Bids

May be given to the Auctioneer or any of the Livestock Press Representatives.

EPDs current as of February 20, 2022.

Updated EPDs can be viewed at www.Angus.org.

**PLEASE BRING THIS CATALOG
WITH YOU TO THE SALE!**

Guarantee

First Year Breeding Guarantee (Breeding season is defined as the 90 day period following the first turnout of the bulls). All bulls selling for \$3,000 or more will be given 50% of the value of the injured bull, minus any salvage value, toward a refund or replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify the consignor of the bull should an injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2022.

Example 1: A \$4,000 bull is injured and will not heal. A credit of \$2,000, minus any salvage value will be given to the buyer. Example 2: a \$2,750 bull is injured and will not heal, no credit is given. Buyer retains all salvage value.

A copy of the sale receipt must be received by the consignor to receive proper credit.

Mortality insurance is available through John Goggins.

Terms and Conditions

The cattle sell under the Standard Terms and Conditions adopted by the American Angus Association. Each animal becomes the risk of the purchaser as soon as sold; but it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser until loaded for shipment or until the end of March, whichever occurs sooner. Any feed cost incurred after April 1, is negotiable between buyer and seller.

Trucking and Delivery

Free delivery within a 300 mile radius, beyond at cost. Please leave your complete mailing address, phone number and desired trucking arrangements when settling for the bulls. It is important that the buyer or personal representative of the buyer receive the bulls when delivered.

View, Bid & Buy on CattleUSA.com

If you can't make it to the sale, we welcome you to bid and buy in CattleUSA.com.

There are three easy steps:

1. Log on to CattleUSA.com
2. Register to bid and buy, submit to Montana Livestock Auction. (PLEASE register at least 2 days prior to the sale. You will be contacted with a buyer's number via email.)
3. On sale day, log on to CattleUSA.com, go to Montana Livestock Auction and you can view bid, and buy.

If you have any questions or need help of any kind, please contact Michele Odle at 406/ 782-1884.

South Montana Angus Association

8393 US Hwy 287
Townsend, MT 59644
406/ 431-6113

Dear Cattlemen and Women,

We invite you to attend the 67th annual South Montana Angus Association Performance Test Bull Sale on March 19, 2022 at the Montana Livestock Auction, Ramsey, MT.

Our consigners are excited to offer the buyers the largest selection of bulls on test in a long time. This selection is top to bottom the strongest set offered I have seen at the South Montana to date. This group of high quality Angus bulls will meet our buyer's needs, ranging from growth bulls to heifer bulls. The performance testing of these bulls includes a 120-day test at Dyk and Son's location in Manhattan, MT. These bulls have also been tested for Genomic Enhanced EPDs give the buyer higher predictability for passing desired traits to progeny. Videos of each bull will be available on YouTube.com or bulls can be viewed in person any time prior to the sale at Dyk's feedlot.

If you have any questions, please contact any of the consigners or Ron Frye Marketing. Powell County High School Future Farmers of America will once again be serving up a great lunch.

We are excited to offer another great set of bulls and look forward to seeing everyone on sale day!

Sincerely,

Casey Elmore

South Montana Angus Association President

For All Your Bull Buying Needs

Ron Frye Marketing believes that bull buying is an essential part of any cattle operation. The genetics purchased each year are the building blocks for future generations of your cow herd. We are proud to be a part of this sale and the influence they have on their customers' programs through the years. We would hope that our knowledge of this sale offering would be beneficial to your quest of building a superior cow calf operation.

We are available to talk with you anytime and answer any questions you have about the cattle or the program. We look forward to assisting you and learning about your needs. Call us prior to the sale for any of your bull buying needs. If you are unable to attend the sale and need help purchasing bull(s) we would be happy to assist you in any way possible.

Thank you for your interest. Please come say hello to Randy or I sale day.

All the best,

Ron Frye

Retained Interest

Some of the consignors Reserve the Right to retain 1/3 semen interest in the bulls sold.

*The 1/3 semen interest is a semen revenue sharing interest only,
with 100% possession of the bull belonging to the buyer.*

**Visual analysis tells you what a bull appears to be.
The pedigree tells you what a bull ought to be.
The performance and progeny tests tell you what the bull is.**

Thank you to Powell County High School FFA for providing the lunch today.

