## *Welcome Cattle Producers!*

Wow, what a year; Covid Hangover, drought, heat of the June sizzle and more fires to deal with. Yet the Angus cow has overcome and adapted to an ever-changing world.

I hear it more and more that Angus are not the same and that they are not what they used to be, I totally agree. We have pushed low birthweight and calving ease as far as possible. Everybody knows a good stout calf at birth is a big, stout, heavy calf at weaning and yearling. Those stout calves make more pounds of red meat at harvest. Angus are a calving ease breed. Narrowing the gene pool to CE bulls only has taken the power and muscle out of some programs. Here, if she wears a Circle V, she is going to have power and performance bred in or she won't get the brand.

We expect all calves to be born unassisted regardless of the Dam being a heifer or a cow. We have not had a pull in many years for a calf that is just too big to be born. All bulls in this sale are born unassisted. They are built right and the cows have big pelvises and are level from hooks to pins.

These calves are longer than your normal suitcase cattle, therefore will weigh a little more at birth, but are born very easily. But, come sale day they will always fool a cattle buyer and weigh that extra amount.

***We say make 'em weigh make 'em pay!*** These cattle also feed as well as any on the planet as we also believe in creating a product that is in demand. And what better way to create a demand for your feeder cattle. Cattle feeders love to feed big, stout, healthy, performance cattle. Last year we fed the fall steers at Will Derting's Post 5 Feedlot and they gained 4.41 and converted at 5.5 to 1 and were 99% choice or better. It's in the blood.

If you are looking to make cows that are self-sufficient, hardworking and take care of themselves, the place to be is the Okanogan Livestock Market on March 10th to view the Sunny Okanogan Angus Bull Sale.

**MAKE 'EM WEIGH, MAKE 'EM PAY**

**ACCOMMODATIONS:**

12 Tribes Casino.....(800) 559-4643  
Reference "Sunny Okanogan Angus Bull Sale" for a discount.

**INSPECTION OF CATTLE:** Sale cattle will be available for inspection March 9th at the sale site. Prior to March 9th, visitors are welcome to view the bulls at the ranch.

**LOT NUMBERS:** Ear tag lot numbers on sale cattle will correspond with the catalog.

**CALVING EASE BULLS:** Bulls that could be considered for use on heifers or cows will have a **CE** symbol appearing behind their pedigrees.

**TRANSPORTATION:** Upon request, planes will be met at the Omak Airport. The Omak Airport serves private planes only. Transportation to and from the sale site or headquarters is available by contacting the sale management.

**HEALTH:** All bulls will have health papers and will be available for immediate shipment into Washington & adjoining states. Cattle selling to any area that requires additional tests will have to complete tests before shipment. All bulls have passed a semen evaluation by an accredited veterinarian. All bulls selling are certified to be virgin bulls. These semen test results will accompany the health papers.

**AMF, CAF, NHF STATUS:** All cattle are negative by pedigree or test.

**BIDDING:** Each animal offered for sale will be sold to the highest bidder. Each bid shall  
Catalog by *Strommen Livestock Services* • Solen, N.D. • (701) 290-3886

constitute an offer to purchase and the final bid shall constitute a binding contract between Buyer and Seller. The auctioneer will settle any disputes as to bids and his decisions on such matters shall be final.

**TERMS:** Terms of the sale are cash or bankable checks. All settlements are to be made with the clerks of the sale immediately following the conclusion of the sale.

**ANNOUNCEMENTS:** Any changes from information of any kind in the catalog will be announced from the auction box and such announcements shall take precedence.

**REGISTRATION CERTIFICATES:** A certificate of registration and transfer will be available on each animal at no cost to the buyer. Please indicate your transfer instruction with the clerks at the time of settlement.

**DELIVERY:** Free delivery within Washington and adjoining states.

**IDENTIFICATION:** Seller offers each animal with a readable tattoo corresponding to the registration. Buyer agrees to check tattoos for accuracy.

