24 Mature Bulls

14 Cow/Calf Pairs

1 Potential Donor Cow

Located inside the SpringLake Angus Center

50475 887 RD Lynch NE 68746

LiveAuctions.TV

WELCOME TO THE SALE

First and foremost, I want to thank you for your support over the past 60 years that we have been in the registered Angus business. Without your support, we would have never have made it this many years.

I started before the computer cattle were a thing, back when you picked the cow or bull that YOU thought was going to do the most good for you. It was just that simple. We have now come to the computer cattle and the Association picking them for you because THEY know what is best for you. I don't think so. I think YOU know what is best in your herd. Yes, you can look at all the data if you want and you can use it if you want, but it's only a tool. If everyone in the Association were honest, the number you feed the computer would be great, but we all know there is more smoke and mirrors in the registered cattle business than in a magic show. Qualities I look for are: good feet, legs and they walk good, nice udders and reproduces 50% or more of their body weight, great dispositions and easy fleshing. Longevity has also become an issue in today's cattle, where cows used to live to 10-15 years and now your lucky if you can get 7-8 out of them, we are proud to say we have many 10-12 year old cows in the herd and some as old as 14.

I am old school and I think if YOU pick that cow or bull, you'll do just fine. You know what will work in your own environment. I hope I have that animal on my sale because that is what I've bred for 60 years.

Thank you very much for reading this and I hope you come to the sale, whether in person or on the internet. We try hard to not make it a magic show, we just sell some good cattle. I like to think that my cattle sell themselves.

Thank you and God Bless!
Gene Otis Timperley

COMMENTS BY THE SALE MANAGER:

Springlake Angus-Back to the basics of what built the Angus breed!

At Springlake Angus, you will find traditional Angus cattle that have the Aberdeen-Angus look, performance, soundness, and overall goodness! Which has driven Angus cattle to the popularity that they enjoy today.

As you study this catalog you will find a strong blending of legendary Sires: Rito N Bar, RR Rito 707, Rito 7075, and a host of other bulls that have propelled the Angus industry to the forefront.

The cattle at Springlake Angus are bred with the commercial man in mind. They hold up under the toughest conditions, and are reliable and dependable breeders in strictly the cattlemen kind! Please note that a special group of outstanding females will sell so attend this sale expecting to see a tremendous set of grassroots-bred Angus cattle. They are bred to work for you!

Sincerely,

Tom Burke

SALE SITE:

SpringLake Angus Center 50475 887th Road Lynch, NE 68746

AIR TRANSPORTATION: Private planes are served at landing strip in O'Neill, Nebraska. Commercial flights are available in Sioux City, Iowa; Omaha, Nebraska; and Sioux Falls, South Dakota.

ACCOMMODATIONS: Lodging is available in nearby O'Neill, Nebraska. Contact SpringLake for assistance.

TERMS AND CONDITIONS: Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). All bulls selling for \$2,500 or more will be covered 100% (less \$1500 for salvage value) if they are injured during their first breeding season and not able to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of bulls. 100% of the value of the injured bull, minus the salvage value, will be given as credit in a future sale or towards a replacement bull, if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should any injury occur and prior to the bull being sold for salvage. All claims must be made by September 1, 2022. SpringLake and partners retain 1/3 semen interest in all bulls selling, unless otherwise noted.

SUPPLEMENTAL INFORMATION: A supplemental sheet will be available sale day with complete and up-to-date information. Announcements from the auction block take precedence over sale book information. All registered lots are AM, NH, CA, M1, D2, DD, OH and OS free unless otherwise noted.

HERD HEALTH: All cattle will be accompanied by proper health certificates for immediate shipment.

TRUCKING: Truckers believed to be reliable will be available to assist you in shipping your purchases. All bulls purchased out-of-state require a Trich test prior to pickup or delivery. Free delivery in Nebraska and adjacent states or \$300 trucking credit per head outside of that area.

