

McCumber  
*Angus*  
Ranch   

**PRODUCTION SALE**  
March **23** 2022

3:00 P.M. | AT THE RANCH 1 MILE WEST OF ROLETTE, NORTH DAKOTA

www.mccumberangus.com

Welcome to our annual production sale. We are continually humbled by your support of our program and look forward to a bright future in the beef industry. 2021-2022 has presented its share of challenges from an environmental standpoint, but Ranchers persevere and come out the other end with a stronger cowherd and the experience to get through the next challenge in an even better position. We look forward to what the future holds and as a seedstock source, we are committed to improving each generation with you our customers in mind. We take our job seriously and have never wavered in our pursuit of continually providing seedstock that make a positive impact on the commercial cattle producer.

We are proud and excited to present our offering to you for evaluation. With 58 years of constant selection for cattle that will help add to your bottom line and a focus of building a cowherd that excels for predictability, profitability, and efficiency, we continue to evolve our program to meet your needs. In a world of constant change many things are out of our control and the rise in cost to produce a marketable product has never been higher. One thing we can control is costs and that starts with your cowherd. Keeping costs in check starts with a forage efficient, fertile, problem free cowherd that is capable of performing on less. It takes a moderate framed, big-bodied, sound structured female that converts forage efficiently and stays productive in your herd for many years to optimize production and promote profitability within you operation. This year's offering represents our vision for profitable beef production well, from the first bull to the last the foundation has been laid for profitable, predictable beef production.

The bulls and females offered are unlike many you will have the opportunity to evaluate. They are bred and built with a style all their own. We invite you to come anytime and evaluate them and the cowherd that produced them.

The sale will once again be broadcast by Superior Productions. The bulls will be videoed in mid-March and a video of each bull and heifer will be available on the Superior website or a link from our website.

Like always, all the information is provided in the catalog. We will have scrotal measurements available sale day or by request prior to the sale. The cattle will sell in catalog order. We stand behind the bulls and heifers 100%. If you have a problem, please let us know so we can take care of it to the best of our ability. Please join us for lunch at Noon, and the sale starting at 3:00 P.M. CST. Feel free to contact us with any questions and stop over anytime to view the bulls and go through the cow herd.

Sincerely,  
Matt and Chuck Tastad

## HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at [www.superiorlivestock.com](http://www.superiorlivestock.com).

### HERE'S HOW IT WORKS

**Turn in Bids Over the Phone.** This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to [www.superiorlivestock.com](http://www.superiorlivestock.com) and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to [info@superiorauction.com](mailto:info@superiorauction.com). You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

**Click-To-Bid.** This is Superior's online bidding program for cattle buying. **Please note that high speed internet is required – this is not for dial-up or satellite internet.** Registration is free, but you must become a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to sign up. Becoming a member is easy – just go to the homepage of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

**Viewing the Auction.** The sale will be broadcast via satellite on Dish Network channel 997 (SLA-TV). Please note that there is a short delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at [www.superiorclicktobid.com](http://www.superiorclicktobid.com) – just go to the home page and select the auction. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to "click-to-bid". Your computer must have Flash Media Player installed to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452 or 800-422-2117.

**Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements,**

send bids to McCumber Angus Ranch, Sale  
Consultants or Representatives.*

### Sale Terms & Conditions

All cattle sell under the standard terms and conditions of the American Angus Association. Terms of the sale are cash.

**Volume Discounts:** We will discount your purchase price 3% on 3 head purchased by one buyer and up to 10% on 10 head purchased by one buyer.

**Delivery:** We offer free delivery in North Dakota and adjoining states on all bulls and free delivery up to 1,000 miles on purchases totalling \$2,500. Beyond 1,000 miles delivery will be billed at cost.

**Sight Unseen Purchase Program:** If you cannot attend the sale and would like to purchase bulls, please give us a call and we'll be glad to help you with your order. Describe the type of bull, minimum and maximum parameters and price range. We want to assure you that your bid will be handled with the utmost professionalism and your money handled like it is our own. We guarantee 100% satisfaction on all orders. If you get the bull and don't like him, we will take him back.

### Lodging & Transportation

Cobblestone Inn, Rugby, ND..... 701.881.3000  
Sky Dancer Hotel & Casino, Belcourt ND..701.244.2400

Multiple locations in Minot ND

Rolette ND has a 3,500  
foot paved runway. Minot,  
ND is served by Northwest  
Airlines. Minot is 90 miles  
from the ranch.

### Herd Health & Nutrition

**Herd Health:** Bulls have been vaccinated with Vista Once SQ, 7-Way w/Somnus, poured with Ivermectin, and feed Safeguard. The bulls will have passed a complete fertility test. All cattle will sell with interstate health papers.

**Nutrition:** The bulls were fed a high roughage ration. The ration was balanced to ensure the bull's soundness and longevity. We reached a maximum of 46 Mega Cals, and the protein level was 13.2 percent. The bulls are hard, sound footed, and have not been pushed at all. The ration consisted of Alfalfa, Corn Silage, rolled corn and mineral package. For those that do not know what earlage is, it consists of the grain, cob, and husk, thus adding additional fiber to the ration. The bulls were raised on momma's milk and grass from birth to weaning and have performed well this winter.

### Marketing

If you have calves sired by our bulls, or females bred to our bulls, we would like to help you market them. We along with Spickler Ranches sponsored the 14th Annual Angus Partners sale. The consignors realized a considerable premium over the current market for their McCumber and Spickler sired replacement open and bred females. We would be happy to accept your consignment at any time. I would also suggest checking out the Angus Source program. This is a very effective way to set apart your Angus sired feeder cattle, and replacement females.

### Semen Interest

You will notice that we are retaining an interest in quite a few of the bulls. These are bulls we may want to collect semen from in the future for use within our herd. If we are able to sell semen from your bull, we would share with you any revenue generated from the sale of semen. The bulls would be collected when it was convenient for you. The buyer has full possession and salvage value of the bull. Many of these bulls will undoubtedly sell in the price range of the commercial man.

MATERNAL GRAND DAM MISS WIX 2012 OF MC CUMBER

MATERNAL BROTHER TO DAM MC CUMBER 5005 TITANIUM 9206

FLUSH BROTHER TO DAM MC CUMBER ZODIAC 9116

**Selling ½ interest and full possession- Recommended for use on heifers-** One of the top calving ease herd bull prospects ever bred at Mc Cumber, with earning potential beyond the sale with no question calving ease and the phenotype to match. 118 is more than just a heifer bull, he started at just 60 lbs, but went on to wean off his outstanding dam at 700 lbs and has continued to perform post-weaning, with an ADG of 3.92 lbs/day and a 365-day weight of 1362 lbs for a ratio of 110. He is a long bodied, smooth made bull that moves free and combines this with a big wide square hip and extra rib-shape. Displays authentic Angus

breed character and is always catching my eye in the pen. He isn't by accident. He combines all the best here at Mc Cumber, with Miss Wix 2012, Lassie 113, Lassie 935, and double bred to Miss Wix 2022 of Mc Cumber all combined in his pedigree. His dam is a productive, fertile, easy fleshing, near perfect uddered daughter of OCC Zodiac 655Z, thus bringing his outstanding dam into the fold as well. His dam bred back first service AI and is nursing a sweet heifer calf. 118 is a herd bull prospect that represents our program well. Generations of top cows that have excelled for fertility, udder quality, productivity and fleshing ease in a forage environment. He will be used back here at Mc Cumber and is positioned to replace his outstanding sire

