

MATERNAL POWER™ ANGUS BULL SALE

AT THE RANCH · FEB. 19, 2022 · 3 P.M. · FORT RICE, ND

75 YEARLING AND 2-YEAR-OLD ANGUS BULLS

OUR PROGRAM:

We raise Angus cattle that prosper in a no-frills environment. They are moderate-framed, very fertile, easy-fleshing productive females with good feet, great udder quality and a quiet disposition. A seedstock source with a no-nonsense, problem-free herd backed by Maternal POWER™ is essential to help ranchers stay profitable.

Each year, we select a handful of proven, balanced-trait AI sires to use in our program. They must have a proven maternal lineage, come from highly productive mothers and, preferably, have daughters in production.

This is not a shoot-from-the-hip breeding program. By taking a balanced approach to genetic selection, we hope to manage our risk and help you manage yours.

COMMITTED TO OUR CUSTOMERS:

Each bull is backed by generations of Maternal POWER™ and our industry-leading guarantee. As a Strommen Ranch bull buyer, you can take full advantage of our exclusive marketing resources: the Badlands Angus Alliance Female sales and our Commercial Female List. Both tools expose our customers' bred and open heifers to potential buyers.

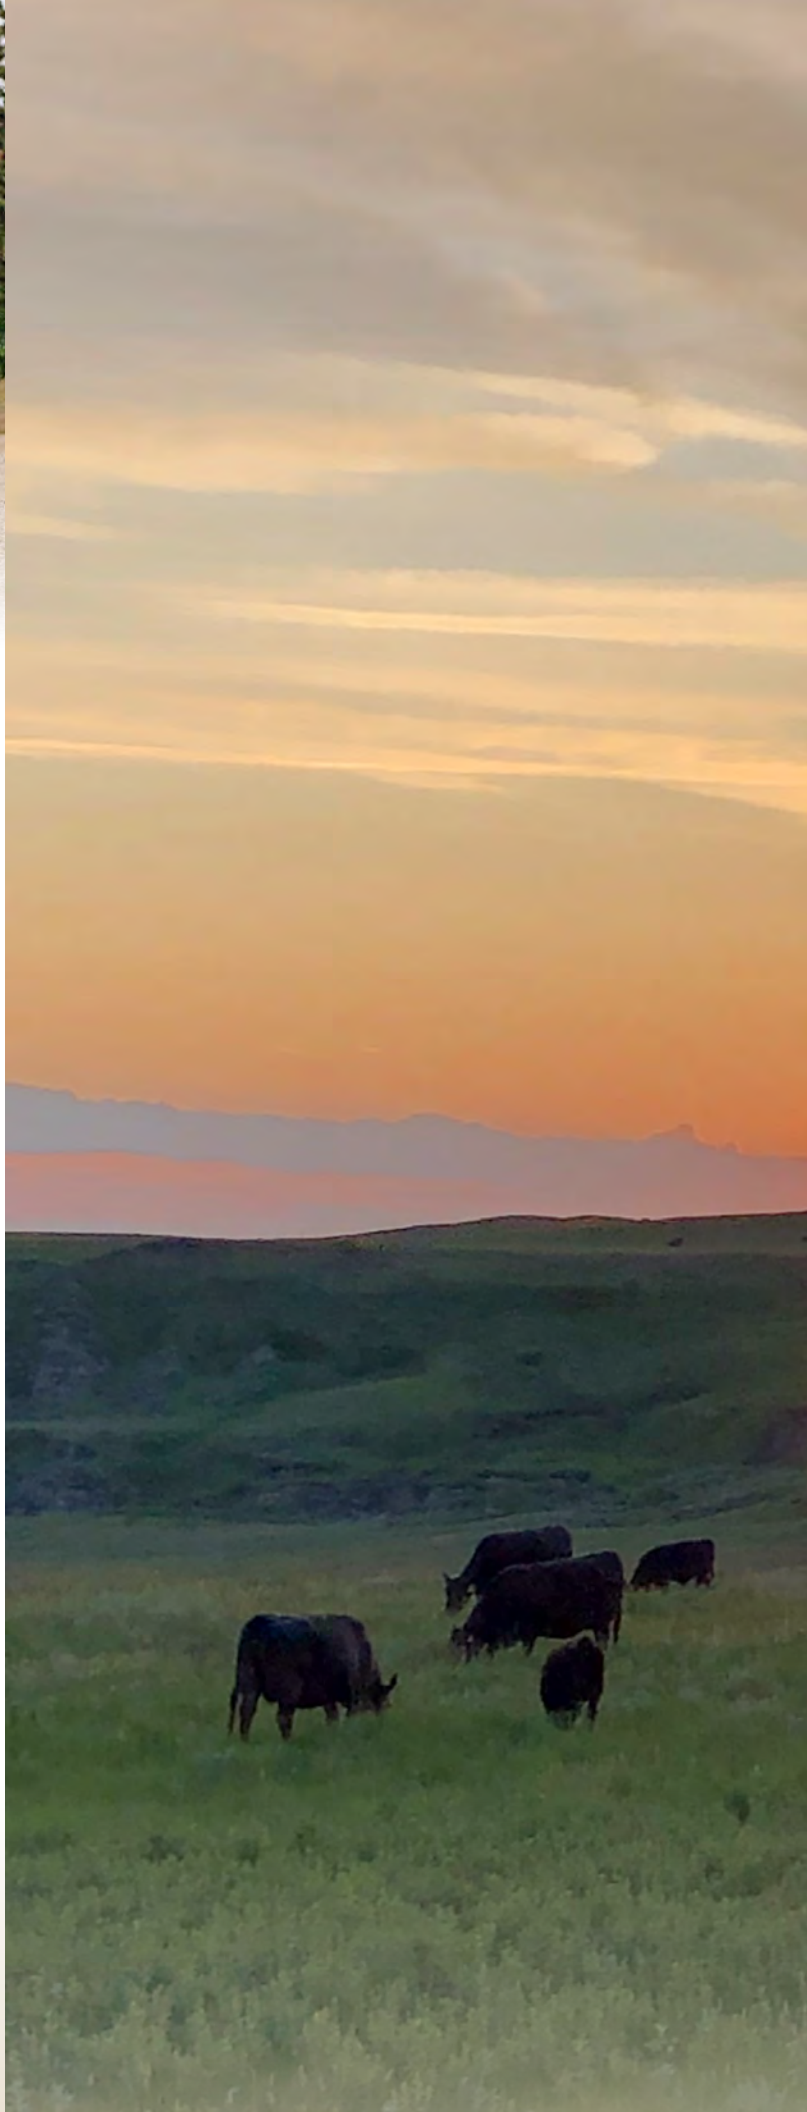

