Buffalo Livestock Auction • Buffalo, WY

Selling: 130 RANGE-READY PAP-TESTED ANGUS BULLS

Hello Friends and Neighbors;

WELCOME TO OUR 27TH ANNUAL BULL SALE!

I think we can all agree it is nice to have 2020 in the rear-view mirror! With the Pandemic and the severe drought we endured through the summer we are hoping 2021 will be at least a wetter year! In spite of the drought the cattle performed well and bred-up very well.

We PAP tested the bulls again this year. We have customers who run on the Laramie Plains at or over 7500 ft and customers who run in the Big Horn Mts up to 10,000 feet. Our customers who run at elevation have been purchasing bulls from us for 26 years and have done so without any issues. We feel confident our bulls can run at any elevation, but we wanted to provide an additional tool for selection. Dr Allan Gotfrudson from Flying A Animal Health performed the testing.

Our first priority is fertility which is reflected in the bigger than average scrotal bulls. Large scrotal bulls produce more fertile daughters! Structure is the next priority, Sound feet and legs are imperative in range operations or anywhere for that matter. Udder quality is something we've worked on diligently. We breed to achieve Accelerated Growth/Performance on grass. Big, soggy calves make more money, but only if you can get this without too many expensive inputs. Our weaning weight performance came off native pasture, no creep feed, and out of moderately sized cows with minimal inputs. The biggest value in a Powder River Angus Bull are the females you will retain in your herd.

Calving ease is very important in our region. We have a large selection of calving ease bulls. Many of these bulls can be mated with first calf heifers with confidence knowing they will calve easily and the calves will be vigorous with a lot of growth.

A quiet disposition in our cattle is something we require. We have a zero tolerance for wild or mean cattle. They are culled without exception. We work our cattle many times through the year and any unfavorable behavior is documented and the animal is culled. It has been researched extensively that gentle cattle will perform at higher levels than nervous and wild cattle.

Bulls are developed on long stem grass hay and a dry, high fiber pellet formalized by Hubbard Feeds to promote skeletal growth and muscle development without adding on additional fat. Bulls are born and raised where corn does not grow and they are never fed corn. These bulls will look hard and fit, and the "cooler" ration will keep better hoof structure and improved fertility. We feel this method of feeding will help with longevity of these bulls and keep them in your herd for longer periods of time.

Thank you for the interest in our program and we hope you will find a bull that will meet your needs. We stand behind our bulls a 100%. We have video of our bulls and encourage you to take a look. Video link can be found on our website. www.PowderRiverAngus.com We hope to see you on Friday, February 12th in Buffalo at the sale!

- Neal, Amanda, Cole and Chance Sorenson

ACCOMMODATIONS: Hampton Inn, Buffalo307-684-8899
Comfort Inn, Buffalo307-684-9564

TERMS AND CONDITIONS: Cattle will sell under the Standard Terms and Conditions as recommended by the American Angus Association.

RETAINED INTEREST: The breeder will be retaining a one-third revenue sharing interest in every bull selling in the sale. Full possession and salvage value sells on all bulls.

SUPPLEMENTAL INFORMATION: Scrotal measurements and weights of the bulls will be available before sale day. Announcements from the auction block take precedence over catalog information.

WINTERING: All bulls will be wintered free of charge until April 1, 2021 at Powder River Angus in Spotted Horse and delivery will take place from there. If you choose to leave your bulls past April 1st, feeding arrangements can be made at the buyers expense.

LIABILITY: All persons who attend the sale do so at their own risk. Powder River Angus and Buffalo Livestock Auction assumes no liability, legal or otherwise, for any accidents which may occur.

FERTILITY: The bulls will all be fertility tested by Dr. Allen Gotfredson, Flying A Animal Health, prior to delivery.

TRUCKING: Delivery of all bulls is free of charge in Wyoming and adjoining states. Bull deliveries will begin around April 1. We will give \$100 cash back per head if you pick your bull(s) up from our ranch between March 28 -April 15, 2021. Arrangements must be made before pick-up.

CALVING-EASE SCORES: Each bull in the sale has been assigned a calving ease score. This is our best estimate based on a number of factors including pedigree, birth weight and our knowledge of the sire and dam. 4-stars (****) designates a sleep-all-night heifer bull. 2-3 star bulls would work on larger framed heifers and 1-star designates a cow bull. All buyers should take into account their own program when considering these recommendations. Please talk to us prior to the sale if you have questions about the scores.