MATERNAL SISTER B PRIDE 3160 OF MC CUMBER

MATERNAL GRANDAM B PRIDE 463 OF MC CUMBER

**Selling ½ interest and full possession-** One of the most anticipated calves of the 2021 calf crop and he has not disappointed. From the day he was born he had the look. His dam was specifically mated to the Manzano Electra 0214 bull as a potential herd sire prospect to bring back and use within our program. 1156 is all bull and exhibits the power, performance, muscle and masculinity herd sire must possess. He is a stout, big-bodied beef bull with a powerful hip and hind leg. He puts a foot down out in the corners and displays the added meat, and muscle expression not common

among the high carcass, extreme growth Angus bulls today. He has a herd bull presence and has been a standout every step of the way. His beautiful, 2nd generation pathfinder, donor dam has been outstanding. She is a feminine, long bodied cow, that combines it with abundant capacity and natural thickness, on top of that she has impeccable hoof shape and udder quality which she passes on and after being flushed this past spring for the first time, will calve again in early March. She has a calving interval of 4@360 and a WWR 4@106. She is quite a bit younger than what we would normally flush, but the early indications were that we could not wait, not only is she a daughter of the pathfinder donor dam B Pride 463 of Mc Cumber, but she exhibits everything we look for in a potential donor cow. 1156 will be collected after the sale and used back here within our program. Massive power, muscle and the structure and soundness to impact the breed in a positive way

**Selling ½ interest and full possession-** Pure power in the right kind of package. 1127 is an Edge of Glory son with explosive performance, power, and muscle. He is an attractive, sound, free moving bull, with incredible center body width, a big expressive hip and rear quarter and extra length to his front end that he carries out through his hip. A favorite since he hit the ground with the potential to sire heavy, high-performing bulls and females with the ability to convert forage efficiently. He isn't by accident. His impressive, neat uddered, moderate framed dam possesses a massive amount of body and natural thickness. She has an outstanding record for fertility and is produced from 3 consecutive generations of pathfinder cows. Her pathfinder dam, Miss Wix 3002 of Mc Cumber is a 3rd generation pathfinder that never misses, she is the dam to the 2017 sale topping heifer and full sister to the dam of 1127, Miss Wix 617 of Mc Cumber, who is a valued member of the Carlson Angus Ranch donor pen. Pounds, performance, muscle and look combined with the cow power of the Miss Wix cow family tracing back to Miss Wix 2022 of Mc Cumber, and Miss Wix 7111 of Mc Cumber, provide a predictable, proven, time-tested genetic package that can make an impact within the beef industry

**Selling ½ interest and full possession-Recommended for use on heifers-** A sale highlight and potential sale topper. 1121 is loaded with style, substance and muscle. He combines incredible structure, soundness and balance with meat, muscle and natural shape and dimension. Not only is he one of the soundness, best-looking bulls in the offering he combines this with calving ease, performance and maternal quality. He hit the 800 lb mark at weaning and earned a WWR of 107 and has YWR of 105. His dam is a beautiful, moderate framed, easy fleshing daughter of Fortunate Son with impeccable udder structure and teat size and excellent hoof shape. Her dam is a favorite 4X13 daughter that entered the donor pen at the age of 11 after proving her fertility, productivity, and longevity. One of the top Tribute sons we have offered with style, soundness and muscle expression

**Selling 2/3 interest and full possession-** A herd bull prospect with the look, pedigree and performance to move a program forward. 1015 is a big ribbed, long bodied, sound structured son of Electra 0214 and produced from one of the top 4X13 daughters ever here at Mc Cumber. She is the dam of past sale topper Mc Cumber Unmistakable 524, and full sister to the dam of Mc Cumber Fortunate 307, and Mc Cumber Trademark 4203 and a maternal sister to Mc Cumber Titanium 5005. This good footed, free moving bull is loaded with top cows and represents some new genes from the Electra line of cattle. He is bred to sire forage converting, fertile, productive females that will thrive in any environment, and leave male counterparts that will push the scale down at every measure. 1015 is a bull we considered retaining, and his flush sisters look like the type of young females that will fit the program here.

**Selling 2/3 interest and full possession-** Not only one of the best Armour son's in this sale, but one of the top bulls of the entire offering. 1172 is an attractive, well-balanced sound made bull with extra length. He combines it with abundant rib shape and dimension and carries his muscle out into a big, square hip and rear quarter. He hit the 1328 lb mark at a year and earned a gain ratio of 106. His young dam is a favorite of mine and rising star in our program. Blackcap 745 of Mc Cumber possesses massive volume and thickness. She is stout, wide based, good footed and has a near perfect udder. She is easy fleshing, fertile and has a wonderful disposition. She has never missed to the first service AI and is quickly finding her way to the potential donor list. The combination of Armour on Big Time daughters works very well and 1172 is no exception

**Selling 2/3 interest and full possession- Recommended for use on heifers-** Outstanding calving ease, cow-making herd bull prospect with a combination of look, calving ease, performance and maternal heritage. Loaded with top cows, combining the Miss Wix cow family with the Enchantress cow family originally developed at the N Bar in MT. 1125 is more than just a neat pedigree. He is loaded with muscle, style, and soundness. He has the masculinity, muscle shape, and base width not often found in a calving ease bull. He has performed well at every measure and possesses the proven herd building genetics that have made a positive impact on the Angus breed. His dam is a feminine, neat uddered, sound structured daughter of Mc Cumber Tremendous 2008 and produced by the maternal sister to N Bar Shadow X4124, Sinclair Enchantress 2F1, who is incredibly easy fleshing, near perfect uddered and easy going, with excellent foot quality still at the age of 10. Sure to catch your eye, this breeding piece possesses the genetic material to build a cowherd around

**Selling 2/3 interest and full possession-** An Edge of Glory son with muscle, masculinity and thickness to burn. 172 is full of meat, added capacity, and base width. He is a moderate framed, sound structured tank with excellent hoof shape. He displays as much muscle shape, masculinity and thickness of any bull in the offering. On top of that his dam could be the mold for what an Angus cow should be built like. She is a feminine fronted, big - bodied, thick made female with impeccable udder structure. She is fertile, easy going, and has excellent foot design. She produced a herd bull in last year's sale to Merit Cattle Company in Canada and will enter our donor pen this spring. This guy may not be for everyone, but if you want moderate, forage efficient, easy fleshing females that are fertile and problem free, 172 would fit the bill

A big, stout, high performing son of Sinclair Shadow Rider 1741. Ranking near the top of the contemporary for weaning weight, 121 has not backed down. He earned a WWR of 111 and combines this into a sound, attractive package, with extra capacity, stoutness and natural thickness. He is easy going, free moving and has been a standout since birth. His dam is a real quiet daughter of Mc Cumber Fortunate 213 with excellent hoof shape. She is easy fleshing, big bodied and settles first service AI every year. 121 is a logical choice to bring back the Emulation blood back to the front

**Selling 2/3 interest and full possession-** One of the most attractive, well-balanced sons of Manzano Electra 0214 we have bred. 1175 is an attractive, good headed, long necked bull with masculinity and muscle shape. He is free striding, wide based and sound structured. He didn't disappoint from a performance standpoint either with a WWR of 101, ADG ratio of 108, and YWR of 104. His dam is a feminine, wide-made, big-bodied daughter of Mc Cumber Titanium 5005. She is good footed, easy going and has never missed to the AI service. We have her first 2 daughters as replacements. She sold this fall to West Virginia privately as their selection when going through the cowherd. 1175 is sure to catch your eye and won't disappoint when you really study him hard

**Selling 2/3 interest and full possession-** A performance standout earning a 205 day weight of 804 lbs. for a ratio of 107 and combines this with an abundance of volume, capacity and rib-shape. To go along with this he is wide based, free moving and wide hiped. He not only has excelled from a performance standpoint, but maternally is the kind to sire herd building females built for forage conversion, fleshing ability and fertility. His dam is a beautiful, near perfect uddered daughter of 4X13 with incredible fleshing ability and fertility. She is a maternal sister to the pathfinder, donor dam Miss Wix 7126 of Mc Cumber, just 10 years younger, but poised to make a positive impact. Top-end herd bull prospect with generations of fertility, productivity, and longevity behind him

**Selling 2/3 interest and full possession- Recommended for use on heifers-** Manzano Electra 0214 son with abundant rib-shape, natural thickness and soundness. Coming off his dam at 780 lbs. the first of September this good bull earned a WWR of 102. His productive, fertile young dam is a maternal sister to Miss Wix 7126 of Mc Cumber and descends from multiple generation of pathfinder Miss Wix females. She produced on of the top selling heifers in last year's sale and brought in another good one here. 143 is a full brother in blood to 145 selling in this sale. An impressive sire group by 0214 and 143 ranks near the top.

