"Our Customers Make the Difference"

98 Bulls • 12 Bred Cows • 5 Open Heifers FEBRUARY 10, 2021

1 PM • Double M Sale Facility, Stanfield, OR

The Double M Sale Facility is located at 30256 Stanfield Meadows Road, Stanfield, OR 97875. Directions: Take Exit 182 off of Interstate 84. Turn North, then take the first right onto Stanfield Meadows Rd. Second driveway on the right.

Bull & Female Buyer Information

Auctioneer:

C.D. "Butch" Booker

Mobile: (509) 989-2855

<http://www.LiveAuctions.tv>

LIVESTOCK PUBLICATION REPRESENTATIVES:

Logan Ipsen, <i>Western Livestock Journal</i>	(916) 947-2392
Rod Wesselman, <i>Wesselman Livestock</i>	(509) 765-9219
Jared Patterson, <i>Angus Journal</i>	(208) 312-2386

SALE DAY PHONES:

(541) 379-0632 - Cell, Devin
(541) 449-3558 - Ranch
(541) 377-2558 - Cell, Richard

SALE LOCATION:

Double M Sale Facility
30256 Stanfield Meadows Rd., Stanfield, OR 97875.

Directions: Take Exit 182 off of Interstate 84. Turn North, then take the first right onto Stanfield Meadows Rd. Second driveway on the right.

ABSENTEE BIDDER INFORMATION:

Buyers that cannot attend the sale may call Meadow Acres Angus Ranch and leave a bid for the lot they wish to purchase. If buyer is not satisfied 100% with the purchase, you won't own it. This is a guarantee to any buyer.

TERMS & CONDITIONS OF SALE:

All cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). Supplemental sheets to the sale will take precedence over information listed in the sale book.

LOT NUMBERS:

Lot numbers on animals selling will correspond with the sale book.

DELIVERY OF SALE CATTLE:

Free delivery on sale cattle up to 300 miles (bulls only, females delivered at cost). Anything over will be done at cost. All cattle will be delivered at the buyer's risk within a reasonable length of time after the sale. Pick cattle up sale day and receive a \$50 credit.

FEED ARRANGEMENTS:

Free feed until March 1. Then feeding will be charged to buyer at normal rate.

BREEDING INFORMATION:

We guarantee that all breeding cattle sold by Meadow Acres Angus Ranch, both bulls and females, are fertile to the best of our knowledge. If a bull is injured at any time in the first year breeding season so as to make them functionally infertile, we will provide you with a satisfactory replacement (if available), or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull. If a female is determined to be a non-breeder, then we would ask you to sell her and would offer you the difference of her purchase price minus the salvage value as credit in any future Meadow Acres Angus Ranch sale. All credit is good, use at next year's sale. We would simply ask you to contact us before you cull your infertile animal.

This is not a life insurance policy, however. We will not replace a dead animal if it is killed or dies for any reason. We would suggest that normal care still needs to be exercised toward these animals and that particularly the yearling bulls not be allowed to get thin.

HERD HEALTH:

Meadow Acres Ranch has tested BVD Free. All cattle will be accompanied by proper health certificates for immediate shipment. All females born at Meadow Acres Angus Ranch have been brucellosis vaccinated. Cattle offered for sale have been vaccinated with 8 Way, Multimin, Enforce3 and Bovishield Gold 5 and Ivomec Pour On at branding and weaning.

MARKETING OPTION - CALF BUY BACK PROGRAM

Contact: Devin Correa (541) 379-0632

REVENUE SHARING:

Meadow Acres Angus Ranch will be retaining one-third semen interest in every bull selling. Buyer will have full possession and salvage value of the bull.

ACCOMMODATIONS:

Best Western, Hermiston (541) 564-0202
Oxford Suites, Hermiston (541) 567-8000
Comfort Inn & Suites, Hermiston (541) 564-5991

LUNCH:

A complimentary steak lunch will be served on sale day starting at 12. Coffee and donuts will be available in the morning.

