Welcome

At the time of writing, it seems as though the nation is losing its mind and a particular virus that shall remain nameless is the only thing being talked about. The affect this uncertainty is having on our economies and markets is staggering.

If there is one thing we know as cattle producers, it's that there are ups and downs in this business. The markets have seen better days. In spite of all the uncertainty, we know that markets have cycles. After a period of downturn, at some point demand increases and prices improve. Depending on the situation, this may be a time to look at expansion. The age old "buy low, sell high" principle is easier said than done, but we would suggest that now is not the time to sell. We're in the same position; our livelihood depends on stability as well. It is faith that keeps us going through it all.

On a more positive note, we are pleased to present our most impressive lineup to date! We won't soon forget the winter of 2019, and we have some shortened ears to prove it. A calving year like that, and we still have one of the best sets of bulls we have ever presented. Our offering of 18-month-old bulls is stacked with plenty of power. The 2-year-olds are stout and ready to work. The yearlings are notable to say the least. The yearling heifers are straight out of our replacement herd, and would fit nicely in any program. But don't take our word for it. We invite you to take a look for yourself.

New this year, we are featuring a set of PAP tested males. In June, we took a select group of fall bulls to the Grizzly Ranch in Walden, CO to be PAP tested at 8,200' by Dr. Tim Holt. After spending 45 days on-site, 70% of the bulls tested scored 43 or lower, allowing them to go to any elevation. Though we have had very few issues in the past with our bulls performing at elevation, we understand the challenges and concerns of our customers. We hope this can serve as proof of our bulls' versatility.

We understand that it is our customers' success that drives ours. We depend on our loyal repeat customers, which is why we believe that customer service and a quality product is of utmost importance. We would love the opportunity to earn your business. It's not something we take lightly, and neither should you.

Please feel free to give us a call with any questions. We look forward to seeing you on sale day if you can make it—if not, we understand how it goes. We have made every effort to accurately present this set in this year's catalog. We will once again broadcast the sale on DVAuction.com to help accommodate our customers. View videos ahead of time of all the cattle and bid online during the sale.

Sincerely,

The McCluns

"For I know the plans I have for you," declares the Lord. 'Plans to prosper you and not harm you, plans to give you hope and a future.'" (Jeremiah 29:11)

McCLUN'S LAZY JM RANCH SPRING SALE

TORRINGTON LIVESTOCK MARKET - THURSDAY, APRIL 9, 2020 - 1 PM MDT

Selling 108 Head of Angus and Polled Herefords! 31 Angus Yearlings, 7 Angus Fall Bulls, 6 Angus 2 Year Olds, & 5 Yearling Angus Heifers. 35 Hereford Yearlings, 4 Hereford Fall Bulls, 15 Hereford 2 Year Olds & 5 Yearling Hereford Heifers

SALE LOCATION:

Torrington Livestock Market, 626 West Valley Road, Torrington, WY 82240.

SALE DAY PHONE: 307-532-3333

AUCTIONEER:

Lex Madden, 307-532-1580

MOTEL ACCOMMODATIONS:

Holiday Inn Express Hotel
1700 East Valley Road, Torrington
307-532-7600

America's Best Value Inn
1548 Main Street, Torrington
307-532-7118

INSPECTION OF CATTLE:

Cattle will be available for inspection on Wednesday, April 8th at the sale site. The cattle may be viewed at the ranch anytime prior to the sale.

FEEDING:

We will take all bulls home and feed them until May 1, 2020, **FREE** of charge. Take your purchase home on sale day and receive \$100 off per lot (Bulls Only).

GUARANTEE:

All cattle selling are guaranteed to be fertile and sound. All the bulls will be semen tested. First breeding season guaranteed – the period from sale date to August 1, 2020, unconditional guarantee with the exception of loss resulting from mismanagement. Bull will be replaced if a suitable replacement is available. If not, credit will be given on next year's sale for purchase price less and salvage received by owner. **ULTRASOUND DATA AVAILABLE SALE DAY.**

HEALTH:

Interstate health papers furnished on all cattle selling. All cattle have Ivomectin and Clean-Up parasite control. All have been vaccinated with 7 way + HS, IBR, BVD, BRSV, P13 and Footrot.

BRAND INSPECTION:

All cattle will be accompanied by proper brand inspection papers at time of shipment. A brand inspector will be available sale day.

LIVESTOCK REPRESENTATIVES:

American Hereford Rep.....	Lander Nicodemus.....	307-421-8141
Livestock Plus, Inc.....	Randy Rasby.....	308-539-6195
Western Livestock Journal.....	Jim Gies.....	970-590-0500
Wyoming Livestock Roundup.....	Curt Cox.....	307-630-4604

TERMS & CONDITIONS:

All cattle sell according to the standard terms and conditions of the American Angus Association and American Hereford Association.