We've built - and continue to build - a strong demand for Strommen Ranch-influenced commercial bred females that generate a premium for our bull customers. We fully recognize our future as a seedstock supplier is based on the success of our customers. We will work hard to help you succeed.

We invite you to attend our 2022 Maternal POWER™ Angus Bull Sale, SATURDAY, FEB. 19, 2022 at the Ranch, Fort Rice, ND. We are eager to earn your trust, friendship and business.

**Call or text Aaron with
any questions about
the offering!**

A photograph of a rural landscape at sunset. The sun is a bright orange orb on the horizon, casting a warm glow across the sky and the green, rolling hills. A herd of dark-colored cattle is grazing in the foreground. The sky is filled with soft, wispy clouds. A dark, textured triangular shape in the top right corner contains white text.

We are excited to present this year's offering.
The selection of calving-ease bulls is
better than ever and the selection
of full, 3/4 or 1/2 brothers in
our performance and power
bull division is diverse!

- Aaron

SALE ORDER • We will follow consecutive sale book order.

TERMS AND CONDITIONS • All animals sell under the standard terms and conditions of the American Angus Association. Terms of the sale are cash. Full payment is due on sale day, unless prior arrangements have been made.

BASE PRICE • All bulls will have a minimum price of \$3,000 sale day. Bidding will begin at the base price.

