57th Annual Production Sale

Greetings,

We are thrilled once again to extend a warm welcome to you to the Mrnak Ranch 57th Annual Production Sale. Reflecting on the past year, this winter has brought a refreshing change from the challenges of the previous one. Fortunately, we've experienced a mild winter, requiring fewer inputs for our cows still foraging and resulting in increased gains in the feedlot. In stark contrast to the winter of 2023, where we used over 300 bales of bedding for sale bulls and replacement cattle around the yard, our bedding stacks remain untouched as of January 1st.

Residing in the northern tier of the country, we understand the significance of timely rains to produce sufficient grass and crops to sustain our cowherd. This year has blessed us with just that—enough rain to keep the grass green, the hay crop thriving, and one of the best overall harvests in recent memory.

As producers, it's exciting to witness top-end cattle markets reaching near-record highs. Knowing that there is a robust demand for the beef we raise is a great incentive and motivation for us to continue producing the best possible product.

Our primary goal is to raise high-quality seedstock, providing our customers with reliable genetics that yield offspring that is vigorous at birth, efficient in converting grass to high weaning weights, all while exhibiting a phenotype that one can take pride in having in their pasture. We firmly believe that maintaining a problem-free cow herd is the key to achieving this goal. Our cows undergo constant evaluation for efficiency, sound feet and legs, and udders that require no assistance. We are dedicated to the Hereford Breed and committed to maintaining a cow herd capable of producing sound, functional, and uniform offspring.

This group of bulls is, in our opinion, as solid from top to bottom as we have ever offered. Once again, these bulls have been raised slowly as yearlings and developed throughout the summer on grass. Regular culling occurs multiple times a year based on structure, disposition, performance, and phenotype.

In recent breeding seasons, we have strategically selected top-end yearling bulls for natural service, anticipating the production of replacement females and cutting-edge performance-driven genetics for robust, sturdy bulls. We believe that utilizing bulls raised within our own program truly builds a cohesive and successful breeding "Program."

Thank you for considering our offerings, and we look forward to your participation in our 57th Annual Production Sale.

Best Regards,

The Mrnaks

— Terms & Conditions —

- All terms will be cash unless credit is arranged before the sale.
- Each animal will be sold to the highest bidder. Bidding disputes will be settled by the aucitoneer.
- Health Certificates will be furnished.
- Animals sold will be fed and cared for at purchaser's risk for a reasonable length of time, or will be loaded and shipped as instructed.
- Bulls are guaranteed breeders. All claims must be submitted in writing to seller within eight months of sale date, along with semen evaluation and health report, at buyer's expense, from veterinarian. Seller shall have the privilege of trying bull after his return before making any adjustment. This guarantee is void if there is evidence of improper management in caring for the animal or the bull's inability to breed is due to sickness or injury which incurred after being sold.
- According to information available from the American Hereford Association and from our own experience, all our registered cattle in this sale are I.E. and diluter free. No further guarantee is implied.
- Any changes of information as it appears in this catalog will be announced at time of sale and such announcements will take precedence over printed matter in this catalog.
- HEALTH: These bulls are from a herd free from any known infections or contagious diseases or physical abnormalities. Dr. Johnson of West River Vet Clinic has been in charge of the health of the herd.

— Delivery —

Free delivery within a 500 mile radius. We will work out transportation arrangements for anyone, nationwide and internationally. Delivery will take place in February and March unless special arrangements are made. No delivery on commercial lots, but we will coordinate transportation for buyer if necessary. All cattle left at Mrnak's to feed must be fully insured.

— Guarantee —

As always the bulls are fully guaranteed to be sound breeders for the first breeding season. Additionally, all females are guaranteed to be breeders under the guidelines of the American Hereford Association.

- What We Do -

At the Mrnak Ranch, we strive to be more than a seedstock operation. We are continually building a diverse farming, ranching and feeding operation that functions full circle to support each endeavor. Our embryo transfer program helps us ensure consistency in our cows and sale bulls. We carefully select proven cows with key breed characteristics from our program that will play a vital role in the future of Mrnak Genetics.

