P.O. Box 215 • Wolf Creek, MT 59648
oxbowranch1725@gmail.com

Dear Friends,

It is a pleasure to welcome you to the Annual Ox Bow Ranch Bull Sale. At this year's sale we are offering you two year old bulls along with the yearlings. We understand that in some situations and environments, you can't manage yearling bulls as you would like. So we are going to continue to offer a selection of aged bulls in our annual sale. These bulls were selected in the fall of 2018, and raised and developed for this sale. This will be a good cross section of the bulls we sold last year, most are bigger birth weight "Cow Bulls", but there are a few calving ease heifer bulls in the group. These bulls were not held in the feedlot, they were turned out for the spring, summer, and fall.

As like last year, after calving and AI breeding we turn the cattle out in the foothills and drainages to finish up our breeding cycle, then all cattle are pushed into the mountains until September. While in the mountains for the summer, we ask the cattle to travel in steep rocky terrain, while maintaining flesh, and bring home a great calf. We wean at the beginning of September and kick the cows right back up into the mountains, until the snow pushes them out in late fall or early winter. The cows will stay out on winter pasture until calving in January.

With managing our cow herd this way, we feel that we can truly test our cattle and find the easy fleshing, productive females. We are also selecting, aggressively, for sound feet, structure, and of course udder quality. We cull what doesn't fit or work.

The bulls have been developed to maintain good structure and soundness. They are held outside from weaning to the end of December. Then they are brought in and feed a high roughage ration to prepare them for sale day. We believe this management style keeps these young growing bulls correct and sound. The yearling bulls were mated to give you a moderate, stout, clean made, easy fleshing bull that will get your heifers or cows covered, maintain condition, and sire quality calves that you are happy to pick replacements from. All the yearling bulls have been AngusGS tested and ultra-sounded, to provide you with as many tools as possible to help you make your selections.

The sale this year will be broadcasted on Superior Livestock. The bulls can be viewed on Superior Livestock, our website, or any time before the sale at the ranch. We invite you to stop by and look at the operation any time to see our program. Again if you have any questions, please give us a call. We look forward to hearing from you and seeing you at the sale, Wednesday March 4th, at the Ranch.

Best Regards,

Marc Orem

GUARANTEED BID PROGRAM-ABSENTEE BIDDING

A 100% satisfaction guarantee for cattle purchased in your absence is offered by Ox Bow Ranch if Marc Orem or John Andras assists you with your purchases.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER WITH SUPERIOR

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. *Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.*

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

**If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.*

Sale Location: Paved road to the sale site! The sale site is conveniently located at Ox Bow Ranch's Sentinel Rock Ranch just off I-15 at Wolf Creek then 2 miles east on Holter Lake Frontage Road. See map below.

Terms and Conditions: Cash. Cattle will sell under the Terms and conditions of the American Angus Association. No Cattle will leave Ox Bow Ranch until paid for in full. No cattle will be loaded out until after the sale. All bulls with potential defect carrier pedigree have been tested free.

Retained Ownership: Ox Bow Ranch is retaining 1/3 revenue sharing semen interest in all bulls. Full possession sells on all bulls.

Sight Unseen Purchases: Satisfaction guaranteed on all sight unseen purchases through the sale team.

Bids: Buyers unable to attend the sale may send or phone their bids to Marc Orem, John Andras field representatives or the auctioneer.

Fertility and Breeding Soundness: All yearling bulls will be given a breeding soundness and fertility exam after the sale, but all bulls will be guaranteed sound and fertile at the time of delivery.

Herd Health: All cattle have had a complete vaccination program prescribed by Dr. Clint Hilt. All bulls were vaccinated and received pour-on last fall. **All bulls have tested negative for persistent BVD infection.**

Delivery: Bulls will be delivered as soon as arrangements can be made. Please give delivery or pick up information at the end of sale. \$100 discount on bulls picked up sale day.

Performance Data: All performance data will be available sale day. This includes ultrasound, final weights and scrotal. Current EPDs can be viewed at www.angus.org

First Year Breeding Guarantee: Ox Bow Ranch will guarantee soundness for the first year, if any issue comes up, we will replace with an equal value bull if available or do what it takes to make it right. We stand behind our cattle!

Volume Discounts: We will offer volume discounts starting with 5 bulls at 5%, up to 10% on 10 bulls or more. Repeat customers: Repeat customers from the previous year will receive 2% discount on all bulls, this will also be added on to your volume discount if you purchase more than five bulls.

Liability: All persons attending this sale do so at their own risk and responsibility without liability on the part of the ranch owners or their employees.

Cattle Inspection: Cattle are available for inspection prior to the sale at Ox Bow Ranch's main ranch, 1 mile Northeast of Wolf Creek on Holter Lake Recreation Road then right on gravel 2.5 miles southeast. Cattle will arrive at the sale site on March 4.

Accommodations:

Numerous nice motels are available in

Helena (35 miles south) & Great Falls (58 miles north)

Comfort Suites, Helena406-495-0505

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

American Angus Association \$Value Indexes

Maternal Weaned Calf Value (\$M), an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Weaned Calf Value (\$W), an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Over time, increased selection pressure on \$W will increase weaning and maternal milk traits while also continuing to increase mature cow size.

Cow Energy Value (\$EN), an index expressed in dollars per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in future daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing \$EN savings differences include lactation energy requirements and energy costs associated with differences in mature cow size.

Feedlot Value (\$F), an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

Grid Value (\$G), an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

Beef Value (\$B), an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny post-weaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation at www.angus.org.

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k or i50k by partner Zoetis.