BULL DEVELOPMENT • These bulls have been handled correctly and developed without ANY creep. They have been fed just enough to express genetic differences, but not overfed as to compromise soundness or longevity. We want you to have a bull that will do his job and last for years. We believe our 90-day breeding season guarantee, detailed below, is among the best in the industry.

DISCOUNTS • We will offer a \$50/head discount if you purchased a bull last year and a \$50/head discount for volume purchases of 2 or more head.

EPDS • EPDs are current as of Jan. 30, 2022.

SALE TIME & LUNCH • The sale starts at 3 p.m. CST. Please join us for lunch beginning at 1 p.m. and remain with us after the sale for fellowship and refreshments.

FEEDING & DELIVERY • We will keep all bulls free of charge until delivery. Deliveries start May 1st. We ask that you work with us so that we can deliver bulls in the most efficient manner. We offer free delivery within 500 miles of the ranch.

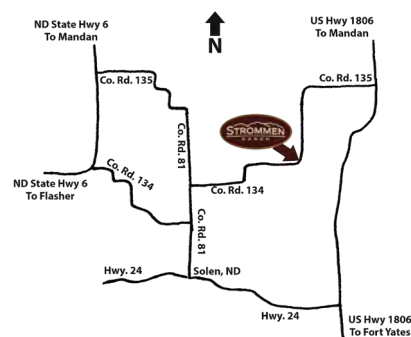

HEALTH • All bulls have been on a complete health program as prescribed by Dr. Pat Bierman of the Mandan Vet Clinic, Mandan, N.D. Bulls have been given a vaccination for foot rot and will be boosted when they are fertility tested.

FERTILITY • All bulls will pass a fertility exam performed by Dr. Bierman before delivery.

LIABILITY • Anyone attending this sale does so at their own risk. Neither the owners nor anyone connected to this sale, assumes any liability, legal or otherwise.

SIRE GROUPS • For our customers who are looking to put together a set of closely related herd sires, we are offering many 1/2, 3/4 and full brothers.

SIGHT UNSEEN PURCHASES • If you, for some reason, are unable to attend the sale, but wish to place a bid, feel free to call us and we will handle your bid as if you were here. If you wish to be on the phone during the sale, we will try to accommodate your request. Please let us know in advance so arrangements can be made. We have also partnered with DVAuction to offer online bidding and purchasing options. All sight unseen purchases are fully guaranteed.

DIRECTIONS TO THE SALE • From Cenex on Main Street in Mandan, take Highway 1806 South 27.5 miles. Turn West onto County Road 135. Go West about 4 miles. The road curves South. Continue South 3.5 miles. The ranch is on the West side of the road. Roads will be marked.

From Solen, go North on County Road 81 for 5 miles, then turn East onto County Road 134 for 7 miles.

DVAuction
www.dvauction.com

We've partnered with DVAuction.
See page 8 for details.

Videos of the bulls will be available on our website www.StrommenRanch.com

GUARANTEE • Strommen Ranch is very confident that we have developed these bulls safely. They have been fed just enough to express genetic differences, but not overfed as to compromise soundness or longevity. **We want you to have a bull that will do his job and last for years.** It is important to us that these bulls not only perform from birth to yearling, but from birth through breeding. It is with this confidence in our bulls that we can give our full 90-day breeding season guarantee. We understand that these are animals and that injuries do occur, but we have the utmost confidence that we have developed these bulls in the best way to protect your investment. If an injury or death occurs, Strommen Ranch will guarantee them for the purchase price minus salvage value (\$1,500), or we will provide a replacement bull, if a suitable bull is available.

We don't make you take out an insurance policy and add that to the purchase price. We don't have a formula to take away half of the value of the bull if injury occurs. At the same time, these are not 'disposable' bulls. We expect you to care for your investment in your Strommen Ranch bull, so that if a problem does occur, the most appropriate and timely care is taken. If the bull happens to get injured, or you are unsatisfied with your purchase for any reason, we want to know so we can take care of the issue in a timely manner. All injured bulls must be diagnosed by a veterinarian and any claims must be made by Sept. 15, 2022. **We are committed to our customers and your success.**

PROVEN, BALANCED COW-MAKERS

Our cattle are backed by generations of proven, efficient genetics, emphasizing calving ease, fleshing ability, productivity, udder & foot quality, disposition, structure and fertility.