A big bodied, naturally thick son of Manzano Electra 0214. 141 earned a 205 day weight of 800 lbs. and has performed well post-weaning. A member of the popular Electra sire group, which low in numbers last year were a popular and high selling sire in last year's sale. A much larger selection this year and they do not disappoint. 141 fits the mold of extra rib-shape, natural thickness and top performance. His dam is an easy fleshing, tight uddered daughter of Fortunate Son and an ET daughter of Miss Wix 5139 of Mc Cumber, who produced to the age of 14 and has left a positive mark on our program. Some new genetics for long time customers

**Selling 2/3 interest and full possession-** An Electra son cut from the same mold as the rest. He displays extra capacity, natural thickness and soundness in an a stylish, eye appealing package. 164 earned a WWR of 104 and has continued to perform post-weaning. 164 has been a catching our eye since birth and displays the herd bull qualities we strive to produce. His beautiful, moderate, big- bodied, neat uddered dam is an impressive daughter of OCC Unmistakable 946U and excels for productivity, fertility and fleshing ease. She is easily noticed by visitors to the ranch and is a young cow off to a good start. This popular sire group offers some new genetics for long-time customers, but they are more than just new. They are the forage efficient, performance type cattle that will be profitable in a commercial cow herd

**Selling 2/3 interest and full possession-** A big, stout, square hipped, big rumped masculine son of Mc Cumber Titanium 5005. A high performing bull with a 205-day weight of 783 lbs. for a ratio of 105 and a 365-day weight of 1353 lbs. for a ratio of 104. He possesses authentic Angus breed character and displays the masculinity and muscle expression common among the 5005 sire group. His dam is an easy fleshing, big bodied, naturally thick daughter of Unmistakable with udder quality and fertility. She is highly productive and descends from a top line of cows

**Selling 2/3 interest and full possession-** The result of a no-miss mating. The combination of Mc Cumber Titanium 5005 on the OCC Tremendous 619T daughters consistently results in stout, heavy muscled, beef bulls that perform, and mature at the right size. 1124 is a perfect example of this mating expressing masculinity, muscle shape, and soundness. He performed across the board with a WWR of 111 and YWR of 106. He is square hipped, big rumped and excellent on his feet and legs. His dam is a moderate, fertile, productive Tremendous daughter that has an excellent record for fertility and is no stranger to producing top progeny. She is the dam of the past \$20,000 sale topping heifer Gale 867 of Mc Cumber and numerous sons working for top commercial producers. 1124 will sire profitable, predictable, and adaptable cattle that will add to your bottom line

**Selling 2/3 interest and full possession-** A performance standout in the 5005 x Miss Wix 2012 flush. 1004 is a big, stout, long bodied bull that is masculine, big hipped and wide based. He puts a foot down in the corners and travels the pen with ease. He weaned off his recipient dam at nearly 800 lbs without creep and has kept on coming. His dam is a member of the all-time greatest flush in our history that includes her flush sisters Miss Wix 2003 of Mc Cumber, Miss Wix 2002 of Mc Cumber and Mc Cumber Tremendous 2008. The genetic potency of the flush mates has been unmatched within our program for fertile, productive, problem free cattle

A stout, long bodied, heavy muscled son of Armour with excellent hoof shape and soundness. 1113 is big topped, wide based, and moves with ease as he travels the pen. He earned a WWR of 104 and has performed well on test. His dam is a moderate, big volume, naturally thick, neat uddered daughter of Fortunate Son with a

MATERNAL BROTHER MC CUMBER STEADFAST 912

perfect first service AI record and a WWR 6 @100. A full sister to 1113 is a favorite among the first calf heifers with small refined teats, and long, level udder attachment. She is nursing a stud by Tribute and look forward to her long-term production within our program. An extra stout Armour son with the pattern and soundness common among the Armour sire group.

A well-made, sound structured son of 5005 with abundant width and dimension. He combines this with top-end performance earning a 205-day weight of 833 lbs for a WWR of 111 and post-weaning performance right near the top of the contemporary group. His dam is a feminine, long bodied, neat uddered daughter of Mc Cumber Fortunate 213 and has earned a solid record for fertility and productivity. 190 is a twin with 191. She raised both calves and weaned over 1400 lbs. of calf on grass with no creep

A masculine, thick rumped, deep bodied son of Mc Cumber Titanium 5005. 189 is a wide tracking square hipped bull with extra muscle expression to his hip and hind quarter. He has performed well from the start and I would consider him borderline for use on heifers. His dam is a moderate framed, easy fleshing, near perfect uddered daughter of Mc Cumber 307 Fortunate 5156 and produced from a productive, perfect uddered daughter of OCC Unmistakable 946U. He will leave you the forage efficient, fertile, productive females that work in any environment.

**Selling 2/3 interest and full possession-** I believe 183 is one of the top Steadfast sons that we have offered. He is a heavy muscled, masculine, beef bull with added base width and a big expressive hip and rear quarter. He earned a 205 day weight of nearly 800 lbs for a WWR of 107 and is still going strong. His dam is a powerful, neat uddered, stout, big bodied daughter of Mc Cumber Trademark 4203 and an ET daughter of the pathfinder donor dam B Pride 463 of Mc Cumber, whose mark on our program would even rival Miss Wix 365 of Mc Cumber. His dam has never missed first service AI and is building an outstanding record that puts her on the short list for the donor pen. Herd bull prospect built right and stacked for maternal quality

**Selling 2/3 interest and full possession-** A standout since birth, this Edge of Glory son is moderate, heavy muscled, sound structured and displays the herd bull presence. 126 is a favorite of mine with impeccable breed character, muscle mass and body dimension. He is a wide-based, free-moving bull with excellent hoof shape and a super disposition. His dam is a tank. Rosetta 733 is built like a forage converter should be, moderated framed, abundant rib-shape and capacity, natural thickness and combines this with femininity, udder quality, and structural soundness. 126 is a herd bull prospect with the bred-in ability to sire forage efficient, fertile, productive cattle that will thrive in any environment. A sale highlight with style, muscle and herd bull presence

**Selling 2/3 interest and full possession-** I think you will really like this Edge of Glory sire group. They are eye-appealing, naturally thick and deep bodied with added performance and structural soundness. 138 is a big-hipped, expressively muscled bull with an abundance of thickness and pounds. He weaned off his thick-made, deep ribbed, neat uddered dam at 800 lbs and hasn't backed down. 138 has caught my eye all winter and displays the added meat and muscle that will take a cowherd in the right direction. His pedigree gives a little different twist for those customers that have been with us for awhile, but still exhibits the same traits we demand. He won't be hard to find with his abundant muscling, and extra length

**Selling 2/3 interest and full possession-** Edge of Glory son that is stout, big-bodied, wide made and easy going. Produced from a herd bull producing dam that has sons working not only in the US, but also Argentina and Australia for Eagle Hawk Angus. 122 has performed well across the board and will be an easy find in competitive pen of bulls. His pathfinder dam is a 4th consecutive generation pathfinder with multiple generations of top cows behind her. She consistently settles first service AI and has produced multiple herd bulls that have sold through past Mc Cumber sales. You will really like the Edge of Glory sire group and 122 is a highlight

A stock bull with muscle, masculinity, thickness and performance. A heavy, stout-made, heavy muscled beef bull that stands wide, and displays added shape and dimension to his top and rear quarter. 179 has been a standout since birth and continues to impress as he develops. The Memento cattle have been outstanding to this point. The first daughters have been wonderful young females with excellent mothering ability, impeccable udder quality and easy going dispositions to calve out. His dam is a powerful daughter of 5005 with abundant thickness and volume. She is stout, neat uddered and good footed. I believe these Memento sons are the kind that commercial producers will really enjoy. No they don't have all the fancy EPDs, but they have exhibited all the traits that lead to profitability in a commercial cattle producers world. The real world!

