LUFKIN CATTLE COMPANY

Wednesday, March 17, 2021

11:30 A.M. Lunch • Sale at 1:00 P.M. MST • At the Ranch • Salmon, ID

AUCTIONEER:

Trent Stewart - Redmond, OR

PRESS REPRESENTATIVES:

Jared Patterson - American Angus Association 208-312-2386

Mark Frisbie - Western Livestock Reporter 208-890-4517

Eric Drees - Western Livestock Journal 208-329-4808

Jeff Thomas - Agri-Media Livestock 406-581-88599

STATE BRAND INSPECTOR:

Jay Wiley & Ted O'Neal

WEBSITE: www.lufkincattlecompany.com

SALE LOCATION:

**Sale held at the Ranch
71 Price Creek Road**

- 17 miles south of Salmon, Idaho
- 32 miles north of Leadore, Idaho
- Traveling on Highway 28, turn west on Haynes Road, go about 1 mile then right on Price Creek Road for about another mile heading north.

Dear Friends,

Welcome to our Annual Production Sale. We are excited to invite you to our Bull Sale. We hope as you look through this offering you can see the passion and enthusiasm we have for good angus cattle. We are a family operation with each member contributing something to this offering. From front to back this set of bulls is the most phenotypically correct set of bulls we've raised.

We believe in running our cattle just like our customers do. Cows with heifer calves run on BLM range, the elevation ranges from 6000 to 8000 feet. We could get more production on irrigated pasture but we believe in challenging our cows and seeing how they perform in real world conditions. We have always focused on Maternal Traits, Calving Ease and Growth- practical range cattle with some capacity and volume.

This year's bulls includes some of the nations' great herd sires including Tex Playbook 5437, Sitz Stellar 726D, Blueprint E60, and Marda Blacksmith 683. We also offer some bulls out of Sires we have added to our herd over the last several years. Most of the bulls have been Genomic Tested to make their EPDS more accurate, they have all been parentage tested. We still collect all actual data including weights and PAP scores.

We will once again host lunch on sale day before the sale, so come early. The bulls will be available to view a few days before the sale, we would love to have you come look at them. If you have questions please call or you can always look them up on www.angus.org.

We hope to see you sale day but if you are unable to attend we will have click to bid with Superior Livestock online. The bulls were fed again this year at Riverbend's feedlot in Dillon. We would like to thank Jason and crew for doing such a great job.

Carl & Robin Lufkin Family

"FOR ALL YOUR BULL BUYING NEEDS"

Ron Frye Marketing believes that bull buying is an essential part of any cattle operation. The genetics purchased each year are the building blocks for future generations of your cow herd. We are proud to be a part of this sale and the influence they have on their customers' programs through the years. We would hope that our knowledge of this sale offering would be beneficial to your quest of building a superior cow calf operation.

We are available to talk with you anytime and answer any questions you have about the cattle or the program. We look forward to assisting you and learning about your needs. Call us prior to the sale for any of your bull buying needs. If you are unable to attend the sale and need help purchasing bull(s) we would be happy to assist you in any way possible.

Thank you for your interest. Please come say hello to Randy or I on sale day.

Sincerely,

Ron Frye

SALE INFORMATION

We try to provide our customers with as much information as we can on each bull in the sale. This year we genomic DNA tested most of the bulls with the AGI test. So, the EPDs are a result of both the DNA and the actual performance of the bull. The bulls were weighed off test the first week of February, so a handful of bulls were too young to have "official" yearling weights. Those numbers are marked NA (Not Available) in the catalog.

MANAGEMENT PROGRAM Last year we calved about 300 cows. We handle the cows just like commercial cattle. Cows never eat anything but grass and hay. Mature cows with heifer calves and replacement heifers are summered on BLM Range on Baldy Basin. Mature cows with bull calves spend the summer at home on Sandy Creek. All young cows were pastured at Scott Tyler's Ranch on Mill Creek. After weaning, all cows winter pasture on wet meadows along the Lemhi River. We start feeding the young cows in mid-December. The cows are comingled for calving, and then separated into age groups again with their calves. None of the females on the ranch ever receive and any grain-this is a grass deal.

GENETIC PLAN Our whole deal is developing cattle that will make commercial producers money. We focus on light birth cattle to reduce your labor load and result in more live calves at weaning. We focus on growth because you get paid for pounds. We try to stay away from huge frame cattle and excessive milk production. We are always searching

for genetics that will improve our herd.

HEALTH PROGRAM Our health program is aimed at prevention. We vaccinate at branding with 8-way Clostridium and modified live IBR-BVD-PI3-BRSV. We give the same vaccinations plus Pasturella a couple of weeks prior to weaning. The heifers get bang's vaccinated after weaning. About a month before breeding, the yearling heifers get another shot of IBR-BVD-PI3-BRSV. On the day the bulls are examined for breeding soundness, they get 8-way Clostridium and IBR-BVD-PI3-BRSV. We also give a wart vaccine to the bulls to reduce the number of penile warts. This herd has been on a modified live BVD vaccination program for so long, that it is pointless to test for persistently infected BVD individuals.