There are three things Torque does better than any bull we have ever used – he adds body length, improves disposition, and he stands on a tremendous foot. He works great on those big-bodied, easy-fleshing females that need spine length and extension up front. He improves disposition and feet quality, all while maintaining maternal function and power. We feel the best is yet to come with the daughters he is leaving us.

The daughters we have in production are excellent mothers. They have near-perfect udder shape and teat size, excellent feet, good dispositions and are very productive and fertile.

“THE GOAL ISN’T TO LIVE FOREVER,
BUT TO CREATE SOMETHING *that will*.”

—CHUCK PALAHNIUK

Torque's disposition is outstanding. Before we took the top photo, we combed out his tail and wiped his face down with a wet cloth – all while he stood like a gentleman out in the pasture.

The Substantial calves have tremendous vigor at birth and in three years, we have never assisted a single virgin heifer bred to him. The calves have laser-like focus on nursing and are very aggressive at getting on the teat. The daughters are nice uddered and have tremendous structure. He is sired by Substance and out of a daughter of Territory. He has a negative Birth EPD and double-digit calving ease with tremendous ability to pass on good feet and large scrotal size to his sons. The sons are an excellent choice for breeding heifers. This is the last set of Substantial sons we will offer in a spring sale.

Rainfall was our choice for calving-ease, performance, phenotype, and carcass quality. He gave us the stoutness and body type we were looking for in a light-birth package with excellent breed character. The daughters are clean-fronted with massive body volume and rib-depth, which will help them withstand extreme conditions. This gives them the internal capacity it takes to break down poor-quality forage and turn it into muscle and fat for survival in our sometimes harsh environment.

DVAuction Broadcasting Real-Time Auctions

Can't make the sale? **Bid from home with DVAuction's "real-time" internet bidding service!** Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction - a DV representative will notify you when you are approved.
3. Tune in for the sale and make your purchases!

After the sale, contact Aaron to arrange transportation and payment. High speed internet is required for successful bidding - be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding: If you can't make time to watch the sale, register a proxy bid and DVAuction will represent your bid while you're away. Look for the "proxy bid" tab on the auction listing and fill in your maximum bids. They'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. DVAuction support can always be reached at (402) 474-5557.

Tehama Blackcap Revolution is a bull we have been watching for many years. The bull in the breeding pasture was one of the most impressive bulls I've ever laid eyes on. Charlie Boyd said, "He was one of the best bulls we have ever had walk at Boyd Beef Cattle." Fertility, feet and udders are great. He has clicked well with our cattle. You will see his progeny trickle in over the next few years. Semen was nearly impossible to find, but we gathered up enough and have been flushing our best cows to him. Muscle mass, bone, excellent feet, productive, fertile daughters with great phenotype, and tremendous udder quality. His progeny are not frail, chicken-boned, light-birth calves when they are born, but have noticeable vigor and a will to live in tough calving conditions.

After seeing Landmark at Schaff's multiple times, we decided he was a young bull worth taking a chance on. Landmark progeny are massive, and powerful on a moderate frame. His sons have as much Angus breed character as any bull we have used and they stand on excellent feet. His daughters are deep, broody-type females that have a maternal look. They have unmatched body mass with dimension and, based on the females in his ancestry, should be great-uddered, productive and phenotypically pleasing to the eye. We are very excited about this sire group and have a larger group coming next year.

