Welcome

Dear Cattlemen,

We welcome you to our annual Two Year old bull sale in Bowman, ND on January 21, 2022. With everything that is going on around us we hope to find you safe and healthy. This past summer has reminded us the importance and the power that our grass has for our livestock in this region and the ability to see how the genetics we use perform in these conditions. It was nice to see that our cattle performed well in this past years' growing season. The younger calves struggled with the heat a little more than the older ones we found out and they came off the cows lighter than the earlier calves in comparison of the calves. I have placed a double order for continued nice weather then changing to a nice spring rains, since a single order wasn't enough last year we'll see how much pull I have.

As many people know we are willing to feed these bulls into the spring until our customers are ready for them and with this years feed shortages we are still going to feed these bulls for you. You can buy a bull early and not have to worry about the feed for them this year we will take care of them.

We continue to have Jack Seiben as our feed nutritionalist. The Bulls have responded well to the feed program that Jack has recommended. The feed ration has allowed our genetics to show through with the bulls showing their easy fleshing abilities depth and natural thickness of our breeding program.

The yearling bulls are fed the same as in the past, the ration is still based on a 3lb. daily gain. We feel this allows the bulls to developed at a pace that allows for longevity and soundness as they are used in their future breeding. They have responded very well to this ration and we can see positive differences in their appearance as well. These bulls will be summered on grass just as in the past.

Both yearlings and Two year old bulls are fed to be productive and sound for many years of reliable heavy service. The bulls are not over fed and will continue to grow on their ration until delivery in April or May.

Our breeding program focuses on maternal and growth traits, while keeping positive carcass performance. We select bulls in the top of the Angus breed and use an extensive AI program, to strengthen these traits in our cow herd. Also we have added some powerful herd sires for both natural and A. I. breeding to continue enhancing these traits. These bulls will be able to move freely and cover large country without losing body condition.

The bulls are completely guaranteed for a 90 day breeding period. The bulls will be fed till delivery free of charge. They will be fertility tested and receive breeding shots prior to being delivered.

We will be working with Martin Trudeau agency for our sale Mortality insurance is available on these bulls and will offer an accident policy. Urlacher Angus will pay half of the premium on the policies that are taken out for accident and injury. We will explain it more sale day or if you have questions you can call me.

The bulls are always on display and everyone is welcome to come and view them prior to the sale. We will be moving the bulls to Bowman on January 19th, at which time they can be viewed at the sale barn.

We look forward to seeing you on Friday, January 21st. We will have lunch prior to the sale and refreshments after the sale. If you have any questions feel free to contact us. As in the past you have our complete satisfaction on all phone orders.

Sincerely,
Gregg Urlacher
