PAP TESTING

Pulmonary Artery Pressure or PAP is an indication of a bull's genetic ability to tolerate high altitudes. The higher the PAP score the lower the altitude the bull should be maintained at. Bulls that develop high altitude or brisket disease may or may not have a genetic problem, but may be the result of an environmental influence such as sickness, feed, or stress. Dr. Tim Holt recommends that bulls with a PAP score greater than 48 be used at elevations lower than 6,000 feet. All of the bulls at the Quest of the West Cattle Sale have been PAP tested by Dr. Rusty Truman above 5,000 feet. The heifers that were PAP tested were also tested above 5,000 feet.

BREEDING GUARANTEES

All bulls in this sale are guaranteed "breeders" the day of the sale. In the event a buyer finds a bull to be a "non-breeder", he must immediately take the following actions:

1. Notify the seller within six (6) months of the purchase.
2. Return the bull to the seller at the buyer's expense in healthy and good condition.
3. At that time, the seller may give the buyer a bull of like quality as a replacement, or give the seller credit toward the purchase of another bull at a later date.
4. Seller has the right to prove the bull a "breeder" before giving credit or returning the bull.
5. Guarantees do not apply to injuries (i.e. broken legs, stifles, reproductive injuries, etc.)
6. All guarantees are void in cases where the bull is fit for show, is subject to hormonal treatments, or has been subject to abuse in any way.

ACCOMMODATIONS

For reservations, please call the Quality Inn (801-798-9400) or the Hampton Inn (385-248-0550). Both are just off I-15 on Hwy 6 (Exit 257 Northbound; Exit 258 Southbound). On Hwy 6 going east take first Left at the light, and next left after Chappy's Gas Station.

SALE LOCATION

The sale will be held in the Heritage Arena at the Spanish Fork Fairgrounds, 475 S Main Street, Spanish Fork, UT

INSPECTION OF SALE CATTLE

All Cattle will be available for viewing all day Friday March 12th through the conclusion of the sale at the sale facilities. Cattle may also be viewed prior to Wednesday March 10th at the respective ranches at Spanish Fork, UT, and feedlot in Delta, UT. Please contact the individual sellers to make arrangements to view the cattle prior to their arrival at the sale facility.

TERMS AND CONDITIONS

The terms of the sale are cash or check unless arrangements have been made between buyer and seller prior to the beginning of the sale. The animal becomes the property, responsibility and risk of the buyer as soon as declared sold by the auctioneer.

ANNOUNCEMENTS

Announcements from the Auction Block will take precedence over any other printed matter in the sale catalog or supplement sheets.

BIDDING

Each Animal will sell to the highest bidder. Any disputes will be settled by the auctioneer whose decision is final.

LIVESTOCK MORTALITY INSURANCE

To properly insure your investment, Stockmen's Insurance Agency LLC, will be available to assist you with mortality insurance. Contact Bill Pelton at 406-671-5100 or bill@billpelton.com.

Friday, March 12th, 2021
Spanish Fork, Utah

Spanish Fork Fairgrounds, 475 Main Street

6:00 pm Sale Time • 5:00 pm Dinner

Please bring this sale book with you to the sale.

Tracy Hatch, President Utah Cattleman's Association

RISK & LIABILITY

We the sellers of the cattle offered in this sale, will not be held liable for any accidents that may occur for whatever reason and those attending must do so at their own risk. The sellers and their staff, the auctioneer, Spanish Fork City and it's staff assume no liability, legal or otherwise, for any accidents or loss which may occur.

REGISTRATIONS & TRANSFERS

All bulls, unless otherwise noted in the sale catalog are registered. When making settlement, please indicate if Registrations papers are needed. Each ranch will send the registration paper to the buyer if requested at the time of settlement.

SIGHT UNSEEN PURCHASE OPTION

If you are unable to attend the sale or view the cattle prior to the sale, we offer a "sight unseen" purchase option. Please call and give us your specs in advance of sale time and we will select and try to buy the bull(s) meeting your specs for you. If when you take possession of the bull(s) you are not satisfied, you don't own the bull(s).