LIVESTOCK MORTALITY INSURANCE: To properly insure your investment, James Bessler will be available to assist you with mortality insurance. (815) 762-2641

SALE PREVIEW AND FOOD AND REFRESHMENTS: The cattle will be available to view at the sale site beginning Thursday afternoon. Food and Refreshments will be available Thursday evening and Friday.

ONLINE BIDDING: Online bidding is available through LiveAuctions.TV

ANGUS MEDIA EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.

SLA CARCASS STATS: If numbers are what you like to look at when deciding the future of your cattle business, then SpringLake Angus has some REAL (not scanned or adjusted) numbers for you. SpringLake Angus sold 100 drug free, hormone free and all natural steers at 530# to Jim Dinklage through Superior Livestock Auction in August 2013 with a 10/31/13 delivery date. The steers were taken off the cow and shipped to O'Neill Feeders in O'Neill, NE. They were fed a normal drug free, hormone free, all natural feed ration. Of the 100 steers, 97 stayed all natural, drug and hormone free and were sent to Creekstone in Kansas at 14-15 months of age where they were slaughtered June 26, 2014. Fifteen SpringLake Angus herd sires were represented and the steers ALL went 100% Prime or Choice. SpringLake Angus thinks this is the actual numbers that we should be striving for:

SPRINGLAKE ANGUS AVERAGES:

100% Prime and Choice
23.7% Prime
76.3% Choice
0.0% Select

NATIONAL AVERAGES:

51% Prime and Choice
49% Choice
49% Select

More SpringLake stats: Yield Grade Avg. 3.24, Back Fat Avg. 0.58, Ribeye Area Avg. 12.74, Standing Wt. Avg. 1245.74#, Hanging Carcass Wt. Avg. 791.25#, Dress % Avg. 64.00%. There were no discounts for light or heavy carcasses. The top steer dressed prime and hung 72.15% and that is what SpringLake Angus and Friends are working towards. We are in the seedstock business and this is where we can make the biggest impact in the future of cattle for the registered or commercial cattleman. As the year progresses, please compare these numbers to other programs, promotions and the national average and we think the more you do, the more impressed you will become. As most cattle end up on the grid, do you think SpringLake Angus and Friends genetics could move you towards 100% Prime and Choice? The REAL numbers show it's working for us.

\$EN BREED AVERAGES:

Current Sires -15
Current Dams -11
Non-Parent Bulls -15
Non-Parent Cows -15
Many of the cattle in this sale have high ranked \$EN (\$Energy) values as compared to breed average.

COW ENERGY VALUE (\$EN), expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

THE SLA SALE CATTLE are bred for fertility, longevity/functionality, good feet and legs, calving ease and docility, and \$EN to perform on grass in low input environments. Their genetics provide an opportunity for breeders to once again emphasize these traits in their herds and improve returns on investment.
Note: DMI EPD is an expression of transmitting ability of dry matter intake.

THE RR RITO 707 STORY

Born more than 50 years ago, RR Rito 707 established himself as a common denominator in most performance bloodlines that continue to be prevalent in the Angus breed today.

He dominated the 1968 PIC Bull Test at Stanford, Montana, as the top yearling weight and top gaining bull with a gain ratio of 129 and sold two-thirds interest for \$5,000 as the top-selling bull to the American Breeders Service and Pioneer Beef Cattle, in his very first progeny test group of 27 steers recorded a gain ratio of 111 and graded USDA Choice.

Rito 707 of Ideal 3407 7075

He continues to compile impressive progeny weaning and yearling ratios of 105 along with productive daughters in production who post a collective progeny weaning ratio of 102.

His influential sons include the Pathfinder Sires known as Rito 149, Rito 72 and F0203, as well as the great breeding bull Rito 707 of Ideal 3407 7075.

This dominating sire from the timeless Rito performance lineage has established himself as a true breed legend and a powerful breeding bull, perhaps unlike any other ever identified.

