

Celebrating 60 YEARS in the ANGUS business

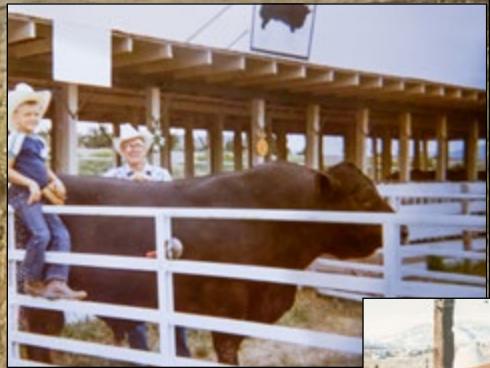

# Sunny OKANOGAN ANGUS

ANNUAL PRODUCTION SALE

**March 11, 2021**

1 p.m. Okanogan Livestock Market  
Okanogan, WA

# A program steeped in history and moving forward

“When we sell you a bull, we have owned that cow’s dam, granddam, great granddam and even further back. We know the consistency of her Angus heritage is deep in her blood.”

# March 11, 2021 • 1 p.m.

## Okanogan Livestock Market, Okanogan, WA Rodeo Trail Road, Okanogan, WA 98840

Welcome to the 2021 Sunny Okanogan Angus Bull Sale. This year marks our 60th year of selling range ready Angus bulls. As I sit here writing this letter, my mailboxes have been bombarded with sale books, one after another, where you can purchase Angus bulls. As I analyse all the data I feel more and more confident that the path we are taking is the right path to steer commercial cow producers to profits and success. Our cow herd is different than many as we are generations deep in the same females we started with some 60 years ago, with the same goals. We are not out buying someone else's cows, we have developed them for over 60 years, one generation at a time. When we sell you a bull, we have owned that cow's dam, Granddam, great granddam and even further back we know the consistency of her Angus heritage is deep in her blood. We have raised almost every cow, they are related, as we started 60 years ago on this journey.

We strive to offer you genetics that are maternally oriented, that allow you to raise cows that have maternal function (fertility, udder quality, mothering ability, fleshing ability), cow sense and with our strict goals that bring you no nonsense genetics that work in all types of country. Furthermore our philosophy has always been that we want to raise big stout Angus bulls and that as the industry has chased lower birth weights we have stayed the same focus knowing that if you chase fads you lose pounds and don't raise a cow that calves as easily as they should. We want to raise bulls that go on to sire sale topping demand feeder calves, the only way to do that is to not chase fads for lower birth weight on every single cow. We still covet calving ease, but we believe that is more a function of structure and build than it is solely a measurable trait of birthweight. With that being said, many of these bulls will work on virgin heifers and cows alike. We look for the bulls that will produce a big stout calf that will push down the scales at sale time.

As a registered and commercial producer, the winters have taught us that it is not always the lightest and lowest birth weight calves that will survive and weather the big storms. It is the calves that are born the easiest with enough strength and power to get up off the ground. For these reasons we offer you one of the strongest sets of fall and yearling bulls we have ever offered, they are sure to make success and profitability a priority for you, our customers.

We would like to invite you to the sale, March 11, 2021, at the Okanogan Livestock Market, a Tri-Tip lunch at noon and Sale starts at 1:00PM. Please join us to evaluate a set of bulls that have the structure with length, bone, muscle, power and feet to give you the longevity to winter the next big storm.

### THE VEJRASKA FAMILY • 103 Cherokee Rd. Omak, WA 98841

## GENERAL INFORMATION TERMS & CONDITIONS

### SALE DAY PHONES:

Craig Vejraska .....	(509) 322-2780
Todd's Cell.....	(509) 429-2276
Scott's Cell.....	(509) 429-2176

### SALE PERSONNEL:

Butch Booker, auctioneer .....	(509) 989-2855
Logan Ipsen, ringman.....	(916) 947-2392
Jared Patterson, ringman .....	(208) 312-2386
Mark Frisbee, ringman.....	(208-495-2601

### ACCOMODATIONS:

12 Tribes Casino .....	(800) 559-4643
Reference <b>"Sunny Okanogan Angus Bull Sale"</b> for a discount.	

**INSPECTION OF CATTLE:** Sale cattle will be available for inspection March 10th when we host the FFA judging competition at the sale site. Prior to March 10, visitors are welcome to view the bulls at the ranch.

**LOT NUMBERS:** Ear tag lot numbers on sale cattle will correspond with the catalog.

**CALVING EASE BULLS:** Bulls that could be considered for use on heifers or cows will have a  symbol appearing behind their pedigrees.