Beyond our registered Hereford cattle, we manage commercial cows that play a crucial role in our Embryo Transfer program. This initiative produces F1 Baldie heifers and ranch-raised steers that we raise and finish in our feeding program, providing us crucial data to allow us to have first-hand knowledge of how our genetics perform efficiently in the feedlot and how the carcasses perform on the rail.

We take pride in finishing cattle from various sources – whether from our customers or those bred right here on the ranch. Our self-sufficiency extends to our feed and cash crops, producing corn, wheat, barley, canola, and alfalfa planted in the spring.

Our dedicated team, whom we consider family, is vital to our success. Our operation does not function without the dedication and efforts of this group.

- The Beefmaker sire group will certainly catch your eye in this year's sale. 250G is a proven herd sire that adds performance and carcass to every calf. While judging the National Pen Show in Oklahoma City, this bull walked into the ring and I knew we had to own him. He leads the Hereford breed in 10 traits and has as much style, power and eye-appeal as any bull walking. His offspring are direct replicas of what we hoped he would produce and his genetics are certain to work in any program in the country. Owned with Stuber Herefords, North Dakota. 10 Sons and 3 Top Females Sell.

• Red Time 708 really caught our eye at the Black Hills Stock Show in 2019. He is a Bohannon son that 7M Ranch in Nebraska raised. Red Time is long bodied, deep ribbed, and stands on extra bone. We have been excited about this group of bulls since birth, and we are excited that he is part of our breeding program. His sons are deep bodied, stout made and very correct in their structure. We feel there could be some top Herd Bull prospects in this sire group. 8 Sons Sell.

• Gunsmoke 126G came from Craig and Carrie Braun in Simmie, Saskatchewan. Gunsmoke was purchased for his outcross pedigree and his Herd Bull look. He passes on a beautiful mossy hair coat with abundant bone and a deep heeled sound foot. Gunsmoke is moderate in size. He will lengthen and add red meat to a set of feeder calves along with leaving behind an exceptional set of replacement females. We are anxiously waiting his first set of bred heifers to calve this spring. He comes from a long line of females that have ideal udders and longevity in their pedigrees. 2 Sons Sell.

- 4013 is a proven sire in the Hereford breed as he is a trait leader across the board and adds depth, muscle expression and style to boot. He ranks in the top 1% in the breed for Weaning and Yearling Weight as well as \$CHB. In addition to the power that you will see in the bulls in this sale, the females that we have at home are nothing short of impressive. 4 Sons and 1 Bred Heifer Sell.

- This red-eyed short marked bull is a direct son of our very popular Red Time 708 herd sire and 308 donor cow. 073 has been our "go-to" herd sire that adds performance and maintains calving ease in our fall program with Brock Nichols in South Dakota. In addition to this year's offering, the 2025 sale will have an exciting selection of 073 offspring. 3 Sons Sell.

- Slingshot is a Catapult son that is the sire of this tremendous offering of Fall Bulls. 729 is out of one of the most familiar Mrnak pedigrees as he goes back an MH Dakota 0230 granddaughter that was a staple Donor Female in our program for many years. All of the 729 fall bulls in this sale are well marked, good structured, and carry power to the ground. Owned with Brock and Ryan Nichols. 9 Sons Sell.

ECR AL REE HEIGHTS 3003 ET — SIRE TO 551

- MH Miss Ree Heights 551 has proven to be a "Once in a Generation" female and will continue to plant her roots deeper into our program for years to come. As you will notice, 13 of her sons are in this sale and 11 of them are in the top 20. She is as consistent of a breeder as we have ever produced and she carries power, performance, and style into each of her calves, regardless of the sire that she is paired with. She is a feminine, moderate framed, eye-catching female that has produced over 60 top producing offspring including 25 females that are currently in production at the Mrnak Ranch. We can't say enough about the consistency of this top Donor Cow and we are confident in the quality of calves that her sons will produce for you.
- At the Mrnak Ranch, we believe in this female enough to extensively lead our donor pen and use multiple sons to cover our absolute top registered cows including Lots 1 through 5.