**Selling 2/3 interest and full possession-** A big, stout, wide rumped Edge of Glory son that really cranked it up this winter. 169 is a wide based, big bodied bull with width and dimension. The Edge of Glory sire group has exceeded our expectations and are an impressive sire group with performance and the build and body type we desire. He not only did here but also at Diamond Seven Angus Ranch in New Mexico where Edge of Glory resides. The dam of 169 is an easy fleshing, moderate framed, neat uddered daughter of Mc Cumber Fortunate 213 and produced from one of the top OCC Tremendous daughters on the Ranch. Both his dam and grand dam have sons working in purebred herds for Jauer Angus in IA and Chapman Cattle Company in Alberta Canada

A bigger framed, long bodied son of Electra with excellent performance and plenty of thickness. 192 is a long, smooth bull with extra extension to his front end and combines that with a long square hip. His dam is a productive, easy fleshing, fertile, neat uddered daughter of Miss Wix 2027 of Mc Cumber, the 6 consecutive generation pathfinder donor dam here at Mc Cumber. She is a bit bigger cow, but always breeds first service AI and brings in a good one. A well-bred Electra son to move any herd forward.

**Selling 2/3 interest and full possession-** A big, stout, high performing son of Manzano Electra 0214 from the herd bull producing Miss Wix 9122 of Mc Cumber. 1240 is extra-long, big hipped and stout. He has been one of the top performing bulls on test with a 205-day weight of nearly 800 lbs without creep off his 13-year old dam gained 3.86 lbs/day on the 153 day test and earned a 365-day weight of 1412 lbs for a ratio of 109. His dam is a herd bull producer and maternal sister to Mc Cumber Titanium 5005. She has multiple herd sires working in purebred herds across the country and calved early again this year and showing no signs of backing off. Produced from one of the top cows on the Ranch and backed by generations of fertile, productive, long-lasting Miss Wix cows.

**Selling 2/3 interest and full possession- Recommended for use on heifers-** Here is a neat, well-bred calving ease herd bull prospect that defines maternal. He is a well-made, long bodied Tribute son with plenty of thickness and capacity. He started light and then went on to wean off his outstanding dam with a 205 day weight over 700 lbs. His dam is a maternal sister to NBar Shadow 4124 and now at the age of 10 displays excellent udder quality, fleshing ease and soundness. She is built to last a long time and displays an excellent disposition. 165 is a calving ease, cow-making herd bull prospect that you can build a cow herd around. It doesn't get much more proven combining the Mc Cumber Lassie and Miss cow families with the Enchantress cow family developed at the N Bar in MT

**Selling 2/3 interest and full possession-** I'm not sure I will ever get enough of these 5005 sired cattle. He just gets it done right. Balanced trait cattle that perform, are made right and females that will work in any environment. 168 fits the 5005 mold, big-hipped, sound structured, and displays the masculinity and authentic Angus breed character so common among the sire group. 168 has performed well from the start and is one that will sire males that will fit the industry standards and females that will flesh on forage and be fertile, productive females for many years. His dam is a pretty fronted, big-ribbed daughter of Mc Cumber Tremendous 2008 with excellent udder structure and teat size and maintains excellent condition while breeding first cycle year in and year out. Good, well-bred bull here

**Selling 2/3 interest and full possession-** You will like the extra extension to his front end and length of body this good bull. He combines this with a wide, square hip, plenty of rib and true Aberdeen Angus breed character. He has performed well on test this winter and is produced by a top cow in our program. His dam is a near perfect uddered, easy fleshing daughter of Mc Cumber Tremendous 2008 and is the dam of Mc Cumber Influence 7121 who was a herd sire in the Master Angus herd in Montana. Herd bull prospect with top, proven cows behind him

**Selling 2/3 interest and full possession-** Masculine, big-topped, long-bodied son of Edge of Glory and the natural calf of the pathfinder, donor dam B Pride 3160 of Mc Cumber. 1195 weaned off his outstanding dam with a 205-day weight of nearly 800 lbs for a WWR of 106. He got a little sick this winter that affected his post-weaning performance but is back on track. His powerful, high volume, pathfinder dam is no stranger to producing herd bulls. She consistently gets the job done and is another daughter of B Pride 463 of Mc Cumber following her dam's footsteps. This cow family is really leaving a mark on the program and 1195 is bred to be a positive asset to any program

**Selling 2/3 interest and full possession-** Generations of top cows stacked into this long, high performing member of the 5005 x Miss Wix 2012 flush. 1008 is extra long, smooth fronted, and combines this with plenty of capacity and natural thickness. He is a big scrotaled, easy going bull that will catch your eye. His proven pathfinder, donor dam has and will continue to play a large role within our program. I can't believe she is already 10 years old and calved again as I'm writing these footnotes. If you have not injected her or her flush mates genes into your own cowherd this would be a good opportunity to with a large member of flush brothers by her and her flush sister Miss Wix 2002 of Mc Cumber.

**Selling 2/3 interest and full possession- Recommended for use on heifers-** One of the top Tribute son's in the offering and a 3/4 brother to the herd bull prospect selling as Lot 1 in this sale. 1133 is a long-bodied, smooth fronted, deep ribbed calving ease bull with excellent performance. He weaned off with a 205-day weight of 779 lbs for a ratio of 109 as his dam's first calf and earned a YWR of 1323. His dam is an impressive daughter of OCC Zodiac 655Z with impeccable udder quality, rib shape and thickness. She maintained her flesh while raising this good bull like a mature cow and bred right back and was the first cow to calve this year. She is near perfect footed and displays the fleshing ease, fertility, and productivity to make her way to the top of our cowherd. In addition, she is produced from 3 consecutive generations of cows that have all calved first service AI their entire life. Take advantage of the proven fertility, productivity and maternal quality bred into 1133 for generations.

**Selling 2/3 interest and full possession-** A standout by Memento with the look, power, muscle and presence of a herd bull. 1277 has been catching my eye since the day he was born. A stout, masculine, heavy muscled beef bull with extra muscle expression to his hip and rear quarter. A big-topped bull with extra length and excellent hoof shape and heel depth. His dam from the first calf crop by 5005 is a feminine fronted, high volume, thick-made cow with impeccable udder structure and disposition. She is produced from a pathfinder Miss Wix female that produced to 13 and is backed by generations of fertile, productive, time-tested cows. A favorite of mine with the herd bull look and the strength of the Miss Wix cow family behind him

**Selling 2/3 interest and full possession-** A real tank by 0214. 1100 has massive body width and dimension. He is wide-tracking, thick topped, and naturally thick. He has been one of the top gaining bulls post-weaning and displays the power, performance, and muscle to move a program forward. His dam is a powerful, big bodied, long made daughter of Mc Cumber Titanium 3127. She is neat utedered, stout made, and easy fleshing. She has an excellent record for fertility and is produced by a dam that produced to the age of 13 and maintained a production record of 10@106. A top-performing 0214 son from generations of top cows

**Recommended for use on heifers-** A Steadfast son with performance, length and maternal quality bred in for generations. 1189 is a long bodied, thick-made Steadfast son with excellent performance across the board. He weaned off his 13 year old dam with a WWR of 101 and then turned it up a notch on test with a gain ratio of 106 and a 365-day weight of 1345 lbs. for a ratio of 103. His outstanding dam is produced from 5 consecutive generation of pathfinder dams and she has an outstanding record of 10@106. She is one of the top 4X13 daughters in the herd and displays excellent udder quality and soundness still at the age of 14

**Recommended for use on heifers-** This Steadfast son is produced from one of the oldest cows on the ranch. 1184 is a wide-made, deep ribbed calving ease prospect with added base width, muscle and masculinity. He has really performed well on test earning an ADG ratio of 111 and a 365-day weight of 1356 lbs. for a ratio of 104. His 13 year-old dam is already nursing her 12th calf this year and is still sound, neat uddered and productive. She just does her job and does it well. For added longevity, fertility and performance consider 1184