**South Montana Angus Performance Bull Consignors
donate 10% of the winning bid from the
tenth bull sold in the sale to the Montana FFA Foundation.**

*Learning to Do, Doing to Learn,
Earning to Live, Living to Serve*

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

| Trait | Progeny Equivalent | Trait | Progeny Equivalent |
|-----------------------|--------------------|-----------------------|--------------------|
| Calving Ease Direct | 26 | Heifer Pregnancy | 17 |
| Birth Weight | 23 | Calving Ease Maternal | 20 |
| Weaning Weight | 27 | Milk | 36 |
| Yearling Weight | 23 | Mature Weight | 15 |
| Dry Matter Intake | 12 | Mature Height | 9 |
| Scrotal Circumference | 15 | Carcass Weight | 15 |
| Docility | 12 | Yearling Height | 17 |
| Claw Set | 10 | Carcass Marbling | 11 |
| Foot Angle | 10 | Carcass Ribeye | 17 |
| | | Carcass Fat | 14 |

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

This bull I consider the best one of the first calf heifers last year. His dam (a Black Gold daughter) is the best of the group. We had great luck with Countdown F27 as clean up. Use Lot 86 on larger heifers. Lot 86 was our heaviest 205 WT at 912#.

This is an exceptional bull out of a 2-year-old first calf Renown daughter. The heaviest weaning bull in the herd with a 110 Nursing Ratio. The sire, MGR Treasure, is a popular AI sire owned by S-T Genetics. A strong high performing out cross herd sire prospect. This bull has developed into a thick, deep, and long bull with well-balanced EPDs. Dam's production: 1BW@84; 1WW@110; 1YW115. GaLor Angus will retain 1/3 semen interest in this Lot 97.

Here is good thick, deep bodied Raindance son, that has performed well in herd and on test. Raindance has established himself as a strong female producer along with performance and this son should carry this on. His dam is a strong, consistent moderate framed Final Product daughter. Dam's production: 5BW@97; 5WW@100; 5YW@101.

SUGGESTED* SALE TERMS AND CONDITIONS • AMERICAN ANGUS ASSOCIATION • February 21, 2014

UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OF ANGUS CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.

Announcements

1. If there is any inconsistency in the terms of any sales materials, including sale books, supplement sheets or day-of-sale announcements, (i) the day-of-sale announcement will control over both the supplement sheet and the sale book, and (ii) the supplement sheet will control over the sale book.

Cash Sale

1. All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale.

Buyer's Risk at the Time of Sale

1. The risk of loss and injury of each animal passes to the buyer as soon as it is sold; however, it is the obligation of the seller to ensure that sold animals are fed and cared for free of charge to the buyer until loaded for shipment or until the expiration of 24 hours after the sale, whichever occurs sooner.

Identification Responsibilities

1. Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (e.g., tattoo, hot-iron brand or freeze brand) corresponding to its registration.
2. The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies or irregularities to the seller immediately.
3. In those cases where a nickname is used by the seller, the nickname must also be accompanied by the official registered name and number of the animal.

Certificates of Registration

1. A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within 45 days following the later of either the date of sale or upon the receipt of full payment.

Artificial Insemination (AI) Service Certificates

1. AI Service certificates will be the responsibility of the buyer unless otherwise specified by the seller.

GUARANTEES

Health

1. Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

Conformance with Registration

1. The seller guarantees that all sold animals are registered in accordance with the rules of the American Angus Association.
2. The seller guarantees to the buyer that all sold animals conform to the registration certificate as entered in the Herd Book of the American Angus Association.
3. The seller guarantees to the buyer that with respect to all females exposed to multiple service sires, each such service sire will have parentage markers on file with the American Angus Association. (As adopted February 21, 2014)

Pedigree, Performance and Genetic Information

1. The seller guarantees to the buyer that the pedigree, performance data and genetic information, as represented in any sales materials (including any sale book, supplement sheet or day-of-sale announcement), are accurate. The seller shall provide "as of" date for all information from the American Angus Association database.
2. The absence of any such designation on the pedigree of an animal, as set forth in any sales materials, does not establish that the animal in question is not a carrier of any such genetic factor.
3. In those cases where a commonly understood nickname is used by the seller, the seller guarantees the pedigree of the animal based on the commonly understood nickname.

Sex

1. Unless otherwise represented by the seller, there are no guarantees that offspring will be of a particular sex.

Breeding Guarantees

1. The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; and (d) animals subjected to gross negligence by or willful misconduct on the part of the buyer.
2. The seller guarantees that all bulls are breeders for a period of 90 days following the initial turn out with buyer's herd, but only if such bulls are at least 12 months old at the time of sale and have not been allowed to run with the herd until at least 14 months of age. A bull that settles a cow by natural service and passes a fertility test performed by a competent veterinarian or reproductive technician mutually agreed upon by the buyer and the seller will be considered a breeder. Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.
3. Cows with calves at their side are presumed to be breeders with no further fertility guarantee.
4. "Safe-in-calf" females are guaranteed by the seller to have been examined by a competent veterinarian or reproductive technician and determined to be safe-in-calf by examination or other proven method (e.g., ultrasound, pregnancy blood tests, and rectal palpation).
5. "Served" females are not guaranteed to be in calf.
6. "Pasture-bred" females have been exposed but are not guaranteed to be in calf.
7. "Open" females are guaranteed by the seller to be without calf.
8. Donor females:
 - a. Unless otherwise agreed by the buyer and the seller, a female that has been used in an embryo transfer program is not guaranteed to be a breeder after the date of the sale.
 - b. Unless otherwise agreed by the buyer and the seller, a female is not guaranteed to be a breeder after the date of the sale, when that female is to be used, or attempted to be used, in an embryo transfer program.
9. The seller makes the following guarantees with respect to all "pregnant recipients": (i) that the female is pregnant, (ii) that the resulting calf is of the pedigree represented, and (iii) that the resulting calf is of the sex represented (if so represented).

