

47th Annual
LOOSLI
Bull Sale

Tuesday, March 9, 2021 • 1 p.m.

At the Ranch in Ashton, Idaho

Over 100 Yearling Red Angus Bulls and 75 Open Purebred Heifers Sell!

www.loosliredangus.com

Dear Red Angus Friends,

It is a pleasure to welcome you to our 47th Annual Loosli Red Angus Production Sale. We appreciate the many years of support and owe our customers a special thank you for choosing our genetics. We are reminded daily how fortunate we are to be involved in the cattle business and count this as one of our blessings. Being part of the ever-growing Red Angus breed is something we take great pride in. Through these many years, we have been continually striving to improve our herd, being consistent yet progressive. Our program continues by stacking generations of proven genetics to move your program forward. We custom fit these genetics to your unique situation because your satisfaction is our continued success.

We are in some interesting times in the cattle industry, yet the Red Angus Breed continues to move forward and lead the industry with tremendous interest and demand. Red Angus cattle have proven themselves with low-maintenance, high fertility/maternal qualities, calving ease, and of course, great dispositions. These many natural advantages have contributed to the tremendous growth in the Red Angus breed. This is where you can count on our program to improve genetics and help you remain profitable. We want to increase value to your herd...not low-cost production or high-cost production, but rather, efficient production to wean more calves. Balance! We strive for balance because bulls that are balanced in many areas are more profitable. We are confident about the vast and varied quality we are offering and feel we have something that will benefit any cattle operation.

Our sale is packed with established genetics from breed-influencing sires and dams. This bull offering features some exciting genetics with the numbers to match. Take a look at The New ProS Index (Profitability and Sustainability Index) published by the Red Angus Association. It covers/rates economically relevant traits from conception to carcass. This updated informational index works with the HerdBuilder and GridMaster indexes as a reliable selection tool to help producers make more profitable cattle decisions. You can view the 13 traits under the New ProS Index section on the inside back cover of this catalog. Please note.... This current sale group of bulls is rated excessively high with $\frac{3}{4}$ of the bulls in the top 30% of the New ProS Index!

The Red Angus replacement heifers are some of the fastest growing components of the beef business. They have been labeled as the Most-Favored Female. "Data from Superior Livestock has shown that Red Angus females command up to \$11/cwt more than females of all other breed types..." You will love our great selection of 75 stylish heifers and will be impressed with their natural muscle, wide tops, great udders, and sound disposition. Their characteristics of fertility, longevity, adaptability, and efficiency keep them at the top. Because every herd sire begins with a powerful mother, we make sure our heifers have an outstanding combination of great pedigrees and carry a very well-balanced set of EPDs.

You can see for yourself these outstanding traits as we run the bulls and heifers through the sale ring. If you are wondering about social distancing, you can view the cattle any time before the sale or watch the online videos on our website. We have great people to assist you. We also want to thank our tried-and-true ranch help that perform the valuable day-to-day tasks! We are extremely proud of our sale selection this year and welcome your calls to discuss your cattle needs. Please look through the catalog and visit our website at www.Loosliredangus.com to view pictures, videos, and EPDs of our powerful genetics.

We want to invite you to our ranch in Ashton, Idaho, on **Tuesday, March 9, 2021** to have a delicious lunch on us and be a part of this great sale. As mentioned, you can also watch and bid online through **LiveAuctions.TV**.

Thank you,
Brian and Karen Loosli & Family

Katie Ochsner Martin, Red Angus Assn: 307-575-6802
Jeff Thomas, Thomas Livestock Service, 406 581-8859
Rod Wesselman, 509 750-2185

Auctioneer Kyle Colyer: 208 845-2098

Retained Ownership: Loosli Red Angus is retaining a full ½ semen interest in every sale bull...Buyer will take full possession and retain full salvage value in the bull. Bulls collected for A.I. use will be done in the off season at the buyer's convenience with expense paid by Loosli Red Angus. Please call Brian Loosli for more information. 208-317-7878

Transportation: Bull delivery is free to central points in Idaho and to central points for adjoining states. For more distant locations or single animal purchases outside these central points, the buyer will be responsible for these costs. We will assist you in making delivery arrangements at the lowest possible cost.

Insurance: Tell the clerks when you checkout if you wish to insure your purchases and they will give you the application. Coverage starts immediately when you turn in your application. The insurance is through American Livestock at 630 232-2100. All purchases are the buyers' responsibility as soon as they are sold.

Sale Order: Cattle will sell in catalog order.

Information: Updated EPDs (yearling) and data are available on our website.

Announcements/Liabilities: Announcements made from the sale block on sale day take precedence over the catalog. All persons attending the sale do so at their own risk. Seller assumes no responsibility, legal or otherwise, for any accidents occurring in, on, or about the premises.