**Selling 2/3 interest and full possession- Recommended for use on heifers-** 136 is a tank, wide based, thick made, big bodied and heavy muscled. An Armour son that has stood out from the start. 136 is a wide tracking, free moving bull with abundant capacity and natural thickness. He has performed well across the board and is produced by a beautiful, neat uddered, fertile daughter of OCC Bonus 802B. His dam has never missed to first service AI and is made like one should be with natural thickness, body capacity and combines it with femininity and udder quality. The Armour daughters are the real deal, with excellent udder structure, mothering instinct and productivity. If you like them thick, deep bodied and moderate, this herd bull prospect should make your list

**Selling 2/3 interest and full possession- Recommended for use on heifers-** Armour does a really good job of sireing attractive, sound structured cattle with muscle shape and masculinity. 1234 fits that description well and is a top calving ease prospect produced from the donor dam Miss Wix 2195 of Mc Cumber. He is a big-topped, wide hipped bull with base width and excellent foot shape. His donor dam has never missed, she entered the donor pen because of the daughters she has produced that excel for udder quality, fleshing ease, fertility and productivity. A full brother to 1234 sold in last year's sale to Duff Cattle Company in OK, and the flush sisters to 1234 have the making of top brood cows

**Recommended for use on heifers-** This calving ease prospect by Mc Cumber Tribute 702 really stacks the cow power. Generations of proven cows for fertility, productivity, and longevity. Tracing twice to Miss Wix 2022 of Mc Cumber and then combining Miss Wix 2003, Lassie 113, Lassie 935 and Lassie 0101 all in 4 generations makes him a predictable breeding tool for maternal excellence. He is made right to with added capacity, natural thickness and displays the masculinity at a young age we desire. His dam is a beautiful young daughter of Mc Cumber Armour 7148 who breed right back and is nursing a stout bull calf by Duff 4 Real already this year. She is feminine, deep ribbed, naturally thick and excellent uddered. A proven pedigree of maternal quality bred in for generations

**Selling 2/3 interest and full possession-** The natural bull calf of Miss Wix 2195 of Mc Cumber and displays the muscle, body capacity, natural thickness and fleshing ease to sire market-topping males and profitable and predictable females. 1274 is long-fronted, big-bodied and square hipped. He has the softness and maternal quality to be an asset to any program. He weaned off his 10-year old dam with a 205-day weight of 816 lbs. for a WWR of 109 and earned a YWR of 102. His dam is the kind to build around, with excellent hoof shape, udder quality and the ability to produce daughter that are equal to or exceeding her. She never misses. Herd bull prospect with the genetics to propel a herd forward for maternal quality

**Recommended for use on heifers-** A well-made, sound structured son of Sinclair Shadow Rider 1741. He should be a sure bet on heifers and not only started light at birth, but weaned off his young dam with a 205 day weight of 739 lbs for a WWR of 104. His dam is a moderate, easy going daughter of Mc Cumber Tribute 702, with refined teats and excellent udder structure. She bred right back and calved first cycle again this year

**Selling 2/3 interest and full possession-** A Memento son that epitomizes forage conversion, fleshing ability and adaptability in any environment. 1206 is a moderate, wide-made beef bull with abundant capacity and natural thickness. He has a masculine, beef bull look and combines into a sound, easy going package. His dam is an impressive daughter of Mc Cumber Fortunate 213 with a perfect record for fertility and top production ratios. She is not only feminine fronted, but combines it with massive rib-shape and natural thickness. She is neat uddered, good footed and easy going. She is a maternal sister to the 2021 sale feature and 3rd top selling bull Mc Cumber Remington 031. 1206 is the kind that will thrive in a forage and grass operation, not only is built to fit, but he is backed by the type of cows that you can build a program around

**Selling 2/3 interest and full possession- Recommended for use on heifers-** A royally bred calving ease prospect with as many top cows as we can stack into one. 174 is a big, stout calving ease prospect that earned a WWR of 105 as his dam's first calf and has continued to perform post-weaning. He is a long bodied, thick topped Zodiac 9119 son with a large scrotal circumference and good disposition. His dam is a moderate, easy fleshing, neat uddered daughter of Mc Cumber Steadfast 635 and produced from Miss Wix 6145 of Mc Cumber who produced to the age of 15. 174 is loaded with top cows being double bred to Miss Wix 2003 of Mc Cumber, the dam of Steadfast, Armour and 9119, he traces 3 times to the donor dam Miss Wix 7111 of Mc Cumber the direct daughter of the Miss Wix matriarch Miss Wix 365 of Mc Cumber and then combines this with the best of the Dixie Erica cow family, OCC Dixie Erica 628W. We talk about stacking the best cows all the time and 174 represents that to the fullest

The first son of Mc Cumber Shadow Rider 983, the feature and 3rd top-selling bull from the 2020 sale and produced from a top pathfinder dam. 1217 is a moderate, deep ribbed, wide made bull with excellent hoof shape, a good disposition and the body mass and muscle to thrive in any environment. His pathfinder dam is a big-bodied, easy fleshing daughter of Unmistakable with an excellent record for production and fertility. Look for more son's of 983 in the future as we flushed two of our best donor's and bred some of our top heifers to him with the limited amount of semen he produced

**Selling 2/3 interest and full possession- Recommended for use on heifers-** A chunk by Armour, with the added thickness, rib-shape, and stoutness to sire forage converters. 1105 was born out on a -30 degree night and froze his ears, but his pathfinder dam had him up and nursing. When I found him the coyotes were close by, but he was fine. His feet seem to be fine, but we will totally guarantee them to stand up. His dam is a moderate, neat uddered daughter of Rito Rolette 1108 who has already produced a son that sold to Sandeen Genetics in IA and Juan Debernardi in Argentina. 1105 is bred for forage conversion and displays the body type that will thrive in the harshest environments

**Selling 2/3 interest and full possession- Recommended for use on heifers-** A calving ease, cow-maker by Tribute, from a productive, fertile, cow that consistently reduces birthweight and excels for fleshing ease, udder quality, and hoof shape. 1111 ranks in the very top 1% for Calving ease and Birth Weight EPD. He is the lightest birth weight bull in the offering, but still weaned off his dam at 700 lbs. and continued to perform on test. His dam is also a full sister to the dam of Mc Cumber Fortunate 307 and Mc Cumber Trademark 4203. She is the donor dam to the herd bull prospect selling as 1015 in this sale and is the grand dam to last year's lead-off and top selling heifer Miss Wix 09 of Mc Cumber. Top of the line cows are stacked in this calving ease bulls pedigree

**Recommended for use on heifers-** Long, smooth, deep ribbed son of Mc Cumber Tribute 702. 1185 is a long, smooth striding bull with width to his hip and rear quarter. He is a well-balanced, sound made bull with a good disposition. His dam is a pretty fronted, long-bodied daughter of Mc Cumber Titanium 3127. She is tight uddered, with small, well-placed teats. She is always bred early and maintains her condition well. 1189

**Selling 2/3 interest and full possession-** Edge of Glory son with a bit more frame, length and extension. The natural calf of the pathfinder, donor cow Miss Wix 093 of Mc Cumber. He is long-bodied, smooth shouldered, and deep ribbed. His dam entered the donor pen this past spring and is currently nursing her 11th natural calf. She has never missed to the first service AI, even this past spring after being flushed she bred right back and is nursing a fancy Mc Cumber La Joya 098 heifer calf. She has an outstanding production record of 10@105 and her daughters retained in the herd are all top producing young cows, with one of the them sporting the #1 WWRs of the entire cowherd. Her age may have held 1148 back a little bit, but the genetic power bred into 1148 will make a positive impact

Recommended for use on heifers- An Electra son produced by an 11 year old pathfinder dam that does not miss. 147 is a well-balanced, sound structured bull with added rib shape and natural thickness. He is long bodied, smooth fronted and I would expect him to fine for use on first calf heifers. His dam is an impressive daughter of Sitz JLS Emulation EXT 536P with impeccable udder structure still at the age of 11, excellent fleshing ability, and longevity bred in. Her 15 year old dam is still in production in Canada and earned her way into the Brian Boyum Angus program