- Beefmaker 2541 really has all the bells and whistles. His sire Beefmaker 250G is one that we acquired from Whitehawk Ranch to focus on carcass and performance while maintaining maternal basics. This bull offers tremendous balance and depth of rib. He is a sound, free moving athletic bull that is as gentle and docile as they come. Lot 2 is an absolute "Herd Bull" candidate that is a breed trait leader in WW, YW, Milk, REA, and \$CHB.
- Full brother to Lots 4, 15, 53, and full sisters sell as Lots 115 and 117
- Mrnak Ranch will retain a ½ interest and ½ possession

— Fall Yearling Bulls —

The Fall yearling bulls, were born and raised until weaning with Brock Nichols and his family near Willow Lake, South Dakota. This partnership, friendship, and collaborative effort has deep roots, dating back to 1999 when we seized the opportunity to acquire the entire cow herd from his grandfather, Harrold Carswell.

Post-weaning, these bulls are brought back to the Mrnak Ranch to be developed along side the rest of our summer cattle. Maintaining a fall herd has proven to be a tremendous strategic decision for us. It not only allows us to utilize sires that excite us with spring-born calves but also affords the opportunity to employ them for a second breeding season in the fall.

This synergy between our operations, spanning over two decades, has been instrumental in the success of our breeding program. The dedication and expertise of the Nichols family contribute significantly to the quality and development of these exceptional Fall yearling bulls.

• Scurred

This logo highlights animals that have been genotyped through the AHA official DNA lab. That genotype will be used along with pedigree, phenotypic and progeny information for a more reliable EPD.

MATERNAL ADVANTAGE

This logo identifies bulls that rank in the top 50% of the breed for the Baldy Maternal Index (BMI\$), or top 50% of the breed for Brahman Influence Index (BII\$). Commercial Hereford x British cross or Hereford x Brahman cross replacement females sired by these bulls are eligible to be enrolled in the Maternal Advantage program.

HEREFORD ADVANTAGE

This logo identifies bulls that rank in the top 50% of the breed for the Certified Hereford Beef Index (CHBS\$). Feeder cattle sired by these bulls are eligible to be enrolled in the Hereford Advantage program through IMI Global.

— Matrons in the Making —

Since the initiation of the “Matrons in the Making” sale at Mrnak Ranch in 2020, we have been meticulously choosing top-tier females from our program and making them available to producers nationwide. This year, we have decided to feature the Hereford bred heifers in our production sale.

Outlined below are the eight elite females that epitomize the pinnacle of the Mrnak Maternal program. Each of these individuals can be traced back to the most distinguished cows in our program, including the 551, 0142, and 9122 donors. Collectively, this group possesses a combination of structural soundness and broody maternal excellence, with generations of stacked maternal genetics in their pedigrees.

- 216 is out of a first calf heifer and is one extremely long made, broody, big volumed female that when set into motion strides with ease. She might have as much spring of rib as anything in the bred heifer division. We really like the pigment and short markings of this female.
- Bred to MH Red Time 073 for March 7 - April 7

— Commercial Open Baldy Heifers —

We take great pride in presenting this exceptional collection of F1 Black Baldy heifers, sourced from some of the finest cattle operations in our area. This year's offering comes from Ryan and Lynelle Jacobson, Eric and Andrea Bowman, Ron and Shirley Buckman, Rourke and Rhonda McPeters, and Ernie and Nell Buckman. We are sincerely thankful for their partnership, and we eagerly anticipate continued collaboration in the years to come.

These top-tier replacement heifers represent a culmination of quality breeding and dedication to the industry from each of these respected operations. All the heifers are bangs vaccinated, calf-hood vaccinated, poured multiple times and fertility inspected to ensure that they will be sound breeders. All the heifers will be inspected and culled for disposition, untrue markings and uniformity.