SALE OFFERING:

Cattle may be viewed at the ranch any time prior to the sale.

LIABILITY:

All persons who attend this sale do so at their own risk, legal or otherwise. Meadow Acres Angus Ranch and their staff assume no liability for property loss or accidents that may occur.

ANGUS MEDIA

Visit the Angus Journal® Website, www.angus.org, and view this sale book online. Welcome to the Sale...

The Correa Family

Dear Cattlemen and Cattlewomen,

We welcome you to the upcoming Meadow Acres Angus Ranch production sale. The offering consists of bulls (ETs), bred cows, pairs, and 5 elite AI open heifers. The bulls have been BVD tested, ultra-sounded, semen tested, groomed, Angus GS tested, and freeze branded for easy identification for our valued customers. We look forward to seeing our customers and friends along with meeting some new customers and learning more about your operation.

We are very proud of the offering this year, and from top to bottom this is a great set of cattle to choose from. We are committed to raising cattle that are balanced and staying the course for maternal, moderate, and structural soundness. Our emphasis is high on maternal, to create great mother cows, not terminal cattle that won't hold up in the real world.

We have had many customers tell us our bulls are leaving a great set of replacement heifers, and also lasting extra years for their operations. (Great to hear!) We understand that customer satisfaction and service are a top priority and we back every animal 100%. This is a people business and our commitment to you goes beyond the cattle. We appreciate you taking the time to travel to our sale and invest in our program as the maternal power runs deep here.

The sale will be on Live Auctions TV and videos will be available for the bulls. Please join us February 10th, 2021 for our 19th sale. If you have questions, please contact us.

[illegible]

In Loving Memory of
Cathey Jeanne Correa

BREEDING INFORMATION: We guarantee that all breeding cattle sold by Meadow Acres Angus Ranch, both bulls and females, are fertile to the best of our knowledge. If a bull is injured at any time in the first year breeding season so as to make them functionally infertile, we will provide you with a satisfactory replacement (if available), or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull. If a female is determined to be a non-breeder, then we would ask you to sell her and would offer you the difference of her purchase price minus the salvage value as credit in any future Meadow Acres Angus Ranch sale. All credit is good, use at next year's sale. We would simply ask you to contact us before you cull your infertile animal.

This is not a life insurance policy, however. We will not replace a dead animal if it is killed or dies for any reason. We would suggest that normal care still needs to be exercised toward these animals and that particularly the yearling bulls not be allowed to get thin.

www.meadowacresangus.com

**DELIVERY OF SALE
CATTLE:**

Free delivery on sale cattle up to 300 miles (bulls only, females delivered at cost). Anything over will be done at cost. All cattle will be delivered at the buyer's risk within a reasonable length of time after the sale. Pick cattle up sale day and receive a \$50 credit.

EXPLANATION OF EPDs

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

GROWTH

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Residual Average Daily Gain (RADG), feed efficiency expressed in pounds per day, is a predictor of a sire's genetic ability for post-weaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

Dry Matter Intake (DMI), expressed in pounds per day, is a predictor of difference in transmitting ability for feed intake during the post-weaning phase, compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Docility (DOC), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves.

MATERNAL

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

CARCASS

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

\$Value indexes, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Maternal Value (\$M), an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

Combined Value (\$C), an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd.

ANGUSGSSM

Powered by Neogen GeneSeek

FOR ANGUS. BY ANGUS.

Created by Angus Genetics Inc. (AGI) and powered by Neogen GeneSeek, our sale cattle have been tested with the first DNA profile designed specifically for Angus cattle, Angus GSSM.

Each marker is intentionally chosen from the Angus genome to drive the Angus breed into the future. It offers maximum accuracy for genomically enhanced EPDs at great value. Testing heifer and bull calves ultimately allows you to reap the benefits of faster genetic gain in your commercial herd. With Angus GS, it's all about you, our customer.