PATHFINDER COWS Pathfinder cows are the cows in the herd that always calve on time and raise a calf at least 5% heavier than the herd average. A cow has to raise three calves to qualify. **Upward 307R, Hero 0616, Alliance 431N and Sitz Final Statement 618X are Pathfinder bulls that we proved.** In the Angus breed, less than 1% of cows are Pathfinders. In this herd, over 10% are Pathfinders. All Pathfinders will be marked with the pound (#) sign in their pedigrees in this catalog. You can be sure that if a bull makes it to the sale, he is fertile, healthy, functionally sound, and his performance data and EPDs are as accurate as we can make them.

REFERENCE SIRES

Blueprint is a Confidence Plus son that is wide based and heavy muscled. His mother is arguably one of the best cows in the angus breed! We expect him to add growth and muscle to his calves.

Stellar is a Sitz bred bull we have used for a few years. They are light birth and middle of the road for frame size with outstanding growth. Stellar a real foot and udder improver. Stellar will be our best sire group for PAP.

REFERENCE SIRES

Playbook is a Select Sires Bull that is a 1682 Payweight son. He is a calving ease bull that sires thick made, easing doing kind of cattle. We have calved a number of his daughters and have found them to have excellent dispositions, structurally correct and are great producers. We think he is a real cow maker.

Blacksmith cattle are light birthweight with good growth performance. We used Blacksmith to enhance carcass in our cattle. He is one of the few bulls we have found with great carcass qualities and still has the phenotype we are looking for.

EXPLANATION OF TERMS USED IN SALE BOOK

INDIVIDUAL PERFORMANCE

Birth Weight (BW) – Actual weight of the calf within 24 hours of birth. It is affected by age of fetus, age of dam, feeding level, temperature during late fetal development, and genetics for birth weight.

Weaning Weight (WW) – Weight at weaning adjusted to 205 days and for the age of dam.

Weaning Weight Ratio (WR) – A within herd ranking of adjusted weaning weight. Calculated as the calf's adjusted weight divided by the average weight of the group with which he was raised to weaning. A ratio of 100 is always the average of the group.

Yearling Weight (YW) – Weight at Yearling adjusted to 365 days and for age of dam.

Yearling Weight Ratio (YR) – A within herd comparison of all bulls tested based on adjusted 365-day weight. A ratio of 100 is the average of the contemporary group.

Cow Production – Reported as number of calves weaned and average WR and number of calves tested to Yearling and average YR. These bull calves are included in average YR (ex. 5/100, 4/99).

PAP Score – We PAP Tested every bull in the sale. PAP scored animals are assigned a specific number. This number is a predictor of susceptibility to HMD (High Mountain Disease). Animals should be evaluated in ranges rather than by specific numbers. Animals over a score range (2-4 points) have the same likelihood of succumbing to HMD. In general, for bulls tested at 4000 to 5500 feet, and used at elevations up to 7500 feet, bulls scored 34-39 have a Low Risk and bulls scored 40-50 have a Moderate Risk.

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

Accuracy (ACC), is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

GROWTH

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first- calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

CARCASS

The genetic evaluation produces a single set of EPDs for carcass weight, marbling score, Ribeye area and fat thickness. The units of measure are in carcass trait format and analyzed on an age-constant basis.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

\$Value indexes, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

One of the strongest performance bulls ever raised @ LCC. If you want calves to weigh-up in the fall look no further. Ranks in the Top 1% of Non-Parent sires for \$W (the most important index for the cow-calf producer). Ranks in the Top 1% for WW, Top 2% for YW.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.**

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "**Register for a Buyer Number**". Select the registration form for Superior Productions and print

the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid

This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction

There are 2 places to view the sale broadcast live on the internet:

www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431- 4452.

*If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.

Lufkin Cattle Company Guarantee

We are not lawyers, so our guarantee is simple:
If you are unhappy with any bull you purchase from this sale,
call us and we will make the deal right for you.

Call Carl Lufkin 208-303-0438

Sale Terms and Conditions

This sale is being conducted under the sale terms and conditions adopted by the American Angus Association. If you want to read the entire terms, go to the Angus website (www.angus.org).

Bidding

Each bull will be sold to the highest bidder. The auctioneer will settle any disputes as to bids and his decision shall be final.

Terms

Terms of the sale are cash unless credit arrangements are made with Carl or Robin Lufkin.

Transfers – Registration papers will be transferred to buyer if he informs the sale clerk.

Health

Interstate health papers will be furnished for each bull requiring them.

Announcements

Any changes from information in the Sale Book will be announced from the auction block.

Retained Interest

Lufkin Cattle Company reserves the right to retain a breeding or AI interest in any bull sold in the sale. Retained interest will be announced from the auction block.

Genetic Defects

All bulls in the sale are tested free of genetic defects or have no potential carriers in their pedigree. Lufkin Cattle Company reserves the right to obtain DNA for testing from any bull suspected of carrying a genetic defect.

Rights and Obligations

The above terms and conditions shall constitute a contract and shall be equally binding on both buyer and Lufkin Cattle Company.

Bull Delivery

Bulls will be delivered free to Idaho and adjoining states.

Liability

All persons who attend the sale do so at their own risk. Lufkin Cattle Company assumes no liability, legal or otherwise, for any accidents that may occur.

Notes

FROM OUR FAMILY TO YOURS...
