SELLING

2 YEAR OLD ANGUS BULLS
YEARLING ANGUS BULLS
YEARLING HEIFERS
BRED HEIFERS
COW/CALF PAIRS

**WHERE DECADES OF
PROVEN PROGENY ARE STILL
DEFINING THE FUTURE OF
THE ANGUS BREED!**

WELCOME TO THE SALE

In my 60 years in the registered Angus business, I've seen the good, the bad, and the ugly. Another year is behind us, and I again wonder where the Angus breed is headed. Politics in the American Angus Association is making the Association more of a Corporation, than an association working for the members...but that is a whole other story.

SpringLake Angus continues to go back to the bloodlines that have proved themselves over decades and withstood the exotic invasion...even turning the exotics black. Some have tried to turn the Angus breed exotic and we still see that in the breed today. MLK Angus joining our sale this year has made going back to the future fun again! With bloodlines that shows itself over decades of producing real cattle, you don't need numbers to tell you if they are good or bad. The greatest Angus bull may have already walked the earth, we didn't have the "numbers" to tell us when it was a great bull, we had the calves on the ground. So, as we look back and see the bloodlines still in today's breed, we are going forward using these same bloodlines. I think the future is Graber's Mr. Angus because he has a lot of the old Aberdeen Angus traits. He looks the part, and as we are seeing his first calves, he's walking the walk. Numbers are just dressing. I think he will prove that he is a true Aberdeen Angus. We will always stay close to the top bloodlines and be true to the Aberdeen Angus breed. Last year, we rated 87% prime on our butcher heifers...we are striving for 100%. It's all we serve at our event center and we are very proud to say it is home grown and prime beef! After all, it all ends up on the plate!

Thanks to all of you that have believed and supported us. We appreciate all of you!

God Bless!
Gene

Gene, Kelcey and Teal Timperley

Gene always writes the letter, but I need to add. I want to thank our children. Our eldest daughter, Kodi, does not get enough praise for all she does at sale time. She starts baking months before sale day and has her days and menus planned well in advance. If you've come before, you know you do not go away hungry! Thank you Kodi for all you do! Our son, Kiel, comes from Denver to help us on sale week (unless the weather prohibits). Thank you for always making that trip just to be here to help anyway you can! And our youngest, Teal, who has been such an integral part of this operation. Even though she's not here every day anymore, she is the one that sheared the pictured sale animals, took their picture, edited them and got them online plus does all of our advertising! We appreciate you more than you know!

I also want to thank all of those behind the scenes. Dallas Carson, Jory Carson, and Zach Storjohann...It's a pleasure to work with real cowboys!!

A special shout out to Ian Sterner! Thank you for saving me from a heart attack!

God Bless all of you!
Kelcey

SALE SITE:

SpringLake Angus Center 50475 887th Road Lynch, NE 68746

AIR TRANSPORTATION: Private planes are served at landing strip in O'Neill, Nebraska. Commercial flights are available in Sioux City, Iowa; Omaha, Nebraska; and Sioux Falls, South Dakota.

ACCOMMODATIONS: Lodging is available in nearby O'Neill, Nebraska. Contact SpringLake for assistance.

TERMS AND CONDITIONS: Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). All bulls selling for \$2,500 or more will be covered 100% (less \$1500 for salvage value) if they are injured during their first breeding season and not able to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of bulls. 100% of the value of the injured bull, minus the salvage value, will be given as credit in a future sale or towards a replacement bull, if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should any injury occur and prior to the bull being sold for salvage. All claims must be made by September 1, 2022. SpringLake and partners retain 1/3 semen interest in all bulls selling, unless otherwise noted.

SUPPLEMENTAL INFORMATION: A supplemental sheet will be available sale day with complete and up-to-date information. Announcements from the auction block take precedence over sale book information. All registered lots are AM, NH, CA, M1, D2, DD, OH and OS free unless otherwise noted.

HERD HEALTH: All cattle will be accompanied by proper health certificates for immediate shipment.