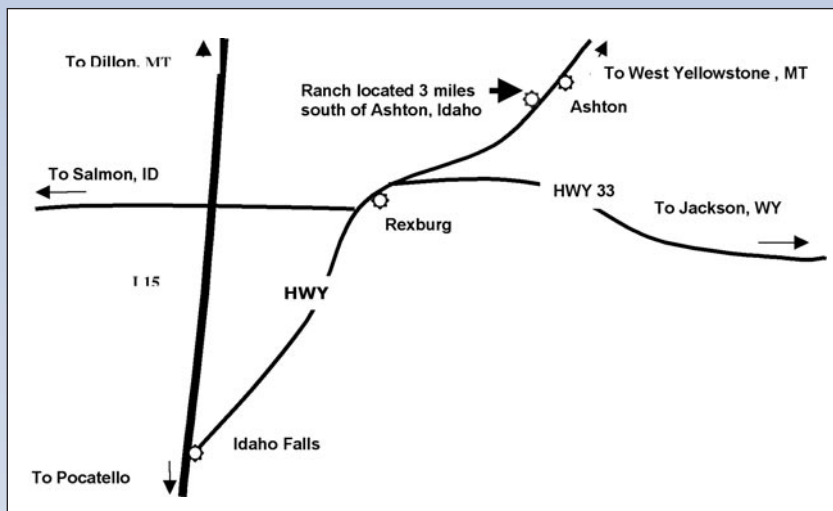

Guarantee: Loosli Red Angus guarantees all bulls selling for \$3,000 or more against breeding injury for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bull(s). If a replacement bull is available, he will be provided, or if buyer prefers credit toward one bull will be given in the following year's sale, less salvage value of the injured bull. Under no circumstance will Loosli Red Angus be liable for more than the net purchase price of any bull. Please notify us as soon as possible, should such an injury occur, to make your claim and arrange your return of the injured bull. Broken bones or injuries due to negligence will not be covered under this guarantee. A bull that dies will not be covered by this guarantee. We recommend the purchase of livestock mortality insurance to mitigate this type of loss.

Lunch served at 11:30 a.m. on sale day!

LOOSLI TRIAD 030 • LOT 1

Welcome to our 47th Annual Bull Sale! We begin with talking about The New ProS Index (Profitability and Sustainability Index) that covers economically relevant traits across all aspects from conception to carcass. This updated index works in combination with the HerdBuilder HB and GridMaster GM indexes. This ProS index will help producers like you, with information needed to make cattle decisions in order to become more profitable. You can view the 13 traits under the New ProS Index information on the inside back cover of the catalog.

This group of bulls rank extremely high with $\frac{3}{4}$ of the bulls in the top 30% of the New ProS Index!

What a way to start the sale! We begin with an outstanding Triad son. We are now calving the first daughters of Triad and they are beautiful females with excellent udders. This bull will be no exception. His great ratios with exceptional indexes lead to the top 1% in both Herdbuilder and the new ProS index! **You can add to that nine other traits in the top 25%.** He is not only a performance bull but has great carcass as well with top 2% Marbling. His maternal and profitability is backed by a very solid Bourne cow family. There is a lot of performance here!

Big time herd bull prospect with excellent phenotype. He has been a favorite all summer long and continues to check every box along the way. Let's talk numbers. His performance numbers of WW ratio 122 and YW ratio 121. Scan IMF 112 and REA 117. 15.08 REA puts him at the top of the class! Low birth weight with big time growth combines with top of the breed maternal traits. He is out of a top cow family with his dam being one of our new donors, which says a lot around here. We don't flush very many cows; they have to earn that right.

Another Herd Bull Prospect! Here is a Merlin 018A grandson that has more shape than any Merlin pedigreed bull we have seen. Performance numbers Ratios of Birth 87, Weaning 111, Yearling 114, and IMF of 124. He is in the top 10% for WW, YW, BW, Milk and ADG. We bought his sire Glacier Shade 802 being one of the top cows from their famed program. He is producing some outstanding progeny. Maternally he is out of a Loosli Riverside 414 daughter that has a 104 MPPA. Her sire, Riverside, might be the best bull the Red Angus breed has not noticed. Very few units of semen left. Look at this bull for additional calving ease, growth, maternal and carcass.

Lot 4 – Loosli Redd 018

This bull is really wide-based, soft sided, big topped and has extra bone and muscle expression. Add to this a very balanced EPD profile. He has a 15% HerdBuilder added to eight EPD traits in the top 25%. His sire Loosli Reddington 803 was a top seller in the 2019 sale going to Ressler Land & Cattle. He comes from a solid cow family of low birth and tremendous growth.

Lot 5 – Loosli Franchise 017

He has always been one of our favorites. He catches your eye every time you walk by. When we bought his sire, PIE Fortune 835, it was sight unseen. We were told, "If you were to go to the beach with a bull from this pen, you would want him on your arm hands down." This bull has that same phenotype. We know phenotype is only half of the puzzle though, he takes care of the genotype side as well with his profile giving him top 1% of the breed for YW, ADG and Milk. Add to that six other traits in the top 16%. The numbers are here! From one of our best and proven cow families.

One of our favorite calves this past summer and still is! He is extremely well built with a huge hip shape. Another top 12% bull for both HerdBuilder and ProS. The EPDs keep going with 9%WW and 12% YW. Top 5% for marbling and top 3% for HPG. You will want to keep all of his offspring... producing great fertile females and receiving premiums for his steer carcass quality. This pedigree is just stacked with the maternal greats of Redemption and Hobo Design.

Here comes the first 5L Frontline 2871-492B son to sell today. Frontline is still walking the pastures here at 8 years of age. You will see him sale day and marvel at his foot structure and body type. His females are part of a solid group of cows that are remaining in our herd. Those that have had a chance to use his sons have commented about their longevity and the quality of calves they are producing. Lot #11 is a very well-balanced bull with a great phenotype. His dam just calved today as we write this and has another outstanding bull calf. She also has a strong 106 MPPA.

Here is the first son to sell of Loosli Riverside 804 who was purchased in 2019 by James Gowan & Son. You will hear more about 804 in future sales as he is fast becoming one of the best sons to sell of Loosli Riverside 414. We have a feeling these sons are going to turn into great bulls. This Lot #26 is in this category. He is a balanced bull and has such a good phenotype with an added measure of growth. His dam is 10 years old and has a perfect udder and feet.

We were hoping to get a heifer calf out of this mating. We only have a few straws of Riverside semen and used it on one of our most productive females. She is 10 years of age, has an MPAA of 109 and average ratios on her 9 calves of 111 weaning and 108 yearling. This bull should hit the mark with HerdBuilder of 4% and Stay of 3%.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)