**LUNCH & REFRESHMENTS:** Complementary lunch & refreshments will be available at the sale site.

**HANDLING & RISK:** Each animal will be at BUYER'S RISK as soon as sold.

**RIGHTS & OBLIGATIONS:** In the event of default in any part of the Terms & Conditions covering this sale by either the Buyer or Seller, it shall be the responsibility of the Buyer, or the Seller, to instigate any action necessary to bring about a fair settlement of any claims arising from this sale and to be responsible for any and all costs involved therein.

**RISK:** All persons who attend the sale do so at their own risk. Neither the sale manager, nor any other persons connected with the sale, assume any liability, legal or otherwise.

**ADDITIONAL SALE TERMS & CONDITIONS:** Any terms & conditions not covered by the catalog will refer to the Standard Terms & Conditions set forth by the American Angus Association.

**INTERNET BIDDING:** Internet Bidding will be available on LiveAuctions.TV. Call (682) 816-4900 for technical support. **LiveAuctions.TV**

# THE FIVE L'S OF A PROFITABLE COW HERD

**LIVE CALVES:** Having a live calf on the ground is the number one starting point for any profitable cattleman. We have all seen cows that are too big or too small, but have never seen a cow that is too fertile. Fertility is not negotiable. It is one trait that you can't get too much of, cows that don't breed back can't produce a calf.

**LOW MAINTENANCE:** An animal that is easy fleshing, moderate framed and thrifty will keep more money in your bank account. Most cattlemen will agree that the cost of feed dips into the profit more than anything else.

**LOVELY UDDERS:** Small and well-spaced teats, adequate milk and strong support are necessary for a trouble-free experience for a newborn calf. A newborn's first drink of colostrum is the most important drink that calf will have. An udder that is full of mud from hanging too low or has balloon teats will discourage them from nursing. Choosing the right herd sire for replacement females is a must.

**LONGEVITY:** Mother cows must continue doing everything right year after year. A cattleman cannot afford to turn his mother cows over every 3-4 years. That old cow that raised a calf for 10 years, even if it isn't the heaviest weaning, is more profitable than the cow that does not breed back and has to be replaced after a couple years. That factory is not efficient.

**LIMIT INCONSISTENCY:** By stacking generations of the same kind of balanced and predictable genetics, you have a pretty good idea what that cow will produce. The present EPD system, which is a valuable tool when used with other information, doesn't have the ability to create cattle that are uniform and consistent phenotypically. Cattle with the same EPD's can look very diverse in confirmation, type and structure.

- Recommended for use on Cows
- Big long stretchy bull in the pen
- Dam is an '08 model who is still making it happen
- Rugged built

All of the bulls in this sale have genomically enhanced EPD's using the ANGUS GS test. Angus GS is an advanced high density genomic testing option available for Angus cattle powered by Neogen GeneSeek, fully endorsed by Angus Genetics, Inc. The first genomic test designed specifically for Angus cattle including potential markers for future trait selection.

NR	1/96

- Large heifers or cows
- Stout and dense made
- Lots of muscle
- Out of a great Full Power Dam

## HOW IT WORKS:

Go to [www.LiveAuctions.tv](http://www.LiveAuctions.tv). Please note that you do NOT need an account to watch the auction, but you do need to register an account and request a buyer number if you wish to bid. If you have not created a new account since September 1st, 2020 you will need to click "Register" in the top right corner of the homepage and create a new account. Once you have completed the form on this registration page and hit the "Register" button you will receive an e-mail with a place to click on to verify you have entered a valid e-mail address.

Once you have completed this registration process, find the auction you are interested in on the homepage and click on it (sales are listed in chronological order). You should then see a box that says Login. Now that you have an account with LiveAuctions just type in your E-mail Address and Password. You will now see a hyperlink at the top that says "Request a Buyer Number". The first time you request your first buyer number on LiveAuctions it will send you a text message with a verification code in it. Type the code from the text message into the area requiring it and you will then see your name along with a buyer number listed at the top of the webpage where the live video is and you will be able to bid. You will only have to complete this two-step verification process one time. After that you will be able to immediately request a buyer number on any auction without verification through an e-mail or text message again.