**Selling 2/3 interest and full possession-** A stock bull with muscle, natural thickness and abundant rib dimension. 1268 is a stout, wide-tracking, easy fleshing bull with excellent hoof quality and an easy going disposition. He has performed well at every measure and is produced by an impressive XXP daughter of Miss Wix 2002 of Mc Cumber. His dam possesses abundant rib-shape and body depth. She is near perfect uddered, good footed, and has an excellent disposition. She calved early this year and is nursing a standout by Mc Cumber Shadow Rider 983. A full brother in blood to 1263 and cut from the same mold. 1268 displays the mass, muscle and masculinity common among forage efficient, easy fleshing, adaptable cattle and he is back by some of the best females in our program

**Selling 2/3 interest and full possession-** A borderline heifer bull from the 5005 x Miss Wix 0218 of Mc Cumber flush. 1010 is a thick, meaty beef bull with abundant capacity and base width. He has performed well, while starting at just 73 lbs. at birth. His donor dam is a moderate, easy fleshing, near perfect uddered daughter of OCC Tremendous 619T. 1010 is a result of one of my favorite, most consistent matings. It works without exception every time and results in forage efficient, easy fleshing, problem free cattle that will work in any environment

**Selling ½ interest and full possession- Recommended for use on heifers-** Maternally powered, calving ease herd bull prospect from the time-tested, fertile, influential pathfinder, donor dam Lassie 935 of Mc Cumber. 1244 is a sure-shot, true calving ease bull that started small. He combines this with an extra, stylish look. He has extra muscle shape to his top, which he carries out into a big, wide square hip and rear quarter. He is a free-moving, attractive patterned bull that has had that fancy look since the time he was born. His pathfinder, donor dam is Lassie 935 of Mc Cumber, a herd bull producer in her own right and the dam of Lassie 113 of Mc Cumber, who is the dam of Mc Cumber Tribute 702, Mc Cumber La Joya 098, and Mc Cumber Zodiac 073. Lassie 935 will calve again this spring at the age of 13 and will leave a legacy within our program. 1244 is a unique, calving-ease, maternally oriented herd bull prospect that is bred to sire the type of females that you can build a program around

**Selling 2/3 interest and full possession- Recommended for use on heifers-** A sure-shot calving ease son of Armour and an ET son of Miss Wix 2195 of Mc Cumber. 1023 is an attractive, well-built bull with masculinity, rib shape and natural thickness. His dam earned her way to the donor pen the old-fashioned way, by going about her business year in and year out without failing. She excels for udder quality still at the age of 10 and passes on her fertility, productivity, soundness and udder quality on to her daughters. Calving ease, herd bull prospect with top cows stacked throughout his pedigree

**Selling 2/3 interest and full possession-** A changer type bull with meat, muscle, masculinity and authentic Angus breed character. A real chunk with the extra shape and expression to his hip and rear quarter not often found in Angus cattle. He has a pleasing body type if you are focused on breeding cattle to thrive in the harshest environments. His dam is a moderate, high volume, neat uddered daughter of Mc Cumber Steadfast 635. She has excellent hoof shape, fleshing ability and has never missed to first service AI.

**Selling 2/3 interest and full possession-** An Edge of Glory son with abundant capacity and natural thickness. 1180 is a moderate framed, long-fronted, smooth shouldered bull that explodes with rib-shape and width. He had a little set back this winter but seems to be back on track. He would rank near the top of the sire group for rib-shape and thickness, combined with balance and soundness. His dam is a herd favorite of mine with incredible rib-shape and body depth. She is feminine fronted and then has as much mass and thickness as any cow on the place. She is near perfect uddered and has an excellent disposition. A real sleeper in the group only because of a set back this winter, otherwise he would have been near the top of many lists

Just barely out of heifer bull consideration, this moderate, easy fleshing, big bodied son of Chapman Memento 7601 will get you headed in the right direction for forage conversion, adaptability and fleshing ease. He is a thick made, easy going bull with extra rib shape and base width. His dam is a top, young OCC Tremendous daughter with impeccable udder structure and outstanding disposition. She has never missed first service AI and is a favorite of the 4 year-old age group. Her easy fleshing, naturally thick dam is a maternal sister to the dam of Mc Cumber Titanium 5005 and a top producer in her own right

**Selling 2/3 interest and full possession- Recommended for use on heifers-** Calving ease, cow-maker with masculinity and soundness. He was held back a bit by his recipient dam, but genetically his ability to sire moderate, easy fleshing, perfect uddered females that will thrive in the harshest environment has been bred into him. His pathfinder, donor dam has been a mainstay of our program producing both top-selling bulls and daughters that have made a positive addition to our cowherd. She is the grand dam to Mc Cumber Tribute 702, Mc Cumber La Joya 098, and Mc Cumber Zodiac 073. She still going strong at the age of 13 and will calve again this spring. Unique calving ease bull with the maternal quality to build a cowherd around

**Selling ½ interest and full possession- Recommended for use on heifers-** Unique calving-ease herd bull prospect that will rival any bull to sell here for maternal quality, forage efficiency, fleshing ease and longevity. A sale highlight with the pedigree, performance and phenotype to move a program forward. 1169 is a naturally thick, wide based bull with added center body dimension and the masculinity and muscle expression not often found in a calving ease bull. He has performed across the board with a 205-day weight of 736 lbs. for a ratio of 103 and then had an ADG of 3.79lbs/day over a 153 day test to earn a 365-day weight of 1342 lbs. for a ratio of 109. His dam is a big-bodied, near perfect uddered daughter of Mc Cumber Tremendous 2008 produced from the 4th consecutive generation pathfinder, donor dam Miss Wix 7126 of Mc Cumber. Miss Wix 9019 is a member of an outstanding flush that includes 3 flush sisters in her age group and the impressive full sister born a year earlier Miss Wix 8004 of Mc Cumber the dam of the Lot 92 and popular Tribute son from 2021, Mc Cumber Tribute 0145 who sold to 5L Red Angus in MT as a \$15,000 sale feature. Additionally maternal sisters include Miss Wix 9122 of Mc Cumber, whose sons Mc Cumber Fortunate 307 and Mc Cumber Trademark 4203 have been used back in the program and Miss Wix 175 of Mc Cumber the dam the 2016 sale topper Mc Cumber Unmistakable 524 and the grand dam of Miss Wix 09 of Mc Cumber, the \$30,000 top selling heifer from last year's sale. 1169 represent well what our program is all about. Stacking as many top cows into the pedigree as possible. It can't get much better than this here. He not only is loaded on the maternal side of his pedigree, but also combines Miss Wix 2003 of Mc Cumber and the dam of Zodiac, OCC Dixie Erica 628W. He is loaded with pathfinder cows that have proven to be productive, fertile and long lasting. Bred to lead the way towards forage efficiency, improved fertility, longevity and profitability in any environment

**Selling 2/3 interest and full possession-** A direct son of the influential B Pride 463 of Mc Cumber. 1018 is a sound structured, long bodied, square hiped son of Mc Cumber Fortunate 248, 248 was the high selling bull from the first set of Fortunate Son bulls to sell at auction. His fertile, easy fleshing daughters are good-footed, productive and have positive additions to our cowherd. A proven pedigree with herd building genetics bred in for generations

A real chunk of meat with as much muscle, masculinity and expression to his rear quarter of any bull in the sale. A moderate framed tank with excellent structure and soundness, with excellent hoof shape and heel depth, an attractive front-end and the rib-shape and softness to be a real cow-maker. His feminine, near perfect uddered dam is easy fleshing and forage efficient. Built to work in any environment with the muscle, masculinity and rib design to thrive in the harshest

**Recommended for use on heifers-** Light birth, calving ease son of Tribute that has performed well on test. 1147 is an attractive, long-bodied, bull with width to his hip and rear quarter. His dam is a moderate, big-ribbed, naturally thick daughter of 5005 with excellent teat size and udder attachment. My favorite Tribute replacement heifers are the 3/4 sisters to 1147. A mating combination that never fails

**Selling 2/3 interest and full possession-** A thick, meaty member of the Armour 7148 X Miss Wix 9102 of Mc Cumber. 1171 is a stout, wide-made, big bodied bull with masculinity and muscle. His BW was just a bit higher than I feel comfortable recommending for heifers, but is built like one that will sire moderate, easy fleshing females. His dam is a powerful daughter of Missing Link with excellent udder structure and teat placement. She excels for foot quality and disposition and is one that will leave a positive impact here.