TRUCKING: Truckers believed to be reliable will be available to assist you in shipping your purchases. All bulls purchased out-of-state require a Trich test prior to pickup or delivery. Free delivery in Nebraska and adjacent states or \$300 trucking credit per head outside of that area.

LIVESTOCK MORTALITY INSURANCE: To properly insure your investment, James Bessler will be available to assist you with mortality insurance. (815) 762-2641

SALE PREVIEW AND FOOD AND REFRESHMENTS: The cattle will be available to view at the sale site beginning Thursday afternoon. Food and Refreshments will be available Thursday evening and Friday.

ONLINE BIDDING: Online bidding is available through LiveAuctions.TV

ANGUS MEDIA EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLink®, CAB®, Pathfinder®.

SLA CARCASS STATS: If numbers are what you like to look at when deciding the future of your cattle business, then SpringLake Angus has some REAL (not scanned or adjusted) numbers for you. SpringLake Angus sold 100 drug free, hormone free and all natural steers at 530# to Jim Dinklage through Superior Livestock Auction in August 2013 with a 10/31/13 delivery date. The steers were taken off the cow and shipped to O'Neill Feeders in O'Neill, NE. They were fed a normal drug free, hormone free, all natural feed ration. Of the 100 steers, 97 stayed all natural, drug and hormone free and were sent to Creekstone in Kansas at 14-15 months of age where they were slaughtered June 26, 2014. Fifteen SpringLake Angus herd sires were represented and the steers ALL went 100% Prime or Choice. SpringLake Angus thinks this is the actual numbers that we should be striving for:

SPRINGLAKE ANGUS AVERAGES:

100% Prime and Choice
23.7% Prime
76.3% Choice
0.0% Select

NATIONAL AVERAGES:

51% Prime and Choice
49% Choice
49% Select

More SpringLake stats: Yield Grade Avg. 3.24, Back Fat Avg. 0.58, Ribeye Area Avg. 12.74, Standing Wt. Avg. 1245.74#, Hanging Carcass Wt. Avg. 791.25#, Dress % Avg. 64.00%. There were no discounts for light or heavy carcasses. The top steer dressed prime and hung 72.15% and that is what SpringLake Angus and Friends are working towards. We are in the seedstock business and this is where we can make the biggest impact in the future of cattle for the registered or commercial cattleman. As the year progresses, please compare these numbers to other programs, promotions and the national average and we think the more you do, the more impressed you will become. As most cattle end up on the grid, do you think SpringLake Angus and Friends genetics could move you towards 100% Prime and Choice? The REAL numbers show it's working for us.

\$EN BREED AVERAGES:

Current Sires -15

Current Dams -11

Non-Parent Bulls -15

Non-Parent Cows -15

Many of the cattle in this sale have high ranked \$EN (\$Energy) values as compared to breed average.

COW ENERGY VALUE (\$EN), expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

THE SLA SALE CATTLE are bred for fertility, longevity/functionality, good feet and legs, calving ease and docility, and \$EN to perform on grass in low input environments. Their genetics provide an opportunity for breeders to once again emphasize these traits in their herds and improve returns on investment.

Note: DMI EPD is an expression of transmitting ability of dry matter intake.

THR RR RITO 707 STORY

Born more than 50 years ago, RR Rito 707 established himself as a common denominator in most performance bloodlines that continue to be prevalent in the Angus breed today.

He dominated the 1968 PIC Bull Test at Stanford, Montana, as the top yearling weight and top gaining bull with a gain ratio of 129 and sold two-thirds interest for \$5,000 as the top-selling bull to the American Breeders Service and Pioneer Beef Cattle, in his very first progeny test group of 27 steers recorded a gain ratio of 111 and graded USDA Choice.

He continues to compile impressive progeny weaning and yearling ratios of 105 along with productive daughters in production who post a collective progeny weaning ratio of 102.

His influential sons include the Pathfinder Sires known as Rito 149, Rito 72 and F0203, as well as the great breeding bull Rito 707 of Ideal 3407 7075.