HERD HEALTH: All bulls will be tested BVD PI Negative. All cattle sell with proper health papers for interstate shipment. A rigid herd health program is followed. All cattle have been calf hood vaccinated with 7-way Somnus at branding and at weaning along with IBR, BVD, BRSV, Pasturella and a Dectomax Pour On. Bulls also received two shots of Fusoguard to help protect against footrot.

ABSENTEE BIDDING: If you are unable to attend but would still like to participate in the sale we have several different options. You can contact the breeder, auctioneer or representatives prior to the sale to discuss your needs. You may also bid live on the internet using Cattle USA or join a conference call hosted by Bill Pelton.

CATTLE USA.com LIVE CATTLE AUCTIONS

1. Go to www.CattleUSA.com
2. First time users must register as a viewer.
3. In the 'Live Auctions' tab, select the sale that you wish to register as a buyer (only if you wish to buy) and click the 'Submit' button.
4. Fill out the required contact and banking information, then click the 'Proceed' button.
5. After you have been approved as a buyer, you will receive a confirmation e-mail. On sale day, log in and click the green 'View' button for our sale. You will have the bid console available to place your online bids. Click on 'Bid Now' to place a bid.
6. The bid received by the auctioneer will be the amount showing in the 'Price' box in the bid console.
7. High speed internet required for viewing and bidding.
8. Questions call (307) 684-0789

VOLUME DISCOUNTS:

4-7 Bulls Purchased = 5% Discount
8+ Bulls Purchased = 7% Discount

GUARANTEE: Powder River Angus will guarantee their bulls 100% against injury due to breeding in a 60 day breeding season. Season ends September 1. Injury needs to be verified by a licensed veterinarian. Powder River Angus will either give credit to the buyer or replace injured bull(s). Death of bull by natural causes of lightning, drowning or hit on road can usually be covered by most ranch insurances. We strongly encourage you to visit with your Ranch Insurance agent. There are also companies that provide mortality insurance. We can assist you in finding this type of insurance if interested.

• A Cash son with an extra rib and a cleaner front end. He has better foot quality than the old Cash bull. He is a "sleep all night" calving ease bull. His calves hit the ground with a lot of vigor and they will grow! We will be calving our first daughters out of him and are hoping that they will be top producers. They are ideal in frame size and have the consistent look this bull is known to throw.

• We used Foundation for his superior foot quality and his muscle expression. He is a foot improver. He is an outcross pedigree. We are excited about his daughters for they have the look of good doing, easy keeping cows that will be able to do an excellent job of converting grass to muscle. His sons are impressive in their look.

• We saw Powerball at Origen and really liked how the bull was put together. He has added length, great depth of rib, superior muscle expression and good feet. His structure impressed us as well. He is a docile bull and has passed this down to his sons. His frame size is ideal for the "grass only operations." We bred a lot of first calf heifers to him and they calved on their own and had a lot of vigor.

10	1.4	76	138	21	1.08	11	70	115	53	168

• Jet Black has been impressive in the consistency in his calves. He provides eye appeal in a moderate package. His calves came easy and have demonstrated a lot of growth. He seems to put a clean front end on his calves which makes for a more attractive package. Jet Black himself combined a weaning ratio of 127 with a yearling ratio of 120 and an URE ratio of 114, and his dam combines an average calving interval of 364 days with an average progeny weaning ratio of 4 at 112 and average progeny yearling ratio of 3 at 106.

• Boulder is a high growth bull that keeps milk in check. He will provide a little extra frame. He is a true calving ease bull with explosive growth. He is good footed. His calves are extremely gentle and are standouts in their performance on feed. The length of body he passes down to his sons is unreal. We have been impressed with how his sons are efficient and true feed converters.

• We Purchased 6728 from Lunds B Bar Angus in their 2019 sale. He goes back to the Windy 79 (Windy 7) bull. The Windy 7 line has given us some of the most impressive females we have to date. You will see many of the top end bulls go back to Windy 7 daughters. 6728 is level in his top line and has great feet and legs. He was selected to give us superior daughters and he has also given us a nice selection of sons. They are consistent in their look and will sire highly productive daughters.