SIGHT UNSEEN PURCHASE GUARANTEE:

If you are unable to attend the sale you may call or send bids to any of the representatives, auctioneer, or owners. We guarantee that you will be happy with your purchase or you don't own them. We will bid for you as if it were our own money, ensuring the customer is satisfied with their purchase.

RETAINED INTEREST:

We will retain 1/3 breeding interest or revenue interest on all bulls in the sale.

TRUCKING:

We will deliver **FREE** on any lot selling for \$3,000 or more, or a total purchase of \$5,000, up to 250 miles. See us for other delivery arrangements. We will be glad to assist in making the best possible trucking arrangements.

INSURANCE:

Will be available sale day through Jim Gies, a Harding & Harding agent.

LIABILITY:

All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The Owners, Auctioneer, and Sale Staff assume no liability for property loss or any accidents that may occur.

ANNOUNCEMENTS:

Announcements from the block will take precedence over the catalog.

LUNCH:

Complimentary lunch served at noon.

ONLINE BIDDING:

The sale will be broadcast live on DVAuction.com. Make sure to register prior to sale day to ensure successful bidding.

CALVING EASE STAR RATINGS:

Bull is recommended
HIGHLY for use on cows

Recommended for larger heifers
 or cows with more management.

Bull is recommended *HIGHLY* for use
 on heifers and to sire light BW calves.

- HEREFORD 2-YEAR-OLD BULLS -

THANK YOU FOR YOUR CONSIDERATION OF OUR OFFERING!

Final Thoughts:

With all that is going on in the world today, we have considered postponing the sale to a later date. After having to postpone last year due to inclement weather, we would rather not have to do that again. Hopefully we will be blessed with good weather this year.

We have decided to stay the course and go on as planned with the sale this year. We can't control the cattle markets, so we have no idea what they are going to do in the foreseeable future. We don't believe that postponing the sale will change anything. We do know that production agriculture must go on. Our customers still have to produce their product, and we need to do our part in that.

If you have any health concerns impacting your decision to come to the sale or not, we are more than happy to accommodate in any matter possible. Whether it be coming out to the ranch prior to the sale to view bulls in a "socially distanced" environment, placing orders on bulls over the phone, placing bids on DVAuction prior to the sale, or calling for an honest opinion on any animal in the sale. We are more than happy to do anything we can. In fact, it's our job.

We're all in this together. We've been in the cattle business all our lives; we wouldn't do this if it wasn't fun (either that or we're too stubborn to give up). Through good times and not so good times, it's the relationships that really matter.

God Bless.

PAP RISK FLOW CHART

Timothy N. Holt, DVM
Lisa Herrick, Certified PAP Technician

Location of PAP Test: Walden, Colorado
Elevation: 8,175 feet

PAP Risk Factor High Elevation Test Chart
PAP Test conducted at elevation >7,500 feet
For a stay at elevation for 6 weeks (75-90% Repeatable, Predictive Value)

PAP Score	Use at Low Elev. (<4,000 ft.)	Use at Moderate Elev. (4,000-5,000 ft.)	Use at High Elev. (5,500-7,500 ft.)	Use at Extreme Elev. (7,500 ft. +)
34-41	Low Risk	Low Risk	Low Risk	Low Risk
42-44	Low Risk	Low Risk	Low Risk	Low Risk
45-49	Moderate Risk	Moderate Risk	Moderate Risk	High Risk
> 50	Moderate Risk	Moderate Risk	High Risk	High Risk

- When selecting an animal based on a PAP measurement, other factors besides those listed above should be considered, such as genetics or pedigree, PAP EPD's, Systolic/Diastolic pressures, breed, and previous illness.
- Special consideration should be given to the amount of time the animal was exposed to elevation (>5,500 feet) prior to testing. The predictability and repeatability of the PAP measurement improves with longer the exposure to higher elevation (minimum of 3 weeks is required).
- This chart is based on animals greater than 10 months of age. Testing older animals (>12 months) results in a higher predictive and repeatability measurement.
- Testing of younger animals (<10 months) may result in a greater variability to the predictive and repeatability measurement.

DEFINITIONS:

- **Repeatable or Repeatability Percent:** This is a term used to give strength to a given PAP score predicting that if a retest PAP was carried out later in life, then the score would be close to or within the same category as the original measurement. For example; a PAP measurement taken below 4000 feet only has a 40% repeatable percent meaning that a repeat test only has a 40% chance of staying within the same risk category as the original test.
- **Predictive Value:** This term is closely related to repeatability percent but specifically says that the original score can accurately predict what that animal will retest in a higher elevation.
- **Risk:** Defined as the likelihood of an animal developing pulmonary hypertension themselves or being at risk for having a genetic predisposition for the disease.
