previous bulls sold high to Jacobson Red Angus, ND and Paul Lee, ND.
- His dam has excellent foot and udder structure.
- UDDER SCORES: 7/7

Dam: Leland Headliner 6513

- Very moderate-framed, light BW bull with top calving ease and BW.
- His daughters should be milky.
- Expect extra marbling.
- His dam has a 71 BW avg on 3 head and a near perfect udder.
- UDDER SCORES: 7/7

- This long-bodied heifer bull is from a cow family of low BW and superb udders.
- Dam, MGD and MGGD have all been attractive, good-footed cows.
- Note he is in the top CED, BW, Milk and Marbling.
- UDDER SCORES: 8/8

BSF Nebula X614, MGS

- The first bull to sell from this cow who has produced several heifers.
- A maternal sister produced Lot 24, who is an attractive Marksman calving ease bull.
- Another sister raised Lot 168 this year.
- This bull excels in calving ease, fertility and marbling
- UDDER SCORES: 7/7

Important Events BEYOND the RANCH

The boys enjoy riding Dixie as much as they can.

We welcomed Tripp Ryan to the family
February 19, 2020.

Trista Hovde and Oscar at the Richland Co. Fair

Trey riding Dixie in the warm-up pen
with Daddy at a roping.

Kacey & Jake Jacobson ranch
at Max, own Jacobson Custom
Fencing and market commercial
Red Angus heifers each fall.

Cedar Hovde and Hank at the Richland Co. Fair

Wacey Hovde and Brent at the Richland Co. Fair

Shaye Koester is a junior at the University
of Nebraska-Lincoln and hosts her
podcast, Casual Cattle Conversations.

HEIFERS

These heifers were wintered on a high roughage ration. They are penned in comparable groups but will sell individually.

All heifers will sell as registered unless stated otherwise or announced from the block.

They are all Bangs vaccinated and guaranteed open.

*Capturing the Value in
Red Angus-Influenced
Replacement Females*

Ali Meritt, Sidney, MT, purchased our lot 216 heifer at the 2020 sale.

Leland Benz 9087 won her class at the Richland County Fair and was Reserve Champion Breeding Stock for the fair.

Congratulations, Ali!