This dominating sire from the timeless Rito performance lineage has established himself as a true breed legend and a powerful breeding bull, perhaps unlike any other ever identified.

Rito 7075 is fortified with a solid performance pedigree, tracing 39 times to the legendary Pathfinder Sire RR Rito 707, and 53 times to Rito N Bar, an original Certified Meat Sire.

His progeny displays exceptional muscle density, masculinity, natural rib shape and overall dimension with fleshing ability, foot quality and enhanced breed character.

This SpringLake featured sire has left a strong influence of daughters in the SpringLake program.

His progeny and descendants have highlighted more than a decade of successful sales at Schaff Angus Valley, include his noted sons, SAV Resource 1441, SAV Renown 3439, SAV Recharge 3436, SAV Registry 2831, SAV 707 Rito 9969 and SAV Eliminator 9105.

• A 7075 son that was a leader in our 2016 sale was pulled due to an eye injury. Keeping him for ourselves. Nicknamed "One Eye", he was one of the most docile bulls we have ever owned. One of our top herd sires until a leg injury in 2021 ended his breeding career. 5010 had great feet and was an easy keeper and many daughters are retained in the herd. He was a major contributor to our heifers on test went 87% prime! Very important to the commercial cattlemen. His Paramount Ambush mother had a WW ratio of 115 on 5 natural calves.

TED WILLIAMS 1/25/1940 – 11/15/2018

Ted, a friend to many, was a Marine Corp Vet and a Pennsylvania UPS retiree, a man with many hats. He was a no-nonsense, tell-it-like-it-is kind of guy. Like it or not, you always knew where you stood with Ted. After his retirement from UPS, Ted moved to Montana. He had an affinity for horses, dogs, hunting, and fly fishing. That led him to work for various guest ranches, outfitters, and packers. He went on to become a livestock inspector for Madison County, Montana. Ted loved ranching life and immersed himself in Black Angus seed stock breeding. Ted's love for Angus cattle and Angus genetics, led him to spend countless hours researching the breed back to its roots. He truly loved the older genetics and the breed's foundation.

It was with Ted's guidance, that Mark & Lynn Keller started their own small seed stock operation in the Helena Valley in Montana. "Ted always took the time to answer our questions as we grew and developed our own path with the Angus Breed. We are forever grateful for his guidance and friendship along with his vision for the Black Angus."

Ted did not chase the latest trend in EPDs. He felt like we were losing the strong maternal attributes, feet, udders, longevity, and structure to carry the modern cow of today. Ted's knowledge and expertise can be seen in many of the ET yearlings that we are offering in this sale. Some of the finest "sons and daughters" of the breed are offered here!

Ted Williams is no longer with us, but his vision of the great Angus breed lives on!
 Enjoy the Sale!

A Canadian bred sire, Coalbridge Marshall 15 weighed 2300# at 23 months. He had 200 daughters recorded in the AHIR program. A distinguished sire with influence that continues to live on in the Angus breed. 0037's dam, SLA Madame Pride 107, is out of the Legendary SAV Madame Pride 4312. She has a +21 \$EN, giving this bull a +25 \$EN. You won't need a lot of feed, and that is the best way to save money on a herd.

The best of all worlds when looking for cow or bull makers. Everybody knows that Rito 7075 can do that. Schaff Angus Valley and Coleman Angus sale books tell that story. Add Coleman Lady 003 who goes back to Bemindful Maid DHD 0807 on the top, a dam that is 10th in Parental influence in the Angus breed with just 33 progeny. On the bottom, 003's granddam is Ideal 4465 of 6807 4286, who is considered one of the top cows in the entire breed.

The dam is the \$96,000 valuation, SLA Lady Standard 6033. 6033 was the top-selling heifer of our 2017 sale. Her dam, RB Lady Standard 305-077, is a maternal sister to RB Tour of Duty 177. 6033's sire goes back to GDAR Rainmaker 340, a calving ease and maternal trait legend. This heifer is going back to the future with sire, Leachman Righttime, known for moderate birth weights and strong performances. He is widely renowned as one of the breed's all time great female producers.