Ryan and Lynelle Jacobson

The Jacobson family have been supporters and friends of our operation for many years. Ryan and Lynelle always bring a uniform set of heifers that are out of premium Angus cows and Mrnak Hereford bulls. Ryan and Lynelle operate north of Rhame, ND on some of the most scenic and productive grass in western North Dakota. These heifers are going to be March-April born and weigh around 775 lbs. Ryan Jacobson: 701-206-0030

Ryan and Lynelle Jacobson – Offering 30 head

HEAD COUNT	PRICE	BUYER NUMBER

Eric and Andrea Bowman

The Bowmans' are new to the Hereford bull buying business. They predominately raise Registered Angus Cows and sell a tremendous set of yearling Angus bulls in February. Eric and Andrea are using Hereford bulls to clean up their AI registered cows along with a select group of Angus commercial females. These heifers were born in March-April and will weigh around 800 lbs. and will not be carrying a brand. Bowmans host their Annual Production Sale on Thursday, February 8th at the ranch 1 mile south of Rhame, North Dakota. Eric Bowman: 701-440-0278

Eric and Andrea Bowman – Offering 20 head

HEAD COUNT	PRICE	BUYER NUMBER

— Commercial Open Baldy Heifers —

Ernie and Nell Buckman

Ernie and Nell Buckman run a cow-calf operation north of Belfield, North Dakota. Their cow herd consists of a uniform set of Angus based females. They run a moderate cowherd with emphasis on disposition, fleshing ability and longevity. This set of females were weaned on November 3rd with an actual average weight of 627 lbs. The full brothers are on feed here at the ranch and look outstanding. The heifers were born in March-April, are branded and will weigh around 800 lbs. on sale day.

Ernie and Nell Buckman - Offering 30 head

HEAD COUNT	PRICE	BUYER NUMBER

Ron and Shirley Buckman, Rourke and Rhonda McPeters

The Buckman family are longtime friends and supporters of our program. Ron and Shirley live near South Heart, North Dakota and, along with Rourke and Rhonda, run cows east of Fairfield, North Dakota. We have been buying and finishing their steers for the last 6 years and have had tremendous success. This set of heifers was born predominately in April and were weaned in November. The Buckmans run both Hereford and Angus cows and separately breed them to make front end F1 baldies. Ron has sourced many of his Hereford cows as bred females from here on the ranch, and consistently purchases front end bulls, including last year's top bull in our sale. These heifers will weigh around 800 lbs. and are carrying a brand.

Ron and Shirley Buckman - Offering 80 head

HEAD COUNT	PRICE	BUYER NUMBER

Mrnak Ranch

This set of baldy heifers are born out of cows in our ET recipient program that don't get an embryo. The heifers are all out of Angus cows bred to Hereford bulls that we move to our commercial herd after they are done being utilized on registered cows. Most of these females are born April-early May. They are not branded and will weigh around 775 lbs.

Mrnak Ranch - Offering 45 head

HEAD COUNT	PRICE	BUYER NUMBER

— Charolais Offering —

Although we are 100% committed to continually build our Hereford Program, we appreciate a good one no matter what color they are. While on a trip looking at cattle we stumbled upon a Charolais heifer that we were blown away by. Her balance, rib shape, depth of flank, femineity, and structural correctness are everything we strive to produce in the Hereford business but, this one was white. After much deliberation, we decided to purchase this female who is pictured below and is affectionately called CeCe. Later that fall we had the opportunity to purchase CeCe's mother, Firefly, in CK Cattle's Fall Production Sale.

In 2022, while exhibiting our first pen of Charolais heifers at the National Western Stock Show, which was named Reserve Champion Pen of Heifers, we purchased Jasmine. We also purchased a select group of the top females from the Honeyman Charolais Dispersion Sale in December. We are now firmly in the Charolais business. We think that the 3-way cross of Charolais back on the baldy female is the best performance mating. The hybrid vigor of this cross complements the Hereford-Angus cross perfectly. The bull pictured below is a flush mate to the Reserve Champion Pen of Heifers in Denver and sold to a longtime customer in Arizona who uses them in a 3-way cross back on baldy cows utilizing Mrnak Hereford genetics as well.

As in the Hereford breed we believe great bulls are backed by great cows. We believe we have some of the best cows in the Charolais breed producing some great Charolais bulls. Either before or after the sale we invite you to stop by the ranch to view our Private-Treaty Charolais bull offering.