Semen

1. Unless otherwise agreed by the buyer and the seller, with respect to the sale of semen the seller makes no guarantees with respect to the performance or characteristics of such semen and the buyer is purchasing such semen "as is."

Embryos

1. Embryos being offered for sale will be sold "as is" unless the seller provides additional guarantees.

Privileges of Return or Adjustment: Options

1. With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.
2. Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.
3. If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.
4. If a female sold as "safe in calf" proves not to be in calf, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of the sale.
5. If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of sale.
6. If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. The Seller is responsible for all transportation expenses.

7. White skin or hair must not be painted or altered. If such painting or alteration has occurred, the buyer may return the animal to the farm of the seller for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer.
8. If an animal is sold and subsequently becomes ineligible for registration under the rules of the American Angus Association for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.
9. If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the second anniversary of the date of the sale.
10. If the resulting calf of a pregnancy is not of the sex represented at the time of the sale, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary date of the sale.
11. Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

Disclosure or Retention of Genetic Materials

1. If seller retains any genetic materials of an animal being sold that can be used for cloning, the seller must disclose such fact to any potential buyers prior to the sale.

GENETIC CONDITIONS: REQUIRED DISCLOSURES RELATING TO CERTAIN TEST RESULTS OR POTENTIAL CARRIER STATUS OF AN ANIMAL.

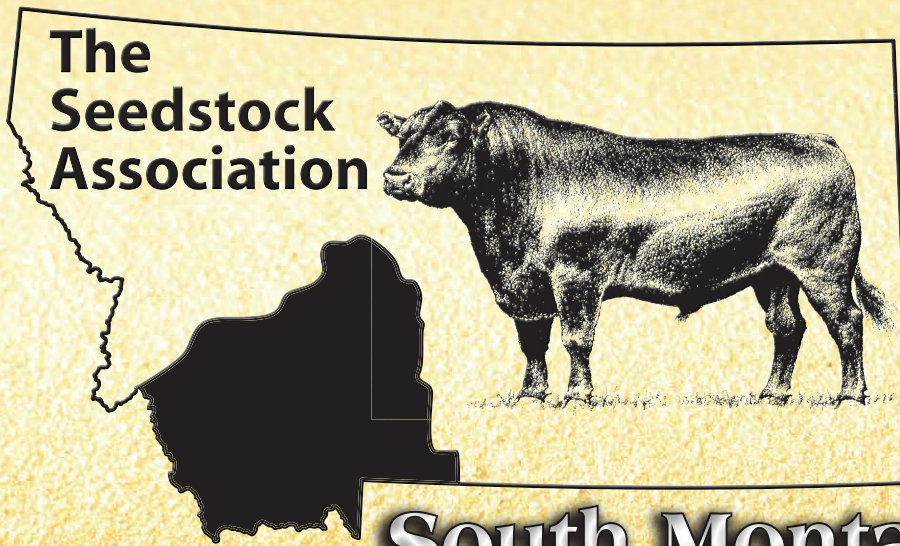

1. In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of (1) any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by the American Angus Association) as a carrier of any genetic conditions recognized by the American Angus Association, and (2) whether the animal has a potential carrier designation on its pedigree for any genetic condition that is recognized by the American Angus Association.

Optional Guarantee: Genetic Conditions

1. The buyer and seller may determine the scope and duration of a guarantee, if any, on an individual basis. The seller may, but is not required, to provide a guarantee to the buyer relating to genetic conditions.
2. Nothing contained herein should be construed to relieve the parties from complying fully with all the rules and policies of the Association relating to genetic conditions generally or individually.

MISCELLANEOUS

1. The above terms and conditions of sale constitute a contract between the buyer and the seller of each animal and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.
2. Neither the American Angus Association nor any director, officer, employee or representative of the Association or any of its related entities assumes any liability, legal or otherwise, in connection with any sale or transaction conducted under the terms of the Suggested Sales Terms and Conditions. Nor shall the American Angus Association, its directors, officers, employees or representatives assume any liability or be responsible in any way for enforcing the terms and conditions of any agreement between buyer and seller.
3. Neither the sponsor or sponsors, the sale manager, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.
4. These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale of the animal or animals occurs, without giving effect to such state's choice of law rules.
