

Open Gate Ranch

42nd Annual Bull Sale

Thursday, March 31, 2022

1:00 pm • Simms, MT

At Broken O Land and Livestock

Simmental. SimAngus. BUILD BETTER BEEF.

Notes on Reading our Sale Book...

When we sort through the stacks of Bull Sale Books we receive each year, we notice everyone presents their data a bit differently. Surely, this can get confusing-but it's important to remember there is no right or wrong formula to building a catalog. We choose to present the data that is most relevant to the way we make breeding decisions, the way we manage our cattle, and the trends we want to be able to track and observe in each year's calf crop.

For example, we like to think of our cattle in simple, straightforward terms, that we can actually keep straight mentally and visualize. So we don't include as many EPDs as we could. We monitor our trends on all of the traits and understand their merit, but we strive to effect change according to what most of our customers need. So a simpler data set works well for us. We continue to provide actual records of ultrasound, gain, and birthweight, because we like to see whether traits are truly manifesting themselves - if the patterns in a sire group show that genetic markers have actually triggered and are doing what they promise. Large discrepancies or inconsistencies in a sire group are a red flag to us and will influence our decision of whether to use a sire again.

So please don't hesitate to reach out to one of us if you do not see data you need, or if it is unclear why we include it. We would love to help you utilize better the patterns we see when we put it together every year.

Sale Location

Open Gate Ranch

Thursday, March 31, 2022

1:00 pm • Simms, MT

At Broken O Land and Livestock

SCHEDULE OF EVENTS

THURSDAY, MARCH 31

All Day Cattle available for viewing
Come early for coffee and to see the bulls.

12:00 NOON Lunch

1:00 PM **OPEN GATE RANCH BULL SALE**

SALE LOCATION

Broken O Land and Livestock is located ten miles west of Simms, MT on Highway 21. For map and directions, see opposite page.

AUCTIONEER

Roger Jacobs

LIVESTOCK PRESS REPRESENTATIVES

John Goggins, *Western Ag Reporter*

Jeff Thomas, *Lee Agri Media*

Devin Murnin, *Western Livestock Journal*

SEMEN INTEREST

Open Gate Ranch reserves the right to collect semen for our personal use on any of the bulls offered in the sale. This will be done outside the breeding season at our expense.

SATISFACTION GUARANTEED

Open Gate Ranch offers a **complete satisfaction and soundness guarantee** up to the second breeding season on every bull purchased at our sale. This includes bull replacement or full credit minus salvage against a new one. Please notify one of us immediately if any problem develops. We truly want to be the first to know.

Any individual purchasing **3 or more bulls** will receive a **5% volume discount** off the purchase price.

There is **\$100 discount per bull** for hauling your own on sale day.

Buyers unable to attend the sale can **purchase bulls sight unseen** and know that when we deliver them - if you don't like them, you don't own them. Please contact us ahead of time if you would like to bid by proxy or by phone.

SALE DAY PHONE 406-264-5926

FAMILY PHONES:

Mike and Kim 467-2082 • Julie 590-4063 • Micah 590-1609
Dustin 590-6016

www.OPENGATERANCH.COM

ABOUT THE BULLS

The bulls are available for viewing at the ranch prior to the sale. They are located in the development pasture near the ranch. From Fairfield, take Hwy 408 west for 9.5 miles, turn north onto the gravel, top the big hill, 3/4 of a mile further the and the bulls are on the right.

Videos of the bulls available online www.opengateranch.com

EPDs on both sale bulls and Reference Sires are printed as calculated by American Simmental Association and follow the Simmental definition for each trait.

Ultrasound scan data was taken on 2/18/2022 by Sonya Gregory and interpreted at a Central Ultrasound Processing Lab. It is an actual calculation of each bull's carcass information that has been adjusted to a 365 day measurement, which will facilitate accurate comparison between bulls. American Simmental Association provided updated Carcass EPDs based on the scan data. IMF is marbling as a percent of mass, BF is back fat in percent of inch, and REA is rib eye in square inches. Ultrasound data available sale day.

Scrotal evaluation and fertility testing was done by Dr. Cale Bjornstad on 2/25/2022.

WELCOME TO THE SALE

When confronted with a challenge,
it's good to remember how you
have overcome them before.

Stick with what *works*.

And boy, don't the challenges just keep coming. But we could sit around and list challenges all day and never find the end of them. What matters more is how we engage with our current realities and what we plan to do with tomorrow.

There's a reason they call this "next year country".

We find ourselves returning to the foundation basics of what has helped us navigate tough times before. Remain focused on gratitude. Family and friends that stick by you through every grueling weather event or unexpected wrench in the gears are a goldmine.

- Take pride in the progress you've made in building a herd of cattle that earn your living and make you happy.
- Savor that first cup of coffee, and the landscape shot through with all the ecstatic colors of dawn.
- Remember the days are getting longer.
- Laugh at yourself when you screw up. Then fix it.
- Tell your people that you love them. As often as you can . . .

It is in just such a spirit of gratitude, that we invite you to our 42nd Annual Sale and a day of memorable, Western hospitality.

As for the nuts and bolts of remaining profitable, we are presenting you with a genetic offering that represents the very core of what Open Gate believes in. Maternal excellence, quiet dispositions, early gain, and harnessing the powerful, irrepressible advantages of crossbreeding. These cattle are rugged, with well grown frames. We focus on robust rumen development so they will transfer seamlessly into your feeding program. The heifers went straight to grass stubble after weaning and wintered on long stem hay. It's simple. It works. We're sticking with it.

Please accept our warmest greetings as we transition into Spring,
The Open Gate Crew

WS PROCLAMATION E202

A purebred Simmental on the path of a meteoric career in what the breed does best: tremendous performance, rib, hip and foundation to keep yield high without sacrificing maternal advantages or sensible calving ease. Build some enormously profitable cows with this set of Bulls.

WS PROCLAMATION E202 Reference Sire.

BOBCAT BLUE SKY

This bull is among one of the most consistent we have ever used. Chosen for the balance point of weaning profit and extraordinary maternal history, there is persistent depth, soundness and carcass value here.

BOBCAT BLUE SKY Reference Sire.

Notes on Ultrasound

Our Ultrasound Scan technician, Sonja Gregory told us about having to re-certify this year as a technician authorized by CUP Labs who standardize the data received and submit it to respective Breed Organizations. She had to travel to Kansas for a two day process of certification. First day was spent actually scanning cattle. These cattle were subsequently slaughtered, and their carcasses measured against the scans produced to test for her ability to accurately capture images. The second day was classroom testing regarding technical specs and field application. We were impressed that such a thorough process is in place for ensuring accurate and consistent results through ultrasound, and American Simmental Association continues to insist that such measured data is a crucial component to building a powerful EPD platform. At Open Gate, we still believe that measuring phenotype is critical to understanding trends in our breeding program, and in knowing what targets we are meeting or moving according to what our customers need.

Notes on Fertility

This year, our fertility testing and breeding soundness evaluation with Dr. Bjornstad went the best it ever has. Excellent test results and very few problems. Dr. Bjornstad commented that a 36 to 37 centimeter scrotal measurement is ideal for bulls this age. The official average for all Open Gate Bulls this year is 37.8. That makes us feel pretty good to know we are hitting the target for well developed bulls, ready to breed, and carrying high fertility across the board. This is a classic component that Simmental Influence will bring to a crossbreeding program. And if this kind of fertility is so measurably consistent in the bulls, we know it is present in the females too. You are buying a complete package of genetics for long term profitability. Another reason we are glad to stand behind our guarantee that our bulls will do their job.
