PRODUCTION
SALE**

WEDNESDAY, APRIL 10, 2024

65 YEARLING BULLS

25 FALL BULLS

25 OPEN COMMERCIAL HEIFERS

LUNCH 12:00 NOON

SALE 1:00 PM

*Located 1 mile south of Wyola
on Hwy 451 or 35 miles North of Sheridan, WY*

Dear Friends and fellow Ranchers

This year's cattle market is looking to be the best one ever, with the numbers at an all time low, we could see the highest prices we've ever seen. After the nasty winter last year, the high markets are very welcome.

The cows stayed out on pasture till the first of March and look good. They are proving the efficiency that we have been striving for all these years. They survived on grass and Ag West mineral and are looking very well. The heifers in the sale will undoubtedly display all the traits their mother's displayed.

The bulls are looking good and ready to go to work. We have continually bred with high carcass traits and performance necessary to produce the kind of calf that the buyers are looking for.

We will be broadcasting the sale on Frontier Live Sale as in the past few years. You can pre-register and bid using their website at www.frontierlivesale.com. You can also place your bids with one of our ringmen.

Thank you for all your past patronage and we welcome you to come look at the bulls at your convenience. We hope to see you on April 10th and hope that everyone has a perfect calving year.

The Rathkamp Family

FRONTIER LIVE SALE

This Sale will be broadcast live on www.frontierlivesale.com. To view a sale,

1. Create an account, if you have already done so skip to next step. To create a new account, click on the word **Registration** in the upper right hand corner. You must fill out the information requested. Then click **Create Account**. An email will be sent to your email account you provided. Please click the link in the email to activate your new account.
2. Once you click the link, your account will now be activated
3. At this point, you may click **Continue To Browse Our Site**. This will allow you to view all upcoming auctions.
4. Once you see the auction you are interested in, click **Get Approved To Bid** for absentee and live bidding.
5. Please enter your information in the form. Depending on the auctioneer, different information may be requested. Click **I agree to sale terms and conditions**. Congratulations! You are now approved for the auction. Now that you're approved you can participate in the auction and bid on its items.
6. Login on sale day with the credentials provided at registration.

Call 866-313-0123 for tech help.

Lodging

Lodging is available in Hardin, Montana, Ranchester and Sheridan, Wyoming. Call us if you need additional information.

Terms and Conditions

Cattle will sell under the Standard Terms and Conditions as recommended by the American Angus Association. Terms of sale are cash.

Supplemental Information

Announcements from the auction block takes precedence over catalog information.

Liability

All persons who attend the sale do so at their own risk. Pass Creek Angus Ranch assumes no liability, legal or otherwise, for any accidents which may occur.

Breeding Soundness

All bulls passed a breeding soundness examination and semen evaluation. Dr. Matt Cherni, DVM is in charge of our herd health. Dr. Cherni will be here sale day to answer any questions, or you are welcome to contact him at 307-655-9395.

**ABOVE AVERAGE GOALS
REQUIRE TARGETED BULLS**

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the Certified Angus Beef® brand. Only 3 in 10 non-parent Angus bulls meet the Targeting the Brand genetic requirements.

<i>Minimum Genetic Requirements</i>	<i>Value</i>
Marbling EPD (Marb)	+0.54
Dollar Grid Carcass Index (\$G)	+46.0

For more information on Targeting the Brand™ visit CABcattle.com.

Guarantee

All bulls selling for \$4,000 or more will be covered against breeding injury for 50% of value by Pass Creek Angus if they are injured during the first breeding season. Breeding season is defined as a 90 day period following the first turn out of the bull. In case of a loss:

1. Notify Pass Creek Angus as soon as possible.
2. Verify the injury with a veterinarian; we may seek a second opinion.
3. Credit minus salvage value will be issued or a replacement bull can be supplied, if available.
4. A copy of the salvage value will be required.
5. Credit is good at any Pass Creek Angus sale and does not expire.
6. This guarantee does not cover death.
7. All claims must be made before September 1, 2024.

Discount

A \$40 rebate per bull will be given if buyer picks up bull on sale day only. Arrangements available to feed bulls until pickup can be made.

Registration Papers

All *registered bulls* will be transferred at no charge to Buyers.

Delivery

Free delivery of bulls Only up to 350 miles, balance at cost. Delivery begins April 16th, 2024.

In the event that you will not be able to take your bulls by April 16th, we can make arrangement to feed them until May 1st at a cost of \$2.50 per day.

Absentee Bidding

If for any reason you are unable to attend the sale, you may contact us with your requirements in a bull and we will send you a list of bulls that fit your needs and then contact one of our Sale Representatives with your bid(s) and they will do their best to get them bought for you. You may also pre-register for a buyer number by calling us and then bid from the comfort of your home by phone with one of our Sale Representatives. We have a "Sight Unseen" Guarantee on all bulls purchased in this manner. If you don't like 'em, you don't own 'em.

All bulls are semen tested and ultrasounded.

Whole herd tested PI BVD free!!

The bulls are at the ranch so please feel free to stop by anytime and preview. If you have any questions or just want to "shoot the bull", call us here at the ranch.

EPD and \$Value Definitions

Expected Progeny Difference (EPD) is the prediction of how progeny of each animal is expected to perform relative to the progeny of other animals in the Angus breed. As data continues to accumulate, accuracy levels rise and EPDs can shift accordingly.

Calving Ease Direct (CED) is expressed as a difference in percentage of unassisted births, with a *higher value indicating greater calving ease* in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW) expressed in pounds, is a predictor of transmitting ability for birth weight. The Angus breed is noted for calving-ease. A bull with a Birth Weight EPD under +2.6 is generally regarded as suitable for mating with virgin heifers.

Weaning Weight EPD (WW) expressed in pounds, is a predictor of the transmitting ability for weaning weight. An emphasized trait when marketing calves at weaning. For example, you can expect progeny from a sire with a +60 weaning EPD to weigh 30 lbs. more at weaning on the average than progeny from a sire with a weaning EPD of +30.

Maternal Milk EPD (Milk) is a predictor of transmitting ability of the portion of calf weaning weight attributed to daughters' milk. An indicator of replacement female production level.

Yearling Weight EPD (YW) expressed in pounds, is a predictor of transmitting ability for yearling weight. An emphasized trait for yearling feedlot performance and profitability.

\$Value indexes, an economic selection index allows multiple change in several different traits at once pertaining to a specific breeding objective. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if the sires were randomly mated to cows and if calves were exposed to the same environment.

Beef Value (\$B), a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid. Traits included in the index are as follows: yearling weight, dry-matter intake, marbling, carcass weight, ribeye area and fat.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post weaning merit compared to progeny of other sires. \$F incorporates weaning weight (WW) and yearling weight (YW) EPD along with feed intake data, genomic information and trait interrelationships. Typical feedlot gain value and cost differences are accounted for in the final calculations, along with a standard set of industry values for days on feed, ration costs and cash cattle price.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Combined Value (\$C), an index, expressed in dollars per head, which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).