- Superior growth in this Powerball son

Dam of Lots 10 and 71

PRA Juneau Onward 2239 is the Dam to lots 10 and 71. We do not do a lot of Embryo Transfer work but Amdahls of South Dakota saw her during a herd tour and wanted to flush her. We made the deal and received a flush that we mated to B Bar Windy 0753. We mated her to 0753 because we feel he has provided us with some of the best daughters we have ever raised. We were hoping to receive daughters in the flush, but only got bulls! 2239 is the epitome of an angus cow. She is clean throated, big barreled, beautifully uddered and as sound in her feet and legs as you will find. She is a highly productive cow that has AI bred every year of her 8 years of age. Her natural calf sired to the 0753 bull is a heifer and we are super excited to see how she will turn out! Lot 10 and 71 should leave you with daughters that you will be "proud of" out in the pasture.

• PRA Boulder 0183 •

Our good friend and neighbor, Sonny. . .AKA Son-Dawg.

PROUD TO SUPPORT YOUTH IN AG

Hannah Adams of Billings, Montana received our heifer calf for the 2020 Merit Heifer program. The Pandemic made changes to the show but Hannah did very well. We enjoyed getting to know her and always look forward to donating to such an incredible program.

“The real things haven’t changed.

It is still best to **be honest and truthful**; to make the most of what we have; to be happy with simple pleasures; and **have courage when things go wrong.”**

-Laura Ingalls Wilder

POWDER RIVER ANGUS FERTILITY AND PAP SCORES

Dr. Allen Gottfredson and his wife Aishya

"The Powder River Angus bulls are consistently very fertile bulls. We see a large number of bulls each year and these bulls are always in the top tier of those we test. The PAP scores of these bulls indicate that they should perform and do well at high elevations." - Dr. Allen Gottfredson

Life is always better with good friends!

Dr Matt & Amy Vercimak

HERD HEALTH IN VARIED ENVIRONMENTS

Working with Neal and Amanda in managing their cow herd's health has given me an insight into the direction and focus that they have taken. They strive to introduce new genetics with intent to continually improve their herd and are offering seed stock that will work in a wide variety of programs. **These animals start life out with as good of an advantage as they can from a nutritional, mineral and disease prevention standpoint and that standard is maintained throughout the time that they are on the ranch.** I think that most ranchers would be surprised at the level of time, energy and financial investment that goes into the production of the animals that you see here today.

- Dr Matt Vercimak, Stockmans Veterinary Services

A NIGHT ON THE PORCH...

On March 18, we introduced our Facebook followers to "Porch". Named from living on our porch for 2-3 days. He was born at least 30 days early with a will to live. He was so weak he couldn't stand but by day 3 he was bouncing around like a regular baby calf. We have had Porch back in the porch for a day because he cannot regulate his thermal temperature real well and chills easily. He is pictured with his surrogate mother. She loves Porch and cake. Porch is in the barn tonight with the heat turned on. We decided if he wanted to live we would do what we could to help him out!

By golly, by April 18, "Porch" and his momma got turned out. He had grown about an inch of hair and put on about 20-30 pounds. He still had will to live for sure!

We are happy to report that Porch made the truck with the big-end steers the end of December at 733 pounds. This story should have ended back in February because the odds were definitely against him, but he just never gave up on living. Something we all need to remember, especially in these times, is to keep on living 'cuz life is short and we only get the one chance at it!

Bulls Born and Raised Where Corn Don't Grow and sometimes they might have to spend a night or two on our Porch! **Be sure to follow us on Facebook!**

Custom Silver BRACELET Drawing

In 2021, every Powder River Angus bull buyer will be entered into a drawing for a beautiful silver bracelet custom engraved by long-time Powder River Angus customer Amy Lutterman-Gonzales. She does absolutely gorgeous work and we are very excited to showcase it at the sale!

RETURN SERVICE REQUESTED

TIME SENSITIVE MATERIAL. PLEASE DELIVER IMMEDIATELY

POWDER RIVER ANGUS cattle are grass oriented. We want performance off grass in our cattle, with maximum performance gained from breeding generations of superior dams. Our bulls are developed on long stem grass hay and a high fiber pellet, with fertility, good feet, and longevity always at the top of our mind. We invite you to join us for our annual production sale at Buffalo Livestock Auction, Buffalo WY on Feb. 12, 2021. We're offering 130 range-ready, Pap tested ANGUS bulls that have been developed in rugged country. **Contact us for a catalog today!**