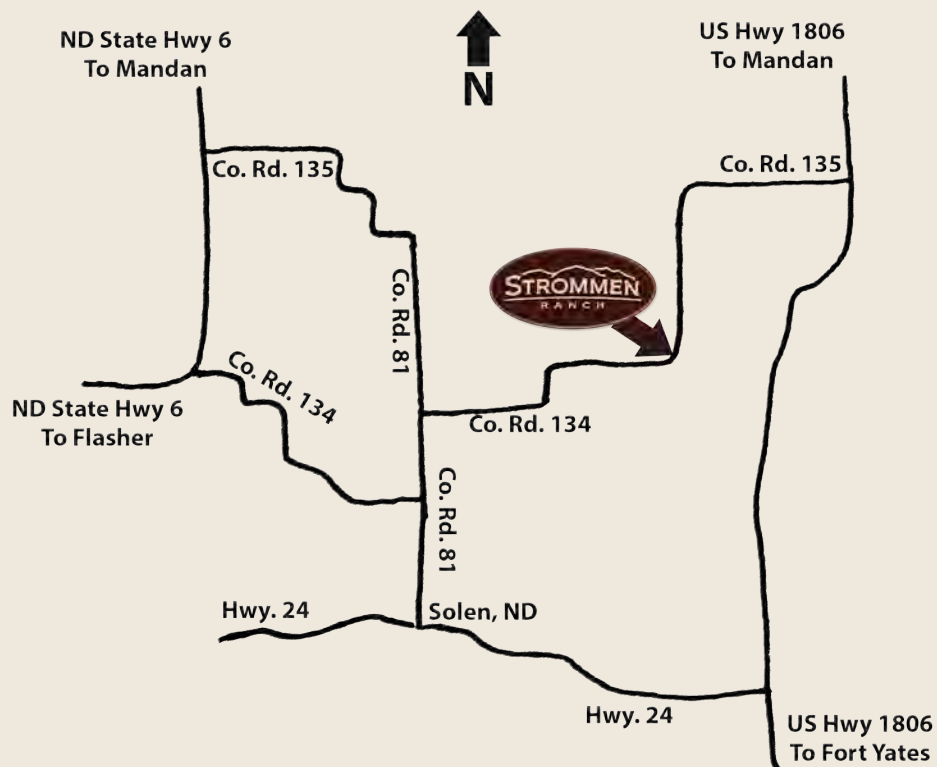

SALE LOCATION

DIRECTIONS TO OUR SALE FACILITY AND TO INSPECT THE BULLS

From Cenex on Main Street in Mandan, take Highway 1806 South 27.5 miles. Turn West onto County Road 135. Go West about 4 miles. The road curves South. Continue South 3.5 miles. The ranch is on the West side of the road. Roads will be marked.

From Solen, go North on County Road 81 for 5 miles, then turn East onto County Road 134 for 7 miles.

As many of you know, we were blessed to find a handicapped accessible home fairly close to Fort Rice; however, our cattle and this sale will be held at the original Fort Rice location until further notice.

This summer, we attended the National Junior Angus Show in Grand Island, NE., where Cassidy earned 5th in the nation for livestock judging. Both Cassidy and Cooper shared tips with Clint as he made his livestock judging debut. Cassidy, who served as a 2021 ND Angus Princess had the good fortune of meeting and befriending the 2021 Miss American Angus, Ellie Kidwell. On the way home, we were treated to an exclusive tour of TransOva Genetics in Onida, S.D.

What a tank! We start this years' sale with what may be the best Torque son we have ever sold. He has everything we look for when we are building a cowherd and looking for sires. He is massively built, heavy boned, thick-made with masculinity and endless muscle. To top it off, he is out of a female that is at the top of her age group and has the phenotype, production and fertility to compete anywhere. His dam will be a second-generation donor female as she is destined for the donor pen. She scores perfect 10's for udder quality and disposition and comes from arguably the best female to ever walk the pastures at Strommen Ranch, S R Polly 804. He is king of the crop ratioing 120 among his contemporaries. His dam has settled to first-cycle AI every year and is due with another Torque bull.

A sale feature worthy of a look. He is out of a beautiful Thunder daughter that has settled to her AI service every year and scores a 7 for udder quality and a 10 for disposition. She also has a calving interval of 363-days. Lot 9 goes back to our Dorothy Ideal cow family that originated at the Jorgensen program in SD.

Docility is important to us for many reasons, but especially when we welcome special guests to the ranch, like Sheyna's mom Carmen Richard of Rolette, N.D., who is 87 years young and pictured here feeding cake to one of our bred heifers in October, 2021.