Rito 7075 is fortified with a solid performance pedigree, tracing 39 times to the legendary Pathfinder Sire RR Rito 707, and 53 times to Rito N Bar, an original Certified Meat Sire.

His progeny displays exceptional muscle density, masculinity, natural rib shape and overall dimension with fleshing ability, foot quality and enhanced breed character.

This SpringLake featured sire has left a strong influence of daughters in the SpringLake program.

His progeny and descendants have highlighted more than a decade of successful sales at Schaff Angus Valley, include his noted sons, SAV Resource 1441, SAV Renown 3439, SAV Recharge 3436, SAV Registry 2831, SAV 707 Rito 9969 and SAV Eliminator 9105.

A combination of the powerful Rito 7075 and Coleman Donna 003! The best of all worlds when looking for cow or bull makers. Everybody knows that Rito 7075 can do that. Schaff Angus Valley and Coleman Angus sale books tell that story. Add Coleman Lady 003 who goes back to Bemindful Maid DHD 0807 on the top, a dam that is 10th in Parental influence in the Angus breed with just 33 progeny. On the bottom, 003's granddam is Ideal 4465, a legend in the Angus breed.

Ideal 4465 of 6807 4286 - Maternal great granddam of Lot 6

The sire to Lot 7 & 7A is a 7075 son that was a leader in our 2016 sale when he was pulled due to an eye injury. Keeping him for ourselves, 5010 was used extensively as one of our top herd sires. Nicknamed, One Eye, he was one of the most docile bulls we have ever raised. One of our top herd sires until a leg injury in 2021 ended his breeding career. 5010 had great feet and was an easy keeper and many daughters have been retained in the herd. I was a major contributor to our heifers on test that went 87% prime! Very important to the commercial cattlemen.

Flush brothers out of SAV Resource, one of the most famous Rito 7075 sons, S A V Resource 1441 has known tremendous popularity because he passes along tremendous power, growth, and disposition. In fact, he may be the greatest "Rito-bred bull" born in this century. A SpringLake Angus raised bull, 7075 sired many greats along with Resource. Renown, Regard, 9969 are just a few.

A bull with a background. His dam, 6407, is a low birth weight female used extensively in the Coleman Program. She is deep bodied and impressive, boasting 11 calves with a WW of 104 and 10 with a YW of 102. Traveler 6807 is one of the most influential sires in history. He was the top gaining and top weight per day in the 1987 Midland Bull Test.

Our top herd sire is SLA RR Rito 707 6014, "King", is a RR Rito 707. 707 is rated #7 in the Parental Influence in the Angus breed with just 1,804 progeny, and this study was done in 2017. I believe 707 would rank as high as #3 if you added the progeny of Rito 7075. 6014's maternal grandsire, B/R New Design 036, is #4 on the Parental Influence list. His maternal granddam, Ideal 4465, is in literally every sale catalog today, even if her influence is 4 or 5 generations back. She is known as one of the top Angus cows ever produced. I don't need a computer number to tell me why the progeny is good...I figure it out by the way they look when they come in from breeding season. Lot 27A combines Miss Wix 1107

SLA RR Rito 707 6014 as a yearling

Stemming from the legendary Baldridge Isabel Y69 line, Mr Angus offers tremendous maternal genetics without sacrificing growth and carcass. The first natural calf of our exceptional Y69 daughter, Baldridge Isabel E080, Mr Angus weaned off at an adjusted weight of 972 pounds. Lot 35 pairs him with our RR Rito 707 daughter out of the Riley Bros. Herd.

1111, a Rito 707 daughter, out of Madame Pride 4312, paired with Tehama Tahoe B767. Tahoe is arguably one of the most complete Angus bulls in the breed. Ranks in the top 1 percent of the breed for CED and top 10% for WW and YW all while adding body, fleshing ability and base width. His maternal greatness ranks in the top 2 percent of the breed for \$W and top 15% for HP, DOC and CEM. He is used to reduce mature size without sacrificing performance. He will improve MARB and REA while adding eye-appeal, dimension and improving feet and udders.