**TRANSPORTATION:** Upon request, planes will be met at the Omak Airport. The Omak Airport serves private planes only. Transportation to and from the sale site or headquarters is available by contacting the sale management.

**HEALTH:** All bulls will have health papers and will be available for immediate shipment into Washington & adjoining states. Cattle selling to any area that requires additional tests will have to complete tests before shipment. All bulls have passed a semen evaluation by an accredited veterinarian. All bulls selling are certified to be virgin bulls. These semen test results will accompany the health papers.

**AMF, CAF, NHF STATUS:** All cattle are negative by pedigree or test.

Catalog designed by **Strommen Livestock Services**  
Fort Rice, N.D. • (701) 445-2020

**BIDDING:** Each animal offered for sale will be sold to the highest bidder. Each bid shall constitute an offer to purchase and the final bid shall constitute a binding contract between Buyer and Seller. The auctioneer will settle any disputes as to bids and his decisions on such matters shall be final.

**TERMS:** Terms of the sale are cash or bankable checks. All settlements are to be made with the clerks of the sale immediately following the conclusion of the sale.

**ANNOUNCEMENTS:** Any changes from information of any kind in the catalog will be announced from the auction box and such announcements shall take precedence.

**REGISTRATION CERTIFICATES:** A certificate of registration and transfer will be available on each animal at no cost to the buyer. Please indicate your transfer instruction with the clerks at the time of settlement.

**DELIVERY:** Free delivery within Washington and adjoining states.

**IDENTIFICATION:** Seller offers each animal with a readable tattoo corresponding to the registration. Buyer agrees to check tattoos for accuracy.

**LUNCH & REFRESHMENTS:** Complementary lunch & refreshments will be available at the sale site.

**HANDLING & RISK:** Each animal will be at BUYER'S RISK as soon as sold.

**RIGHTS & OBLIGATIONS:** In the event of default in any part of the Terms & Conditions covering this sale by either the Buyer or Seller, it shall be the responsibility of the Buyer, or the Seller, to instigate any action necessary to bring about a fair settlement of any claims arising from this sale and to be responsible for any and all costs involved therein.

**RISK:** All persons who attend the sale do so at their own risk. Neither the sale manager, nor any other persons connected with the sale, assume any liability, legal or otherwise.

**ADDITIONAL SALE TERMS & CONDITIONS:** Any terms & conditions not covered by the catalog will refer to the Standard Terms & Conditions set forth by the American Angus Association.

# REFERENCE Sires

**CONNEALY ARSENAL 2174 • Reg #: #17314528**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
14	0.9	71	132	11.6	32	18	55	0.38	0.25	50	79	98	131

Sires easily born high growth calves that are stylish and stout with lots of vigor.

**BASIN PAYWEIGHT 107S • Reg #: #15332022**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
2	3.3	73	124	10.3	20	31	59	0.45	0.82	50	60	110	157

He is still our go to sire to make all business cows with growth length and cow function. One of the most proponent sires we have ever used, his influence will be felt in our herd for decades to come

**DL DUALLY • Reg #: 18608253**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
4	1.8	92	164	13.9	11	28	56	0.48	0.47	43	69	91	133

Outcross genetics that are programed extremely well. He sires easily born calves with growth, mass and muscle.

**KOUPALS B&B UNANIMOUS 7018 • Reg #: 18900763**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
-3	2.4	82	138	10.9	16	15	47	0.58	0.58	52	71	79	125

Our pick as one of the high sellers from Koupals Angus in Dante South Dakota. A Unanimous son out of the lineage of the Erica 605 cow that has calved numerous bull studs and the mother to Koupals Identity. There is tons of fertility in his pedigree, along with longevity and basic cow function from one of the oldest Angus ranches in South Dakota. He has sired BR 18@99, WR 18@102 and YR 8@105

**SODAK FULL POWER C311 • Reg #: 18514978**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
-2	1.9	64	101	8	20	17	46	0.84	0.37	49	62	83	134

He hales from Vaughn Meyers at Sodak Angus in Revia South Dakota, where they have been ranching on the same ground for 125 years. Full Power was the top seller at their 2016 sale, he has gone on to dominate our pastures as evident in the high quality bulls in this offering. They are super sound functional cattle, just what you would expect from a ranch that has been in business for that many years. BR 25@101, WR 25@103, YR 17@103

**MYTTY RENOWN 5088 • Reg #: 18214110**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
7	0.3	67	123	10.7	23	23	51	0.21	0.72	70	69	89	122

Our choice of the bulls at the 2016 Mytty Angus Sale. He is a low birthweight son of SAV Renown who is a phenotypic standout for balance, muscle shape and growth. The verdict is in, his first set of daughters have calved with perfect udders and are set to make ideal Angus cows. BR 44@98, WW 44@103 and YW 18@104

**S A V QUARTERBACK 7933 • Reg #: 18913003**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
-1	4.2	97	153	12.6	15	33	77	0.16	1.09	72	79	113	148

He sires breed leading growth, maternal function and superior phenotype. Cattle that are super stout and useful in their make up. If you sell them by the pound, these are must use sons. You will see many more sons to come in the next years.