Recommended for use on heifers. One of the last bulls to sell from the 376 donor cow, as we lost her this winter. S R Everelda Entense 376 achieved a progeny WR of 6/105 with a 369-day calving interval. His dam was selected for the donor pen based on her fertility record of always calving in the first cycle, good udder, excellent feet and great disposition. Maternal brothers sold to Jeff Hornbacher, Paige Hagan and Lance Gianonatti.

Recommended for use on heifers. Nice-made Rainfall son from the Lady Blue cow family that is making their mark in our herd. The Lady Blues are knocking it out of the park for production and fertility. Lot 11 has a nice EPD package with good marks for calving ease, growth, and milk. His dam scored a 7 for udder, an 8 for disposition and settled again first cycle with a Silverado bull.

South Dakota State University senior Kayla Weinzierl was our 2021 summer intern. She is pictured here top, L to R, prepping AI guns, freeze branding heifers, riding pastures and wrestling calves at the neighbor's. Kayla graduates in May with degrees in Animal Science and Ag Science with minors in Ag Business and Ranch Management. She has secured full-time employment with Deans AI Service after graduation. If you know of a college-age student who wants more hands-on experience on a purebred cattle operation, please encourage them to apply for our 2022 internship. The internship centers around our A.I. and embryo transfer program, but the successful candidate will have many opportunities to expand their working knowledge of a seedstock ranch.

Tehama Blackcap Revolution • Sire of Lot 27

The Clova Pride line of females represents one of our foundation cow families, and our 315 donor is at the top of that line and near the top of the herd. As 315's natural calf, Lot 27 achieved a 109 WWR, while his Pathfinder dam has a progeny WR of 7/105 and scores 8's on both udder quality and disposition. She has settled to AI service every year and has a 366-day calving interval. This stout, thick, massive-middled individual will make females that will be around for the long term. He checks a lot of boxes with the performance, muscle and maternal strength of Blackcap Revolution and the Maternal POWER™ of Clova Pride 315.

This Torque son is typical for his sire group. Long-bodied, stout-made, great-footed, and masculine with Angus breed character. His dam will achieve Pathfinder status as she has a progeny WR of 3/107 with a 359-day calving interval. His granddam was very productive and carried a progeny WR of 109. His dam has an udder score of 8, a disposition score of 9 and has settled to her AI service every year. She is due with a first cycle Torque bull.

I like the length of body in this Torque son. His Pathfinder dam has a strong production record with a progeny WR of 7/106. She has a flawless fertility record, having settled to her AI service every year, sports a calving interval of 367-days, and scores perfect 10's for udder quality and disposition. She is due first cycle to Landmark with a heifer. Lot 35 will sire pounds to the ground at weaning time and a set of replacement females you will brag to your neighbors about.

THESE BULLS AND FEMALES ARE THE BACKBONE OF OUR COWHERD!
REPRESENTING 21 YEARS OF BREEDING FOR MATERNAL GENETICS

WE VALUE **OUR CUSTOMERS.** We know that our success is wholly dependent on your success. This is why we are committed to raising the type of Angus seedstock that will have a lasting, positive impact on your bottom line, and why we will continue to build a market for Maternal POWER™ females.

Over the past four years, we've partnered with Talkington Angus Ranch and Best Angus to help our collective customers sell their replacement bred females through Badlands Angus Alliance sales in Dickinson in December. The Badlands Angus Alliance is recognized by many as *The Premiere Source* for Angus genetics in western North Dakota. We've also helped our customers market and/or purchase high-quality heifer calves through our Commercial Female list. These are marketing perks offered exclusively to our bull customers.

