Sale Order

Bulls will sell in Lot order.

Inspection

Bulls are on feed at Midland Bull Test and are available for inspection at any time prior to the sale. The bulls will be sorted into Display Pens in Lot Order the day before the sale.

Videos

View videos of the bulls at www.liveauctions.tv or BasinAngus.com

Health & Fertility

All bulls are guaranteed breeders and have passed a breeding soundness exam, including a semen test, performed by Dr. Bryan Roe.

Additional Information

Scrotal measurements, ultrasound data, DNA Data, and updated EPDs will be available sale day.

Delivery

Bulls will be delivered free within 500 miles. Additional delivery beyond 500 miles will be charged at cost. Buyers that pick up bulls on sale day, or within three days following the sale, will receive a discount of \$50 per bull.

Retained Interest

We are retaining a semen interest in several of the bulls. A complete list will be available sale day. Any semen collection on these bulls will be arranged to not interfere with the buyer's natural service use of the bull. The buyer will own full possession of the bull and the right to all salvage value.

Feed Arrangements

We will deliver bulls within the two weeks following the sale. For buyers that need later delivery, arrangements can be made to leave the bulls longer, and Midland Bull Test will bill those buyers for feed from April 1st until delivery.

Guarantee

Bulls selling for \$3,000 or more are guaranteed for the first breeding season. If a bull is injured, and will be unable to return to service:

1. A suitable replacement bull will be provided if available, or
2. Buyer will receive credit toward purchase of a bull in our next sale, calculated as the difference between the purchase price and salvage value of the injured bull. Bull injury must be diagnosed by a veterinarian. Please notify one of us before the bull is salvaged.

Terms & Conditions

Cattle sell under the terms and conditions recommended by the American Angus Association.

Liability

All persons attending the sale do so at their own risk. Montana Performance Bull Co-op and Midland Bull Test assumes no liability, legal or otherwise, for any accidents which may occur.

Calving Ease Scores

We have evaluated the bulls for Calving Ease using a number of factors including: CED and BW EPDs, actual BW, pedigree history and phenotype.

Four Star – Excellent Calving Ease. Use with confidence on any type of heifers. Top 25% of the breed for CED EPD along with BW EPD, actual BW and pedigree for superior calving ease.

Three Star – Good Calving Ease. Should work with most heifers and in most situations. Top 50% of the breed for CED EPD along with acceptable BW EPD, actual BW and pedigree for most calving situations.

Two Star – Moderate Calving Ease. Most people will use these bulls on cows, but they can be used on heifers if calving ease is of less concern.

One Star – We recommend these bulls for use on cows.

Fellow Cattlemen,

Welcome to our annual bull sale on Friday, March 20, 2020 at Midland Bull Test Center near Columbus, Montana. This year we are offering 160 top quality yearling Angus bulls.

The primary goal in our Herd Sire selection is to continually improve our cow herds- maintaining productive, functional and efficient females. As long as we continue to improve our cow herds, the bulls we produce will be the right kind.

Whether you are looking for quality bulls to use on virgin heifers, power herd bulls to add weight at weaning, or bulls to add extra end-product value, we have the bulls you are looking for. Over 100 of the bulls are suitable for use on heifers, but most every bull has the performance needed to use on cows. This sale offering includes bulls with some of the strongest growth and carcass EPDs that will be offered in Montana this year, while maintaining excellent maternal strength.

The bulls have been fed together at Midland Bull Test Center, on a relatively low energy growing ration. We feed for a level of gain that is enough to identify the differences in genetic potential for growth, but limited to keep the bulls sound, more fertile, better prepared to go to work, and developed to last, as compared to an overfed yearling bull.

The bulls are available for inspection at any time. On the day before the sale, we will have the bulls moved into the display pens by noon. We invite you to join us that day to view the bulls, visit, and enjoy some refreshments.

We hope to see you on sale day, however, we realize that is not always possible. For those unable to attend in person, there will be several ways to participate. Kate Roberts has videoed the bulls, and will handle bids through the Live Auction internet system on sale day. Details about viewing the videos, or bidding online can be found in the back of the book. All of the consignors will be available to assist you in making your bull selections. In addition, there will be a number of Sale Representatives available to handle a bid for you. If we can be of any assistance, please give us a call.

Sincerely,

The Consignors

Three Star Calving Ease.

Maternal Weaned Calf Value (\$M), predicts profitability differences from conception to weaning for a herd that is retaining replacement females. Traits included in the index are calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight and foot score EPDs.

Weaned Calf Value (\$W), is the expected average difference in future progeny value for pre-weaning performance.

Beef Value (\$B), is the expected average difference in future progeny for post-weaning and carcass value compared to progeny of other sires.

Maternal Weaned Calf Value (\$M), predicts profitability differences from conception to weaning for a herd that is retaining replacement females. Traits included in the index are calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight and foot score EPDs.

Weaned Calf Value (\$W), is the expected average difference in future progeny value for pre-weaning performance.

Beef Value (\$B), is the expected average difference in future progeny for post-weaning and carcass value compared to progeny of other sires.

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand. Only 3 in 10 non-parent Angus bulls meet the Targeting the Brand genetic requirements.

Minimum Genetic Requirements

	Value
Marbling EPD (Marb)	+0.54
Dollar Grid Carcass Index (\$G)	+46.0

For more information on Targeting the Brand™ visit CABcattle.com.