**S A V SUPERCHARGER 6813 • Reg #: 18579297**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
2	2.6	61	113	12.9	20	36	42	0.18	0.67	44	47	94	127

We use this bull to get valuable genetics out of the crossing of Madame Pride 0075 and the Blackcap May 4136 mating. Supercharger is the leading Recharge son that is an awesome visual bull, one of the most stunning bulls you will lay eyes on as he walks past you.

**S A V TEN SPEED 3022 • Reg #: #17633563**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
6	1.7	64	123	9.8	19	19	36	0.63	0.68	35	57	84	138

We have used him on first calf heifers for many years with great success. The calves are born at just the right size and develop into stout, wide backed, big muscled bulls. We have numerous daughters in the herd that are producing their second calves and doing extremely well.

**S WHITLOCK 179 • Reg #: #17007891**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
6	0.9	73	137	11.1	32	28	66	0.32	0.57	53	86	106	139

Outcross genetics that we use on first calf heifers with great success. He is industry proven, sires added growth and stature in a light birthweight package.

**STEVENSON TURNING POINT • Reg #: 18434747**

CED	BW	WW	YW	HP	Milk	DOC	CW	Marb	REA	SM	SW	SF	SB
20	-3.3	56	95	14	12	14	34	0.43	0.73	69	50	88	131

He is a super calving ease bull who is designed to be bred to first calf heifers to produce look, style and phenotype not normally seen in such a light birthweight package. We have used him on virgin heifers for two years now with zero trouble.

# THE FIVE L'S OF A PROFITABLE COW HERD

**LIVE CALVES:** Having a live calf on the ground is the number one starting point for any profitable cattleman. We have all seen cows that are too big or too small, but have never seen a cow that is too fertile. Fertility is not negotiable. It is one trait that you can't get too much of, cows that don't breed back can't produce a calf.

**LOW MAINTENANCE:** An animal that is easy fleshing, moderate framed and thrifty will keep more money in your bank account. Most cattlemen will agree that the cost of feed dips into the profit more than anything else.

**LOVELY UDDERS:** Small and well-spaced teats, adequate milk and strong support are necessary for a trouble-free experience for a newborn calf. A newborn's first drink of colostrum is the most important drink that calf will have. An udder that is full of mud from hanging too low or has balloon teats will discourage them from nursing. Choosing the right herd sire for replacement females is a must.

**LONGEVITY:** Mother cows must continue doing everything right year after year. A cattleman cannot afford to turn his mother cows over every 3-4 years. That old cow that raised a calf for 10 years, even if it isn't the heaviest weaning, is more profitable than the cow that does not breed back and has to be replaced after a couple years. That factory is not efficient.

**LIMIT INCONSISTENCY:** By stacking generations of the same kind of balanced and predictable genetics, you have a pretty good idea what that cow will produce. The present EPD system, which is a valuable tool when used with other information, doesn't have the ability to create cattle that are uniform and consistent phenotypically. Cattle with the same EPD's can look very diverse in confirmation, type and structure.

- Recommended for use on Cows
- Dam was one of Kacie's first heifers from Russ Pepper at the Bird Tail Ranch in Montana. This cow is from his great cow line of Kinochtry Beauty.
- Thick topped, heavy muscled
- He and his Dam have good dispositions, nice and quiet

- Suggested for use on Heifers or Cows
- Smooth shoulder, should excel in calving ease on heifers
- Attractive and stylish in motion

As bred cows in your herd is of the utmost importance to us, we will furnish a replacement bull, if available, in the event your bull is injured and loss of use occurs before September 1, 2021. All bulls selling for \$2,500 or more will be covered by our guarantee should they be injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. The value of the injured bull, minus the salvage value will be given as credit in a future sale or toward a replacement bull if one is available. A Veterinarian must diagnose all injured bulls. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2021.