WE VALUE **INTEGRITY IN BUSINESS.** It is why we offer such a thorough bull guarantee. It's simple. We want you to have a bull that lasts for years. Our guarantee tells you we still have 'skin in the game,' beyond sale day. When you buy a Strommen Ranch bull, you can bet that Aaron will check in to see how your Strommen Ranch bulls are performing. And, if an unforeseen circumstance arises, you can bet that we will stand behind our bulls. If you've ever visited with Aaron about cattle (or any subject, really), you know he does not mince words. He'll tell you what he likes about a bull or female and he'll tell you what he doesn't like about that animal, as well. We feel blessed that our customers also embody this same level of integrity and do their best to protect their investment in their bulls with Maternal POWER™

A full-page background image showing a sunset over a vast, grassy field. The sun is a bright yellow orb in the center of the sky, casting a long, golden glow across the landscape. The sky is filled with soft, orange and yellow clouds. In the foreground and middle ground, a herd of dark-colored cattle is scattered across the field, some standing and some grazing. The horizon is marked by low, rolling hills under the warm light of the setting sun.

“IT’S NOT HARD TO
MAKE DECISIONS
WHEN YOU KNOW WHAT
YOUR *values* ARE.”

- ROY DISNEY

WE VALUE **QUALITY**. Bulls that make our February and December sales are the top-cut of the calf crop and have been retained specifically for these sales. Not every bull calf born at Strommen Ranch makes it to the sale pen. Not every seedstock operation sells steers. We do.

Strommen Ranch calves grow out on grass. We DO NOT creep feed or use lick tubs. We choose to run our seedstock operation like a no-nonsense commercial operation. We want your calves to perform in your environment – that’s why we ask our bulls and females to shine in a similar one. Our cows consistently improve weaning weights, while increasing the percentage of cows that re-breed in the first 21 days, maintaining mature cow size and placing downward pressure on our input costs. We are continually asking our cattle to do more with less.

WE VALUE **MATERNAL POWER™**. Strommen Ranch cows must calve annually and wean a calf that is a high percentage of its dam’s bodyweight. They must also possess the basic phenotypic traits to cover country, breed on time, have the smarts and mothering ability to do it on their own, all the while performing under the conditions that Mother Nature has dealt us. We select for fertility, longevity, sound structure and realistic performance in the cowherd.

Cattle that breed early in the cycle, are structurally sound and can raise big calves efficiently in a practical environment with minimal inputs are the kind of cattle we produce and believe will have a positive impact on your bottomline now and into the future.

ABOUT THE 2-YEAR-OLDS

Beginning in 2016, we started retaining a portion of our bulls to be offered as two-year-old's, due to an increase of requests from various customers. This year, our sale is offering 12 outstanding two-year-old bulls aimed to meet your satisfaction. They were developed as yearlings in a similar manner as the bulls that were sold in our 2021 Maternal POWER™ sale.

They are virgin bulls that were intentionally kept for this sale.

These boys are stout, rugged, masculine, and ready for heavy service in big country. We are excited to continue to expand this part of our operation as it gives us the chance to see our genetics as they age and develop.

Outcross genetics for most of our customers. We purchased these embryos hoping to get females. These bulls are larger-outlined, performance bulls. They are long-bodied with above-average muscle. Their sisters are very angular, long-bodied females we are excited to calve this spring. They are both bred first cycle to have Rainmaker 4404 heifer calves. Their famous dam, owned by Sitz, Coleman and Sinclair, has 22 daughters in production. She has a progeny WR of 8/101 and a YR of 6/106. She is the granddam to Sitz Alliance 7544, Sitz Bullseye 9994, Sitz Logo 6197 and Sitz 4 Aces 4551. Bulls can be registered upon request. EPD's are parent averages.

Sitz Pride 2188 is the Donor Dam of Lots 74 and 75

Cassidy had a freak accident on the ranch, and broke her pelvis in three places in June. She was in a wheelchair and on crutches for most of the summer, but that didn't stop her from attending the ND State FFA Convention and showing her livestock in three county fairs.

Clint was proud to welcome Grandpa Wayne and Grandma Danette to the Veteran's Day program at school. Grandpa Wayne served in Vietnam.

In December 2021, the Bismarck Tribune named Cassidy its "Teen of the Week" for her efforts in promoting Angus cattle.

Above, former Strommen Ranch intern, Tracy Davis, returned to surprise the kids at prom.

