WELCOME

T O T H E O X B O W R A N C H F E M A L E S A L E

Thank you for taking the time this fall to view our female offering. We have changed to a Select Female Sale for one main reason, and that is longevity! One of our main goals has been to prove that these females will perform in rough country, but also do it year after year. We didn't think by selling our three oldest age groups every couple of years was helping us prove longevity. So, we waited three years before having another sale and hand-picked cattle in every age group that have been performing for us and offer them to you!

The Ox Bow Ranch has been known for producing a female that has a type and kind- medium frame, easy fleshing, deep bodied, with a good udder. This is the type of cattle that has been here and the type we breed for today. We wanted to test the performance a little more as well as the longevity. Prior to the pictures being taken the cattle were turned out in the mountains. Typically we will still have a bit of green grass up high in July, unfortunately that was not the case this year, nor the past two years.

Considering the tough conditions, limited watering holes, and miles traveled up and down the mountains for feed- we are really proud of their condition and how they have held up! This is the kind of testing we are talking about. The only irrigated meadow they will see is the pivot pasture below our sale facility and there won't be a feed wagon headed their way twice a day either. These cow families truly hold up in rough country.

You are going to be able to see some great examples of this in this sale. The Ox Bow Manor family has a four generation display in this offering. The Ox Bow Polly family has a five generation display and a four-generation display. The Ox Bow Blackette Lady family has the matriarch of three-generations of production that produced our \$38,000 high selling bull in 2021, OX Vindicator 0017. These cattle and their longevity are not only what we were aiming to prove but, to showcase.

We are offering aged donors, up and coming donors, great younger females, and fresh new matings that have really put a stamp on type and kind here on the ranch. You are going to be able to find full siblings and embryos out of one of the most exciting Ox Bow Ozzie daughters in production, Ox Bow Pride 553.

Additionally, this year we are excited to offer 200+ head of commercial bred heifers- some being sired by Ox Bow Ranch bulls but, all carrying the service of Ox Bow Ranch Genetics. These heifers were procured from our high reputation customers locally, and we are proud to offer them in our sale. Please stop by anytime to view the offering. And as always, feel free to contact us with any questions.

Best regards,

The Ox Bow Ranch Crew

SALE INFORMATION

MONDAY | OCTOBER 10TH 2022 | 1:00 PM (MST)

JOIN US FOR LUNCH AT 12:00 PM

LOCATION

Paved road to the sale site! The sale site is conveniently located at Ox Bow Ranch's Sentinel Rock Ranch, just off off 1-15 at Wolf Creek, then 2 miles east on Holter Lake Frontage Road. See map on back cover.

AUCTIONEER

Roger Jacobs 406-698-7686

All females marked as bred in the sale are guaranteed Pregnant. Cattle will be checked a second time prior to the sale to insure safe pregnancy.

TRUCKING

Trucking will be available. Ox Bow Ranch will help coordinate trucking arrangements if needed.

VIEW / BID ON

REFERENCE SIRES

HA OUTRIDER 9672

DOB: 2/22/2019 REG#: 19571162 TATTOO: 9672

Outrider was a bull that we purchased with Dohrmann Cattle Co. of North Dakota. He was the pick for us at the Hinman Angus Production sale and the 2nd high-selling bull. His docility, moderate stature, balance, eye appeal, wide top, muscle expression, and scrotal size caught our attention. Then when we looked at him on paper to see he was a spread bull we knew he was a bull we needed to tie to. He has worked in both of our programs which speaks volumes to Outrider's ability to sire consistently. His first progeny to sell in our 2022 bull sale averaged over \$7,000 on 19 head. Semen is available for both commercial and registered use.

OX VINDICATOR 0017

DOB: 1/15/2020 REG#: 19850595 TATTOO: 0017

Sired by the KG Ranch and GENEX sire Justified, Vindicator is the outcross Justified son that our customers are searching for. He checks all the boxes for us, especially the longevity box. His coming 10-year-old grand dam is featured as lot 23. Moderate, docile, deep-bodied, balanced, great-footed AND is in the top 10% for MARB being a +1.13- that's hard to find in moderate maternal cattle. In addition to this, he is also a spread bull and was used very successfully in big heifer projects both in Montana and Oregon. Be sure to ask us to see the videos of his progeny from our partners Desert Creek Ranch, OR. Semen is available for both commercial and registered use.