- A moderate framed, dense made bull
- Dam is a #Pathfinder who preforms every year

## WHY IS \$W IMPORTANT?

If you sell your calves after weaning or backgrounding, \$W is an important index to consider. The higher the \$W, the more potential you have for higher economic returns when selling calves at this time. \$W is also important if you retain replacement females—low birth, high growth, optimum milk, and an economical mature size are generally considered favorable. Here is a peek at some of the interactions \$W takes into account.

- Birth weight—for example, bigger birth weights can be associated with more calving difficulty and death loss, therefore lower birth weights are treated more favorably.

- Weaning weight—higher weaning weights mean more pounds to sell, which is favorable. However, the higher energy requirements for heavier weaning weights are taken into account.
- Maternal milk—varying cow milk levels mean differences in weaning weights and costs related to lactation energy requirements.
- Mature cow size—to put it simply, bigger cows eat more feed. It really is more complicated than that, but generally speaking, a smaller cow will require less inputs for maintenance, and therefore is favorable to the calculation of \$W.

NR 5/103

- Recommended for use on Cows
- Out of a home raised sire that was one of my picks to use for multiple reasons. The cows lineage is highly productive and Recharge leaves some of the best females in the breed.
- A younger calf here but he does a lot of things right
- WDA is way above average

**LiveAuctions.TV 2.0****HOW IT WORKS:**

Go to [www.LiveAuctions.tv](http://www.LiveAuctions.tv). Please note that you do NOT need an account to watch the auction, but you do need to register an account and request a buyer number if you wish to bid. If you have not created a new account since September 1st, 2020 you will need to click "Register" in the top right corner of the homepage and create a new account. Once you have completed the form on this registration page and hit the "Register" button you will receive an e-mail with a place to click on to verify you have entered a valid e-mail address.

Once you have completed this registration process, find the auction you are interested in on the homepage and click on it (sales are listed in chronological order). You should then see a box that says Login. Now that you have an account with LiveAuctions just type in your E-mail Address and Password. You will now see a hyperlink at the top that says "Request a Buyer Number". The first time you request your first buyer number on LiveAuctions it will send you a text message with a verification code in it. Type the code from the text message into the area requiring it and you will then see your name along with a buyer number listed at the top of the webpage where the live video is and you will be able to bid. You will only have to complete this two-step verification process one time. After that you will be able to immediately request a buyer number on any auction without verification through an e-mail or text message again.

LiveAuctions no longer requires an app. If you wish to view/register/bid on a smartphone just type [LiveAuctions.tv](http://LiveAuctions.tv) in whatever web browser you use. The registration process is the same as it is on a desktop computer, but the website is built mobile friendly. Click on the three lines in the top right corner to access the menus. Bidders who are successful in making purchases will be contacted by the ranch after the auction to settle payment and discover your shipping plans.

If you need help registering to bid or to view the auction please call Technical Support at (682) 816-4900 or e-mail us at [TechSupport@LiveAuctions.tv](mailto:TechSupport@LiveAuctions.tv).

- Suggested for use on Heifers or Cows
- Another moderate, super thick, high density bull with lots of style and look
- Low birthweight high performance bull
- The sleep all night kind of bull
- This guy will have many friends on sale day

**About Birth Weights** Angus bulls have long been known for their calving ease. If you are breeding heifers, Angus is the breed of choice. You might ask, what about the so-called big birth weight Angus bulls, how do they fit in? The majority of mature cows calve unassisted. It is rare for a mature cow to need assistance except for abnormal deliveries such as backwards, twins, etc. Data reported to the AAA shows that 99% of mature Angus cows (second calf and beyond) calve unassisted and only 1% need some type of assistance (abnormal deliveries excluded from this data). Back to the question: Where do the big birth weight Angus bulls fit in? Example: If you have a bull with a Birth EPD of +5, he would be 3.2 pounds heavier than the average (breed average BW EPD 1.8) ( $5 - 1.8 = 3.2$  pounds difference). However, his superior growth EPD's means he will wean bigger calves and put way more money in your pocket than the average Angus bull. **THE MORALE OF THE STORY: If you are breeding mature cows to an Angus bull, don't make birth weight your focus.**

- Out of a perfect uddered Fireman daughter

# ANGUS. ONLY ANGUS.

**There's only one DNA profile created specifically for Angus cattle.**

Angus GS™ is the new standard in genetic testing for Angus cattle. Created by Angus Genetics, the profile is purely Angus DNA. So it will have better predictability and deliver more power and accuracy than any previous generation genomic enhanced EPD, and at greater value. Visit [angus.org/agi](http://angus.org/agi) for the test that only Angus Genetics could create.