FOR OUR VALUED CUSTOMERS, WE OFFER:

- Two sales with two ages of bulls:
Spring Sale: Yearlings • Fall Sale: Coming 2-Year-Olds
- Free delivery within 500 miles of Strommen Ranch.
- Full 90-day breeding season guarantee.
- Fertility tested; Freeze branded.
- Bulls that aren't overfed.
- Discounts for volume purchases and repeat buyers.
- Large sire groups and expanded selection.
- **Exclusive commercial female marketing assistance.**
 - Badlands Angus Alliance Sales in Dec.
 - Commercial Female Listing.
- *Your satisfaction is our top priority.*

AAA #: 18248293

5261

CE	BW	WW	YW	Milk
5	2.4	56	115	28

There are three things Torque does better than any bull we have ever used – he adds **body length**, **improves disposition** and he stands on a **tremendous foot**. He works great on those big-bodied, easy-fleshing females that need spine length and extension up front. He improves disposition and feet quality, all while maintaining maternal function and power. His sons consistently sell at the top of our sales and we truly believe the best is yet to come with the **60+ Torque daughters we've retained in our herd**.

Owned with Bruin Ranch and Upchurch Brothers. Leased to Genex

9	1.6	75	136	23

Born & raised at Strommen Ranch. Owned by Genex, CRI.

This **moderate-framed**, tank of a bull offers calving-ease genetics, backed by **Maternal POWER™** for the most discriminating cow man.

His productive and fertile Pathfinder dam has settled to A.I. every year and posts BWR 4/97 and WWR 4/109. For docile, good-footed, moderated sized cows that wean a high percentage of their body weight, look no further than **SILVERADO!**

MONTANA GLOBAL 9129

AAA #: 19603267

CE	BW	WW	YW	Milk
8	0.4	59	109	24

Global gives us a maternal lineage, herd bull presence and an excellent phenotype on both sides of his pedigree. His full sister is a gorgeous cow with a beautiful udder. His young dam is a full sister to Coleman Bravo 6313 and is quickly rising to the top of the Montana Ranch herd. We expect Global to transmit **calving ease** in a **moderate-framed package** with **fleshing ability** and **maternal goodness**. Semen available for heifer projects. Commercial and volume discounts apply. **Contact us for availability and pricing.**

Coleman Donna 4356 • Dam

Coleman Bravo 6313 • Full brother to the Dam of Montana Global

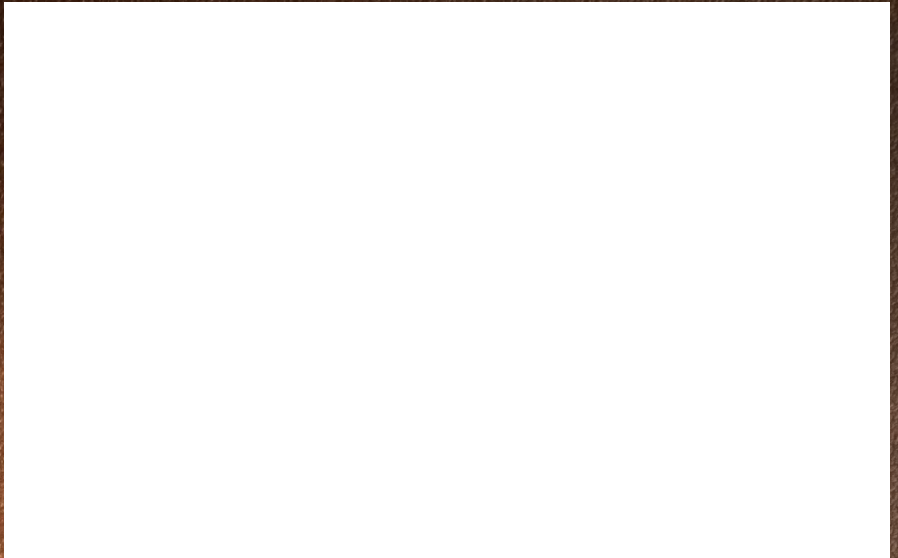

Werner War Party 1472 • Sire