Parental influence

*The Angus pedigree is massive, with more than 22 million animals.
It is also complex, with many interrelationships.*

In 2017 an Angus Foundation-funded research project was undertaken by Mehdi Sargolzaei with HiggsGene Solutions Inc. of Guelph, Canada. The primary purpose of the analysis was to determine the most influential ancestors in the Angus breed. Table 1 presents these based on their marginal contribution to the current population.

The most influential ancestor is not simply the one with the most progeny or descendants. QAS Traveler 23-4 was the bull with the largest contribution. His genome makes up almost 10% of every animal born today.

After accounting for 23-4, N-Bar Emulation EXT adds another 7%. Together these two bulls account for 17%. Put another way, if we were to sequence these two bulls we would reveal 17% of the genomic material that is born in Angus today.

With genomic samples on the top 10 animals on this list we would capture 50% of the genetic variation in the Angus breed.

This project is Phase 1 in a larger long-term effort to continue to develop better genomic tools, which will include DNA sequence data from these influential ancestors, for Angus breeders.

Table 1: Marginal contribution for the 30 most influential ancestors in order

Name	Gender	Date of birth	Marginal contribution, %	Cumulative contribution, %	No. progeny	No. descendants

The first offering of a flush female out of Graber's Mr. Angus. 1011 has stood out since the day she hit the ground! Her dam is a Rito 707 X Lady Focus 303-827 mating that also produced a half sister that sold at the Denver Stock show for \$18,000. With 4016's unexpected death, this is the only Mr. Angus we will get out of her! 4016 was in the top 2% of \$EN and was a very easy keeper with excellent feet and a perfect udder. We bought into Graber's Mr. Angus because he looked like the old Aberdeen Angus. His dam was a 5-5.5 frame score and a very easy keeper. And from the looks of Mr. Angus, I knew that would carry through and lower my feed costs. She comes with a bull calf, DOB 2/16/23, sired by Lot 6, 0051

929 has been nicknamed "Mighty". Her mother died hours after her birth for some unknown reason. Instantly becoming a bucket calf, Mighty was strong and a go getter. She was eventually adopted out to become a beautiful and strong replacement heifer. She was in with the heifers and was bred by Houdini, a Resource son. She comes with a Bull calf, DOB 11/9/22

· Lot 68 and 69 are commercial heifers that bulled and bred early to a bull we called "Houdini" Houdini could get out of locked gates and ended up with the heifers on more than one occasion before we locked him in a corral he couldn't get out of. In the meantime, this 10 month old Resource out of Coleman Donna 008 son bred 6 heifers! She comes with a Bull calf born 11/7/22.

• Comes with a bull calf born 2/16/23. BW 76#. Sire is: 20245592

Our cuts are everything you can think of. We have ribeyes, t-bones, sirloins, fillets, New York strips, minute steaks, roasts and of course ground hamburger. We sell everything by the pound.

Pick what you want and order by the box or buy in bulk! We are selling whole, halves, or quarters of a beef for \$5.25/lb. The total price depends on the weight of the animal. For example, a quarter of processed beef can weigh 80 to 90 pounds. With a quarter you get approximately 6-8 ribeyes, 6-8 t-bones, 3-4 sirloins, 16-18 minute steaks, 3 chuck roasts, 2 arm roasts, 1 sirloin tip roast, 1 rump roast, and 30-50 pounds of hamburger. We are also willing to switch pieces out best to our capabilities if you would like more or less of a certain cut. This type of order would cost approximately \$400 to \$500.

To order:

call (402) 569-3442,

call or text (402) 394-1880

email springlakeangus2020@yahoo.com or springlakearts@gmail.com,

or find us on Facebook <https://www.facebook.com/SpringLake.Angus/>

or our website www.springlakeangus.com