**Recommended for use on heifers-** A bigger framed, long-bodied bull with excellent performance across the board. He is smooth fronted, free moving bull with a good disposition and large scrotal. He has excellent performance data with a WWR of 103, YWR of 112 and ADG ratio of 125 within his contemporary group. His 2nd generation pathfinder dam is a load, with massive volume and natural thickness. She has an excellent production record and never fails to bring in a good one. She is still going strong at 10-years old and shows no sign of backing down

A long, smooth, well-made son of Mc Cumber Zodiac 9119. 1120 is a royally bred bull with generations of top cows from Mc Cumber and then combine it with the dam of Zodiac, OCC Dixie Erica 628W. His young dam is a pretty fronted, long bodied, near-perfect uddered young cow. She rebred first cycle again this year and is off to a good start. Loaded with top cows 1120 will be a cow-maker and sire attractive, long-bodied progeny that will make a positive impact.

A smooth, deep-ribbed bull with the softness and rib-shape to sire easy fleshing females that will work in any environment. He has gained well on test this winter and is good footed, big scrotaled and easy going. His dam is a easy fleshing, neat uddered and naturally thick. She is productive, fertile and produced from generations of top cows.

**Selling ½ embryo interest and full possession-** Elite heifer and potentially the best female ever offered for sale here. 184 combines phenotype, performance and the maternal heritage to impact an industry craving maternally focused, performance type cattle with impeccable phenotype. 184 is built just like we like them, loaded with rib and thickness and then long necked and feminine fronted. She is sound structured, wide based and good footed. On top of this she is light birth, and one of the top performing heifers of the calf crop with a WWR of 110 and YWR of 115. She is backed by an outstanding young dam with the mass, thickness and good looks her daughter possesses. In addition, her dam is near perfect uddered, productive and has never missed to the AI service. Her 10-year old dam is a highly productive 4X13 daughter of B Pride 463 of Mc Cumber, whose influence throughout our program is ever evolving and just in this sale her daughters are the dam's to some of the top bulls in the sale. 184 is the kind we strive to produce with the power, performance and maternal quality to influence any program for multiple generations.

A sale highlight that combines calving ease, performance and maternal quality. 124 has gotten it done from the start. She weaned off with a WWR of 106 as her dam's first calf and then continued to perform and earned a YWR of 110. She combines this with excellent phenotype. 124 is an extended fronted, feminine heifer that explodes with rib-shape and dimension. She is sound structured, free moving and easy going. Her dam is a powerful daughter of Mc Cumber Big Time 7188 with impeccable udder quality and the added power, stoutness and thickness we like to see. She descends from an excellent line of Miss Wix females that go back to the 12-year old dam of Mc Cumber Remington 031, Miss Wix 0170 of Mc Cumber.

A light-birth, calving ease daughter of Mc Cumber Tribute 702 but that didn't stop her from growing. This eye-catching, deep-ribbed heifer has really performed well, especially considering her light birth weight of 66 lbs. Her dam is an easy going, good footed, big-ribbed daughter of Tremendous with excellent udder structure. She bred back to her first service AI and is well on her way within our program. I would keep all these Tributes if I could.

Power, Power Power! 198 is the top-performing heifer of the calf crop with the mass, muscle, and soundness to take a program forward. 198 is pure power and combines it in a sound, stout, big-bodied package. She is the #1 weaning heifer of the calf crop with a WWR of 119 and the #3 heifer at yearling with a YWR of 114. Her 10 year old dam is a productive, fertile, neat uddered daughter of Fortunate Son and produced from the pathfinder, donor dam Miss Wix 7031 of Mc Cumber. Her dam also produced the resident herd sire Mc Cumber Big Time 7188 and daughters making an impact in our program. Built like one that will work in even the harshest environments and enhanced with the added performance and power to produce sale topping sons and efficient, easy fleshing females.

An Electra daughter with performance, balance and maternal quality bred in for generations. A pretty, big-bodied heifer with extended front-end and a good disposition. She is wide-based and free moving. She is the front pasture type and produced from a proven, productive, fertile Fortunate Son daughter by the donor Miss Wix 2002 of Mc Cumber. 106 is the herd building kind. We couldn't be more pleased with the first 0214 daughters to calve here this year.

A powerful Edge of Glory daughter with abundant thickness, and center body width. She combines this in a sound, well-balanced, attractive package. An absolute tank and she displayed the power, thickness and stoutness from an early age. Her powerful dam is massive bodied, thick and big hipped. She has a large well-shaped hoof and maintains her flesh well, no matter the conditions. A favorite of mine from the B Pride cow family with the genetics to move a program to better forage conversion and adaptability.

A moderate, massive bodied, thick-made heifer with femininity and front end extension common among the Edge of Glory sire group. With the tools to be forage efficient and easy fleshing in any environment, 1204 has excelled from a performance standpoint as well. Her dam is a moderate, high-volume 3127 daughter with impeccable udder structure and teat placement. She is productive and fertile, never missing to the first service AI. Forage efficient, easy fleshing genetics with the ability to perform.

MATERNAL SISTER ENCHANTRESS 015 OF MC CUMBER

171 is a high-performing, big-bodied, naturally thick daughter of Manzano Electra 0214. She hasn't blinked from the start with performance and maternal quality bred in. Her pathfinder dam is a near perfect uddered daughter of OCC Big Time 746Z with an easy going disposition and top production and fertility record. She traces to one of my all-time favorite 4X13 daughters Bemindful Maid 965 Mc Cumber. An outstanding future ahead for this top cow prospect.

A maternally oriented daughter of Mc Cumber Tribute 702 with the added performance to rival any heifer in the calf crop. 1198 is the #1 yearling heifer of the calf crop and performed at every measure with a WWR of 113 and a YWR of 118. She is long bodied, deep ribbed, and wide based. She is produced from a near perfect uddered, feminine fronted, productive young daughter of Unmistakable with an excellent disposition and maternal quality bred in for generations. You don't find heifers like this offered for sale in many sales. An opportunity to not only add proven maternal genetics, but also the top performing heifer of the entire calf crop.

A well-bred daughter of Tribute with generations of cows that excel for fertility, productivity and longevity behind her. 1208 is a long-bodied, deep-ribbed, feminine fronted female with plenty of width. She has performed well and is produced from an impressive, deep ribbed, big-bodied daughter of Unmistakable and maternal sister to Miss Wix 7126 of Mc Cumber. A top cow prospect with the maternal heritage to propel any program forward.

A thick, moderate, big-ribbed Steadfast daughter with added body mass and thickness. She has performed well across the board with a WWR of 101 and YWR of 105. Her highly productive, fertile dam is an easy fleshing, good disposition daughter of Sinclair Extra 4X13. She never fails to bring in a good one and is another top female from the B Pride cow family. The Steadfast daughters are making excellent young cows with udder quality, foot shape, fleshing ease, and productivity. We really like them.

New generation brood cow prospect sired by Sinclair Shadow Rider 1741 and produced by an exceptional first calf heifer by Mc Cumber Tribute 702. 102 is a bit bigger framed heifer with added rib dimension. She is beautiful fronted and sound on her feet and legs. Additionally, she excelled from a performance standpoint with starting with just a 70 lb BW and then earning a WWR of 107 and YWR of 108. Her dam is a near perfect uddered, deep ribbed, feminine fronted daughter of Mc Cumber Tribute 702 and a maternal sister to the herd bull prospect selling as Lot 3 in this sale.