CALVING EASE RECOMMENDATION

Some bulls are recommended for use on heifers. These recommendations are based on available tools and knowledge: EPDs, birth weight, extended pedigree and past experience with both sire and dam. This does not mean that you will not have to help any calves, but hopefully most will come with little assistance. Each cattleman needs to base their decisions on their own program and herd.

DELIVERY

Please contact individual consignors prior to the sale if you need assistance with delivery.

The sale catalog will be posted online as well as additional pictures as they become available at www.questofthewestcattle.net

Moderate, soggy made Black Granite son out of a first calf heifer from our Forever Lady cow family. Powerful low birth weight bull prospect.

Connealy-Black-Granite

Lots 5-7 are Flush Brothers

Lots 5-7 are flush brothers out of the performance sire, Stevenson Big League 70749. These bulls are thick topped, long bodied, big footed bulls that flat out gain! Breed these guys to a set of cows, calve them out and watch the calves grow! The growth will be real! If you like numbers, they're not going to hurt you there either. Powerful set of bulls.

From the same cow family as the flush brothers selling as lots 5-7. Well balanced, great patterned bull.

When you need it, you need it.
Animal Health International.

Your needs. Your solution. Your peace of mind.
It's what we do best.

Animal Health International, Inc. is the premier animal health company in North America serving the needs of customers for more than 40 years. No other distributor has a broader product offering. We represent over 1,000 manufacturers that supply products focused on companion animal, equine, beef and dairy cattle, poultry, and swine. Animal Health International has more than 400 sales personnel nationwide, and offers products ranging from vaccines and pharmaceuticals to state of the art equipment and software.

To find out more information about our products and services, please contact your local sales representative or visit us at www.animalhealthinternational.com.

Dakota is one of our later born bull calves whose grand sire, Hooks Yellowstone, is known for his good doing, quiet dispositioned, eye appealing offspring. His dam is a beautiful dark red daughter of S7 Roll Tide. She is an easy keeper, quiet dispositioned and a wonderful mother. PB - Herozygous Black - Polled

A daughter out Hickok, he was ranked #1 for ABS sales for 2018 and 2019. She is clean fronted and moves around really good.

**INFORCE 3® + ONE SHOT®
BVD**

\$ IMPROVEMENT TO YOUR BOTTOM LINE

Mannheimia haemolytica is the primary cause of bacterial pneumonia and the No. 1 calf killer.^{1,2} Bovine viral diarrhea (BVD) Types 1 and 2 viruses are two of the major viral causes of bovine respiratory disease (BRD).

ONE SHOT® BVD helps provide protection against all three.

***M. haemolytica* + BVD TYPE 1 + BVD TYPE 2**

For healthier, higher-value calves on sale day, help protect calves from BRD at a young age. In one convenient dose, ONE SHOT BVD offers the same level of protection as ONE SHOT and BOVI-SHIELD GOLD® BVD administered independently.

COMPLETE RESPIRATORY PROTECTION FOR CALVES.

Use ONE SHOT® BVD and INFORCE 3® concurrently for protection to help get calves started off right in the background, stocker or feed yard.

INFORCE 3®

- A single intranasal dose rapidly provides protection where viruses attack first.
- Provides at least six months of protection against IBR respiratory disease after single nostril administration.
- The first and only respiratory vaccine labeled for the prevention of disease caused by BRSV.

USE CONCURRENTLY ON ARRIVAL FOR BACKGROUNDERS, STOCKERS OR FEEDLOTS.

Convenient, comprehensive protection from:

- Bovine respiratory syncytial virus (BRSV)
- Infectious bovine rhinotracheitis (IBR) virus
- Parainfluenza 3 (PI3) virus
- *M. haemolytica*
- BVD Types 1 and 2 viruses

ONE SHOT® BVD

- The highest level of protection available against *M. haemolytica* and BVD Types 1 and 2 viruses.
- Helps neutralize *M. haemolytica* leukotoxins before they can destroy white blood cells and lead to lung damage.
- Rapid protection against *M. haemolytica* and BVD respiratory disease.³