Springlake Angus is really a unique operation it is concentrated heavily on the blood of one of the all-time great sires of the breed RR Rito 707. He needs no introduction to the breed because he is truly one of the landmark Sires.

Truly one of his greatest sons 7075, has carried on the legacy and together the impact of Rito N Bar, 707 and 7075 have united genetic power in the Springlake herd. Springlake Angus are bred for longevity and are the kind and type of Angus cattle from the standpoint of their pedigree and performance are difficult to find.

The Springlake herd is a family operation that are bred with profit in mind. You will find these to be low maintenance and low input cattle that will please you very much! Looking forward to seeing you at this important Angus event!

Our top herd sire, SLA R R Rito 707 6014, is a RR Rito 707 son. 707 is rated #7 in the Parental Influence in the Angus breed with just 1,804 progeny, and this study was done in 2017. I believe 707 would rank as high as #3 if you added the progeny of Rito 7075. 6014's maternal grandsire, B/R New Design 036, is #4 on the Parental Influence list of the Angus Breed. His maternal granddam, Ideal 4465 of 6807 4286, is in literally every sale catalog today, even if her influence is 4 or 5 generations back. She is known as one of the top Angus cows ever produced. I don't need a computer number to tell me why the progeny is good...I figure it out by the way they look when they come in from breeding season.

Ideal 3625 of 878 1356 - Granddam of Lot 29

• Sired by Black Grove 586. This calving-ease and high-maternal herd sire is a genetic gem by the rare Pathfinder Sire, Basin Rainmaker 654X, from the powerful donor, Black Grove Black Belle 110 who lived to 18 years of age. BLACK GROVE EMULOUS 586 brings unbelievable phenotype with style and balance. He has excellent feet, legs and athleticism and a deep, lower stifle muscle. He is straight topped, thick, and deep, with surprising length. He is extremely easy fleshing and maintains his body condition year round. He is a 5.5-frame bull and he weighs 2200 plus pounds. AI bred to Graber's Mr. Angus for a fall calf.

The first offering of a flush female out of Graber's Mr. Angus. 1011 has stood out since the day she hit the ground! A Back to the Future bred heifer! Her dam is a Rito 707 X Lady Focus 303-827 mating that also produced a half sister that sold at the Denver Stock show for \$18,000. 4016 died unexpectedly this year, so this is the only Mr. Angus we will get out of her! We are thankful that we have several daughters in our herd. 4016 was in the top 2% of \$EN and was a very easy keeper with excellent feet and a perfect udder. We bought into Graber's Mr. Angus because he looked like the old Aberdeen Angus. His dam was a 5-5.5 frame score and a very easy keeper. And from the looks of him, I knew that would carry through and lower my feed costs. We believe she is the Future for many pairings!

Parental influence

The Angus pedigree is massive, with more than 22 million animals.

It is also complex, with many interrelationships.

In 2017 an Angus Foundation-funded research project was undertaken by Mehdi Sargolzaei with HiggsGene Solutions Inc. of Guelph, Canada. The primary purpose of the analysis was to determine the most influential ancestors in the Angus breed. Table 1 presents these based on their marginal contribution to the current population.

The most influential ancestor is not simply the one with the most progeny or descendants. QAS Traveler 23-4 was the bull with the largest contribution. His genome makes up almost 10% of every animal born today.

After accounting for 23-4, N-Bar Emulation EXT adds another 7%. Together these two bulls account for 17%. Put another way, if we were to sequence these two bulls we would reveal 17% of the genomic material that is born in Angus today.

With genomic samples on the top 10 animals on this list we would capture 50% of the genetic variation in the Angus breed.

This project is Phase 1 in a larger long-term effort to continue to develop better genomic tools, which will include DNA sequence data from these influential ancestors, for Angus breeders.

Table 1: Marginal contribution for the 30 most influential ancestors in order

Name	Gender	Date of birth	Marginal contribution, %	Cumulative contribution, %	No. progeny	No. descendants