Selling a pair of maternally oriented, brood cow type ET daughter of Miss Wix 2012 of Mc Cumber. They are offered strictly as a sale feature and are the only females ever offered for sale out of the Tremendous X Miss Wix 2022 of Mc Cumber flush sisters. Both heifers exhibit the traits we strive to produce with added capacity, thickness and soundness in a feminine, attractive package. 1005 is the result of mating Mc Cumber Titanium 5005 to Miss Wix 2012 of Mc Cumber a fail safe mating that works every time and 1020 is an exciting daughter of the new sire OCC Edge of Glory 841E whose progeny have excelled in our program to this point. Their pathfinder, donor dam needs no introduction. Miss Wix 2012 of Mc Cumber has paved her way to the top of our program along with her flush sisters Miss Wix 2003 and Miss Wix 2002. She excels for udder structure, teat size, hoof shape and combines this with fertility, productivity and disposition. These herd building females represent our program well and are the kind to enhance any breeding program.

A really cool daughter of Sinclair Shadow Rider 1741 by a powerful, big-bodied, easy fleshing Unmistakable daughter who is produced from the same cow family as Mc Cumber Remington 031. 111 displays massive volume, thickness and power. She is feminine fronted and sound structured. Her moderate framed, huge capacity dam is easy fleshing and has never missed to the first service AI. 111 represents a neat combination of Emulation and Rito genetics.

PRODUCED BY SAME COW FAMILY MC CUMBER REMINGTON 031.

An attractive, big-bodied, naturally thick daughter of Edge of Glory. 1126 is a thick, high volume female that combines it with femininity and length. She is a 3/4 sister to the lead heifer B Pride 184 of Mc Cumber. I really like the type and kind that Edge of Glory sires and the future of his daughters as cows is bright. The dam of 1126 is a tank. She is a moderate, big-ribbed, naturally thick daughter of Mc Cumber Titanium 3127 with excellent udder structure. Top brood cow prospect that comes in a powerful, attractive package.

A stout, well-balanced, attractive daughter of Memento with power, performance and maternal quality bred in. 1207 is not only made-well, deep ribbed and thick, but she has performed well across the board. Her high performance, big-bodied, naturally thick, pathfinder dam is neat uddered and good footed. She never fails to bring in a good one and is produced by a long-lasting, near perfect uddered 15 year old 004 daughter that has one son working for Chapman Cattle Company in Alberta and several daughters retained here within our program. We have a full sister to 1207 that just calved and is impressive with impeccable udder structure, perfect mothering instinct and an easy going disposition.

A pretty, long bodied, good-performing Tribute daughter that combines the best from the B Pride and Lassie cow families. 1190 is feminine fronted, deep-ribbed with plenty of natural thickness. She sound structured, good footed and easy going. Her dam is a big-bodied, near perfect uddered daughter of Mc Cumber Titanium 3127 and a flush sister to the pathfinder, donor dam B Pride 6187 of Mc Cumber. Don't think that just because there are quite a few Tributes in the sale that we don't like them. They are outstanding females. We just had 40 yearling Tribute heifers and just can't keep them all.

A royally bred daughter of Chapman Memento 7601E with the cow power behind her to positively impact any program. A good performing daughter of Memento produced from a full sister to the 1005 heifer selling in this sale. Her dam is a pretty, naturally thick daughter of 5005, with perfect udder structure and teat placement. In addition she is earning a top production record and has been extremely fertile as well. We are thrilled with the Memento daughters and this one is backed by the unrivaled Miss Wix cow family.

A Tribute daughter with thickness, rib shape, and a good disposition. 127 is deep bodied, naturally thick and has cow written all over her. The Tribute daughters are very impressive with impeccable udder quality, mothering instincts and productivity. Its really hard to let any of them go. 127's dam is a powerful, easy fleshing daughter of Mc Cumber Fortunate 307 with a perfect record for fertility. She calves early every year and exhibits the fleshing ability, fertility, and soundness we desire.

An impressive Armour daughter that displays everything we look for in a top cow prospect. 1177 is a beautiful, long fronted female with rib-shape, and natural thickness. On top of this she has performed at every measure and displays the impeccable soundness and structure Armour consistently passes on. Her dam is a stout, powerful Big Time daughter with a neat, well-attached udder and wonderful disposition. She always brings in a good one and traces directly to Miss Wix 2022 of Mc Cumber. This mating combination never fails to produce a good one and 1177 is one of the best Armour daughters we have produced. She has donor potential and descends from a line of productive, fertile, long-lasting Miss Wix females. The young Armour daughters are making excellent cows with the look we desire and udder quality, foot structure and fleshing ease we strive to produce. Sale highlight and one that probably should not be offered for sale.

A bit bigger framed Armour daughter with added length and a big, wide, square hip. She is a top-weaning heifer earning a WWR of 106. She is free moving, good footed and feminine fronted. Her dam is a stout, easy fleshing, naturally thick daughter of Fortunate Son produced from the Rosetta cow family. An eye-catcher by Armour that will be the fertile, productive, easy fleshing kind.

Thick, stout, deep-ribbed Memento daughter that combines power with soundness, structure and hoof quality. 173 is bred to work in any environment and her productive, fertile dam gets the job done every year. She is a grand daughter of Miss Wix 5139 of Mc Cumber, the longtime, pathfinder donor dam of Mc Cumber Fortunate 213. Generations of fertility, longevity, and adaptability bred into this good heifer.

A powerful, big-bodied Tribute daughter with thickness and mass. She is built like one that will thrive on forage and maintain condition in the toughest environments. She really performed post-weaning and earned a YWR of 103. Her dam is a stout, high-volume, thick-made daughter of Mc Cumber Fortunate 307. She has a perfect record for fertility, never missing to the first service AI. Due to the limited amount of semen available on Tribute, this will be the last year we will be able to offer a large number of Tribute daughters. They are an impressive sire group of females and the kind that will have a lasting impact on our program.

A long-bodied, feminine fronted, sound structured daughter of Chapman Memento 7601. She is deep ribbed, and naturally thick. She stands down on good feet and legs and moves out free and easy as she travels the pen. Her dam is a top daughter of Mc Cumber Tremendous 2008 that traces back to the dam of 5005, Miss Wix 7126 of Mc Cumber.

Another Edge of Glory daughter that really weaned off well with a WWR of 106 and she combines it with length, depth and natural thickness. Edge of Glory is not only proving himself here, but resides at Diamond 7 Angus Ranch in New Mexico where he is doing an excellent job as well. Built right with the bred in fleshing ease, and forage conversion to move a program forward.

133 is the result of a favorite mating combination. Tribute on the Mc Cumber Titanium 5005 daughters never fails to produce moderate, thick, deep ribbed progeny with performance and the body type that will work in any environment. 133 fits the mold. Moderate, high volume, easy fleshing and sound structured with plenty of performance. A new generation female with the maternal quality and proven, time-tested genetics to make a positive impact on any program.

A long-bodied, pretty heifer with plenty of rib and natural thickness. 1202 is long striding, wide-based and square hipped. She has the brood cow look with extension to her front and the body width and dimension to convert forage. Her dam is a productive, fertile daughter of Mc Cumber Fortunate 213 with a neat udder and excellent record for fertility. 1202 represents a new sire group that we are anxiously anticipating adding to our program.

A stout, feminine, thick-made daughter of Memento. The first Memento daughters have calved here and are really good young females. They have impeccable udder structure, excellent mothering ability and a disposition that allows you to handle their calves without any trouble. Her dam is a beautiful, perfect uddered daughter of Mc Cumber Fortunate 307 with good feet and a perfect record for fertility. She has never missed to first service AI. A daughter is the dam to the herd bull prospect by Armour, Mc Cumber Armour 136.

# HEIFERS

## COMMERCIAL HEIFER CALVES

The heifers are the younger end of our calf crop. They are all purebred Angus heifers and were all raised right here on the Ranch. I think you will appreciate the uniformity of the group and would expect these heifers to become moderate, easy fleshing females with the ability to work in any environment. In an effort, to provide our commercial customers with the opportunity to purchase females these heifers will not sell with registration papers. They have been managed exactly the same as the Registered heifers selling in this sale as well as the replacement heifers we are retaining. Many of the heifers have already been cycling, but we will have them vet checked open and breedable prior to the sale. Selling in groups of 5 or more by numerical gate cut.