LiveAuctions no longer requires an app. If you wish to view/register/bid on a smartphone just type LiveAuctions.tv in whatever web browser you use. The registration process is the same as it is on a desktop computer, but the website is built mobile friendly. Click on the three lines in the top right corner to access the menus. Bidders who are successful in making purchases will be contacted by the ranch after the auction to settle payment and discover your shipping plans.

If you need help registering to bid or to view the auction please call Technical Support at (682) 816-4900 or e-mail us at [TechSupport@LiveAuctions.tv](mailto:TechSupport@LiveAuctions.tv).

- Large heifers or cows
- TenSpeed cows are really good producers
- Pathfinder Right Answer Granddam
- Melda cows raise some good ones

## WHY IS \$W IMPORTANT?

If you sell your calves after weaning or backgrounding, \$W is an important index to consider. The higher the \$W, the more potential you have for higher economic returns when selling calves at this time. \$W is also important if you retain replacement females—low birth, high growth, optimum milk, and an economical mature size are generally considered favorable. Here is a peek at some of the interactions \$W takes into account.

- Birth weight—for example, bigger birth weights can be associated with more calving difficulty and death loss, therefore lower birth weights are treated more favorably.

- Weaning weight—higher weaning weights mean more pounds to sell, which is favorable. However, the higher energy requirements for heavier weaning weights are taken into account.
- Maternal milk—varying cow milk levels mean differences in weaning weights and costs related to lactation energy requirements.
- Mature cow size—to put it simply, bigger cows eat more feed. It really is more complicated than that, but generally speaking, a smaller cow will require less inputs for maintenance, and therefore is favorable to the calculation of \$W.

HIS FIRST BULL SALE!

WE REMEMBER THOSE DAYS FONDLY, BELOW: VJERASKA GIRLS AND FRIENDS, CIRCA 2010

**ABOUT BIRTH WEIGHTS** Angus bulls have long been known for their calving ease. If you are breeding heifers, Angus is the breed of choice. You might ask, what about the so-called big birth weight Angus bulls, how do they fit in? The majority of mature cows calve unassisted. It is rare for a mature cow to need assistance except for abnormal deliveries such as backwards, twins, etc. Data reported to the AAA shows that 99% of mature Angus cows (second calf and beyond) calve unassisted and only 1% need some type of assistance (abnormal deliveries excluded from this data). Back to the question: Where do the big birth weight Angus bulls fit in? Example: If you have a bull with a Birth EPD of +5, he would be 3.2 pounds heavier than the average (breed average BW EPD 1.8) (5 - 1.8 = 3.2 pounds difference). However, his superior growth EPD's means he will wean bigger calves and put way more money in your pocket than the average Angus bull.

**THE MORALE OF THE STORY: If you are breeding mature cows to an Angus bull, don't make birth weight your focus.**

- EPD profile for growth that is off the charts
- Top 1% for WW and YW
- Don't let that BW EPD scare you, he was born in the right shape

**SUNNY OKANOGAN ANGUS RANCH IS PROUD TO SUPPORT LOCAL 4-H AND FFA LIVESTOCK ENTHUSIASTS.**

# ANGUS. ONLY ANGUS.

There's only one DNA profile created specifically for Angus cattle.

Angus GS™ is the new standard in genetic testing for Angus cattle. Created by Angus Genetics, the profile is purely Angus DNA. So it will have better predictability and deliver more power and accuracy than any previous generation genomic enhanced EPD, and at greater value. Visit [angus.org/agi](http://angus.org/agi) for the test that only Angus Genetics could create.

FOR ANGUS. BY ANGUS.