Ox Bow Manor 436 is the lead-off donor in this offering and exemplifies the kind of female we are striving for at the ranch. She has three natural-born daughters retained in our herd and has produced one son sold in our bull sale. Her second natural heifer calf that she raised is Ox Bow Manor 702, Donor sired by Ox Bow Final Answer 1304. Ox Bow Final Answer 1304 has been the standout Final Answer son raised here on the Ox Bow. His progeny expresses the length of body and deep rib shape that Ox Bow cattle are known for. 702 raised the Lot 1 bull in our 2021 Bull Sale, OX War Party 0221. She also produced another son for the 2022 Bull Sale. 702's first calf, Ox Bow Manor 9046 sells at Lot 3. 436's third female raised, OX Manor 1229, sired by HA Outrider 9672 sells at Lot 4. Her impeccable production record gave us the green light to add her to the donor pen. Here is your opportunity to add this proven donor dam to your program.

Ox Bow Manor 436 is open and ready to flush.

HOW TO PARTICIPATE ON

LiveAuctions.TV

1

CREATE AN ACCOUNT

Click "Register to Bid" on the top right corner of LiveAuctions.tv. Fill out the required information to bid online. Agree to the terms of service and finish with the "register" button.

2

REGISTER FOR A BUYER NUMBER

From the home page or the "all auctions" page, choose the sale you're interested in. Once selected, click the "request a buyer number" button. Verify your email address with the email verification link. To verify your mobile number, click "send token". Follow the steps to authorize your mobile device and click "submit".

3

BID SUCCESSFULLY

You will only have to complete the two-step verification process one time. After that, you will be able to immediately request a buyer number on any auction without verification. If you're a winning bidder, your lots will appear in your cart on the bottom of your screen. You will be contacted by the ranch or sale manager for your payment and shipping plans.

REFERENCE SIRES

SQUARE B ATLANTIS 8060

DOB: 8/24/2018 REG#: 19405249 TATTOO: 8060

Square B Atlantis 8060 is a bull we wanted to use as soon as we laid eyes on him. His progeny sales across the country and in our sales have been tremendous. We appreciate the balance, squareness of his hip, and how high his neck comes out of the top of his shoulder. This is the look we are searching for. But it's not just his look. He also offers a frame size we appreciate all while improving carcass traits in a maternal package that we strive to produce.

MYTTY RESOURCE 7701

DOB: 4/27/2017 REG#: 19060594 TATTOO: 7701

When you're at the ranch you need to see this bull! He has the look and presence of a herd bull, never misses a step, and always looks like he's on full feed. 7701 was the high-selling bull purchased in the last Mytty Angus bull sale in 2018. He has the added length, depth of body, maternal power, and sheer mass that you like to see in cattle all while standing on a big stout foot that is hard to find in Angus cattle these days. He was the standout embryo calf of the 2017 calf crop and never took his foot off the pedal. Mytty Blackcap 87R daughters always came to the top for performance and look. One of her daughters, 104U, the Pathfinder dam of the GENEX sire Mytty Source 4082 would certainly be one of them. Being a direct son of 87R and the time-tested and proven Resource his progeny has done everything we had hoped for. They have the added pounds at weaning, length, excellent foot, and a little more frame when mated to larger cattle yet, they still are extremely deep-bodied.

DAM OF 7701

B/R MVP 5247

DOB:8/21/2015 REG#:18272672 TATTOO:5247

5247 has sired some excellent progeny in our program. As you look through the heifer calves in the offering you will see that he did a great job for us and complimented the cows' traits well. We chose him based on his moderate birth weight, good growth, scrotal circumference, foot structure, and carcass traits all while maintaining a moderate frame. If you like the heifer calves just wait until you see his bull calves.
